SUBJECT: **Clarification on use of procedure codes G9005 and G9012**

On August 30, 2004, notification from DHS was sent out regarding updated code changes for SBHS coordinated care codes. The following provides further clarification on use of coordinated care codes G9005 and G9012.

G9005 – Coordinated care, risk adjusted maintenance

Is performed by a licensed healthcare practitioner within the scope of practice for the medical portion only for consultation services specified on the Medicaid-eligible student's IEP or IFSP for a covered SBHS that addresses a physical or mental health condition currently specified on the Medicaid-eligible student's IEP or IFSP; or coordinating care (medical portion only) pertaining to a child's treatment plan of care for Medicaid covered SBHS specified on the Medicaid-eligible student's IEP or IFSP *from the supervising licensed healthcare Practitioner* to:

Assistants they supervise (i.e. COTA, LPTA, and SLPA);

Parents;

Teachers;

Other healthcare staff; and

Outside facilities and/or clinics pertaining to the child's care and treatment provided.

NOTE: Consultation and care coordination between a therapist assistant and a supervising therapist is reimbursed for the supervising therapist's time only. The consultation must be the medical portion only of a SBHS covered service and pertain to the child's treatment plan of care pursuant to the IEP/IFSP. Assistants must not bill for the consultation.

G9012-Coordinated care, other specified care management

For the medical portion only for a Medical condition that is not currently addressed on the Medicaid-eligible student’s IEP or IFSP that may or may not require more treatment time added to the IEP or IFSP and results in an updated treatment plan of care. Other specified care management may require an increase in supervision, monitoring, and training staff to perform new tasks for the care and treatment provided to the student related to the change in the student’s health condition. Coordinating care, other specified care management is performed by *the supervising licensed healthcare practitioner* to:

- Assistants they supervise (i.e. COTA, LPTA, and SLPA);
- Parents;
- Teachers;
- Other healthcare staff; and
- Outside facilities and/or clinics pertaining to the child's care and treatment provided.

NOTE: This code may only be used by the supervising therapist and only for the time required to implement the new treatment plan of care and incorporate it into the Child’s IEP or IFSP.
