Instructions for Oregon Food Processor Exemption Claim

ORS 307.455 allows a property tax exemption for food processors' qualified real and personal property machinery and equipment (M&E) that is certified by the Oregon Department of Agriculture (ODA). To receive an exemption, the qualified M&E must first be certified by ODA and then the food processor needs to file a *Food Processor Exemption Claim* form (150-303-085-1) along with copies of the ODA-approved certification form(s). The exemption begins the first tax year following certification and filing of the claim for exemption and continues for the next four succeeding tax years if, as of January 1 of each year, the certified M&E remains qualified. Read below for further filing instructions.

How do I qualify?

- A **"food processor"** must be engaged in the business of freezing, canning, dehydrating, concentrating, preserving, processing, or repacking for human consumption raw or fresh fruit, vegetables, nuts, legumes, grains, bakery products, dairy products, eggs, seafood, meat or wild game in any procedure that occurs **prior to the point of first sale** by the processor.
- "Qualified machinery and equipment," whether new or used, must be newly acquired by a food processor and first placed into service prior to January 1 preceding the first tax year for which an exemption is claimed. (Visit ODA's website at www.oregon.gov/oda for definitions of "newly acquired" and "placed into service," rules, and other information relating to this law).
- Qualified machinery and equipment used in processing grain or bakery products must have a **total cost of initial investment** of \$100,000 or more. Machinery and equipment used in bakery products processing cannot qualify if retail sales at the site are greater than 10 percent of total site sales.
- **"Qualified real property M&E"** must be used by a food processor in the **primary processing** of raw or fresh fruit, vegetables, nuts, legumes, grains, bakery products, dairy products, eggs, seafood, meat or wild game.
- **"Qualified personal property M&E"** must be used by a food processor in an **integrated processing line for the primary processing** of raw or fresh fruit, vegetables, nuts, legumes, grains, bakery products, dairy products, eggs, seafood, meat or wild game. An "integrated processing line" doesn't include forklifts, trucks, or other rolling stock used to transport material to or from a point of manufacture or assembly.

How do I get the exemption?

- **Make a written request** to ODA for **certification of qualified M&E**. The forms for certification (*Oregon Food*

Processor Certification of Qualified Machinery and Equipment, 150-303-085-3 through -6) are available from ODA or from the Department of Revenue's website at www.oregon.gov/dor/forms. Choose from four different certification forms, depending on if you own or lease your real or personal property M&E. Use the appropriate certification form and if your property is leased, **use a separate sheet for each lessor**. For information about the certification process and how to schedule a certification visit with ODA, go to www.oregon.gov/oda.

- After your qualified M&E has been certified by ODA, retain the ODA approved and signed *Oregon Food Processor Certification of Qualified Machinery and Equipment* form(s) for your records.
- **Claim the exemption** by completing the *Food Processor Exemption Claim* form (150-303-085-1). This form is available on Department of Revenue's website at www.oregon.gov/dor/forms.
- **File the exemption claim** with Department of Revenue if it appraises your property under ORS 306.126. If your property is appraised by the county assessor, file with the assessor of the county where your property is located.
- **The Oregon Food Processor Exemption Claim is filed in addition to filing your Industrial Property Return or Real Property Return. The Exemption Claim doesn't replace your Industrial or Real Property Return.**
- Attach the ODA-approved certification form(s), *Oregon Food Processor Certification of Qualified Machinery and Equipment*, to the exemption claim form.
- The exemption begins the first tax year following certification and filing of the claim for exemption and continues for the next four succeeding tax years if, as of January 1 of each year, the certified M&E remains qualified. Visit ODA's website at www.oregon.gov/oda to learn more about the certification process and how to report changes to your certified M&E.

When do I file?

- **After January 1 and on or before March 1** directly following the year in which the property is newly acquired **and** first placed into service.
- **Late filing** is after March 1 and on or before December 31 directly following the year in which the property is newly acquired and first placed into service. If you file late, you **must** include with your claim a late filing fee of the greater of \$200 or one-tenth of one percent of the real market value of the property that is the subject of your claim.
