

Oregon Forest Industry: A Comparison of Occupational Safety and Health Measures, 2018

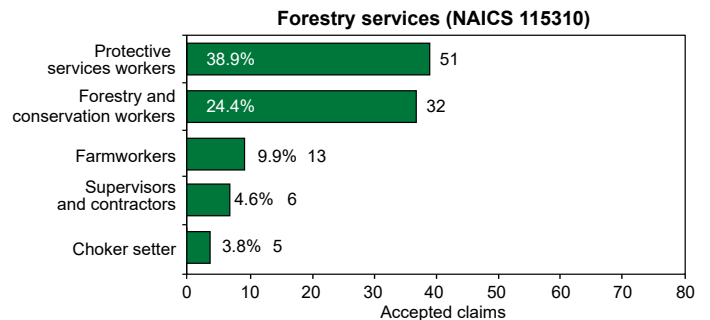

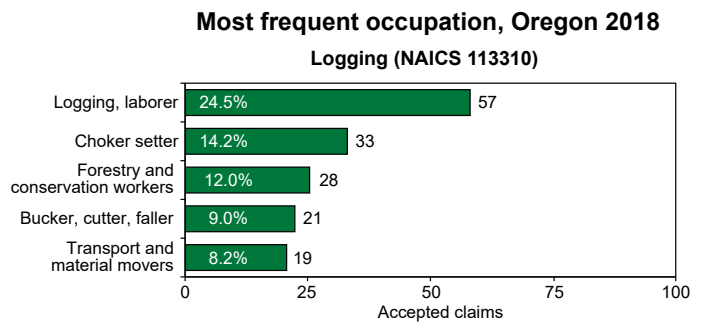

November 2019

AUTHOR Jason Slappe

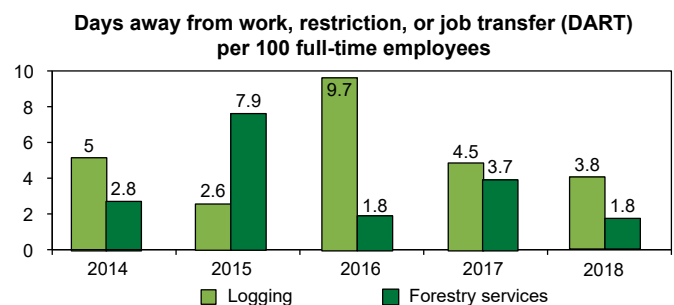

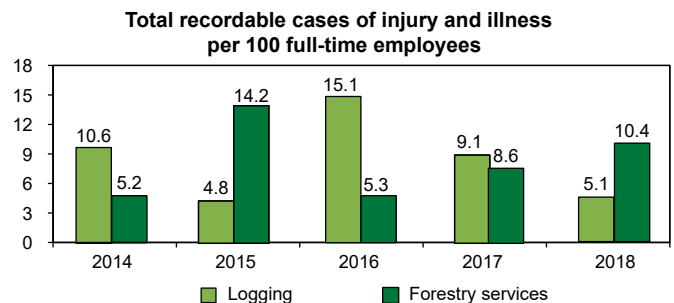

The **LOGGING INDUSTRY** (NAICS¹ 113310) primarily involves harvesting of timber on long production cycles (10 or more years) and often requires specialized machinery unique to the industry in varied terrains and settings. Establishments within the industry are typically focused in one or more of the following: (1) cutting timber, (2) cutting and transporting timber, and (3) producing wood chips in the field. Shorter cycle products (e.g., Christmas trees) are generally more horticulture in nature and are categorized outside of Forestry and Logging.

The **FORESTRY SERVICES INDUSTRY** (NAICS 115310) comprises companies primarily engaged in particular support activities related to timber production, such as wood technology, marketing,

and forest protection. Support activities may include (1) estimating timber, (2) forest firefighting, (3) forest pest control, or (4) consulting on wood attributes and reforestation.

Survey² of occupational injury and illness, incidence rates, private industry, Oregon 2014-2018

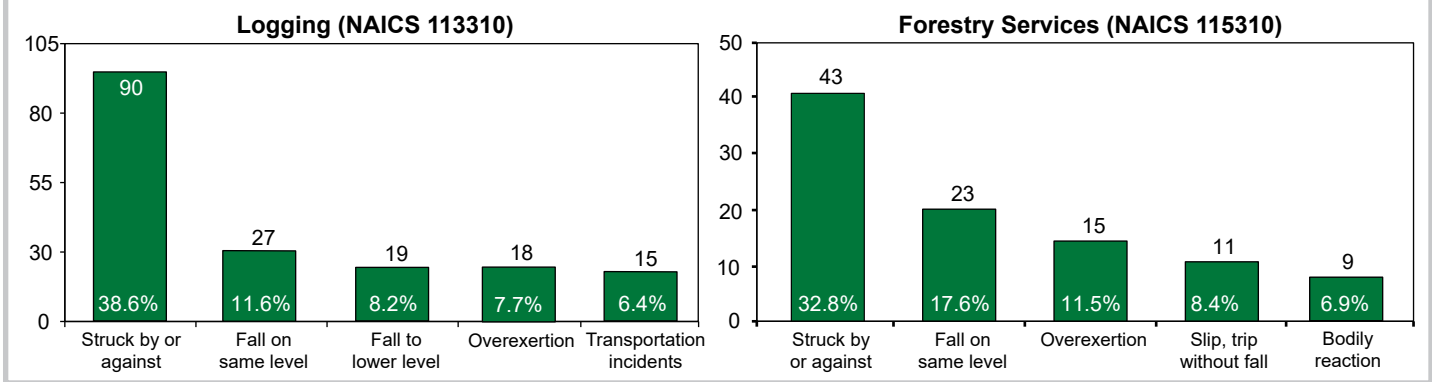

Dedicated to **CONSUMER** and **WORKER PROTECTION**

COMPENSABLE WORKERS' COMPENSATION CLAIM CHARACTERISTICS – The Department of Consumer and Business Services uses the Bureau of Labor Statistics' Occupational Injury and Illness Classification System (OIICS) to record accident and injury data. OIICS allows

