I. Definitions

This Plan uses and incorporates the definitions from ORS 459A.200 to 459A.266 and related rules (the “Drug Take-Back Law”). The definitions in this Section are for terms not defined in the law. All defined terms are capitalized in the Plan.

Auto Injector means an unused or partially used pre-filled injector product with a retractable or otherwise securely covered needle.

Auto-injector Mail-back Package means a pre-paid, pre-addressed, FDA-cleared sharps container and outer shipment package for the collection and disposal of Auto Injectors.

Board of Pharmacy means the Oregon State Board of Pharmacy.

Carrier means the common carrier used to transport Covered Drugs.

Container means the cardboard box that both supports the inner liner inside the Kiosk during drug collection and becomes the outer shipping package when the inner liner is full and/or removed from the Kiosk.

Collection System is The Foundation’s term for the collection method that utilizes permanent collection Kiosks at fixed locations.

Collection Method means one of the three collection types (Kiosk, Mail-back, or Event) authorized for collection and disposal of home-generated controlled substances by the DEA under 21 CFR Section 1317.

Convenience Standard means the convenient service in every county and population center in Oregon including the minimum number of Drop-off Sites set forth in ORS 459A.209(2)(i).

DEA means the U.S. Drug Enforcement Administration.

DEA Rule means the DEA Final Rule, “Disposal of Controlled Substances,” 79 Fed. Reg. 53520 *et seq.* adopted on September 9, 2014 and codified at 21 CFR 1317.

DOT means the U.S. Department of Transportation.

Drop-door means the door on the Kiosk where Covered Drugs are deposited by Covered Entities.

Drug Take-Back Law means the requirements in ORS 459A.200 to 459A.266 and the Drug Take-Back rules in Chapter 340, Division 98.

Historically Underserved Communities means minority, lower-income, rural and other historically underserved communities as referenced in OAR 340-098-0300 and OAR 340-098-0350.

Inhaler Mail-back Envelope (Envelopes) means a pre-paid, pre-addressed envelope for the collection and disposal of inhalers.

Inner Liner means the liner placed inside the Container which meets the requirements of 21 CFR Section 1317.60.

Kiosk means a secure repository in accordance with ORS 459A.218(2)(b) into which Covered Entities deposit Covered Drugs and which meets the requirements of 21 CFR Section 1317, and is compliant with all state laws and rules and federal laws and regulations governing the keeping of Covered Drugs in repositories, as identified by the State Board of Pharmacy rule.

Liner kit is a set of three (3) pre-labeled and pre-paid cardboard box Containers, liquid barriers, and serialized, puncture-resistant Inner Liners.

Law Enforcement Agency or LEA is a federal, state, tribal, or local law enforcement office or agency.

Mail-back Distribution Site means a location providing Mailers for Covered Entities.

Mail-back Starter Kit means 20 Standard Mail-back Envelopes with a visual reorder trigger, including instructions to Standard Mail-back Distribution Sites on how to reorder additional Mail-back Starter Kits.

Mailer is a generic term that refers to all pre-paid, pre-addressed Standard Mail-back Envelopes, Inhaler Mail-back Envelopes and Auto-injector Mail-back Packages

Packaged Container means the full Inner Liner used in the Kiosk after it is removed, secured within the Container, prepared, and sealed for transportation to a DEA Reverse Distributor.

Pharmacy Employee means the designated contact person or persons at a pharmacy operating a Drop-off Site.

Program means the program that the Foundation will operate under a plan approved by DEQ.

Program Toll-free Phone Number means the brand neutral toll-free telephone number for Covered Entities to obtain Mailers or to locate a Drop-off Site which is established pursuant to ORS 459A.227(1)(e).

Program Website means the website for Covered Entities to obtain Mailers or to locate a Drop-off Site which is established pursuant to ORS 459A.227(1)(e).

Service Provider is any vendor retained by The Foundation to provide materials or carry out its obligations under The Foundation's Plan.

Standard Mail-back Envelope (Envelopes) means a prepaid and pre-addressed mailing envelope for the collection and disposal of all Covered Drugs except for those dispensed in an inhaler or auto-injector.

The Foundation Plan (Plan) means the Product Stewardship Plan presented in this submission.

II. Financing

The Drug Takeback Solutions Foundation (“Foundation”), a 501(c)(3) non-profit organization that maintains tax-exempt status under the Internal Revenue Code, submits this proposed Drug Take-Back Plan on behalf of the Covered Manufacturers represented in Appendix A. The Foundation retains legal responsibility for all Plan commitments and any violations of ORS 459A.200 to 459A.266, as well as all federal and state laws applicable to the operation of the Drug Take-Back Program.

A. Program Costs

The Foundation has long-term commitments from eight Covered Manufacturers who will cover all costs associated with the Program. The costs will be apportioned among each participating Covered Manufacturer pursuant to ORS 459A.209(2)(f). The Foundation uses data on Covered Drugs to inform program costs. Data sets from Covered Drugs sold include volume estimates, relative value, comparisons to states with similar populations, and actual historical data from the state. Additionally, the Foundation has researched Service Provider costs and made informed program cost estimates based on experience. The Foundation’s Service Providers have provided historical data for required program costs such as Kiosk servicing, disposal, outreach and education, signage, survey, start-up, and administration. The Foundation has secured long-term agreements with Service Providers with set fees for services required to operate the program. The above information informs the Operating Budget.

The Foundation, Covered Manufacturers, nor any Authorized Collector will impose a charge, including any charge at the time that a Covered Drug is sold to or collected from a Covered Entity, against Covered Entities for the purpose of recouping the costs of a Drug Take-Back Program per ORS 459A.233.

Additional information on how the Foundation manages costs and funds the Program is set forth in section D below. In accordance with ORS 459A.233, Program services will be free to all Covered Entities.

B. Estimated Budget

The Foundation’s estimated Program operating budget covers operating expenses to be incurred from July 1, 2021 through June 30, 2022. The budget was created using known and projected costs of operating the Program. It is based on the Foundation and its Service Provider’s 25+ years of experience and knowledge of industry trends and best practices for cost savings and efficiency.

The Foundation’s estimated Program operating budget covers the first 12 month period of Program operations from July 1, 2021 through June 30, 2022. Projected costs for operating the Program are based on secured agreements with contracted Service Providers, projected program costs and a calculation of administrative fees. These costs were reviewed by The Foundation’s officers and approved by the board of directors. The budget approval process is the same every year of Plan operation.

The Foundation will provide a summary of the annual expenditures of the Drug Take-Back Program, aggregated by category in the annual report per ORS 459A.230(1)(L).

Estimated Budget Costs, State of Oregon	
<i>(includes startup costs and ongoing for the time period 7/1/2021 through 6/30/2022)</i>	
Administrative Costs	
	\$348,727.00
Collection and Disposal Costs	
	\$842,886.00
Communication Costs	
	\$390,343.00
Total Plan Costs	\$1,581,956.00

C. The Foundation’s Drug Take-Back Experience

Members of the Foundation’s board of directors and officers have extensive experience in healthcare, pharmaceutical industry, promotions services, population health, government services, environmental regulations, and reverse logistics and budgeting.

The Foundation entered into a Services Agreement with Inmar Rx Solutions, Inc., a wholly-owned subsidiary of Inmar, Inc. (“Inmar”) as a Service Provider to provide certain services which contribute to satisfying Program requirements. Inmar will provide services only at the direction of the Foundation. The relationship between the Foundation and Inmar is described in more detail in section III Management.

Inmar operates approved Drug Take-Back Programs in several jurisdictions including the city and county of San Francisco, Santa Barbara County, Contra Costa County and the commonwealth of Massachusetts and is the leading provider of pharmaceutical reverse supply chain services in the nation. More than 80% of all returned pharmaceutical products pass through Inmar’s facilities each year for secure, fully-compliant processing, and disposal. Inmar maintains over 50 federal, state, and local licenses related to pharmaceutical returns and participates in regulatory agency inspections including DEA and state agencies.

For the past three years, Inmar has helped state governments protect against drug diversion and negative environmental impacts by removing unused, expired, and surplus pharmaceutical products from communities. With the required legal, regulatory, and operations infrastructure in place, Inmar has placed over 3,500 Kiosks contracted in 46 states and has safely disposed of more than 200 tons of consumer returned medication to date.

D. Financial Health for Drug Take-Back Solutions Foundation

The Foundation has secured long-term commitments with eight Covered Manufacturers which will fully cover the startup and annual operating costs of the program. Costs are apportioned among the Covered Manufacturers represented by the Foundation’s Plan based on a combination of factors including the number of Covered Drugs sold in the state, the category of each Covered Drug and the volume of each Covered Drug. The Foundation has taken into account all program costs and will

apportion those costs among the Covered Manufactures as stated above. The Foundation will continue to add additional Covered Manufacturers to the Program and apportioned costs will be adjusted accordingly.

While the Foundation is confident that its budget covers all Program operating costs, the Foundation will ensure that the structured agreements with Covered Manufacturers will also cover any unexpected or emergency costs should they arise.

III. Management

All requirements of Service Providers and Authorized Collectors described herein are set forth in written agreements, unless otherwise specified.

The Drug Takeback Solutions Foundation is a 501(c)(3) organization and was formed with the purpose of providing compliant services for pharmaceutical manufacturers in accordance with certain state drug take-back program laws including the Oregon Drug Take-Back Law. The broader mission of the Foundation is to promote, facilitate, and provide for the collection and disposal of unused, unwanted, and expired medications in order to prevent prescription drug abuse and contamination of groundwater and other environmental hazards caused by improper disposal of those drugs.

The Foundation has a Governing Board composed of three members, two of whom are independent community representatives. The members of the Governing Board are Robert Carter (independent), Dr. William Satterwhite (independent) and Joyce Ballack. The affairs and operations of the Foundation are managed by, or under the control of, the Governing Board. The Governing Board has elected three officers to manage day-to-day matters of the Foundation. Those officers are Chris Smith, R.Ph, President; Lee Smith, Treasurer; and Jon Pierce, Secretary. Further, the Foundation has entered into an arms-length services agreement with Inmar Rx Solutions, pursuant to which Inmar Rx Solutions will provide the Foundation with certain management and support services to assist the Foundation with carrying out the Foundation's drug stewardship programs. As part of said services agreement, Inmar Rx Solutions will provide to the Foundation the services of the employees set forth below and others as necessary to meet the obligations of the Service Agreement:

1. Domingo Isasi, General Manager and Vice President of Rx Returns, Inmar Rx Solutions;
2. Nicholas Massaro, Manager, Consumer Drug Take-back, Inmar Rx Solutions;
3. Ashley Schmidt, Director of Regulatory and Compliance, Inmar Rx Solutions; and
4. Wendy Janney, Senior Manager, Regulatory and Compliance, Inmar Rx Solutions.

Any questions or concerns should be directed to the President of the Foundation, Chris Smith, at Chris.Smith@inmar.com.

The Foundation recognizes it is ultimately responsible for the performance and execution of the services described in the Plan and in accordance with the Oregon State Drug Take-back law and regulations. In order to meet certain of those obligations, the Foundation has entered into a Services Agreement with Inmar Rx Solutions, Inc. to provide services that contribute to satisfying the Plan requirements. The

Foundation made a determination based on good business judgment that Inmar was a commercially reasonable choice for providing the needed services.

These services include:

- Identifying and soliciting Authorized Collectors
 - Managing Authorized Collector agreements
- Kiosk sourcing and placement
 - Maintenance and cleaning
 - Auto-replenishment of Kiosk supplies
- Handling and disposal of Covered Drugs
 - Transportation
 - Destruction
- Sourcing and providing Mailers
- Managing Collection Events
- Education and outreach, including Program Website and Toll-free Phone Number

A. Day-to-day Management

The Foundation has established, through its agreement with Inmar Rx Solutions, a dedicated team who will oversee the day-to-day operational execution of the Program. A relationship management team oversees the relationships with Authorized Collectors. An Operations team will manage the relationships with Service Providers, maintain necessary documentation, and deploy reporting tools for necessary data and information reporting. Eight regulatory employees will support the Drug Take-Back Program. The Oregon DEQ and all invested parties of the Drug Take-Back Program will have easy access to the Foundation and teams who support the program to handle any issues, questions, concerns, and oversight.

1. Management of Contracts

The Foundation has a contract repository where it houses and manages all Authorized Collector and Service Provider contracts. These contracts go through a strict process of review and approval by the Foundation's officers and legal department before they are executed by the Foundation.

2. Record Keeping

The Foundation will utilize a document repository to manage records. There will be a role-based security system in place to ensure access is limited. Record keeping will be managed by the Operations and Regulatory team and includes items related to incident reporting, waste files, weights, serial numbers, etc. The Foundation will maintain records for collection services, process reviews, and audits and inspections of Service Providers and Authorized Collectors. These records will be maintained for at least three years or for the period of time required by applicable federal or state laws, whichever is longer. The Foundation will retain records for a longer period of time, upon DEQ's request. The Foundation will cooperate with audit requests it receives under ORS 459A.236(3) and provide records or copies of records to DEQ's Headquarters office upon request.

3. Reporting

Reporting will ultimately be the responsibility of the Foundation. However, supporting documents and record keeping utilized to prepare reports will be a joint effort between the Foundation's and Inmar's Operations and Regulatory teams. Information from Service Providers, such as the waste provider, is sent to the Foundation and uploaded into our CRM system where we will manage the data and prepare it for annual reporting.

