EXECUTIVE SUMMARY

Purpose of Report

The purpose of this report is to:

- Provide a snapshot to the Governor of the Executive Branch's current position in the labor market.
- Provide Executive Branch leadership data to make compensation decisions and plan budgets.
- Provide collective bargaining teams and the employer with data for use in negotiations.
- Fulfill contractual obligations for specific market compensation studies.

In accordance with Executive Order 17-08 and relevant statutes, the Executive Branch seeks to establish and maintain its status as a "market employer" whose employees earn, on average, between 95% and 105% of the compensation earned by similarly situated employees in comparable markets.

The 2022 report covers approximately 390 Executive Branch job classifications. The report does not include classifications exclusive to strike-prohibited bargaining units nor those in the Judicial Branch, Legislative Branch, Oregon Lottery, Oregon University System, or other public entities exempted by statute.

This report compares full-time compensation of State of Oregon workers with that of other workers by measuring the employer's cost for providing salaries and common employee benefits. Adding the value of employee benefits to wages has a significant impact on the monthly total compensation costs for State of Oregon employees.

Key Findings

While competitiveness varies by job, in aggregate, when comparing the State’s position to the overall labor market:

- Actual employee average compensation is 100.4% of the overall market, including major benefits. The benefits evaluated include employer cost for health care and retirement. Actual employee average compensation is 96.0% of the overall market, excluding major benefits. Therefore, the report reflects that the Executive Branch is a “market employer” as defined in Executive Order 17-08.
- The maximum rate of the compensation ranges, including benefits, is 96.6% of the overall market.
- The maximum rate of the compensation ranges, excluding benefits, is 92.6% of the overall market.
- The minimum rate of the compensation ranges, including benefits, is 94.7% of the overall market.
- The minimum rate of the compensation ranges, excluding benefits, is 89.0% of the overall market.

While the Executive Branch is at the lower end of our market goal on salary structures, we are right at our compensation goal when looking at what employees are actually being compensated.

Component of Salary and Benefit	Number of Oregon Employees	Salary		Salary and Benefits	
		Oregon Employee Average	Market Employee Average	Oregon Employee Average	Market Employee Average
Employee Average *	23,477	\$6,396	\$6,664	\$9,051	\$9,011
Salary Range Maximum	24,361	\$7,073	\$7,637	\$9,846	\$10,196

* Employee Average includes current full-time State Executive Branch employees where sufficient market data was available as of August 1, 2022.

Other Notable Facts

- On average, base pay accounts for 71% of the State's total compensation package, while major benefits account for 29%.
- The State offers generous medical plans with higher employer contributions and lower employee medical premiums.
- The Oregon Public Service Retirement Plan (OPSRP) offered to new hires and covering most current employees includes two parts:
 - Defined benefit plan funded primarily by the employer based on your salary times years of service times a percentage factor, and
 - An Individual Account Program (IAP) which is an "account-based benefit," meaning member contributions are regularly paid into an account and the account can grow over time based on investment returns.

REPORT METHODOLOGY

It is the intent of the Department of Administrative Services (DAS) Chief Human Resources Office (CHRO) to use the best available data to compare the State's compensation costs with other employers in the labor market. This report compares compensation of State of Oregon workers with that of other workers by measuring the employer's cost for providing salaries and common employee benefits. Adding the value of employee benefits to wages has a significant impact on the monthly total compensation costs for state employees. Sections of this report include information that demonstrates the relative health of the Executive Branch pay structures as compared to external market rates, as well as the competitiveness of actual salaries.

Labor Market

The State of Oregon's labor market methodology has evolved in recent years to be consistent with both industry standards and Executive Order 17-08. The relevant labor market consists of states, counties, and a combination of other public and private sector employers (data purchased from commercially available salary and benefit surveys).

State Market

The markets of the four contiguous states (Washington, California, Nevada, and Idaho) are utilized. It is important to compare to neighboring states as they are of comparable size, scope, and mission. These states have been selected due to their regional proximity and have been a cornerstone of the State of Oregon's labor market for many years.

County Market

The county market is a vital comparator for the State of Oregon, which has employees located throughout the state, and it is key to compare to public sector employers in those regions.

