

**SECTION 00410 - PIPE LINING**

*(Follow all instructions. If there are no instructions above a subsection, paragraph, sentence, or bullet, then include them in the project but make necessary modifications to only include project specific specifications. Delete specifications that do not apply to the project.)*

~~(Use the following paragraph when subsection 00410.06 is NOT included in the project.)~~

Comply with Section 00410 of the Standard Specifications.

~~(Use the following lead-in paragraph and subsection .06 when CIPP lining is required. Obtain the parameter information from the Designer.)~~

Comply with Section 00410 of the Standard Specifications modified as follows:

(Use the following subsection .06 when CIPP lining is required. Obtain the parameter information from the Designer.)

**00410.06 CIPP Design Parameters** - The following additional design considerations apply to CIPP:

Condition	Parameter
Load Conditions	
Soil .....	
Traffic .....	
Groundwater Elevation.....	
Pipe Ovality .....	
Modulus of Soil Reaction.....	
Enhancement Factor .....	
Allowable Deformity.....	

00410.70 General - Replace the sentence that begins "If the tested section is..." with the following sentence:

If the tested section is acceptable, reconnect all service lines.