4. Compliance Oversight

The Foundation will enter into agreements with all Service Providers and Authorized Collectors before Program operations begin. These agreements require compliance with all laws, regulations and legal requirements, and set-forth the requirement for safety and security policies and procedures.

The Foundation will audit Service Providers through annual:

- Review of documentation used by Service Providers
- Periodic on-site audits of Service Provider facilities
- Review of processes and procedures for compliance with relevant regulatory agencies
- Review of processes and procedures to ensure satisfactory service levels are in place to ensure the secure collection and disposal of Covered Drugs.

The Foundation will cooperate and coordinate with DEQ and the Oregon Board of Pharmacy in DEQ's and the Board's inspection of Drop-off Sites.

The Foundation will provide notice of changes and updates to the Plan as required under ORS 459A.209(5)-(6), ORS 459A.212, and ORS 459A.209(7)(d).

B. Compliance with State and Federal Laws

The Foundation will comply with and require that its Authorized Collectors and Service Providers comply with the Drug Take-Back Law's requirements in ORS 459A.200 to 459A.266 and related rules, Oregon DEQ 340-098-0300, The Controlled Substances Act, 21 USC SS 801-971 and 21 CFR SS 1317; United States Department of Transportation Hazardous Materials Regulation, 49 CFR parts 100-185; Oregon Board of Pharmacy administrative rules 855-041-1046, and all applicable state and federal laws and understands that failure to comply with these rules could result in enforcement.

C. Key Personnel and Management Structure

The Foundation is made up of a Board of Directors who will oversee the day-to-day operations of The Foundation. The Foundation's Drug Take-Back program is managed by Chris Smith, President, who is also the Authorized Representative for The Foundation's Plan.

The Program operations will be overseen by Nicholas Massaro. Additionally, a Regional Program Manager will be responsible for the day-to-day management of Oregon's Drug Take-Back Program. Working alongside this team is Ashley Schmidt, Director, Regulatory and Compliance and Wendy Janney, Senior Manager, Regulatory and Compliance, who will be responsible for ensuring adherence to all relevant and applicable state and federal laws and regulations.

Chris Smith, R.Ph.

President
(336) 631-7602
Chris.Smith@inmar.com

Responsibilities

- Designs strategy and sets goals for growth
- Maintains budgets and optimizes expenses
- Sets policies and processes
- Oversees day-to-day operations of Consumer Drug Take-back

Nicholas Massaro

Manager, Consumer Drug Take-Back
(336) 770-1992
Nicholas.massaro@inmar.com

Responsibilities

- Operational oversight of all Consumer Drug Take-back Programs nation-wide
- Service Provider relationship management
- Strategizes on Kiosk placement for best access for Covered Entities and ensures Convenience Standard is met
- Manages implementation of services with retail pharmacy or Authorized Collectors
- Oversees the operational aspects of reporting for drug take-back

Regional Program Manager

Responsibilities

- Day-to-day relationship management
- Point of contact for participating Authorized Collectors
- Ensures Mail-back Distribution Sites remain stocked
- Coordinates to fill any gaps in public outreach or program marketing
- Provides Drop-off Site visits or other necessary “on the ground” oversight for Stewardship Program

Ashley Schmidt

Director, Regulatory and Compliance
(336) 631-2883
Ashley.Schmidt@inmar.com

Responsibilities

- Directs programs, policies, and practices to ensure that all business units are in compliance with federal and state laws and regulations
- Oversees regulatory department of 20 employees responsible for ensuring compliance with OSHA, FDA, BOP, and DEA requirements for transportation, warehouse management, and disposal
- Provides regulatory input and monitors the impact of changing regulations on programs and practices
- Oversees the development and submission of Stewardship Plans and updates

Wendy Janney

Sr. Manager, Regulatory and Compliance

(336) 770-3561

Wendy.Janney@inmar.com

Responsibilities

- Manages the regulatory aspects of implementation for the Stewardship Program
- Manages a team responsible for licensing to ensure that the Foundation remains compliant with DOT, DEA, and State Boards of Pharmacy
- Oversees the regulatory aspects of reporting for the Drug Take-Back Program

D. Contact Information

Pursuant to ORS 459A.212(4)(a), the Foundation will notify DEQ no later than 30 days after the change occurs of any change to the contact information for the Program Operator. With regards to Covered Manufacturers, and pursuant to ORS 459A.212(3)(b) the Foundation will notify DEQ no later than 60 days after the change occurs regarding:

- Which Covered Manufacturers are participating in the Drug Take-back Program;
- The contact information for a Covered Manufacturer participating in the Drug Take-back Program
- The ownership of a Covered Manufacturer participating in the Drug Take-back Program.

A list of Covered Manufacturers participating in the Drug Take-back Program will be included in the Annual Report per ORS 459A.230(1)(a).

IV. Operations

The Foundation will establish a statewide network to collect drugs from Covered Entities in Oregon. This section describes how the Foundation will meet the requirements for a collection network under ORS 459A.209, 459A.215, 459A.218 and 459A.221.

A. Solicitation of Potential Authorized Collectors

1) Identifying, soliciting, and responding to potential Authorized Collectors

Pursuant to ORS 459A.215, Inmar Rx Solutions on behalf of the Foundation identified and solicited potential Authorized Collectors and entered into agreements with Authorized Collectors for the purpose of collecting Covered Drugs under the Drug Take-back Program.

The Foundation used the following methods for identifying potential Authorized Collectors:

1. Analysis of Inmar's existing client base of retail pharmacies and hospitals in Oregon
2. Searching of DEA data to identify registered pharmacies that could be considered as potential Authorized Collectors
3. The Foundation contacted the existing drug collection sites provided by DEQ in Appendix A of the guide as Potential Authorized Collectors.

These three lists were combined and used in efforts to solicit potential Authorized Collectors. Where gaps in coverage exists, the Foundation additionally sought out potential Authorized Collectors in individual population centers throughout Oregon.

In accordance with ORS 459A.215(a), the Foundation reached out to these potential Authorized Collectors prior to Plan submittal through direct mail. A copy of the letter is provided in Appendix I. Potential Authorized Collectors that Inmar already had relationships with were contacted by phone or e-mail, and discussions were undertaken to formalize agreements with those potential Authorized Collectors who expressed interest in participating in the Program.

- Appendix B provides a list of contracted Authorized Collectors and Drop-off Sites.
- Appendix C provides a list of Authorized Collectors that have expressed interest and the Foundation is in active contract discussions with at the time of plan submittal.
- Appendix D provides a list of potential Authorized Collectors that the Foundation has solicited or plans to solicit
- Appendix E provides a list of Mail-back Distribution Sites
- Appendix F provides a list of potential long-term care facilities
- Appendix G provides a current status of the Foundation's Plan for establishing Drop-off Sites in each Population Center

In summary, Inmar Rx Solutions on behalf of the Foundation has executed agreements with 137 Authorized Collectors to date and is in serious discussion with an additional 532 potential Authorized Collectors at the time of plan submittal.

Efforts to enter into agreements with potential Authorized Collectors that expressed interest in participating are ongoing and will continue until the Convenience Standard is met. The Foundation is committed to maintaining a network of Drop-off Sites by continuing the solicitation of potential Authorized Collectors annually and evaluating annually the need for additional Drop-off Sites based on population growth and access to underserved communities. The Foundation on an ongoing basis will work with any eligible Potential Authorized Collector interested in participating in the Program, even if the number of Drop-off Sites have been met, as required by ORS 459A.209(2)(i).

2) Authorized Collector Agreements

Pursuant to ORS459A.215(1)(b)-(2), Inmar Rx Solutions, on behalf of the Foundation enters into agreements with all willing Authorized Collectors ensuring their commitment to the compliant operation of the Drop-off Sites and shipping of contents in compliance to the DEA regulations, Oregon State Board of Pharmacy and all other state or federal laws and rules governing the collection of Covered Drugs. A refusal to sign the agreement or comply with the DEA regulations or other applicable laws and rules would be a reason why an Authorized Collector would be excluded from the Program.

B. Drop-off Sites

In accordance with ORS 459A.209(2)(i), the Foundation will make good faith efforts to establish at least one Drop-off Site in each county and Population Center, plus an additional Drop-off Site for every 50,000 residents of the city or town located within a Population Center.

The Foundation has identified potential Drop-off Sites in all required Counties and Population Centers and continues to work to secure Drop-off Sites in each required County or Population Center. The Foundation will ensure that a Drop-off Site is available within 20 minute drive within a Population Center to ensure reasonably convenient and equitable access to all Covered Entities. The following process will continue until the Foundation has secured the required number of Drop-off Sites to meet the standards set forth in ORS 459A.209(2)(i).

1. The Foundation will continue working with all interested Authorized Collectors to secure agreements, establish Drop-off Sites, and install Kiosks.
2. The Foundation will continue to reach out to potential Authorized Collectors who have not responded regarding a willingness to participate in the Oregon Drug Take-Back Program.
3. In Counties or Population Centers where a Drop-off Site has not yet been identified through the process described in section IV (A) (1) above the Foundation has identified local community leaders and will work with those leaders to secure a Drop-off Site that meets the requirements set forth by the Drug Take-Back Law and regulation, The Controlled Substances Act, 21 USC SS 801-971 and 21 CFR SS 1317; United States Department of Transportation Hazardous Materials Regulation, 49 CFR parts 100-185; Oregon Board of Pharmacy, and all applicable state and federal laws.
4. The Foundation will request a waiver or approval for additional services and events in compliance with ORS 459A.218(3) and OAR 340-098-0350 as outlined below in section “Waivers or Approval for Additional Services and Events” for any County or Population Center

identified as not meeting the minimum convenience requirements set forth in ORS 459A.209(2)(i).

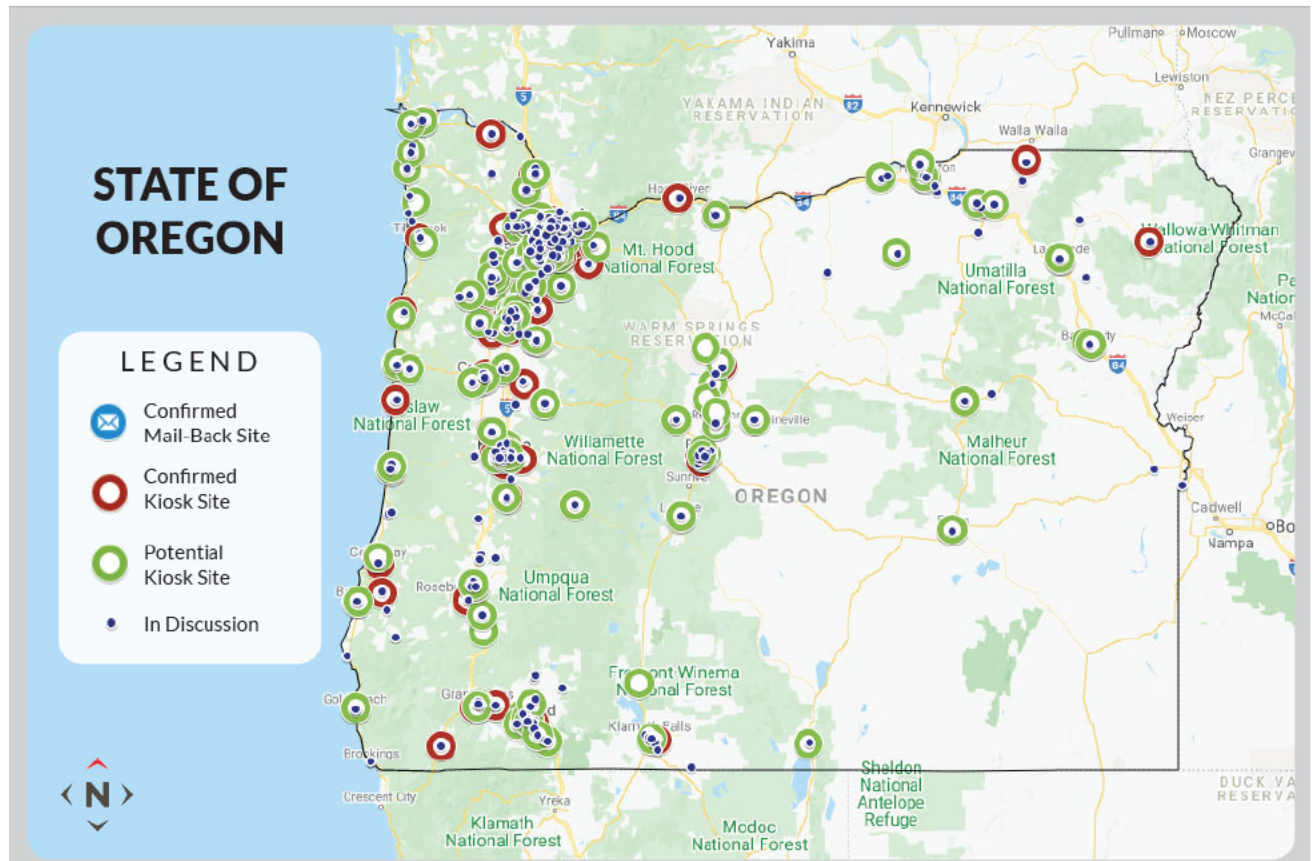

- The Foundation will continue to solicit potential Authorized Collectors and evaluate annually the need for additional Drop-off Sites based on population growth.

Appendix H provides the current status of the Foundation’s Plan for establishing Drop-off Sites in each Population Center. The below table demonstrates the Foundation’s progress toward meeting the standards set forth in ORS 459A.209(2)(i).