This report uses data from seven Oregon counties - Washington, Clackamas, Multnomah, Marion, Lane, Deschutes, and Jackson. These counties were selected for two main reasons. First, these are the seven largest counties in Oregon. Second, based on an analysis of recruitment data, they are also the counties from which the State receives the highest amount of applicant responses.

The report also includes county market data from three counties in Washington State (Clark, King, and Thurston). This expands Oregon’s geographic market comparators and better reflects the regional labor market. Clark County is used as it borders the State of Oregon. Due to its proximity to Oregon as well as the large number of applicants received, Clark County would rank in the top 10 of Oregon’s 36 counties for most applicants. Thurston is added as the county in which Olympia, Washington’s state Capitol, and state government offices are predominately located. Finally, King County represents Washington’s major metropolitan area.

Of the four contiguous states, from July 2021 through June 2022, Washington yields the second largest number of applicants for State of Oregon jobs. Oregon receives approximately 14.46% of its out-of-state applicants from Washington, behind California applicants. Approximately 14.84% of applicants from out-of-state are from California.

Other Public and Private Sector Employers (Purchased Market)

The State utilizes three sources of commercially available salary and benefit data: Milliman, Willis Towers Watson, and CompAnalyst. These salary surveys include a combination of public and private sector employers that are not included in other market sectors including cities, non-profits, and semi-governmental entities. These purchased surveys compile data from a wide variety of participants. Without the purchased data, the State would not be able to represent this segment of the marketplace.

The 2022 data is as of August. The purchased salary and benefit surveys provide data scoped to include only employers in the geographic areas of Oregon and/or the Pacific Northwest. A minimum of three separate data sources must be available for each market classification to meet the “sufficient” rule and be included in the report. Purchased survey information includes data from multiple organizations, and therefore meets this requirement, while appearing as only one data source.

Oregon Employees and Compensation Structures

Oregon data shows comparisons by union bargaining units, subtotaled by three groupings:

- Corrections (includes security and non-security representations at the Department of Corrections)
- Management (includes supervisory and non-supervisory management and executive service structures)
- Non-Corrections/Non-Management (includes all other unions and unrepresented structures)

An overall total for each state job classification is calculated for all representations. Comparison information illustrates how employees are paid in relation to Oregon's salary range midpoint. Comparisons are calculated by dividing the Oregon employee data by the corresponding market data.

Matching Criteria

Comparison of job duties, responsibilities, reporting relationships, and education/experience requirements determine the matches between state classifications and market jobs.

The Oregon's salary and benefit data is matched to market data sources for job classifications with similar duties, responsibilities, and requirements. Generally, the greater the number of market data sources found for each job classification, the truer the data reflects the current pay in the labor market. For some job classifications, there is insufficient amounts of market data available to either report a market figure or to base recommendations for adjusting salaries.

In accordance with standard compensation best practices, only those jobs that match at least 80% of the duties, responsibilities, and functions, as outlined in the benchmark job summary, are utilized.

Comparison by Market Segment

The following table provides a breakdown of matches to each market segment. As detailed previously, the State's labor market is a combination of data from counties, purchased surveys, and state market data. This chart details the number of job matches and incumbents represented in each market sector.

Match Type	# Classifications Matched to	# of Market Employees	# of OR Employees
County Market	230	9,011	20,364
Purchased Market	228	91,760	17,907
State Market	310	68,207	23,998
OVERALL	330	168,978	24,361

The following table shows overall market position, as well as how the State compares to each of the three major market segments.

Market by Segment			
SALARY AND BENEFITS			
Market	Minimum	Employee Average	Maximum
Overall	94.7%	100.4%	96.6%
County Market	84.9%	95.9%	97.2%
Purchased Market	96.8%	100.3%	93.8%
State Market	97.7%	123.5%	106.0%

Market Calculations

Calculations for comparison of Oregon jobs reflect with and without benefits included. The data analyzed contains three comparison points:

- Actual employee base salaries
- Salary range minimum
- Salary range maximum

Depending on the specific state classification, employees may be eligible for additional compensation in the form of fixed or variable allowances and differentials in addition to their base salaries. This specific information is not available consistently from all the surveyed data sources and is therefore excluded from the calculations.

