EXHIBIT J

PAROLE PROCESS

144.175 Policy on paroling prisoner; reasons for not paroling prisoner. Whenever the State Board of Parole considers the release of a prisoner who, by its rules or order, is eligible for release on parole, it shall be the policy of the board to order his release, unless the board is of the opinion that his release should be deferred or denied because:

(1) There is a reasonable probability that the inmate will not, after parole, remain outside the institution without violating the law and that his release is incompatible with the welfare of society;

(2) There is substantial risk that he will not conform to the conditions of parole;

(3) His release at that time would depreciate the seriousness of his crime or promote disrespect for law;

(4) His release would have a substantially adverse effect on institutional discipline; or

(5) His continued correctional treatment, medical care or vocational or other training in the institution will substantially enhance his capacity to lead a law-abiding life when released at a later date.

[1973 c.284 §4]

144.180 Factors to be considered in paroling prisoner. In making its determination regarding a prisoner's release on parole, the State Board of Parole may take into account each of the following factors:

(1) The prisoner's personality, including his maturity, stability, sense of responsibility and any apparent development in his personality which may promote or hinder his conformity to law;

(2) The adequacy of the prisoner's parole plan;

(3) The prisoner's ability and readiness to assume obligations and undertake responsibilities;

(4) The prisoner's intelligence and training;

(5) The prisoner's family status and whether he has relatives who display an interest in him, or whether he has other close and constructive associations in the community;

(6) The prisoner's employment history, his occupational skills, and the stability of his past employment;

(7) The type of residence, neighborhood or community in which the prisoner plans to live;

(8) The prisoner's past use of narcotics or dangerous drugs, or past habitual and excessive use of alcoholic liquor;

(9) The prisoner's mental or physical makeup, including any disability or handicap which may affect his conformity to law;

(10) The prisoner's prior criminal record, including the nature and circumstances, recency, frequency and type of previous offenses;

(11) The prisoner's attitude toward law and authority;

(12) The prisoner's conduct in the institution, including particularly whether he has taken advantage of the opportunities for self-improvement afforded by the institutional program, whether he has been disciplined for misconduct prior to his hearing or reconsideration for parole release, whether he has forfeited any reductions of term during his period of imprisonment, and whether the reductions have been restored at the time of hearing or reconsideration; and

(13) The prisoner's conduct and attitude during any previous experience of probation or parole and when the experience occurred.