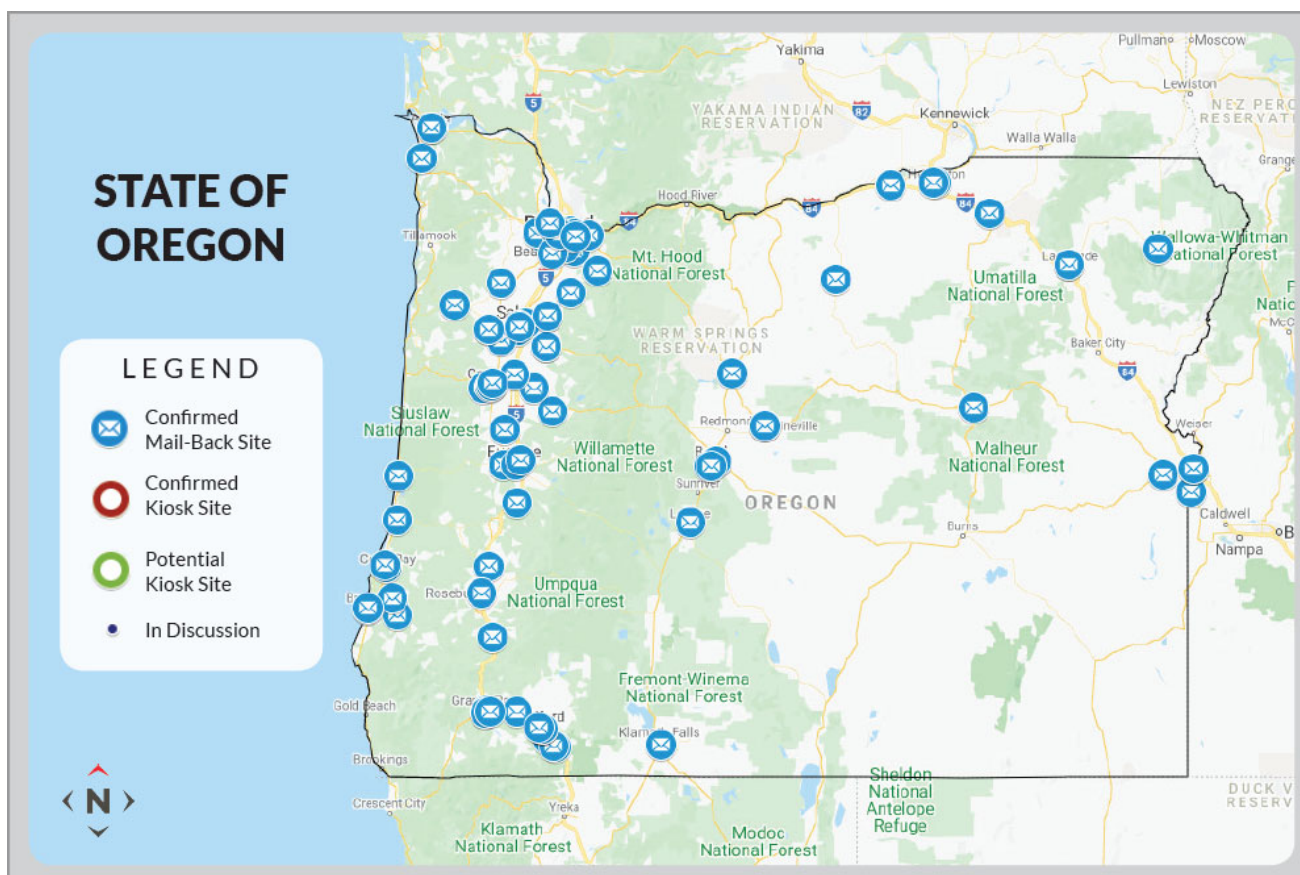

Number of Counties in Oregon	36
Number of Population Centers	242
Total # of Kiosks Needed	271

	Drop-off Site Under Contract	Drop-off Sites In Discussion
# of Drop-off Sites	137	425
Population Centers	70	172

The following map shows the Drop-off Sites that the Foundation has executed signed contracts in red. The Drop-off Sites shown in green represent those that the Foundation is in serious discussions with at time of plan submission. For new Drop-off Sites, Kiosks will be installed and fully operational within 90 days of contract execution.

The Foundation continues to solicit potential Authorized Collectors. In some instances, potential Authorized Collectors have indicated that they would prefer to not be utilized as a Drop-off Site and instead as a Mail-back Distribution Site. Per ORS 459A.209(3), the Foundation will not make use of these sites in counties or population centers where the minimum number of Drop-off Sites has not been met unless approved by the DEQ through a waiver or request for additional services. The Foundation will seek approval per ORS 459A.218(3) for Mail-back Distribution Sites. These locations are outlined in blue on the map below.

In compliance with ORS 459A.218(2)(f), the Foundation ensures that if a Drop-off Site is located at a long-term care facility, as defined in ORS 442.015, and allowed under applicable federal regulations, only individuals who reside, or have resided, at the long-term care facility may use the Drop-off Site. Appendix G includes a list of all potential long-term care facilities the Foundation is currently pursuing. All Drop-off Sites are available for use during the normal business hours of the Authorized Collector and accept all Covered Drugs from Covered Entities.

Upon Request Mail-back Service

In addition to these Mail-back Distribution Sites, Covered Entities will be able to request Mailers via the Drug Take-back Program Website or the Toll-free Phone Number (1-800-350-0396, option 5). Per the requirements of DEA Rule § 1317.70(c), all Mailers are pre-addressed, postage paid, nondescript and

do not indicate what may be inside. Mailers are waterproof, tamper-evident, tear-resistant, sealable, and contain a unique ID number that allows for tracking. Additionally, Mailers include instructions that indicate the process for mailing the package, the substances that can be sent, notice that packages can only be mailed in the US customs territory and notice that only packages provided by the Authorized Collector will be accepted. No personally identifiable information is required.

Equitable Access for Historically Underserved Communities

The Foundation has identified over 75 individuals from local government and non-governmental organizations in communities that are considered to be Historically Underserved and has begun reaching out to start discussions. The intent of these discussions is to receive feedback on how convenient service can be best designed to support the Historically Underserved population.

The steps that are being taken to reach out to these community leaders include:

- Email or mail informational data sheet (one-pager) to each county level or agency contact (Health Department Managers, Public Health Coordinators, etc.) and explain our intentions to solicit feedback about our efforts in their area
- Email or mail an informational data sheet (one-pager) to each town/city/population center leader (Mayors, City Managers, City Administrators) and explain our intentions to solicit feedback about our efforts in their area
- Email invitations for the aforementioned contacts and other community leaders to attend virtual information events to learn more about our intentions to provide service in their communities and get feedback during a live question and answer panel. The first virtual information session will be hosted on May 26th, 2021 and a subsequent event will be planned between July 1, 2021 and October 1, 2021. After the first full year of the Program, the Foundation will host one virtual information event annually to ensure continued outreach to Historically Underserved Communities. The Foundation will host these events more frequently if survey results or ongoing Convenience Standard monitoring demonstrate a need. Information covered in these events includes an overview of the Program, Foundation points of contact, potential collection methods and a live question and answer panel with Foundation staff.
- Contact by phone or in-person community and agency leaders in areas of need that have not otherwise engaged with the Foundation to address the needs of Historically Underserved Communities.

The Foundation is connecting with representatives from all nine federally recognized tribal nations. Tribal nations are Historically Underserved Communities and speaking with them directly is important to assess equitable and convenient service.

In addition to the above efforts, the Foundation has a relationship with a regional non-profit dedicated to preventing substance abuse and suicide. The Foundation works with this agency on advocacy as well as consulting with local leaders.

The Foundation will make adjustments to equitable and convenient access based on the feedback received from these groups and contacts. An example of how this feedback may be used to improve the plan could include increasing the number of Drop-off Sites in an underserved area, providing more Mail-back Distribution Sites or Collection Events, or altering outreach to provide better education and awareness of the Program.

The Foundation will continue this work beyond the submission of this Plan and will provide a project plan for DEQ approval further detailing efforts to engage and serve Historically Underserved Communities within 2 months of plan approval or by July 1, 2021, whichever is earlier. The Plan will summarize engagement and feedback received to date and include a timeline for when The Foundation will evaluate feedback from additional outreach and how, depending on the feedback received, the Foundation will adjust its services as necessary to improve outreach to, access to services for, and service usage rate for Historically Underserved Communities.

Waivers or Approval for Additional Services and Events

The Foundation will solicit potential Authorized Collectors on an ongoing basis as described in section IV(A). Efforts to establish Drop-off Sites will be documented and any reasons that a potential Authorized Collector may have for being unable or unwilling to participate will be included in those details.

In Counties and Population Centers where there are not enough Drop-off Sites to meet the Convenience Standard, the Foundation will request a waiver or approval for additional services and events from DEQ. The request will be made no later than two months after the Plan's approval or by July 1, 2021, whichever comes first per OAR 340-098-0350. In this case, the Foundation's request will include:

1. Documentation that outlines why Drop-off Sites could not be established and addresses the Foundation's efforts to secure Authorized Collectors to date.
2. The Foundation will provide a thorough description of which additional services and events are being requested at each population center and how the proposed additional services and events provide the best access to Covered Entities. This request will be based on concurrence from the local government to determine which proposed services will provide the most reasonably convenient and equitable access to Covered Entities in those Counties or Population Centers. The request will include a timeline for implementation including when Covered Entities will be able to begin using the additional services and events.
3. The request will include a project plan that addresses all the elements that DEQ will consider per OAR 340-098-0350.
4. The request will include the Foundation's commitment to maintaining a network of Drop-off Sites through at least annual solicitation of potential Authorized Collectors and evaluating annually the need for additional Drop-off Sites based on population growth and demographics.

Safe and Secure Repository System

The Foundation's Kiosk is made in the USA and designed to be safe and secure, as required. Produced from 16-gauge cold-rolled steel, and with an easy-to-use, Americans with Disabilities Act (ADA)-compliant Kiosk design, Covered Entities can easily drop Covered Drugs through the Drop-door and into the shippable Container and Inner Liner inside. The Container is a 275 lb-rated box with a 6-mil, DEA-compliant Inner Liner. Inner Liners are either 18 gallons or 35 gallons dependent upon the geographical location and population density of the Drop-off Sites. This volume rating is printed directly onto our 6-mil DEA-compliant Inner Liners and has passed the tests prescribed in accordance with ASTM D 1922 and ASTM D 1709.

The Kiosk design exceeds standard safety requirements and as required by ORS 459A.218(2)(b), Kiosks will comply with all state laws and rules and federal laws and regulations governing the keeping

of Covered Drugs in repositories. The top of the Kiosk is sloped, limiting the ability to stack items on top. In addition, the Drop-door features an extended metal Drop-door that lowers into the Container to detect when capacity is reached. When the Drop-door encounters resistance within the Kiosk, it is an indication that it is time to change the Container. This manual capacity indicator eliminates the need to change batteries and/or sacrifice the location of the Kiosk to be proximate to an electrical outlet. Lastly, the Kiosk access door is reversible to allow for convenient placement in any appropriate location in the Drop-off Site.

Per DEA requirements, the Kiosk will be installed in the line of sight of pharmacy or DEA registrant employees and bolted to the floor or a permanent fixture. The Kiosk has pre-drilled holes in the bottom for easier installation. It also features a 4-point locking system with steel projections in two center locations and the top and bottom of the door that are activated when locked for strengthened security. Top and bottom deadbolt locations are hidden from the outside to prevent break-ins.

Should an Authorized Collector request for the initial installation of the Kiosk to be managed by the Foundation we will coordinate with the Site and our Service Provider to install a Kiosk at the Drop-off Sites. The Drop-off Site is requested to remove any physical barriers of the identified Kiosk location in advance of the agreed upon installation date and time as well as the location to be identified on the floor with markings such as tape to ensure the Kiosk is installed in the proper location. Some retail companies prefer to retain the liability within their corporation and prefer to complete the Kiosk installations themselves with their own engineering teams. In this scenario, the Drop-off Sites will be outfitted with Kiosks and the corporate technicians will arrange for all installation.

Signage includes communication representing items allowed and prohibited for deposit into the Kiosk. Kiosks will accept all Covered Drugs from Covered Entities in accordance with ORS 459A.218(2)(e) except for Auto-Injectors. The Foundation will provide Authorized Collectors with Auto-injector Mail-back Packages at the time of Kiosk installation to distribute for use by Covered Entities. Authorized Collectors will be provided an initial stock of no less than 5 Auto-injector Mail-back Packages but the Foundation will work with each Authorized Collector to understand space constraints and determine the best amount to keep in stock regularly. The Foundation will instruct the Authorized Collector on how to order more Auto-injector Mail-back Packages when inventory is low and follow the same process as Mailers at all Mail-back Distribution Sites.

The Foundation will also provide Authorized Collectors with signage to display at Drop-off Sites instructing Covered Entities how to request an Auto-injector Mail-back Package from the Authorized Collector or by using the Program Website or Program Toll-free Phone Number.

The Kiosk signage will also feature a Program Website and Toll-free Phone Number so Covered Entities can ask questions, provide feedback and find more information per ORS 459A.218(2)(d). The Foundation will work with DEQ to design any additional signage that meets the needs and requirements of the program. Kiosk signage will be designed for consistency with that of other approved Program Operators. See Appendix J for examples of existing signage.

