Proposer's Question Request

Project Name: Bundle 508: I-5; Elkhead Rd. – OR 126; Knowles Creek (EKC) DB Project Key Number: 15228

	RFQ Section No. or Appendix	Question	Reserved for Agency Response
1	Form PP2	It has come to our attention that on the Major Projects Branch website (http://www.oregon.gov/ODOT/HWY/MPB/elkhead.shtml), the link for "Form PP2- Environmental Past Performance" is linked to Form R- Past Revenue. Can ODOT repair the link so that Form PP2 can be accessed?	Yes. Link was corrected on 3/19/08'
2	RFQ	We would like to know if the other interested design and construction firms that have expressed interest in Bundle 508. Is there a list of interested parties? (This firm wanted to offer their services in bridge repairs and engineering to prime contractors).	Yes. Following the cut off date of 3/28/08', the Agency will post, at the Bundle 508 project site, a list of firms that have provided a Letter of Interest, (LOI). Interested parties may download that list of names.
3	General Reference	Are any geotechnical baseline reports available for this project? If so, when will they be posted on the project website?	Some reference information of limited scope is currently located at the Bundle 508 website through the link labeled "HERE". This information is located under the Baseline reports for each bridge. See the Historic reference data at Address: http://www.obdp.org/partner/procurement/bundles/design_build/?type=current&folder=%2ffiles%2fpartner%2fprocurement%2fbundles%2fdesign_build%2fcurrent%2fBundle+508+-+Regions+2+and+3%2f . Other detailed geotechnical information will be available in the RFP which is released to the short-listed Proposers.

Proposer's Question Request

	RFQ Section No. or Appendix	Question	Reserved for Agency Response
4	OBDP Website	OBDP has posted Environmental Baseline Report No. 10 on their project site, which covers the Bundle 508 I-5 bridges. Their PDF has an error and appears that the end of the document was inadvertently chopped off.	OBDP website has been corrected and complete file uploaded.
5	3.4.1	This section limits the cover letter to one page in length, but also requires so much information, including the affirmations new to this procurement, that we can not fit our responses onto one page using the mandated 12 point font size. We propose that the Agency delete the requirement to limit the cover letter to a single page.	Addendum #2 was released 4/10/08 increasing the page count for 3.4.1 to a total of two pages.
