

**OREGON ADMINISTRATIVE RULES  
OREGON DEPARTMENT OF AGRICULTURE  
CHAPTER 603, DIVISION 95  
AGRICULTURAL WATER QUALITY MANAGEMENT PROGRAM**

**Upper Willamette and Upper Siuslaw Agricultural Water Quality Management Area**

**603-095-2600**

**Purpose**

(1) These rules have been developed to implement a water quality management area plan for the Upper Willamette and Upper Siuslaw Agricultural Water Quality Management Area pursuant to authorities vested in the department through ORS 568.900-568.933 and ORS 561.190 – 561.191. The area plan is known as the Upper Willamette and Upper Siuslaw Agricultural Water Quality Management Area Plan.

(2) The purpose of these rules is to outline requirements for landowners in the Upper Willamette and Upper Siuslaw Agricultural Water Quality Management Area to prevent and control water pollution from agricultural activities and soil erosion. Compliance with Division 95 rules is expected to aid in the achievement of applicable water quality standards in the Upper Willamette and Upper Siuslaw Agricultural Water Quality Management Area.

Statutory Authority: ORS 561.190 - 561.191, ORS 568.912

Stats. Implemented: ORS 568.900 - 568.933

**603-095-2620**

**Geographic and Programmatic Scope**

(1) The Upper Willamette and Upper Siuslaw Agricultural Water Quality Management Area includes the drainage area of the Long Tom River, Upper Siuslaw River, and several smaller streams that drain directly to the Willamette River. The physical boundaries of the Upper Willamette and Upper Siuslaw Agricultural Water Quality Management Area are indicated on the map included as Appendix 1 of these rules.

(2) Operational boundaries for the land base under the purview of these rules include all lands within the Upper Willamette and Upper Siuslaw Agricultural Water Quality Management Area in agricultural use, agricultural and rural lands that are lying idle or on which management has been deferred, and forest lands with agricultural activities, with the exception of public lands managed by federal agencies.

(3) Current productive agricultural use is not required for the provisions of these rules to apply. For example, highly erodible lands with no present active use are within the purview of these rules.

(4) The provisions and requirements outlined in these rules may be adopted by reference by Designated Management Agencies with appropriate authority and responsibilities in other geographic areas of the Upper Willamette and Upper Siuslaw Agricultural Water Quality Management Area.

(5) For lands in agricultural use within other Designated Management Agencies' or state agency jurisdictions, the department and the appropriate Local Management Agency shall work with these Designated Management Agencies to assure that provisions of these rules apply and to assure that duplication of any services provided or fees assessed does not occur.

Statutory Authority: ORS 561.190 - 561.191, ORS 568.912

Stats. Implemented: ORS 568.900 - 568.933

### **603-095-2640**

#### **Prevention and Control Measures**

(1) All landowners or operators conducting activities on lands in agricultural use shall comply with the following criteria. A landowner shall be responsible for only those conditions caused by activities conducted on land controlled by the landowner. A landowner is not responsible for violations of the Prevention and Control Measures resulting from actions by another landowner. Conditions resulting from unusual weather events (equaling or exceeding a 25-year, 24-hour storm event) or other exceptional circumstances are not the responsibility of the landowner. Limited duration activities may be exempted from these conditions subject to prior written approval by the department.

(2) Effective upon rule adoption, agricultural activities shall allow the establishment and development of riparian vegetation along perennial and intermittent streams for streambank stability, shading, and proper riparian function, consistent with site capability.

(a) Legally constructed drainage and irrigation ditches are exempt from OAR 603-095-2640(2).

(3) Effective upon rule adoption, no person subject to these rules shall violate any provision of ORS 468B.025 or 468B.050.

(4) Corralled or enclosed livestock areas will be managed to control runoff of sediment and animal waste. Application and storage of manure will be done in a manner that minimizes the introduction of nutrients and bacteria to waterways.

(5) Effective January 1, 2004, agricultural activities will not cause the following visual indicators of erosion where erosion may cause sediment runoff into waters of the state:

(a) Sheet erosion; noted by scoured surfaces or pedestals of soil at the base of plants on sparsely vegetated or bare ground;

(b) Visible active gullies;

(c) Multiple rills, which have the form of gullies, but are smaller in cross-sectional area than one foot.

(d) This prevention and control measure applies to farm roads and staging areas, pastures, cropland, and other areas where agricultural activities occur.

(6) Construction, maintenance, and use of surface drainage field ditches or surface irrigation field ditches shall cause no pollutant delivery to waters of the state from soil erosion induced by excessive channel slope, unstable channel cross section or placement of disposed spoils.

(7) Agricultural activities shall not cause pollution from active channel erosion or other means of sediment delivery from intermittent streams and drainage ways.

(8) Roadways, staging areas, and heavy-use areas shall be constructed and maintained to prevent sediment or runoff contaminants from adversely affecting waters of the state.

(a) Exemptions: Public roads and roads subject to the Oregon Forest Practices Act.

Statutory Authority: ORS 561.190 - 561.191, ORS 568.912

Stats. Implemented: ORS 568.900 - 568.933

### **603-095-2660**

#### **Complaints and Investigations**

- (1) When the department receives notice of an alleged occurrence of agricultural pollution through a written complaint, its own observation, through notification by another agency, or by other means, the department may conduct an investigation. The department may, at its discretion, coordinate investigation activities with the appropriate Local Management Agency.
- (2) Each notice of an alleged occurrence of agricultural pollution shall be evaluated in accordance with the criteria in ORS 568.900 to 568.933 or any rules adopted thereunder to determine whether an investigation is warranted.
- (3) Any person allegedly being damaged or otherwise adversely affected by agricultural pollution or alleging any violation of ORS 568.900 to 568.933 or any rules adopted thereunder may file a complaint with the department.
- (4) The department will evaluate or investigate a complaint filed by a person under section OAR 603-095-2660(3) if the complaint is in writing, signed and dated by the complainant and indicates the location and description of:
  - (a) The waters of the state allegedly being damaged or impacted; and
  - (b) The property allegedly being managed under conditions violating criteria described in ORS 568.900 to 568.933 or any rules adopted thereunder.
- (5) As used in section OAR 603-095-2660(4), "person" does not include any local, state or federal agency.
- (6) Notwithstanding OAR 603-095-2660(4), the department may investigate at any time any complaint if the Department determines that the violation alleged in the complaint may present an immediate threat to the public health or safety.
- (7) If the department determines that a violation of ORS 568.900 to 568.933 or any rules adopted thereunder has occurred, the landowner may be subject to the enforcement procedures of the department outlined in OARs 603-090-0060 through 603-090-0120.

Statutory Authority: ORS 561.190 - 561.191, ORS 568.912

Stats. Implemented: ORS 568.900 - 568.933