The Foundation's Kiosk is sent to the Authorized Collector along with enough supplies for 3 returns. Supplies include:

- Pre-addressed, pre-paid, serialized Container
- Serialized Inner Liners to protect against puncture and provide a liquid barrier
- Easy-to-use zip ties to compliantly seal Inner Liner
- Absorbent pad for placement in the bottom of the Inner Liner.

Self-Service Returns

For the safe on-site removal of contents and servicing of Kiosks, the Foundation abides by the DEA regulations in 21 CFR 1300 et al. The Foundation trains Authorized Collectors to service the Kiosks on their own to allow for expedited servicing as desired. The steps to service a Kiosk are fast, efficient, and DEA-compliant. The Foundation will provide Authorized Collectors with training materials including step-by-step instructions for tracking, sealing, shipping, and replacing Containers. The process for Authorized Collectors, once a Kiosk is installed, is as follows:

- Authorized Collector receives the Liner Kit
- Authorized Collector staff constructs the Container with Inner Liner, inserts and securely locks the Kiosk
- Authorized Collector team unlocks the Kiosk Drop-door to enable consumer use
- Installation date of Inner Liner is documented and witnessed by the Authorized Collector's designated staff members on a tracking sheet
- Once Kiosk is full, Authorized Collector staff will jointly open Kiosk
- Container and Inner Liner are removed and documented on the tracking sheet
- Container is packaged (Inner Liner is zip-tied, outer box is taped) to be compliant with all DOT Hazardous Materials Regulations
- The sealed Inner Liner will not be opened, x-rayed, analyzed, or otherwise penetrated.
- Replacement Container and Inner Liner is constructed, inserted, secured into Kiosk and documented on the tracking sheet
- Authorized Collector staff contacts FedEx for pickup of Packaged Container for shipping to authorized Disposal Facility for destruction.

*At no point will the Authorized Collector have to store the packaged Container for longer than 48 hours after calling FedEx.

The Authorized Collector will be responsible for packaging the Container and Inner Liner for shipment and contacting FedEx for pickup. FedEx will respond within 48 hours of request by phone. Authorized Collectors utilizing the FedEx shipping portal are able to request in the "Notes" field a specific pick-up time. The Foundation will also reach out to its contacts at FedEx to ensure that local contacts are aware of Drop-off Sites and their needs related to quick turnaround.

Service Standards

The Foundation has established several processes for service issues to be mitigated. Aside from visual inspection when locking and unlocking the Kiosk for use during business hours, Authorized Collector staff are provided with the following resources should they experience issues with the Kiosk:

- Email the take-back@inmar.com inbox, which is monitored by a team of full-time workers, and the issues can be quickly triaged and handled. This inbox is the quickest and most effective way for us to respond to any issues with Kiosks
- Authorized Collectors can also call 1-800-350-0396, option 5 for urgent issues.

The above resources can also be used to request additional servicing or collection at the Drop-off Site in accordance with ORS 459A.218(2)(c)(C).

Additionally, Authorized Collector employee(s) may have developed relationships with field service staff who have visited their Site during implementation. Field service staff act as additional resources should issues arise. Lastly, Drop-off Sites will be visited semiannually to review and audit for program compliance and validation of service standards to comply with ORS 459A.218(2)(c).

The Foundation's Operations team has direct relationships with personnel at FedEx corporate office. Should an issue arise with the standard 48-hour service level agreement, these contacts will be leveraged daily for mitigation of further issues as well as any needed general support. Detailed FedEx contact information can be found in subsection E below.

All Packaged Container FedEx shipment tracking numbers will be periodically monitored from Drop-off Sites to the designated reverse distributor as designated in subsection E below. Typically, any packaged Container that is shipped has a 3-5 day ground shipment time frame from the moment it is scanned by a FedEx driver to the delivery point. Should a Packaged Container not arrive at our reverse distributor within an acceptable time frame (seven days), the Operations team will do the following:

- Reach out to site host to determine when Packaged Container was picked up
- Track liner via tracking ID portal at FedEx.com
- Contact regional rep for FedEx to investigate the root cause of delay
- Investigate the location of Packaged Container and identify updated arrival date at Reverse Distributor site.

Kiosk Maintenance and Cleaning

The Foundation provides cleaning services and maintenance at least once per quarter or as requested. Drop-off Sites are able to email a monitored email inbox which is operated by a team who triage Authorized Collector requests. Should a Kiosk require maintenance or cleaning outside of the quarterly service schedule, service is provided within 48-72 hours of the initial request.

- Requests can be made by emailing the team at take-back@inmar.com inbox, which is monitored by a team and issues can be quickly triaged and handled. This inbox is the quickest and most effective way for us to respond to any issues with Kiosks
- Authorized Collectors can also call 1-800-350-0396, option 5 for urgent issues

Auto-Replenishment of Kiosk Supplies

The supplies used to collect and transport Covered Drugs are provided in automatically-replenished Liner Kits of three Containers. Each Liner Kit includes: pre-labeled and pre-paid cardboard box Containers, liquid barriers, and serialized, puncture-resistant Inner Liners. The Liner Kits, when packaged with the interior components, are approximately 6 inches thick. The Container is cinched tightly around the inner components, which makes for a very easy-to-store kit. Liner Kits can be stored behind the counter, behind a door, or under or behind a desk, with no ongoing maintenance required.

Upon receipt of the Packaged Container at the destruction site, an electronic raw data file via SSH File Transfer Protocol (SFTP) with the weight, serialized barcoded label information, and tracking

information is passed to the Foundation. This information is then received and entered into an Order Management log and Inbound Receipts log. The system tracks when the second of the three Containers is received at the destruction site. The Foundation then initiates a reorder trigger for the next Liner Kit to be shipped. The delivery of the Liner Kits occurs according to the following schedule:

- After the second full Container is received, the new Liner Kit would be received by the Drop-off Site within 14 days. This timeline allows the Foundation to complete the processes described above where the SFTP file is logged and a reorder trigger is initiated.
- If a Drop-off Site contacts The Foundation requesting an additional Liner Kit for any reason outside the normal process described above, the Liner Kit would be received by the Drop-off Site within 7 days. Turnaround of requests for additional Liner Kits outside the auto-replenishment process are quicker because there is no SFTP file, logging, etc.

It should be noted that only after the second Container is received from a Drop-off Site will a new Liner Kit be sent. Auto replenishment reduces the amount of inventory maintained at the Drop-off Site while maintaining sufficient supplies to keep the Kiosk continuously operable.

Authorized Collector and Service Provider Agreements

The Foundation, through the Service Agreement with Inmar Rx Solutions, enters into agreements with all willing Authorized Collectors ensuring their commitment to compliant operation of the Drop-off Sites and shipping of contents in compliance with the DEA regulations and all other state or federal laws and rules governing the keeping of Covered Drugs. A refusal to sign the agreement or comply with the DEA regulations or other applicable laws and rules would be a reason why an Authorized Collector would be excluded from the Stewardship Program. The Foundation agrees to make these agreements available to DEQ upon request.

Unplanned Disaster Events

The Foundation is ready and willing to assist Authorized Collectors should there be any unplanned event such as a natural disaster or any type of security incident. Personnel will respond to assist only when the situation is deemed safe for travel or safe for personnel to be on-site due to current natural or unplanned events. Should the integrity and security of Drop-off Sites be compromised, the Foundation will work with the Authorized Collector to develop a strategy to ensure that the Kiosks and sites are safe and secure.

Should an Authorized Collector need to report an incident which would require special intervention, the operator can contact the Foundation via the approved Program Website or Toll-free Phone Number. Authorized Collectors are also given access to a direct line of communication with the Foundation where these types of incidents are able to be reported. The Foundation will work to mitigate any potential issue with its Authorized Collectors.

The Foundation maintains a policy and trains Authorized Collectors on how to respond to varying levels of emergencies which includes contacting emergency services or the Foundation directly.

In the case of an unplanned event such as a natural disaster or a fire, the Foundation will notify the DEQ in writing no later than 10 business days after learning of the event. Should the event be labeled catastrophic, as defined by FEMA, (https://www.fema.gov/pdf/emergency/nrf/nrf_CatastrophicIncidentAnnex.pdf) the Foundation will notify

the DEQ as soon as reasonably possible. Any safety or security incidents will be reported in the annual report as required by ORS 459A.230(1)(j).

Updated information on the status of Drop-off Sites will always remain updated on the Program Website.

Drop-off Site Reporting

Pursuant to ORS 459A.230(1)(d),(e),(i), the Foundation will provide the following information in the Annual Report:

- The address of each drop-off site used under the drug take-back program
- The total amount, by weight, of drugs collected at each drop-off site, presented in a manner that assists the department in determining the rate of use of each drop-off site
- The total amount, by weight, of drugs disposed of by each method, presented in a manner that allows the department to conduct an audit to verify the information

C. Mail-back Services

Upon Request Service

In accordance with ORS 459A.209(2)(k) and (L), the Foundation will provide prepaid, preaddressed Mailers to all Covered Entities at no cost. Three types of Mailers including Standard Mail-back Envelopes, Inhaler Mail-back Envelopes and Auto-injector Mail-back Packages will be available for request to all Covered Entities on the approved Plan Website and by calling 1-800-350-0396, option 5, immediately upon Plan approval on July 1, 2021. Standard Mail-Back Envelopes will accept all Covered Drugs, including pills, creams and liquids, and schedule II-V controlled substances. The Foundation provides separate envelopes for inhalers and Mail-Back Packages for Auto Injectors. The Mailers provide written instructions for returning Covered Drugs, inhalers or Auto Injectors.

Covered Entities are able to request up to three Standard Mail-Back Envelopes or Inhaler Mail-Back Envelopes at a time via the Program Website or Toll-free Phone Number. Covered Entities will receive the Envelopes no later than 10 business days from date of request.

When a Covered Entity or an in-home hospice provider calls the Toll-free Phone Number, the Foundation will take the required information from the Covered Entity or in-home hospice provider over the phone. The required information for shipment will be entered for the Covered Entity or in-home hospice provider and the Mailer will be shipped directly to the Covered Entity, which they can then ship back free of charge. The Foundation will accommodate bulk ordering for in-home hospice providers upon request.

Mail-back Distribution Sites Service

The Foundation will offer Mail-back Services to Covered Entities at Mail-back Distribution Sites throughout the state in addition to the required Drop-off Sites and when approved by DEQ. The Foundation recognizes that such Mail-back Distribution Sites do not satisfy the requirement to establish the minimum number of Drop-off Sites in ORS 459A.209(2)(i)(A)-(B) but can be approved by DEQ to be used in population centers where the Program Operator is unable to provide the required number of Drop-off Sites. The Foundation continues to work with each Authorized Collector who has agreed to offer Mail-back Services to offer Drop-off Services.

The Foundation obtains signed order forms where Mail-back Distribution Sites will be established. Each Site will agree to maintain compliance with the Drug Take-Back Law and will remain in compliance to that end. Each drop-off site is required to provide access to Covered Entities during normal business hours, display signage and instructions regarding proper use of all Envelopes and Packages and comply with all applicable state and federal laws. The Foundation will provide to each Mail-back Distribution site educational information to provide to Covered Entities regarding the safe disposal of medications.

Once a location has been accepted as a Mail-Back Distribution Site, the Foundation will send a Mail-Back Starter Kit. Standard Mail-Back Envelopes will accept all Covered Drugs, including pills, creams and liquids, and schedule II-V controlled substances. The Starter Kit will include 25 Standard Mail-Back Envelopes. Inhaler Mail-Back Envelopes and Auto-Injector Mail-Back Packages (described below) will be provided with the Starter Kit at a quantity of 10 and Sites will have the option to reorder when needed. The Starter Kit is a counter top display that comes pre-assembled. The front of the box displays information about what can and cannot be included in the Mailers and how the Covered Entity may request more Mailers via the Program Website or Toll-free Number. There is currently no limit on the number of Envelopes that a Covered Entity may take from a Mail-back Distribution Site. The Envelopes provide written instructions for returning Covered Drugs

The Foundation will track the unique identifier for all Mailers sent to each Site for fulfillment and logistical purposes. The Foundation will add a visual reorder trigger in the box of Standard Mail-back Envelopes. Once the Site gets to the reorder trigger in the box, the visual reorder trigger will instruct the Site to email the Foundation for another kit. This service model ensures that there is no 'down time' at the site for Standard Mail-back Envelopes. If a Site begins to use a larger number of Standard Mail-back Envelopes, the number of fulfilled Standard Mail-back Envelopes sent to that Site will be increased. As needed, the Foundation will assess the need to increase the quantity of Envelopes sent to each Standard Mail-back Envelope Site. This will be monitored by the request frequency data per Site and will be assessed on an as needed and per Site basis. Each site will be reassessed yearly or as needed should the frequency of fulfillment from one particular Site increase dramatically.

The Foundation is committed to providing all Authorized Collectors an option to supply Covered Entities with information regarding Mail-back Service options. The Foundation will provide both Mail-back Distribution Sites and Authorized Collectors with promotional brochures. Additionally, the Foundation will offer mail-order pharmacy filling prescriptions in the State of Oregon by mail to include the promotional brochures for the same options.

The envelopes provide written instructions for returning Covered Drugs

Description of Mailers

A description of Mailers used for both requested and Mail-back Distribution Sites Mail-back services is provided below.

