Fire Certification Fingerprint Requirement Information

Oregon Revised Statutes (ORS) and Oregon Administrative Rule (OAR) prohibit fire service professionals who have been convicted of disqualifying crimes from holding National Fire Protection Association (NFPA), National Wildland Coordinating Group (NWCG), or Oregon-specific fire service certifications in the state. To ensure that applicants for fire service certification have not been convicted of disqualifying crimes, DPSST must conduct a state and national criminal background check. A part of this background check requires any applicant for fire service certification who has never been fingerprinted for the purposes of certification, be fingerprinted. Completion of the fingerprint requirement must be done at the time of submitting an E-1 Form or an Application for Certification and is a ON-TIME requirement. For more information on the fingerprint requirement, please see the Fire Program's fingerprint webpage here: <https://www.oregon.gov/dpsst/FirePrograms/Pages/Cert%20Fingerprint-Requirement-Information.aspx>.

All applicants undergoing a fingerprint-based Federal Bureau of Investigation (FBI) record check which includes firefighters applying for DPSST Fire Certifications or utilizing the E-1 Form, must be provided an adequate written FBI Privacy Act statement and procedures for accessing and amending an FBI identification records prior to fingerprinting. If the applicant has not yet being fingerprinted for fire Service certification purposes, please share the below information with them prior to fingerprinting. This statement can be disregarded if the firefighter has already been fingerprinted for fire service certification purposes, but must be provided to those that have not yet completed the fingerprint requirement. To check if a firefighter has already completed their fingerprint requirement, please view their information on the [Oregon Fire Service Information Records Inquiry System \(IRIS\)](#).
