

State of Oregon Department of Environmental Quality  
**Sediment Quality Data**

Table 1

	TCLP Limit for Sediment <sup>1</sup> (mg/kg)	NE corner DW Sample (mg/kg)	NE corner DW Duplicate (mg/kg)
Arsenic (total)	100	11.0	11.1
Barium (total)	2,000	156	148
Cadmium (total)	20	7.31	6.64
Chromium (total)	100	24.2	20.0
Chromium (hexavalent)	NA	1.59 U	1.64 U
Cobalt (total)	NA	20.3	18.7
Copper (total)	NA	37.0	41.7
Lead (total)	100	21.2	24.0
Mercury (total)	4	0.03	0.03
Nickel (total)	NA	23.6	22.7
Selenium (total)	20	6.53	8.94
Silver (total)	100	1.59 U	1.64 U
Zinc (total)	NA	187	201

Notes

<sup>1</sup> Assumes all metals in the sample are leachable, uses 20x rule

TCLP = Toxicity Characteristic Leaching Procedure

DW = Drywell

NE = Northeast

U = Pollutant not detected in the sample (i.e., above the laboratory limit of quantitation)

mg/kg = milligrams per kilogram

NA = no TCLP standard exists for the pollutant