The Standard Mail-back Envelopes and Inhaler Mail-back Envelopes will meet DEA Rule requirements under § 1317.70(c), specifically:

- Preaddressed, postage paid

- Nondescript and does not indicate what may be inside
- Waterproof, tamper-evident, tear-resistant, and sealable
- Contain a unique ID number that allows for tracking
- Include instructions for the user that indicate the process for mailing the package, substances that can be sent, notice that packages can only be mailed in the US customs territory and notice that the only packages provided by the Authorized Collector will be accepted
- No Personally Identifiable Information will be required

Both Envelopes are white in color with a gray interior and are 7" x 10". The Envelopes include a 3" perforated lip security seal. They are distributed by our third-party contractor 123 Compliant Logistics, Inc.

A sample Standard Mail-Back Envelope is shown below:

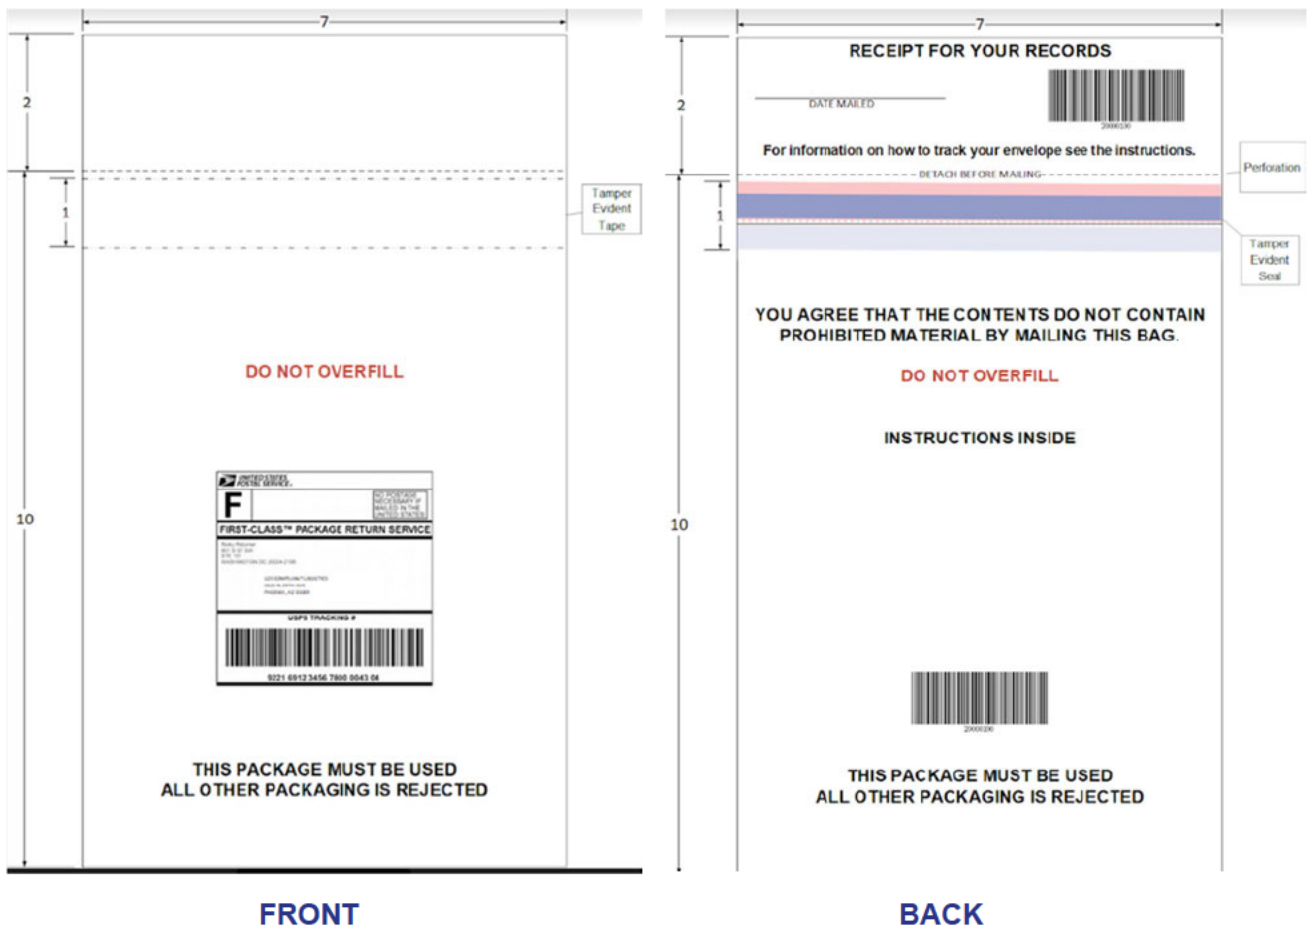

Figure 2: Sample Standard Mail-Back Envelope

Sample Inhaler Mail-Back Envelope

Covered Entities will be able to request three (3) Inhaler Mail-Back Envelopes at a time via the Program Website or Toll-free Phone Number. Covered Entities will receive the Inhaler Mail-Back Envelopes no later than 10 business days from date of request.

A sample Inhaler Mail-Back Envelope is shown below:

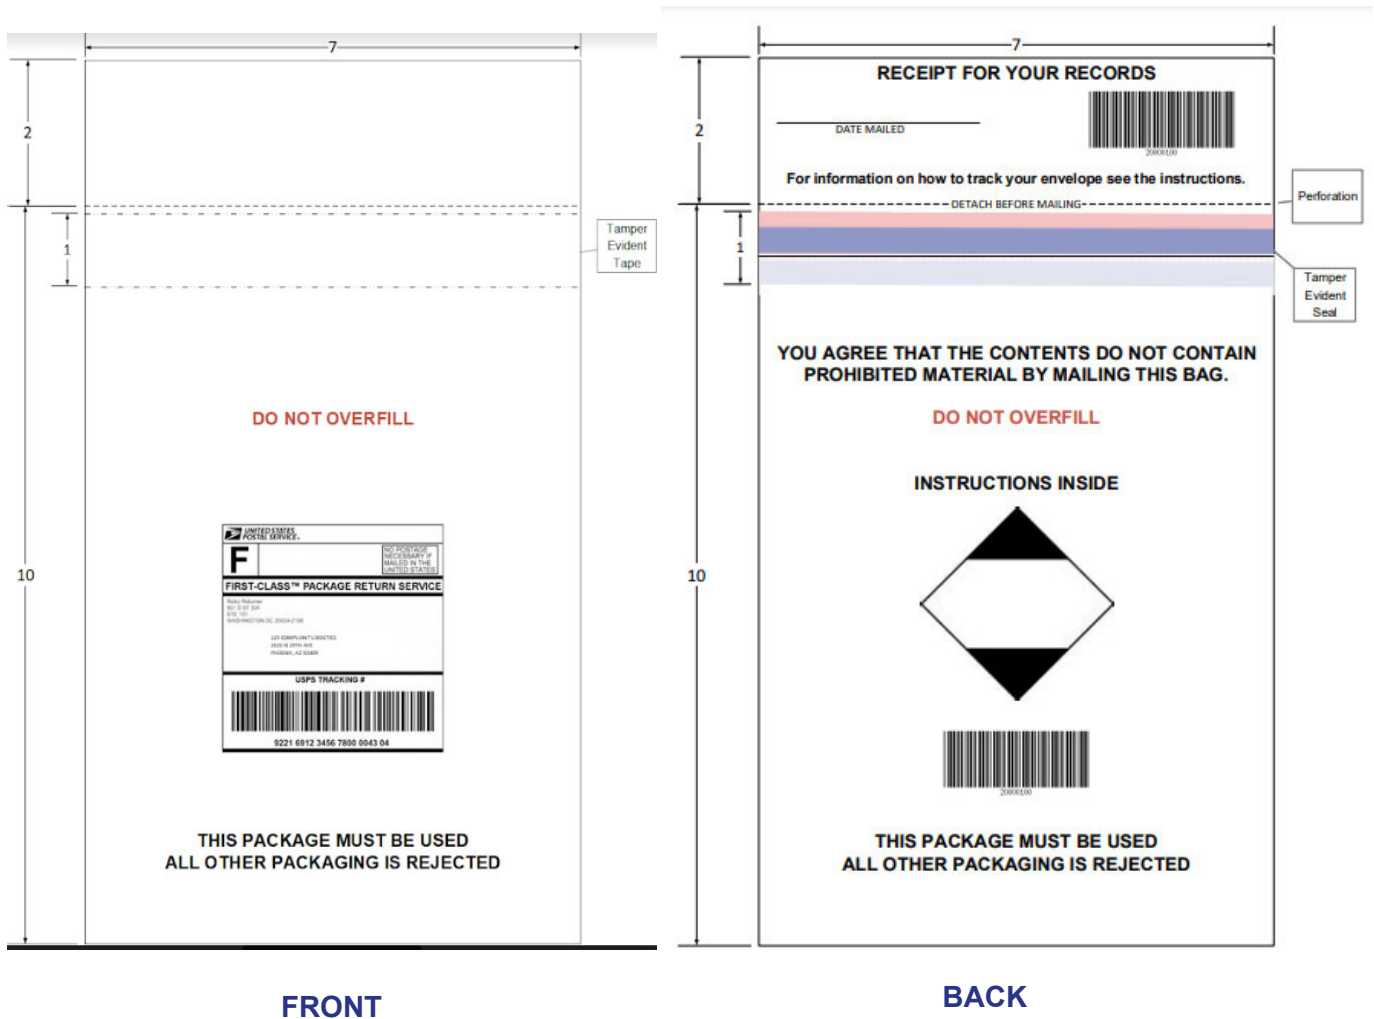

Figure 3: Sample Inhaler Mail-back Envelope

Sample Auto-Injector Mail-Back Package

Covered Entities will also be able to request one (1) Auto-Injector Mail-Back Package at a time via the Program Website or Toll-free Phone Number. Covered Entities will receive the Auto-Injector Mail-back Packages no later than 10 business days from date of request. Auto-Injector Mail-back Packages will meet all DOT requirements and will be fulfilled by 123 Compliant Logistics, LLC. See below for specifications and sample.

Specifications	
Access	Petals
Dimensions (in.)	7.5 x 3.6 x 3.6 in.
Color	Red
Lid Type	Hinge Cap
Liquid Absorbing Pad	Product has liquid absorbing pad
Universal Biohaz Sym	Product has universal biohaz symbol
Volume (L)	1.4 qt

Figure 4: Sample Auto-Injector Mail-back Package

Mail-Back Service Instructions

Mail-Back instructions to Covered Entities for all types of Mailers are provided in Appendix J.

Mailer Tracking

All Mailers will have a unique, serialized identification number. Mailers distributed directly to Covered Entities via the Program Website or Toll-free Phone Number requests will be tracked by the Foundation when sent to Covered Entities and tracked through receipt at 123 Compliant Logistics to final destruction at the destruction facility.

This tracking process will allow the Foundation to report the number of Mailers distributed and returned in the Annual Reporting provided to DEQ as required. Please see the subsection E below for additional information retained for reporting purposes.

Mail-back Service Reporting

Pursuant to ORS 459A.230(1)(c) and (i), the Foundation will include in the Annual Report the following information:

- The amount, by weight, of drugs collected by Mail-back Service
- The total amount, by weight, of drugs disposed of by Mail-back Service.

D. Covered Drug Collection Events

The Foundation will hold Collection Events that will comply with ORS 459A.221 and only where the Foundation is seeking DEQ approval per ORS 459A.218(3). Collection Events will be held in accordance with the applicable regulations and protocols of the Drug Enforcement Administration of the United States Department of Justice; and in coordination with the local solid waste management officials who have jurisdiction over the impacted area. [2019 c.659 §8]

Below is a description for planning, hosting, staffing, and promoting Collection Events.

Method for Determining the Need for Collection Events

Where the convenience requirements set forth in ORS 459A.209(2)(i) cannot be met, the Foundation will make a request for additional services and events to DEQ. More details about how the Foundation makes this request are described in IV(B). The gaps in coverage and convenience that exist in each County and Population Center will be continuously evaluated, as well as progress toward fulfilling set collection goals to determine the need for Collection Events. As a result of any identified gaps, the Foundation will plan and execute approved Collection Events in order to meet the required Convenience Standard.

Location Planning

Locations of Collection Events will be determined based on the Population Centers that are most in need while taking into consideration their access to Kiosk and Mail-back Distribution sites. Once the area of need is identified and upon approval, the Foundation will explore locations where it is feasible to host a Collection Event. Most often this will be at a Law Enforcement Agency (LEA) or a satellite LEA location nearest the target area. However, the Foundation has relationships with many other

organizations that may be interested in hosting a Collection Event. We may determine these locations to be even more convenient for Covered Entities if they are places that the population is already visiting on a regular basis or can accommodate unique situations such as drive-through collection during peak flu and virus seasons. Additionally, the Foundation will consider the willingness or availability for LEA's to provide oversight at the selected location. The Foundation will ensure any selected locations meet all applicable laws and regulations.

Event Staffing and Oversight

In compliance with DEA 1317.65(a)-(b), the Foundation will ensure that at least one Law Enforcement Agency personnel is present at each Collection Event. LEA's will be responsible for maintaining any records of removal, storage, or destruction of the controlled substances collected in a manner that is consistent with that agency's recordkeeping requirements for illicit controlled substances evidence. In addition, any controlled substances collected at collection events will be stored and transferred for destruction in a manner that prevents the diversion of these substances.

The Foundation will provide adequate staffing and resources to assist LEAs with logistics, coordination and/or other needs during the event. It will be the Foundation's responsibility to coordinate with the City and LEAs to ensure compliance with all applicable laws and regulations. The Foundation will work with the designated LEA to ensure that all material collected is placed in compliant Kiosks and any material that does not meet legal requirements is rejected.

