Dear Mr. Varco:

Thank you for your telephone call earlier this week. I certainly understand your concerns about the status of your house, and the way in which the inspection process was handled through Lane County.

You mentioned that you might want an additional inspection of your house by a state-licensed inspector, although you noted that a full inspection would not be possible without breaking into walls, which you do not want. As we discussed, the state Building Codes Division is not in a position to do a further inspection for you, but I am enclosing a list of state-licensed inspectors who are available to perform inspections for private parties. You are welcome to contact any of the inspectors on this list.

You also expressed concern over a possible pattern of inspection problems in Lane County. I have spoken to Mark Long, Administrator of the Building Codes Division, and after I have had a chance to review the history of your situation and your prior communications with Building Codes, I will be back in touch with you.

Thanks again for contacting me about your situation.

Sincerely,

Cory Streisinger  
Director
