**NOTICE RELATING TO PWR
ENFORCEMENT POLICY:**

On July 30, 2003, the agency distributed a notice advising that a proposed policy revision relating to the application of the PWR law to truck drivers and parts runners on public works projects was being delayed for 60 days.

Based on comments received relating to the proposed policy, the bureau is suspending implementation of the proposed policy revision until further notice.

The bureau will bring the affected parties together again and use a collaborative process before finalizing any new enforcement policy in this matter.