Execution Procedures

As required by DEA 1317.65, Law Enforcement Officers employed and authorized by the LEA will maintain control and custody of the collected substances from the time the substances are collected from the Covered Entity until secure transfer, storage, or destruction of the controlled substances has occurred.

The Foundation will ensure that only ultimate users and persons entitled to dispose of an ultimate user decedent's property in lawful possession of a controlled substance in Schedule II-V may transfer these substances to law enforcement during the Collection Event. No other person will handle the controlled substances at any time.

At the conclusion of Collection Events, the Foundation will work with LEAs to ensure that the collected materials are properly weighed, packaged, and shipped to the Foundation's designated destruction partner (see Section E below) in compliance with all applicable laws and in coordination with local solid waste management officials. As is standard practice for Kiosk returns under this Plan, Containers will be tracked via their unique identifiers from shipment location to the designated destruction facility.

The Foundation will make certain that LEAs keep a record of the following information after the transfer of controlled substances as a result of any Collection Events:

- Unique identification number of the sealed inner liner transferred
- Size of the sealed inner liner transferred (e.g., 35-gallon)
- Name, address, and registration number of the reverse distributor to whom the controlled substances were transferred

Collection Event Promotion

The Foundation will work with the local law enforcement agency or other designated location on any advertisement, promotion, set-up and tear down of the event and community engagement in person. The Foundation will provide all promotion for the Collection Event, including local advertising, LEA (or other location organization), social media, and press releases to local news outlets.

Collection Event Reporting

Pursuant to ORS 459A.230(1)(c), (f), and (i), the Foundation will include in the Annual Report the following information:

- Date and location of each collection event held pursuant to ORS 459A.221
- The amount, by weight, of drugs collected at each collection event
- The total amount, by weight, of drugs disposed of by collection events

E. Policies, Procedures and Management Practices

The Foundation will ensure that it acts in compliance with all applicable laws, rules, and regulations related to the collection, handling and disposal of Covered Drugs and as specified by the Plan requirements and require, by contract, that Service Providers and Authorized Collectors are also compliant with all laws, regulations, and legal requirements.

The Foundation will specifically require Authorized Collectors and Service Providers involved in collection services, transportation, or disposal to comply with The Drug Take-Back Law and regulation, The Controlled Substances Act, 21 USC SS 801-971 and 21 CFR SS 1317; United States Department of Transportation Hazardous Materials Regulation, 49 CFR parts 100-185; Board of Pharmacy, and all applicable state and federal laws.

The Foundation's Logistics Manager:

Nicholas Massaro
Manager, Consumer Drug Take-Back
(336) 770-1992
Nicholas.Massaro@inmar.com

The following is a list of Service Providers who will be providing transportation and disposal to fulfill the requirements of this Plan and is comprehensive.

Company Name	Contact Information	Registration Information	Type of Incineration
123 Compliant Logistics, LLC 2626 N 29th Ave Phoenix, AZ 85009	Rory Buske 602-612-4140	DEA Reverse Distributor-Collector: R90571264	N/A
Clean Harbors Aragonite 11600N. Aptus Rd. Aragonite, UT94029	Michael Marlow 435-884-8100	EPA ID: UTD981552177	Hazardous Waste Incinerator-All Covered Drugs

Clean Harbors El Dorado, LLC 309 American Circle El Dorado, AR 71730	Dan Roblee 870-863-7173	EPA ID: ARD069748192	Hazardous Waste Incinerator- All Covered Drugs
Veolia ES Technical Solutions, L.L.C 7665 Highway 73 Port Aurthur, TX 77640	David Michaelis 281-216-9618	EPA ID: TXD000838896	Hazardous Waste Incinerator- All Covered Drugs
TransChem Environmental 542 East 27th Street Tucson, AZ 85713	520-829-5651	DOT Registration: 052119550060B Hazardous Materials Safety Permit: US-1341480-AZ-HMSP	Hazardous Waste Transporter – All Covered Drugs
FedEx	Eric Stillson 800-469-9993		Common Carrier – Packaged Containers
USPS	Jackie Purcell 919-501-9394		Common Carrier – All Mailers and Containers

The Foundation has established standard operating procedures for the following and each is described in detail below:

1. Handling and disposal
2. Safe and secure tracking of Covered Drugs from collection through final disposal
3. Reporting safety and security problems to DEQ
4. Protecting patient information during processing, collection, transportation and disposal of medications
5. Oversight of service providers for the gathering of information for annual reports and auditing of such information for accuracy and timely delivery to DEQ
6. Authorized Collector agreements ensuring compliance with laws and registration with the Oregon Board of Pharmacy.

1. Handling and Disposal

The Authorized Collector will properly seal, securely store, and arrange for pickup of the Packaged Container Inner Liner from the registered location in a manner consistent with the DEA Rule. The Packaged Container Inner Liner will include a pre-addressed and prepaid shipping label. In accordance with ORS 459A.218(2)(c)(B), the FedEx representative will take possession of the Packaged Container and deliver it to 123 Compliant Logistics for witnessed transportation to witnessed incineration. All Mailers received at 123 Compliance Logistics will also be taken via witnessed transportation to witnessed incineration.

123 Compliant Logistics operates in full compliance with DEA § 1317.75(c), which prohibits handling substances after they have been deposited into a Kiosk.

All Covered Drugs shipped directly to 123 Compliant Logistics will be transported using their contracted, licensed hazardous waste transporter, TransChem Environmental to the appropriate disposal facility to be incinerated quickly, securely, efficiently, and in accordance with all DEA requirements. 123 Compliant Logistics will be responsible for all DEA Form 41 record keeping requirements.

123 Compliant Logistics, TransChem Environmental, and FedEx will comply with all local, state, and federal laws and regulations surrounding the transportation and disposal of Covered Drugs.

Per ORS 459A.230(1)(b), (g), (h), and (n), the Foundation will include in the annual report the following information:

- The total amount, by weight, of drugs collected under the drug take-back program
- Method or methods used to transport drugs collected under the drug take-back program
- The disposal technologies or processes used pursuant to ORS 459A.224 and which facilities or incinerators were used
- An attestation that all covered drugs collected under the Drug Take-Back Program were disposed of in compliance with applicable laws, rules and regulations.

2. Safe and Secure tracking of Covered Drugs from collection through final disposal

Containers and Inner Liners will have a serialized identification number to enable tracking at all stages of the return process illustrated below.

Figure 5: Return Process Tracking

Tracking is well-documented as evidenced by the serialization tracking forms referenced below. This form must be completed and witnessed by two Authorized Collector employees, which assures compliance and safety across the program, and internally by both the stewardship organization and the Authorized Collector.

DRUG DISPOSAL SERIALIZATION TRACKING SHEET INNER LINER TRACKING FORM

INMAR intelligence + LIFEINCHECK™ CONSUMER DRUG TAKE-BACK
 Serialization Tracking Sheet should be validated by 2 pharmacy employees.

Name of Collecting Pharmacy		Address of Collecting Pharmacy				Collecting Pharmacy DEA #:			
Size of Liner		Address of Reverse Distributor/Disposal Site				Reverse Distributor/Disposal Site DEA #			
1 SERIAL NUMBER	2 Date Liner Acquired (1 Signature)	3 Date Liner Installed (2 Names & Signatures)		4 Date Removed (2 Names & Signatures)		5 Date Transferred to Storage (2 Names & Signatures)		6 Date Shipped (2 Names & Signatures)	
Ex: 32587	4/26/19 <i>John Jones</i>	4/26/19 John Jones <i>John Jones</i> Sally Smith <i>Sally Smith</i>		5/26/19 John Jones <i>John Jones</i> Sally Smith <i>Sally Smith</i>		5/26/19 John Jones <i>John Jones</i> Sally Smith <i>Sally Smith</i>		5/27/19 John Jones <i>John Jones</i> Sally Smith <i>Sally Smith</i>	

Figure 6: The Foundation Serialization Tracking Form

The purpose of this form is to document the use of the serialized Inner Liner throughout the collection process and to help the Authorized Collector meet DEA and Board of Pharmacy record keeping requirements. The Foundation will require each Authorized Collector to understand and comply with all federal, state, and local regulatory requirements pertaining to Covered Drugs applicable at the Drop-off Site.

The serial numbers, date acquired, and signature of Authorized Collector employee must be completed upon receipt of the Container and Inner Liner. As illustrated above, the date installed is to be completed by two authorized employees with their names and signatures. The date the Container and Inner Liner are removed from the Kiosks is also to be noted with names and signatures. Finally, the date the Packaged Container and Inner Liner are shipped is noted with authorized names and signatures.

Authorized Collectors must maintain a copy of the completed form, a copy of the FedEx tracking information, and other records as applicable, on file at the Authorized Collector's registered location for at least three years.

3. Reporting safety and security problems to DEQ

Should the integrity and security of a Drop-off Site or collection at Drop-off Sites be compromised, the Foundation will work with Authorized Collector to ensure that the Kiosks and Sites are safe and secure. An example of the type of security incident that would be reported to DEQ includes any suspected unusual or excessive loss or theft. The Foundation maintains a policy which details the process for reporting safety and security problems and Authorized Collectors are trained to follow this process.

In the case of an unplanned event such as a natural disaster or a fire, the Foundation will notify the DEQ in writing no later than 10 business days after learning of the event and report on what steps were taken to remedy the situation. Should the event be labeled catastrophic as defined by FEMA, the Foundation will notify the DEQ as soon as reasonably possible. Safety and security problems will also be summarized in the annual report per ORS 459A.230(1)(j).

4. Protecting patient information during processing, collection, transportation, and disposal of medications

The Foundation provides significant training to our participating Authorized Collectors and strictly follows the DEA Rule for the proper handling of the Kiosks and Inner Liners. This begins with the proper training of the Authorized Collector in the compliant operation of the Kiosks and proper preparation, removal and packaging of the Container. It also involves the training of staff that may come into contact with the Packaged Containers to ensure proper handling. The Foundation strictly complies with state and federal statutes and regulations, including but not limited to the DEA regulations cited below.

According to the DEA - As provided in §§ 1317.60(c) and 1317.70(f), Inner Liners shall be sealed immediately upon removal from the Kiosk; sealed Inner Liners and Standard Mail-back Envelopes shall not be opened, x-rayed, analyzed, or otherwise penetrated. Accordingly, their contents shall not be sorted or inventoried subsequent to being placed into Kiosks or Mailers.

To clarify this, § 1317.75(c) was modified to add the prohibition against individually handling substances after they have been deposited into Kiosks.

The Foundation and contracted Service Providers and Authorized Collectors will comply with all regulations regarding the protection of patient privacy and will be HIPAA and Protected Healthcare Information (PHI) compliant. Any and all patient information on drug packaging will be promptly destroyed in the unlikely event of exposure.

5. Oversight of service providers for the gathering of information for annual reports and auditing of such information for accuracy and timely delivery to DEQ

The Foundation oversees Services Providers to ensure that required information is being tracked, audited, and provided via annual reports as required by 459A.230. The Foundation enters into service agreements with each Service Provider to ensure compliance with all laws and set forth the parameters of annual reporting. In a joint effort between Operations and Regulatory and Compliance teams, information gathered by service providers is audited for accuracy and completeness before being compiled into desired formats and provided to DEQ.

In accordance with ORS 459A.209(2)(i), the Foundation is committed to providing equitable access to all Covered Entities throughout the state. The Foundation will partner with local health organizations and community leaders to understand the needs for all communities including Historically Underserved Communities and the federally recognized tribes of Oregon. These outreach efforts will be documented and a summary will be provided in the annual report. The Foundation will track and document the progress of convenient service to all counties and communities. The Foundation will evaluate program access on a quarterly basis and implement additional services and events if needed to ensure convenience and equitable access to all Covered Entities.

The Foundation reports on the rate of usage in the annual report. The Foundation will report on the number of Drop-off Sites which are a part of the Plan, the total weight collected from each Drop-off Site in the previous reporting year, the total amount of weight collected overall from all sites combined, the total amount of Mailers distributed throughout the state in the previous year, the amount of Mailers returned for destruction, how many Mailers were distributed per Mail-back Distribution Site, the total weight collected from Mailers originating at each Mail-back Distribution Site and the total weight of all Mailers that have been returned in the previous year. The Foundation also reports the total amount of drugs collected at each Collection Event and a total for all Collection Events in its annual report.

6. Authorized Collector agreements ensuring compliance with laws and registration with the Oregon Board of Pharmacy

Pharmacies being considered by the Foundation as Authorized Collectors for the Stewardship Plan must be registered with the Oregon Board of Pharmacy. Authorized Collector agreements specifically require Authorized Collector's commitment to compliant operation of the Kiosk and shipping of contents in accordance with the DEA regulations. A refusal to sign the agreement or

comply with the DEA regulations would result in an Authorized Collector being excluded from the Stewardship Plan.

V. Public Awareness and Outreach

The Foundation will execute a comprehensive and measurable public education and outreach strategy to drive awareness of the Stewardship Plan and maximize participation pursuant to ORS 459A.227. In addition to preventative education, the Foundation's strategy is designed to ensure that where and how to return Covered Drugs is widely understood by Oregon Covered Entities and Authorized Collectors.

