Rulemaking Advisory Committee

- How BCD adopts codes
- Purpose of a RAC
- Recap of latest RAC session
- How things will go forward

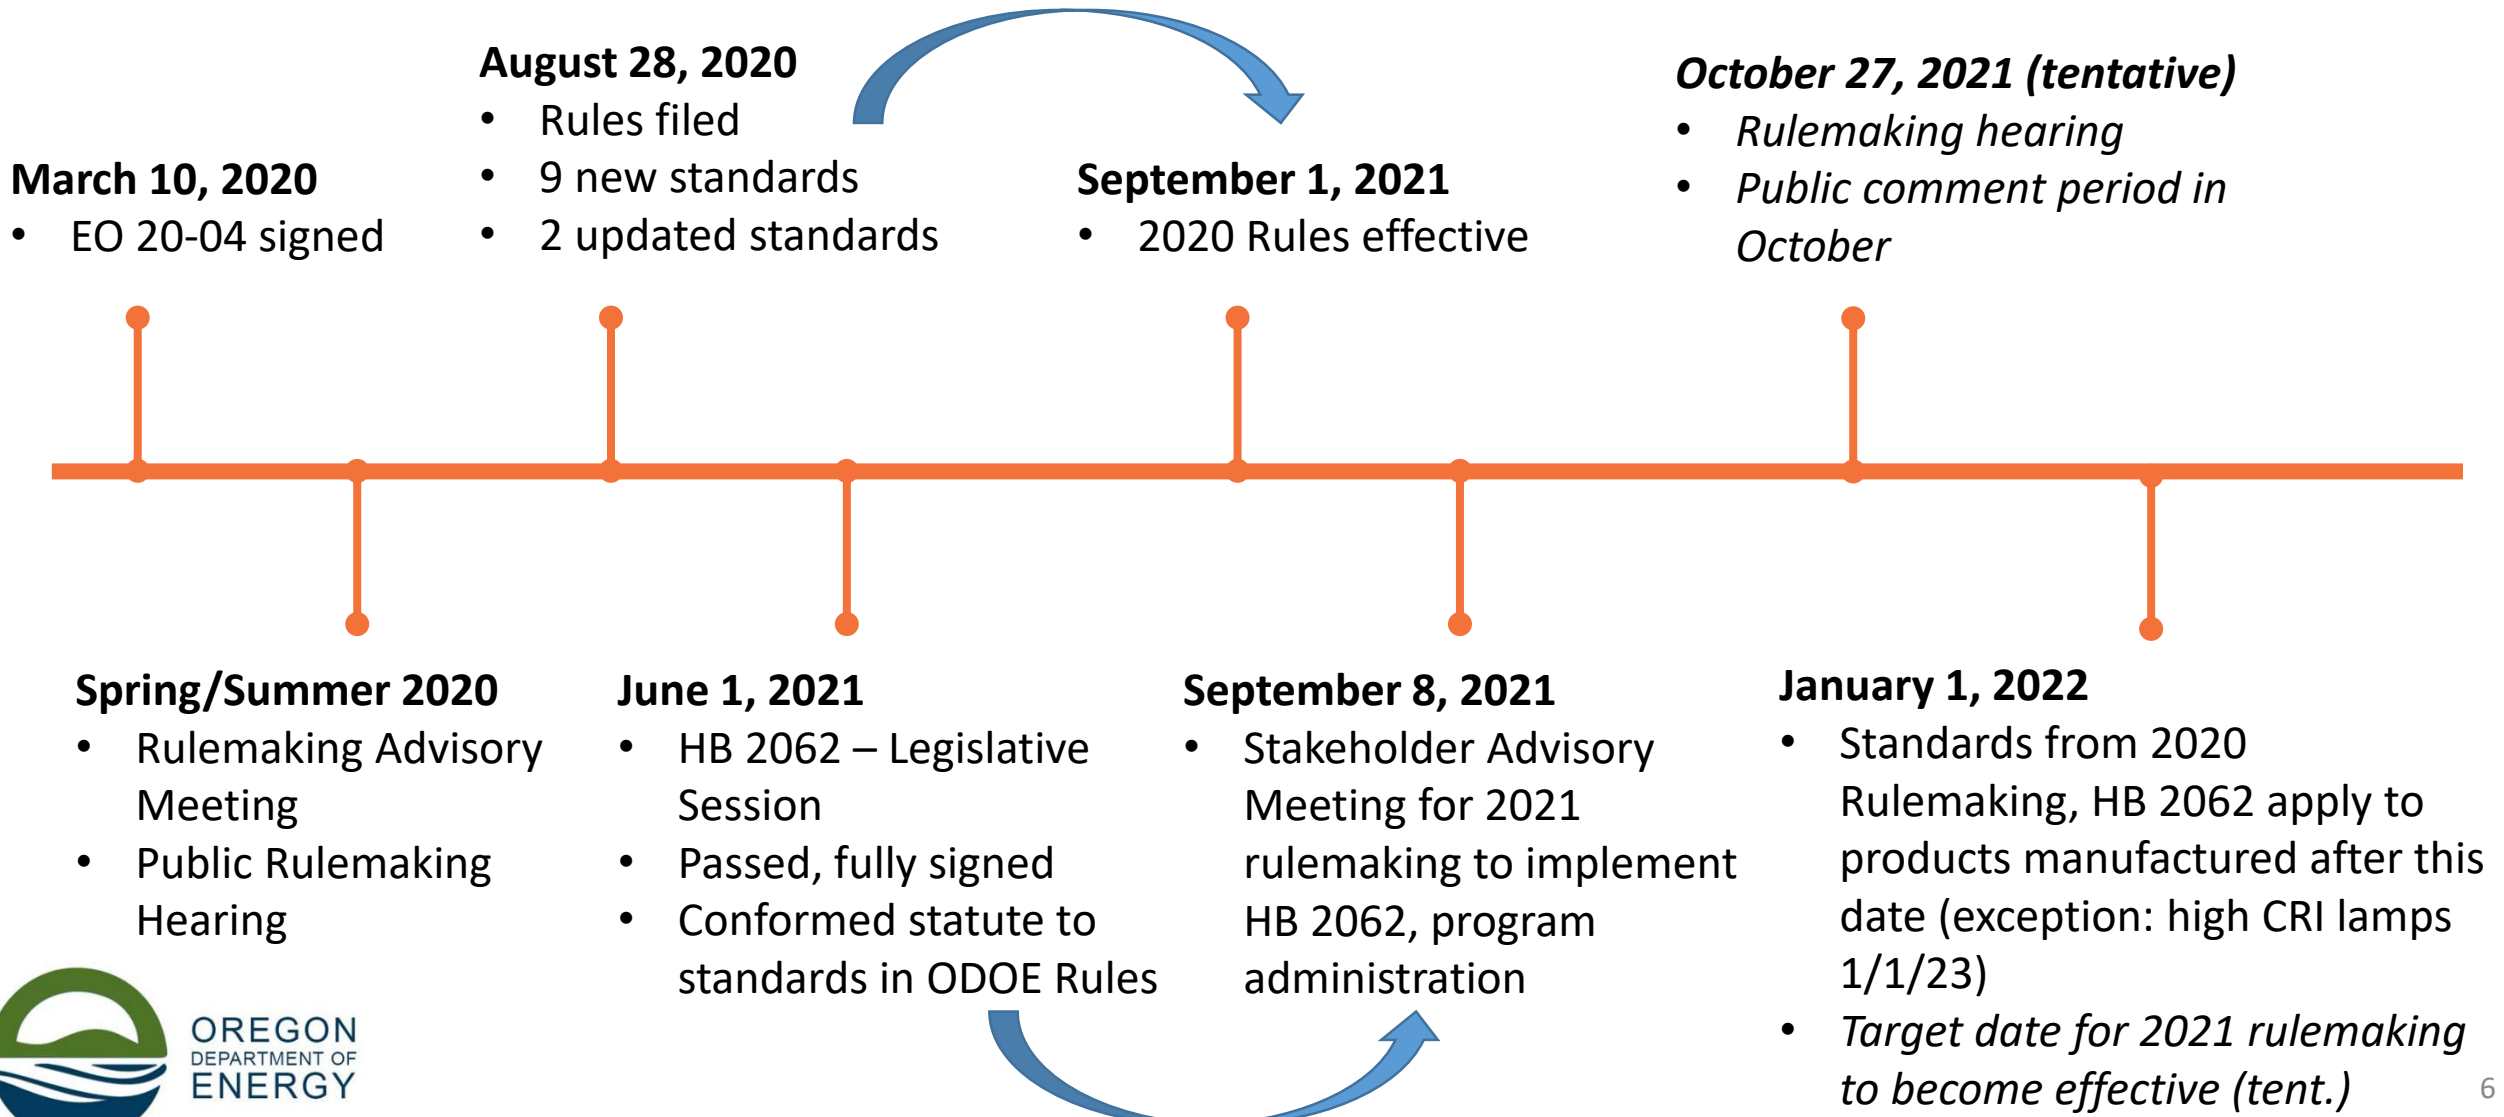

Training

- What's available and where
- Current and future videos on ORSC and OEESC
- November 9th – commercial code training

Reach Code Process

- General Process
 - What is it?
 - How is it implemented?
- Commercial Reach Code
 - Development timeline
 - Current code planned now that 2021 OEESC is adopted
 - What are your ideas? Looking for input
 - How will the reach code be scheduled with the development of new code.
- Residential Reach Code
 - Approved and moving forward
 - Currently receiving interest and comments from jurisdictions

Recent Energy Efficiency Standards Activity

2021 Efficiency Standards Rulemaking

Purpose

- Clean up Oregon Administrative Rules to align with HB 2062
 - Re-organization
 - Re-numbering
- Update standard for Computers and Computer Monitors to align with recent update in California and other states

Energy Efficiency Standards

- ODOE Rules adopted August 2020 became effective September 1, 2021
- Most standards will apply to products manufactured after January 1, 2022
- HB 2062 passed in the Legislative session, conforming statute to previously adopted rules
- ODOE

Equity - part 1

- Energy code 101 for underserved communities
 - ODOE plans for outreach
 - Creating content for 101 trainings
 - Call for targeted groups, who should participate?

Equity - part 2

- Home size and equity
 - Housing and market trends
 - Evaluating cost -vs- price data
 - Releasing a survey to stakeholders, please fill it out!

Meeting Wrap-up

- Recording will be available
- Action items identified and distributed
- Next meeting date 12/14/2021
