Re: Request for Amendment 2 for the Boardman to Hemingway Transmission Line Project

Dear Ms. Tardaewether,

Idaho Power Company (Certificate Holder), a wholly owned subsidiary of IDACORP, Inc. is requesting an amendment to the Boardman to Hemingway Transmission Line Project (Project) Site Certificate. The Project consists of approximately 300 miles of high-voltage electric transmission line between the proposed Longhorn Station near Boardman, Oregon, and the Hemingway Substation in southwestern Idaho.

IPC is submitting this Request For Amendment 2 (RFA 2) to amend the site boundary/micrositing area approved in the Site Certificate to accommodate: (a) 11 transmission line alternatives based on IPC's coordination and agreement with the affected landowners; (b) refinement of the location of temporary work areas and roads resulting from additional design and engineering review; and (c) expansion of the Site Boundary, ¼ mile each side of the transmission line and road centerline as described previously in a letter to you dated December 7, 2023.

Idaho Power has been working with individual landowners on finding suitable locations for temporary multi-use areas. After consultation with the Oregon Department of Energy and the respective counties, Idaho Power will no longer seek a site boundary adjustment for MUA UM-07, UN-05, UN-07, and MA-08.

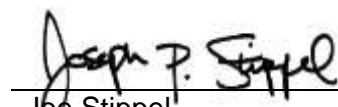

The materials delivered as part of RFA 2 include:

- PDF and Word versions of the RFA 2, delivered electronically via a Microsoft Teams site

The Certificate Holder submits RFA 2 pursuant to Oregon Administrative Rule (OAR) 345-027-0350(4)(c) or "Type A" amendment review process because IPC is proposing to design, construct, and operate a portion of the Project in a manner that is different from the description in the Site Certificate and because IPC is requesting changes to several site certificate conditions.

Thank you for your consideration. We look forward to working with you during the amendment process. Please feel free to contact Joe Stippel [(208)-388-2675] or Zach Funkhouser [(208) 388-5375] at any time with any questions or comments regarding this RFA 2.

Sincerely,

Joe Stippel
Idaho Power Company