Pursuant to ORS 459A.227(1)(a)-(d), the individual components of the Foundation's public outreach strategy are detailed below. Across all tactics and key messages will include, but not be limited to, the following:

- Promote the safe and secure storage of Covered Drugs by Covered Entities
- Awareness of the inherent risks of improperly storing or disposing of opioids or opiates and other Covered Drugs
- Discourage the disposal of Covered Drugs in the garbage or sewer system
- Promote the disposal of Covered Drugs through the use of the Drug Take-back Program including by publicizing information on Drop-off Site locations, hours of operation, Mail-back Services, collection processes and any Collection Events

The Foundation will coordinate to ensure that Covered Entities clearly understand the logistics, safety, and educational components of the Program. The Foundation will coordinate educational outreach with other Plan Operators to ensure consistent messaging regarding the geographic location of Kiosks, safe disposal of medication, statistics regarding the dangers of pharmaceutical waste in the waste-stream, drug abuse statistics and other program advocacy, means of Envelope distribution, and any other pertinent information related to the success of the program. This coordination will include the fair and equitable division of resources. Additionally, the Foundation will coordinate with other Program Operators to ensure consistent messaging among the types of educational outreach.

A. Tools for Promotion

Printed Materials

In accordance with ORS 459A.227(4), the Foundation will make available on the Website and distribute promotional written materials to Retail Drug Outlets, hospitals with an on-site pharmacy and health care clinics with an on-site pharmacy so that they can, upon request, provide these materials to Covered Entities at the time that a Covered Drug is delivered to a Covered Entity.

These materials will:

- Provide instruction on how to safely store Covered Drugs at home
- Inform of the risks of disposing of Covered Drugs in inappropriate waste streams (e.g., solid waste collection, sewer, or septic systems)
- Outline how to participate in the Drug Take-back Program for safe disposal of Covered Drugs.

- Inform Covered Entities about Drop-off Site locations, hours of operation and Mail-back Services.

All materials will leverage explanatory graphics to aid in comprehension, will be easily understandable by interested parties with varying levels of English proficiency, and will be translated into Spanish, Chinese, Vietnamese, Somali, and Russian, which are the state identified language preferences for voters (<https://sos.oregon.gov/voting/pages/myvote.aspx?lang=en>).

The Foundation will provide a creative advertising template for print publications. To drive public relation impression, the Foundation will develop press release templates and perform outreach to local media. The Foundation will report the agreed upon coordination strategy to DEQ no later than 30 days after approval of multiple Plan Operators is made.

Kiosk Signage

The Foundation will work with Authorized Collectors at the time of agreement negotiation to develop a readily recognizable and consistent design for Kiosks to be used at Drop-off Sites and to develop clear, standardized instructions to Covered Entities on how to use those Kiosks. Each Kiosk is equipped with clear graphical instructions for proper use in the form of magnets and stickers that are placed on the Kiosk at the time of implementation. Please see Appendix J for a sample image of the Kiosk and disposal instructions.

The Foundation will also work with other Program Operators to coordinate on signage and the standardized instructions listed on those Kiosks. The Foundation will align with other Program Operators on signage and messaging to create consistent information.

Outreach Demographics

The Foundation has a system in place that allows us to efficiently deploy local media using traditional tactics for general awareness and programmatic media to sustain a presence throughout the year. Below are details that have been gathered to inform the outreach process. The Foundation will reach all demographics including the elderly and underserved.

The below population data was gathered from the Portland State University Population Research Center's 2019 Population Estimate Reports (<https://www.pdx.edu/population-research/population-estimate-reports>). Median HHI data was gathered from the U.S. Census Bureau (<https://www.census.gov/quickfacts/fact/table/OR/INC110219>).

Oregon

- Population 4,236,400
 - Ages 0-17 20.4%
 - Ages 18-64 61.5%
 - Ages over 65 18.1%
- Households 1,808,465
 - White alone 86.7%
 - Asian 4.9%
 - Hispanic or Latino 13.4%
 - Black or African American 2.2%

- Median HHI \$62,818

Target Demographics:

- General Public
- At risk populations including the elderly and homeless population
- Minority, low-income, rural and other Historically Underserved Communities
- Pharmacies
- Retailer of Covered Drugs
- Health Care Providers & Patients
- Skilled Nursing and Long-term Care Facilities
- Veterinary Providers & Animal Lovers
- Public Health Facilities

Media Communication Methods

The Foundation will reach out to Historically Underserved Communities and the general public through direct mail in a campaign deployed twice a year around the National Consumer Drug Take-Back (NCDTB) days. The majority of the direct mail will go to underserved and rural areas and expand outwards to the larger cities. The semiannual direct mail campaign will occur for the first two years with adjustments to the campaign being made in year three.

Programmatic advertising refers to the data and technology-driven process by which buyers and sellers of digital advertising space purchase or sell that inventory in real time. The programmatic campaigns will run throughout the year with more targeting leading up to the NCDTB days (last Saturday in April and October each year) each year. The Programmatic campaign will occur for the first two years with adjustments to the campaign being made in year three.

The Foundation will provide Influencer Marketing services. The Social Media Influencer campaigns will occur throughout the year with more targeting leading up to the NCDTB days for the first two years. Adjustments to campaigns will be made in year three.

Beyond the above mentioned, the Foundation will also post about the program twice monthly on our social media channels and promote the posts with amplified media when deemed necessary.

1. Press Release

- Sent at Plan Approval
- Local Media Outlets/Partners
- National PR Wire

2. Direct Mail

- PSA Announcement Postcard sent to Covered Entities (5x7 Postcard) twice a year leading up to National Consumer Drug Take-Back day.
- \$15,000/year

3. Print Ads

- Run ads in major newspapers quarterly

4. Programmatic Media

- Provide targeted display and/or video ads on browser sites on internet capable devices (smart phones, computers, tablets, etc.). To do this, the Foundation uses Geo-targeting which uses the physical locations of the Kiosks to target Covered Entities within close proximity

- The Foundation will run ads across a prequalified list of over 200K domains
- The Foundation will run targeted ads twice a year for the 6 weeks leading up to the National Consumer Drug Take-Back Days (last Saturday in April and October each year).
- \$15,000/year

5. Influencer Marketing

- The Foundation will run several social media influencer campaigns. Campaigns will include one campaign every quarter for the first two years with evaluation for effectiveness starting in year three
- The Foundation will target NCDTB Days with special campaigns for the month prior to the biannual days
- \$15,000/year.

Impact Measurement

The Foundation will provide a description of outreach initiatives in its Annual Report.

With specific regard to social influencer marketing and targeted media, the Foundation will use measurement tools and philosophies which have continuously set the industry standard with their emphasis on transparency and quantifiability over vanity metrics and theoretical explanations. All paid and organic activity is measured using the industry's most powerful analytics suite to capture true ROI (Return on Investment).

Website

The Foundation will provide a neutrally branded, mobile-optimized Website which will publicize collection options and educate all Covered Entities, including individuals with limited English proficiency, on proper disposal practices. The Foundation will use enhanced search engine optimization to ensure easy location and access.

Specifically, the website will:

- Allow Covered Entities to contact the Foundation
- Allow Covered Entities to find the nearest Drop-off Site or Mail-back Distribution Site via an interactive map. The list of locations will be updated monthly to ensure accuracy. The location list will be inclusive of all Kiosks located in the State including those operated by other plan operators.
- Allow Covered Entities to request prepaid Mail-back Envelopes.
- Clearly indicate what substances are and are not accepted. Graphics of unacceptable substances are provided for additional clarity.
- Include educational and outreach materials safe storage and disposal of Covered Drugs.
- Feature links to Consumer Drug Take-Back social media pages for more useful content.

Potential Authorized Collectors interested in participating in the Program will be able to request more information through the Website. In addition, participating Authorized Collectors will have access to resources for compliant Kiosk management (including installation, tracking, and shipping) and will be able to request on-site Kiosk maintenance and support.

Toll-free Phone Number

Coordinating with other Program Operators as needed to comply with ORS 459A.227(3), the Foundation will operate a toll-free call center that interested parties can call to learn more about the

Stewardship Plan, and drug disposal best practices. Covered Entities will also be able to request information about the nearest Drop-off Site or Mail-back Distribution Site, request that a prepaid Mailer be sent to them, or acquire information about other collection processes. The call center is operated with live operators and will be staffed with a third party service to assist with live translation in the recommended languages of Spanish, Chinese, Vietnamese, Somali, and Russian. All operators are trained to assist and answer questions related to any and all questions related to the Stewardship Plan operation including but not limited to Authorized Collector Kiosk support and service requests.

Callers with medical emergencies will be directed to call 911. Patients with medication-related questions will be directed to contact their health care provider(s).

Authorized Collectors will also be able to call the Toll-free Phone Number to request on-site Kiosk maintenance and support.

Coordination with Other Approved Plans

In accordance with ORS 459A.227(3), the Foundation will work with other Program Operators to ensure that Covered Entities can easily identify, understand and access the services provided by all drug take-back programs operating under a DEQ approved plan. This includes the development of a neutrally branded Program Website. The Foundation will collaborate with other approved Program Operators to identify a Service Provider who can provide these services. The Foundation will also work with other approved Program Operators to establish a Toll-free Phone Number. The Foundation will work with other approved Program Operators to establish a common logo for statewide Drug Take-back Programs that can be included on the Website, outreach and educational materials, and Kiosks.

Upon alignment of coordination, the Foundation will request approval from DEQ in writing as to the nature of these collaborative efforts no later than 30 days after approval of multiple program Plans.

Public Awareness and Outreach Reporting

Pursuant to ORS 459A.230(1)(k) and (m), the Foundation will provide the following information in the annual report:

- A summary of the Drug Take-Back Program's compliance with ORS 459A.227
- Whether service was provided in compliance with the Foundation's description pursuant to ORS 459A.209 (2)(i) and whether the public awareness goals have been met, including a summary of strategies and surveys used, and copies of any promotional materials developed by the Drug Take-Back Program.

B. Biennial Survey

The Foundation, in accordance with ORS 459A.227(h), will conduct a biennial survey of Covered Entities, pharmacists and healthcare professionals in the state of Oregon who interact with Covered Entities. The goal of the survey is to measure public awareness of the Program such as through measuring the percentage of Covered Entities (including Historically Underserved Communities), pharmacists, and healthcare professionals who are aware of the Foundation's Program. The survey will measure how these above groups access services, assess the convenience and ease of use of Kiosks and other collection methods; and assess knowledge and attitudes regarding the risks, such as abuse, poisoning, and overdose from improperly storing and improperly discarding or abandoning Covered Drugs.

The Foundation will design survey questions to evaluate the effectiveness of different messaging in raising awareness of the Drug Take-back Program, increasing usage and increasing knowledge of or changing attitudes towards risks posed by improper storage or disposal of Covered Drugs. The Foundation commits to submitting a project plan to DEQ for review that will describe the following:

- Estimated overall number of potential survey respondents
- How those surveyed will be representative of the State such as in terms of race, gender, income, and location of residence
- Methods of contact
- Additional details about the survey and method of delivery.

Results from the survey will be used by the Foundation to improve the effectiveness of the Foundation's Plan. Examples of such improvements could include adjusting the number or location of Drop-off Sites, providing additional services and events in Historically Underserved Communities, improving outreach to and education for Covered Entities including Historically Underserved Communities, and identifying other methods for improving service and outreach. Subsequent biennial surveys will be conducted according to the same timeline described above.

Tasks		Owner	Start	End
Survey Participants contact information Finalized			11/1/2020	8/26/2022
	Review/update List of Survey Participants contact information	Regional Program Manager	11/1/2020	8/26/2022
	Compile List of potential online sites where survey information can be posted	Regional Program Manager	4/4/2022	6/30/2022
	Compile list of places to notify state of survey and where they can access it	Regional Program Manager	4/4/2022	6/30/2022
Biennial Survey Questions Complete			1/31/2022	4/4/2022
	Develop Questions for that measure public awareness of the drug take-back program, assess the convenience of the Drop-off Sites, Mail-back Service and collection events were convenient and easy to use	Regional Program Manager	1/31/2022	3/1/2022
	6 months prior to Annual Report Due (Assuming 11/1/2022) date submit proposed questions to Department of Environment Quality for Comment/Approval,	Regional Program Manager	4/4/2022	4/4/2022
Biennial Survey Complete			9/1/2022	10/15/2022
	Start Promotion of upcoming biennial survey through various outlets		8/15/2022	9/15/2022
	Kickoff Biennial Survey through the various methods	Regional Program Manager	9/1/2022	9/30/2022
	Collect Survey Results and prepare data for Annual Report	Regional Program Manager	9/1/2022	10/28/2022

VI. Goals

	Short Term July 1,2021 – June 30, 2022	Long Term/ongoing (2022+)
Collection	<p>The Foundation sets a collection goal (for Drop-off Sites) of 20 pounds per month per Drop-off Site for a total of 2,740 pounds of Covered Drugs collected from 137 Kiosks monthly and 32,880 pounds between July 1, 2021 and June 30, 2022.</p> <p>The Foundation estimates 5 ounces per Mailer of Covered Drugs collected and 125 pounds per event if approved for additional services and events.</p>	<p>Increase collection weight by 10% each year.</p> <p>(i.e. Year 2 collection estimates of 22 pounds of Covered Drugs per Drop-off Site, 5.5 ounces per Mailer and 137.5 pounds per event.)</p>
Education & Promotion	<p>Begin public awareness and outreach campaign as described in section V of plan with a goal of reaching 50% of Covered Entities in Oregon by June 30, 2022.</p> <p>Obtain a goal for measuring the percentage of the population that has used a Kiosk in 2021.</p> <p>Increase Program awareness for Historically Underserved Communities.</p>	<p>Reach 75% of Covered Entities by June 30, 2023 as measured by the results of surveys taken on September 1, 2022.</p> <p>Sustain a 75% reach to Covered Entities in Oregon annually measured by survey results.</p> <p>Measure the goal for Kiosk use, set a baseline and make plans for improvement.</p> <p>Increase Program awareness for Historically Underserved Communities until 75% of Covered Entities within Historically Underserved Communities have been reached.</p>

VII. Annual Reporting

In accordance with ORS 459A.230, the Foundation will submit every November 1st for the previous year, in a format prescribed by DEQ an Annual Report on the development, implementation, and operation of the Drug Take-back Program that includes:

- A list of Covered Manufacturers participating in the Drug Take-back Program;
- The total amount, by weight, of drugs collected under the Drug Take-back Program;
- The amount, by weight, of drugs collected under each method of collecting drugs under the Drug Take-back Program;
- The address of each Drop-off Site used under the Drug Take-back Program;
- The total amount, by weight, of drugs collected at each Drop-off Site, presented in a manner that assists the department in determining the rate of use of each Drop-off Site;
- The date and location of each Collection Event held pursuant to ORS 459A.221;
- The method or methods used to transport drugs collected under the Drug Take-back Program;
- The disposal technologies or processes used pursuant to ORS 459A.224 and which facilities or incinerators were used;
- The total amount, by weight, of drugs disposed of by each method, presented in a manner that allows the department to conduct an audit to verify the information;
- Whether any safety or security problems occurred during the collection, transportation, or disposal of drugs and, if a problem occurred, a summary of the occurrence and possible resolutions;
- A summary of the Drug Take-back Program's compliance with ORS 459A.227;
- A summary of the annual expenditures of the Drug Take-back Program, aggregated by category;
- Whether service was provided in compliance with the Program Operator's description pursuant to ORS 459A.209 (2)(i) and whether the public awareness goals have been met, including a summary of strategies and surveys used, and copies of any promotional materials developed by, the Drug Take-back Program; and
- An attestation that all Covered Drugs collected under the Drug Take-back Program were disposed of in compliance with applicable laws, rules and regulations.