Market data is combined by calculating a weighted average, by the number of incumbents, for all data sources. Compa-ratio information illustrates how employees are paid in relation to the salary range midpoint of the market.

Geographical Adjustments

Because wage and income levels differ across the nation and even within local labor markets, differentials that factor in economic variations are calculated and applied to data collected from employers outside Oregon. Geographic differentials were reviewed and updated to ensure the data is reflective of the State's labor market and economic conditions. Economic Research Institute (ERI) survey data was utilized to identify the appropriate geographic differences. Please see the Appendix for cost of labor adjustments.

BENEFITS

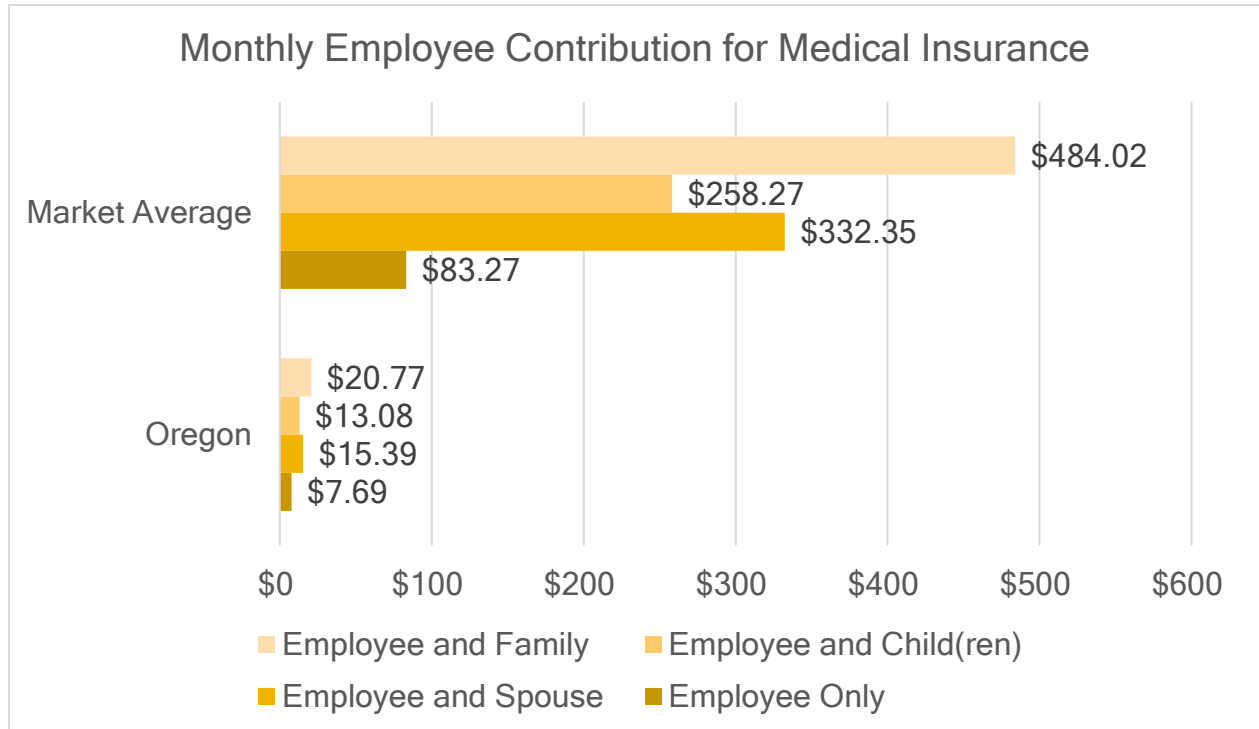

Health Benefits

Health insurance comparison rates are calculated using the employer's cost for medical, dental, and vision benefits across four tiers (employee only, employee and spouse/partner, employee and children, and employee and family).

Social Security and Medicare cost earnings while employed with the state of Nevada are not covered under Social Security. In Nevada, the employer pays half of the Medicare tax (1.45% employer/1.45% employee).

The following table illustrates both the employer cost and employee contribution for medical premiums. The State's employer cost for medical premiums is higher than the market average for employer cost. The State's average employee contribution for medical premiums is significantly less than the market average.

