RULE SUMMARY

The 2003 Legislature created a program for issuing driving privileges to persons who otherwise do not qualify because they have a limited vision condition. To qualify for driving privileges, a person with a limited vision condition must meet certain requirements, including a drive test and examination by a licensed vision specialist every two years. DMV adopted OAR 735-062-0385 to set forth the conditions and requirements for obtaining a certification from a licensed vision specialist and passing a drive test, including : 1) how requirements must be met; 2) when DMV will send a notification to the driver that a vision certification and drive test is required; 3) when DMV will cancel the driving privileges of a person who does not comply with the requirements; and 4) how DMV will calculate the dates for the next vision certification and drive test. The amendment to OAR 735-062-0310 adds a definition for the term "report of limited vision examination."
