

Built Environment Efficiency Working Group
Tuesday September 5, 2018
2:00-4:00pm
550 Capitol Street NE, Salem OR 97301
Room Meitner

Agenda

- 2:00 – 2:10 Welcome, Introductions
Attendees: Blake Shelide, Ann Hushagen, Warren Cook, Dave Wortman, Elaine Prause, Todd Smith, Dan Elliott, Alex Buylova, Rob Del Mar (phone), Roger Kainu (phone), Ruchi Sadhir (phone)
- 2:10 – 2:20 EO 4F Update (Improved State Standards for Appliances)
- Related LC – ODOE has LC in progress around appliance standards process, update provided to BEEWG
 - Report – ODOE working on draft report, draft anticipated by the end of September for review
- 2:20 – 2:40 Energy Code related item update
- 2019 OEESC – committee recommendations for energy code provisions to be reviewed by Structures Board during November 7 meeting
 - Reach Code – BCD going through rulemaking for Reach Code process and developing technical provisions. BCD staff current reach code proposal includes Part 1 (residential and commercial structures) and Part 2 (Tiny Homes)
 - Cost Analysis Tool – overview of board progress, some BCD boards are discussing. BCD has asked boards to provide input and expects to receive feedback in early 2019. After BCD has received board input, BCD and ODOE will continue to work on consolidating to a common cost analysis tool.
 - Continued interest in having BEEWG provide cost analysis information to BCD boards when they meet next.
- 2:40 – 2:50 EO 4E Update (Helping Key Expanding Industries)
- Discussion of potential data sources to inform analysis, including Northwest Power and Conservation Council data
- 2:50 – 3:20 EO 5B Update (Prioritizing EE in Affordable Housing)
- Meeting summary – recent meeting with agency stakeholders, ETO, BPA, and contractors
 - OHCS provided overview of proposed dates for deliverable drafts, including a presentation to the Housing Stability Council on 11/2
 - Provided an overview of Oregon utility Low Income Assistance summary spreadsheet that OHCS has compiled
- 3:20 – 3:50 Other EO Related items
- PUC 978 docket – PUC was directed by the legislature through SB 978 to undertake process to look how IOUs are regulated in a rapidly changing electric industry

environment, and asked PUC to identify changes that could accommodate trends and support new policy objectives. The final report is available:

<https://www.puc.state.or.us/Renewable%20Energy/SB978LegislativeReport-2018.pdf>

- Architecture 2030 Zero tool – overview of new tool published by Architecture 2030 to identify building energy goals on the path to net zero.

3:50 – 4:00

Close-out/Next Steps

- October meeting will include a share-out of activity on DAS plug-load and procurement work
