## Memorandum

**Date:** 4/19/2000

**RE: Clinical Registered Nurse Anesthesia Student In Oregon**

---

If you are planning on doing your preceptorship in the State of Oregon you need to be informed of the following.

A nurse anesthesia student may practice in Oregon provided he or she meets these requirements:

- a) A current, unencumbered registered nurse license in Oregon;
- b) Enrollment in a nurse anesthesia program accredited by an approved accrediting body;
- c) Submission of a written signed agreement between the student and a CRNA or anesthesiologist who holds licensure in Oregon, and has agreed to serve as preceptor; and
- d) Identification of the faculty member accountable for general supervision, from either a nurse anesthesia program accredited by an approved accrediting body, or an anesthesiologist with a faculty appointment in a recognized medical school.

A nurse anesthesia student shall practice under the direct supervision of a CRNA or anesthesiologist who agrees to serve as preceptor, and general supervision of a faculty member as specified in 851-052-0040(1)(d) of the Division 52 Rules for Certified Registered Nurse Anesthetists.

Please submit the above requested information to the Oregon State Board of Nursing for consideration of your preceptorship.

Thank you,

Tracy Klein, Advance Practice Consultant
