

## Enclosure A **Oregon Coastal Management Program (OCMP)** **Standard Coastal Zone Conditions**

The federal Coastal Zone Management Act provides that federal actions affecting any use or resource of the coastal zone<sup>1</sup>, including projects permitted by the U.S. Army Corps of Engineers (USACE), must be consistent with the enforceable policies of a State's federally approved coastal management program. Oregon's approved program, the Oregon Coastal Management Program (OCMP), is a "networked" program that integrates authorities of local governments and other state agencies. The coastal zone conditions contained in this document reflect the networked nature of the OCMP, and reference the specific applicable enforceable policies.

**In addition to all USACE national and regional permit conditions, permitted projects in Oregon's coastal zone must comply with the following coastal zone conditions.**

If an applicant chooses not to follow one or more of the coastal zone conditions, DLCD will object to the permit issuance pursuant to 15 CFR § 930.63(e). In that instance, the permittee may appeal the state's objection by requesting that the Secretary of Commerce override the objection pursuant to 15 CFR 930, subpart H, within 30 days of receipt of the letter informing the applicant of the OCMP's objection. In order to grant an override request, the Secretary must find that the activity is consistent with the objectives or purposes of the Coastal Zone Management Act, or is necessary in the interest of national security, and that either of these findings outweigh the adverse coastal effects of the proposed project. A copy of the request and supporting information must be sent to the OCMP and the USACE. The Secretary may collect fees from the permittee for administering and processing the override request.

### **CZ Condition 1. Consistency with Local Comprehensive Plans**

(1) Permitted projects must be consistent with or not subject to the applicable local comprehensive plan and implementing land use regulations, including the applicable estuary management plan, or the statewide land use planning goals where applicable. Permittee must obtain required permits or other authorizations from the applicable local government before initiating work under any USACE permit. Permittees are encouraged to provide USACE and the OCMP with verification of the local jurisdiction's approval in the form of a completed block ten (10) of the Joint Permit Application. All appeals of the local jurisdiction's decision(s) must be resolved before any regulated work may begin.

(2) All conditions placed on an authorization or permit by the local government are incorporated by reference into the OCMP coastal zone conditions.

*[Enforceable Policy: ORS chapter 197, Comprehensive Land Use Planning Coordination]*

---

<sup>1</sup> \*Oregon's coastal zone generally includes the area lying between the Oregon/Washington border on the north, to the Oregon/California border on the south, seaward to the extent of the state's jurisdiction as recognized by federal law, and inland to the crest of the Coast Range Mountains, excepting:

- (a) The Umpqua River basin, where the coastal zone extends to Scottsburg;
- (b) The Rogue River basin, where the coastal zone extends to Agness; and
- (c) The Columbia River basin, where the coastal zone extends to the downstream end of Puget Island.

### **CZ Condition 2. Consistency with Removal-Fill Law**

(1) Permitted projects must be consistent with or not subject to the state requirements governing removal-fill in waters of the state. Permittee must obtain required permits or other authorizations from the Oregon Department of State Lands (DSL) before any regulated work may begin.

(2) Projects requiring a DSL Removal-Fill permit must compensate for reasonably expected adverse impacts by complying to the full extent with DSL's compensatory mitigation requirements.

(3) Where DSL finds a project not subject to the Removal/Fill Law, permittee must submit to DSL any changes in project design or implementation that may reasonably be expected to require application of the Removal/Fill Law.

(4) All conditions placed on a Removal-Fill permit by DSL are incorporated by reference into the OCMP coastal zone conditions.

*[Enforceable Policy: ORS chapter 196, Removal of Material; Filling]*

### **CZ Condition 3. Leases of State Lands**

(1) Permitted projects must be consistent with or not subject to state requirements governing use of state lands. Permittee must obtain any required lease, license, or other authorization for the use of state lands or waters from the Oregon Department of State Lands (DSL) before any regulated work may begin.

(2) All conditions placed on a lease, license, or authorization by DSL are incorporated by reference into the OCMP coastal zone conditions.

*[Enforceable Policy: ORS chapter 274, Submersible and Submerged Lands]*

### **CZ Condition 4. Department of Environmental Quality**

(1) Permitted projects must be consistent with or not subject to the state requirements governing water quality. Permittee must obtain certification, if required, from the Oregon Department of Environmental Quality (DEQ) through its 401 Water Quality Certification process before any regulated work may begin.

(2) All conditions placed on a license, permit, or authorization by DEQ are incorporated by reference into the OCMP coastal zone conditions.

*[Enforceable Policy: ORS chapter 468B, Water Quality]*

### **CZ Condition 5. Fish and Aquatic Life Passage**

(1) Where applicable, all authorized projects shall be in conformance with ODFW standards for fish passage (<http://www.dfw.state.or.us/fish/passages/>). Decisions to abrogate ODFW fish passage standards shall be accompanied by written approval from ODFW.

(2) No work shall be authorized that does not provide for adequate passage of "aquatic life." Aquatic life shall be interpreted to include amphibians, reptiles, and mammals whose natural habitat includes waters of this state and which are generally present in or around, or pass through the project site.

(3) This condition is effective only where ODFW regulations apply.

*[Enforceable Policy: ORS chapter 509, Additional Fishery Requirements]*

### **CZ Condition 6. Ocean Shore**

(1) Permitted projects must be consistent with or not subject to state requirements governing use of the ocean shore. Permittee must obtain, if required, an ocean shore permit from the Oregon Parks and Recreation Department (OPRD) before any regulated work may begin.

(2) All conditions placed on an Ocean Shore permit by OPRD are incorporated by reference into the OCMP coastal zone conditions.

*[Enforceable Policy: ORS chapter 390, Ocean Shores]*

### **CZ Condition 7. Fish Screening**

(1) Where applicable, all authorized projects shall be in conformance with ODFW standards for fish screening and bypass devices. Decisions to abrogate ODFW fish passage standards shall be accompanied by written approval from ODFW.

(2) This condition is effective only where ODFW regulations apply.

*[Enforceable Policy: ORS chapter 498, Fish Screening]*