Premium Tiers	Employer Cost		Employee Contribution	
	Oregon	Market Average	Oregon	Market Average
Employee Only	\$769.37	\$754.26	\$7.69	\$83.27
Employee and Spouse	\$1,538.73	\$1,327.77	\$15.39	\$332.35
Employee and Child(ren)	\$1,307.93	\$1,225.36	\$13.08	\$258.27
Employee and Family	\$2,077.29	\$1,707.93	\$20.77	\$484.02

State employees have a lower monthly premium for their medical insurance. A state employee at the Employee and Family rate will pay \$463.25 less for monthly medical benefits. Over the course of a year, this is an average savings of \$5,559 compared to what an employee would pay for their medical benefits in the labor market.

The State provides a very comprehensive benefits plan in relation to what is found in the marketplace. The State provides medical, dental, and vision coverage. The following chart demonstrates how the State compares to the market average in key areas.

CATEGORY OF BENEFIT	OREGON BENEFIT Full Time - In Network	AVERAGE MARKET PRACTICE
Standard Plan Deductible	· \$250/ Individual · \$750/ Family	· \$1112/ Individual · \$2400/ Family
Out of Pocket Maximum	· \$1,500/ Individual · \$4,500/ Family	· \$3,162/ Individual · \$6,796/ Family
Primary Care Visits / Specialist	· \$10, first 4 visits waived · \$10, with referral	· \$22 · \$28
Inpatient Hospital Per Admission	· \$50/day up to \$250 max	· \$220 per day
Emergency Department	· \$150	· \$148

Dental

The State offers four dental plan options from which employees can choose:

- Delta Dental Premier
- Delta Dental PPO
- Kaiser Traditional Dental
- Willamette Dental Group

With the exception of Kaiser, which has no deductible, the rates for each of the plans are the same and reflected below.

CATEGORY OF BENEFIT	SUMMARY OF BENEFIT Full Time - In Network	AVERAGE MARKET PRACTICE
Standard Plan Deductible	· \$50/ Individual · \$150/ Family	· \$45/ Individual · \$135/ Family
Out of Pocket Maximum	· \$1,750	· \$1,897 · \$5,442/Family

Vision

The State offers three vision plan options from which employees can choose:

- VSP Basic
- VSP Plus
- Kaiser

The most populous plan is the VSP Basic, reflected in the rates below.

CATEGORY OF BENEFIT	SUMMARY OF BENEFIT Full Time - In Network	AVERAGE MARKET PRACTICE
Well Vision Exam (Annual)	· \$10	· \$17
Vision Plan Includes hardware	· \$150 allowance for frames · \$170 allowance for featured brands · 20% savings over allowance	· \$190 limit
Hardware frequency	· Annual	· Annual

Paid Time Off

The State provides a variety of paid time off. Employees accrue vacation leave and sick leave, as well as receive annual personal business leave and generally receive paid leave for twelve (12) recognized holidays per year. This number may vary by collective bargaining agreement.

The following are paid legal holidays:

- New Year's Day
- Martin Luther King Jr. Day
- Presidents' Day
- Memorial Day
- Juneteenth
- Independence Day
- Labor Day
- Veterans Day
- Thanksgiving Day
- The Friday after Thanksgiving
- Christmas Day
- At the discretion of the Governor, the State grants one additional day of paid leave to be taken each calendar year.

The market average for holiday leave per year is nine. The following chart shows the prevalence of practice for major holidays in the market.

Holiday	Yes %
New Year's Day	99%
Martin Luther King Jr. Day	47%
Presidents' Day	59%
Memorial Day	99%
Juneteenth	22%
Independence Day	99%
Labor Day	99%
Columbus Day/Indigenous Peoples Day	11%
Veterans Day	49%
Thanksgiving Day	99%
Day After Thanksgiving	61%
Christmas Day	99%
Floating Holiday	38%
Other	35%

The State provides additional leave to employees in three different categories: sick leave, vacation leave, and personal business leave.

Employees accrue vacation leave based on their recognized service date, which is established upon initial appointment to state service. Unclassified executive service, unclassified excluded, management service, and classified service employees have different accrual rates. This table demonstrates the accrual rates for each service type.

