**Subject:** Public Contact Record - John Stuart

Name: John Stuart

Date: October 24, 2005

Issue: I contacted Mr. Stuart in regard to his statement to a consumer advocate that he was preparing to testify before the CCTF on November 1, 2005 at the meeting. Mr. Stuart has major issues with the construction of buildings on his property that have fallen victim to mold contamination. He was featured in an article in the Yamhill Valley News Register on September 20, 2005.

I advised John that there would not be public testimony at the November 1, 2005 meeting, but that we welcome his input in writing. I emailed him the link to the CCTF website and we had a good discussion regarding some of the issues that he has come up against, which involve the CCB, Building Codes, 3 insurers, and at least one agent, perhaps more.

Mr. Stuart's email is tartan155@earthlink.net I am hopeful that he did get into our site and sign up for notification under enotify.