tracking of occupational injuries, illnesses, and fatalities according to the event or exposure and source that led to an injury or illness, as well as the nature of injury or illness and parts of the body affected.⁴

Most frequent accident or exposure event (number and percent of claims), Oregon 2018

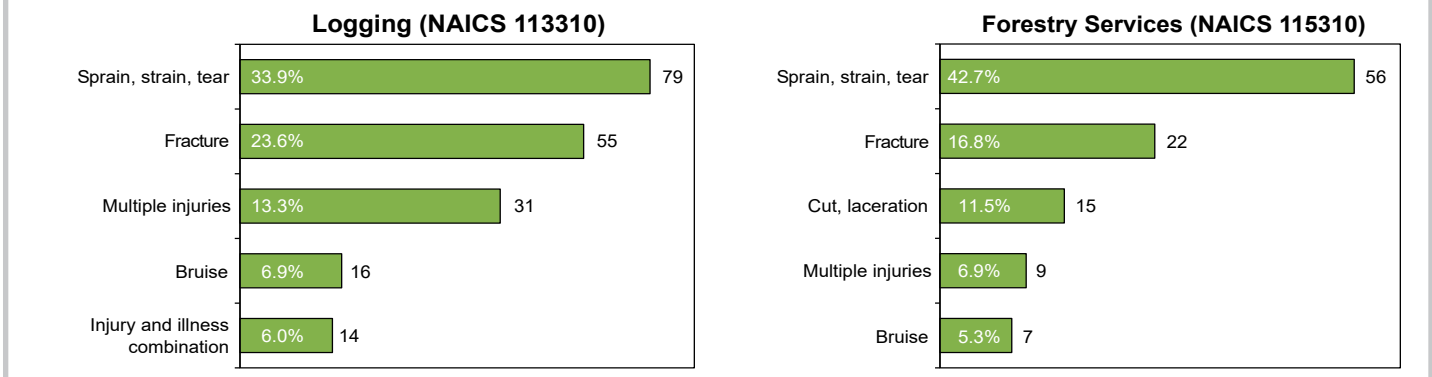

Most frequent source of injury or disease (number and percent of claims), Oregon 2018

Most frequent part of body affected (number and percent of claims), Oregon 2018

Most frequent nature of injury or disease (number and percent of claims), Oregon 2018

Summary table of Oregon employment, accepted disabling workers' compensation claims and fatalities, logging and forestry services compared with statewide data, 1996-2018

YEAR	Employment ⁵			Accepted disabling claims ⁷			Accepted disabling claims rate (ADCs per 100 employees)			Fatal claims			Fatality rate (fatals per 100,000 employees)

**Oregon fatal workers' compensation claims,
logging and forestry services, 2014-2018**

INDUSTRY	2014	2015	2016	2017	2018
Logging	3	8	5	3	7
Forestry services	0	1	0	1	1

Description of accepted fatal logging and forestry claims, 2018

ACCIDENT DESCRIPTION	YEAR OF DEATH	GENDER	OCCUPATION	NAICS	COUNTY
Struck by rolling logs that had come loose from their cables	2018	M	Logging faller	113310	Benton
Crushed by processing machine while performing maintenance	2018	M	Log processor operator	113310	Douglas
Struck by rolling log	2017	M	Choker setter	113310	Lane
Struck by swinging log being moved by a yarder machine	2018	M	Rigging slinger	113310	Douglas
Caught in the drive line of a yarder machine	2018	M	Logging hook tender	113310	Douglas
Struck by rolling log	2018	M	Logging rigger	113310	Linn
Drowned in a small body of water	2018	M	Security guard	113310	Douglas
Pick-up truck collided head on with another vehicle	2018	M	Office manager	115310	Out-of-state

Endnotes:

- ¹ NAICS = North American Industry Classification System, 2007 Edition. Data includes public and private entities unless otherwise specified. Employees of client leasing firms are reported by the industry in which they were working at the time of injury.
- ² The U.S. Bureau of Labor Statistics conducts the annual Survey of Occupational Injury and Illness, in cooperation with the Department of Consumer and Business Services. Data is based on NAICS 2012 Edition and includes private entities only.
- ³ NEC = not elsewhere classified.
- ⁴ Claims characteristics are classified according to the Bureau of Labor Statistics' Occupational Injury and Illness Classification System (OIICS), version 2.01.

⁵ Employment figures are based on data from the Oregon Employment Department.

⁶ Data includes private entities only.

⁷ Table includes all accepted disabling claims.

Claims are counted in the year in which they are reported to DCBS as accepted, which may be different than the year of injury.

Source data are continually updated so results may vary over time.