Classified and Unclassified Unrepresented Employees

Months Worked	Accrual Rate
First month through 60 th month	8 hours per month
61 st month through 120 th month	10 hours per month
121 st month through 180 th month	12 hours per month
181 st month through 240 th month	14 hours per month
241 st month through 300 th month	16 hours per month
After 300 th month	18 hours per month

Unclassified Executive Service, Unclassified Excluded and Management Service

Months Worked	Accrual Rate
First month through 60 th month	10.00 hours per month
61 st month through 120 th month	11.34 hours per month
121 st month through 180 th month	13.34 hours per month
181 st month through 240 th month	15.34 hours per month
241 st month through 300 th month	17.34 hours per month
After 300 th month	19.34 hours per month

Full-time employees, after completion of six months of state service, will receive 24 hours of personal business leave. This leave is to be used within the fiscal year. The market average for personal business days is two per year.

Optional Benefits

In addition to standard medical benefits and employee leave, the State also provides additional optional benefits. The following table highlights the key offerings and how they compare to the marketplace average.

CATEGORY OF BENEFIT	SUMMARY OF BENEFIT Full Time - In Network	AVERAGE MARKET PRACTICE	LEVEL OF COMPETITIVENESS
Basic Life Insurance	<ul style="list-style-type: none"> State provides \$5,000 Employee and Spouse or Domestic Partner Insurance Optional Life Insurance for employee any multiple of \$20,000 to \$600,000, employee pays premium Spouse or domestic partner, any multiple of \$20,000 up to \$400,000, employee pays premium 	<ul style="list-style-type: none"> \$42,500 Amount of basic life insurance coverage as a flat dollar Optional Life Maximum \$475,532 	The State is less generous than the market average. The State provides a lower amount for basic life insurance but has a higher total amount available for additional coverage.
Short Term Disability	<ul style="list-style-type: none"> Employees can purchase short-term disability insurance 7-day waiting period 60% benefit or regular salary 	<ul style="list-style-type: none"> 50% of employers offer short-term disability insurance plan 92% of short term employer pays portion/all of premium 13 day waiting period 65% benefit of regular salary 	The State is less generous than the market average.
Long Term Disability	<ul style="list-style-type: none"> Employees can purchase long-term disability insurance. Benefit as a percentage of salary is either 60% or 66 2/3% depending on amount paid by employee 	<ul style="list-style-type: none"> 91% of employers offer short-term disability insurance 96% of employers pay portion/all of premium Benefit as a percentage of salary is 61% 	The State is less generous than the market average.

Retirement Benefits

The Oregon Public Employees Retirement System (PERS) serves the people of Oregon by administering public employee benefit trusts. The Oregon Legislature is the plan sponsor for the PERS system. The legislature determines the benefit structure for participating public employees. The current Oregon Public Service Retirement Program (OPSRP) covers employees that started work after August 28, 2003.

Pension contribution rates used in this report calculations compare employer contribution rates offered to new employees. Active members for both general service and police and fire rates are included. Neither the Oregon nor the market contribution rates include any additional administrative costs with no benefit to the employee such as, the cost of pension obligation bonds, side account offsets, or unfunded actuarial liability (UAL).

FUTURE WORK

The Oregon Management Project (TOMP)

The Management Classification Review workstream was part of The Oregon Management Project (TOMP) that transitioned the Principal Executive Manager (PEM) series, most of Oregon's 3,800 state managers, into more specific, job-related classifications. These new classifications enable the State, as an employer, to be more comparable with the public and private sectors by matching the work managers do with job classifications that are understandable and recognizable in the modern job market. It also provides transparency and accountability in the way Oregonians expect their government to operate.

Employee movement and position allocation to these new job families began in February 2022, with continued processing through November 2022. As of January 2023, just over 600 positions remain to be analyzed and processed into new job classifications.

Because of the transition, the old PEM and new TOMP classifications have been excluded from this report. The DAS Classification and Compensation team plans to publish a supplemental Salary and Benefit Report in the fall/early winter 2023 to reflect market position of the new TOMP classifications.

Looking Ahead

The Chief Human Resources Office recognizes the importance of evaluating the overall value of Executive Branch employee's compensation to assess the State's competitiveness to recruit, reward, and retain a qualified workforce. The Chief Human Resources office will work to determine and recommend any future necessary adjustments to salaries and benefits.