The Foundation understands that the department will review reports submitted under this section and approve those that comport with the requirements of this section. If the department does not approve a report under this subsection, the Foundation will make necessary revisions for approval according to DEQ's written notice of revisions and timeline for resubmittal. The Foundation understands that the department will publish approved reports submitted under this section on a website of the department.

VIII. Closure Plan

The Foundation doesn't foresee a dissolution of its Plan or Program, however, the following information will be shared in this order with DEQ in the event of a closure.

- The Foundation will notify DEQ as soon as possible of its intent to close the Program. The Foundation will provide the closure date in this email which will be no less than six (6) months from the date of notification in accordance with ORS 459A.212
- The Foundation will continue to service Drop-off Sites, provide Mailers through the Website and any DEQ-approved additional services and events, and continue to maintain and transfer contracts while updating all necessary public facing information in the time period between notification and dissolution

- Auxiliary staff will remain to assist until the identified closure date has arrived
- The Foundation's budgetary reserve will cover costs for the six month closure period

IX. Coordination

The Foundation is capable and prepared to meet the Convenience Standards set forth in ORS 459A.209(2)(i) without needing to provide services jointly with another Plan Operator. There are currently no Drop-off Sites, events, collection services or Authorized Collectors in the Foundation's network that will be shared through contracts with another Program. However, in the scenario that more than one Plan Operator is approved, the Foundation is committed to establishing a legally permissible collaboration framework – if needed for any shared services. The Plan Operators will work to maintain a cohesive Drug Take-back Program that encourages the safe disposal of Covered Drugs as well as ensuring that the collection methods and tools of promotion for the collection of Covered Drugs is consistent throughout the State.

The Foundation will work with other Program Operators to develop a neutrally branded Website landing page where Operators to collaborate and contribute. The Foundation will collaborate with other approved Program Operators to identify a Service Provider who can provide these services. The Foundation will also work with other approved Program Operators to establish a Toll-free Phone Number and to establish a common logo for statewide Drug Take-back Programs that can be included on the Website, outreach and educational materials, and Kiosks.

Upon alignment of coordination, the Foundation will request approval from DEQ in writing as to the nature of these collaborative efforts no later than 30 days after approval of multiple program Plans.

The Foundation understands that any agreement with a Drug Take-back Program that the Foundation relies on to provide any service necessary for DEQ's approval of the Plan under ORS 459A.209 requires that all services provided to our program pursuant to that agreement comply with the terms of the other Drug Take-Back Program's plan and all applicable federal and state laws and regulations, including the Drug Take-Back Law. Should the Foundation have such an arrangement in the future, The Foundation will seek DEQ's approval for changes in this Plan that require approval under ORS 459A.212(1). Additionally, upon DEQ request, the Foundation will provide a copy of any information about such an arrangement, including a copy of the agreements.

X. Implementation Timeline

Implementation Phase	At Plan Approval (prior to 7/1/21)	Phase 1 7/1/21 – 10/1/21	Phase 2 10/2/21-6/30/22	Phase 3 7/1/2022+ (long-term)
Drop-off Sites	Begin installation of Kiosks confirmed and under contract at time of Plan submission (137).	<p>Begin collection of Covered Drugs at all 137 Kiosks confirmed and under contract at the time of Plan submission within 90 days of Plan approval.</p> <p>Continue solicitation of Potential Authorized Collectors.</p> <p>All Kiosks that are confirmed and under contract after plan submission will be installed within 90 days of contract signature per section IV(B) of this Plan.</p>	<p>Continue solicitation of Potential Authorized Collectors. Establish agreements and install additional Kiosk and begin collection at new Drop-off Sites. Benchmarks include securing a minimum of 2 additional agreements per month for Drop-off Sites.</p> <p>All Kiosks that are confirmed and under contract after plan submission will be installed within 90 days of contract signature per section IV(B) of this Plan.</p> <p>Meet the required number of Drop-off Sites in every county and population center or approved number of additional services and events in counties and population centers that lack Drop-off Sites as defined in ORS 459A.209(2)(i).</p>	<p>Maintain the required number of Drop-off Sites or approved number of additional services and events in each county and population center as defined in ORS 459A.209(2)(i). Continue to establish agreements and install additional Kiosks and begin collection at new Drop off Sites. Benchmark includes securing 1 additional agreement per month for Drop-off Sites until the minimum number of Drop-off Sites is achieved.</p>

Mail-back Distribution Sites in Population Centers where the Minimum Number of Drop-off Sites are Met	Send Mailers to Mail-back Distribution Sites in preparation for initiating service on July 1, 2021.	Initiate Mail-back Services at all confirmed Mail-back Distribution Sites on July 1, 2021. (Appendix E)	Maintain Mail-back Services at all confirmed Mail-back Distribution Sites.	Maintain Mail-back Services at all confirmed Mail-back Distribution Sites.
Public Awareness and Outreach	<p>Begin state specific Program Website configuration.</p> <p>Update promotion & education materials for state specific needs.</p> <p>Begin collaboration with other approved Program Operators as needed.</p> <p>Host at least two virtual information sessions for contacts of Historically Underserved Communities between May and September of 2021 and engage in follow-up discussions about how best to provide convenient service to these groups.</p>	<p>Covered Entities will be able to request Mail-back Envelopes through the website on July 1, 2021.</p> <p>Toll-free Phone Number operational on July 1, 2021.</p> <p>Monitoring and support begin For Toll-free Phone Number on July 1, 2021.</p> <p>Complete plan for collaboration with other Program Operators and request DEQ approval.</p> <p>Initiate outreach campaign as described in Section V of Plan.</p>	<p>Maintain Program Website and Toll-Free Phone Number.</p> <p>Maintain outreach campaign as described in Section V of Plan.</p> <p>Implement any changes resulting from collaboration discussions with other Program Operators and approved by DEQ.</p>	<p>Maintain Program Website and Toll-Free Phone Number.</p> <p>Initiate outreach campaign as described in Section V of Plan. Make changes to the outreach methods and frequency with DEQ approval if needed based on survey results.</p> <p>Conduct biennial survey to measure public awareness of the Program in accordance with ORS 459A.227(h). Assess annually the success of outreach based on survey results and make adjustments (approved by DEQ) to ensure outreach goals are met.</p> <p>Host at least one virtual information session annually for representatives of Historically Underserved Communities to ensure continued outreach to these groups and the opportunity to establish additional services that improve convenient service.</p>

<p>Additional Services and Events</p>	<p>Prepare request for additional services and events if needed.</p> <p>Continue identifying community leaders and advocates in communities that are considered to be Historically Underserved. Begin outreach to these leaders and representatives from all nine federally recognized tribal nations. First virtual information event to be held May 26, 2021.</p>	<p>Submit request of approval for additional services and events to DEQ for Mail-back Distribution Sites and events in areas that are underserved by Drop-off Sites by July 1, 2021.</p> <p>Continue outreach to Historically Underserved Communities. Conduct one virtual information event before Oct 1, 2021.</p>	<p>Establish approved additional services and events in accordance with timeline approved by DEQ.</p>	<p>Revisit the need for additional services and events on an annual basis or as often as necessary per ORS 459A.212.</p>

Appendix B: List of Contracted Authorized Collectors and Drop-off Sites

These terms are used to define statuses of our current relationships or potential relationships with Authorized Collector locations. These terms are designed to ease understanding and are defined as follows:

- **Confirmed/Under Contract:** This site has confirmed its interest in participating in our program and has signed a contract with Inmar Rx Solutions
- **In-Discussion:** This site or overall retail client is in discussions with us on participating but hasn't confirmed commitment yet.
- **Notified:** We have communicated in some way (letter, newsletter, email blast, etc.) to this site or retail location about their opportunity to participate in this program.

Appendix I: Notification Letter for Potential Authorized Collectors and Mail-back Distribution Sites

INMAR.COM

September 30, 2020

Dear Sir or Madam,

Inmar Intelligence, with our submission to the Oregon Department of Environmental Quality and in anticipation of the opportunity to operate a Stewardship Plan on behalf of a group of Producers for safe drug disposal, we are hereby committing ourselves to providing safe and equitable resources to the Residents of the State of Oregon. Each day, thousands of Americans inadvertently or unknowingly dispose of Unwanted Covered Drugs in a manner which is unsafe for the human population, adds unnecessary amounts of pollutants to the drinking water and ecosystem and creates undue hazards for our community. Inmar Intelligence stands at the ready to provide solutions to these issues causing harm – and we need your help.

The State of Oregon has issued guidance and plan requirements to all prospective program operators. Part of that guidance is about reaching out to those difference-makers in the community (you) who have gone above and beyond and are already hosting an unwanted covered drug kiosk drop off site. Because the State of Oregon's Drug Take Back Program will begin on January 1, 2021, we are writing now to inform you of the opportunity to have your kiosk transitioned. This means that any fees or costs incurred with the kiosk today will be absorbed by the State program operator – and in this scenario – is Inmar Intelligence.

If you are interested in transitioning your drug collection kiosk to the manufacture funded program – meaning the kiosk operation is free – please reach out to us and let us know. We would be happy to include your name in our program submission to the Department of Environmental Quality when Inmar Intelligence formally submits it's application. Please email take-back@inmar.com and put "Oregon Kiosk Transition" in the subject line so that your email can be triaged accordingly.

We hope that you are interested in partnering with Inmar Intelligence to continue to bring safe medicine disposal options to the residents of the State of Oregon.

We appreciate your consideration and hope to hear from you soon!

Environmentally Yours,

Nick Massaro
Manager, Consumer Drug Take-Back Solutions
Inmar Intelligence

September 30, 2020

Dear Sir or Madam,

Inmar Intelligence, with our submission to the State of Oregon Department of Environmental Quality and in anticipation of the opportunity to operate a Stewardship Plan on behalf of a group of Producers for safe drug disposal, we are hereby committing ourselves to providing safe and equitable resources to the Residents of the State of Oregon. Each day, thousands of Americans inadvertently or unknowingly dispose of Unwanted Covered Drugs in a manner which is unsafe for the human population, adds unnecessary amounts of pollutants to the drinking water and ecosystem and creates undue hazards for our community. Inmar Intelligence stands at the ready to provide solutions to these issues causing harm – and we need your help.

Inmar Intelligence has committed to provide Standard Mail-Back Envelopes in Mail-Back Envelope Starter Kits to interested locations throughout the State of Oregon. Residents throughout the State will be able to walk into a location (hopefully yours) and walk out with an envelope where they can safely dispose of unwanted covered drugs as opposed to flushing or throwing in the trash can. This service is free of charge to residents and location hosts.

Should your location be willing to participate as a Standard Mail-Back Distribution Site, Inmar will provide a Mail-Back Envelope Starter Kit to your location. It will include 20 Standard Mail-Back Envelopes and a visual re-order trigger which will provide instructions for each site to easily order another kit of envelopes. Additional material will be included with information for residents who need to request Inhaler Mail-Back Envelopes or Auto-Injector Mail-Back Packages via our toll free number or website. Inmar Intelligence will also provide the appropriate signage and display material (likely the size of a piece of paper) so that residents are aware of the opportunity.

We hope that you are interested in assisting us in providing this service to the residents of Oregon. If you are willing to participate as a partner in this endeavor, please email take-back@inmar.com and put "Mail-Back Envelope Interest - Oregon" in the subject line so that your email can be triaged.

We appreciate your consideration and hope to hear from you soon!

Environmentally Yours,

Nick Massaro
Manager, Consumer Drug Take-Back Solutions
Inmar Intelligence
