Highlights of revisions made since August 24, 2022, proposed rules

See Attachment 2 of the Board packet for more detail.

Division 603 Adaptive Management Program

- OAR 629-603-0000(3) & 0100(1): Staff learned that biological goals and objectives in HCP are essentially static, and previous wording suggested these goals and objectives might easily change.

Division 607 Small Forestland Owner

- OAR 629-607-0300(2)(a): Clarified language around addressing fish passage barriers.
- OAR 629-607-0400(4): Removed “irrevocable” to clarify the ability for deed restriction allowance.

Division 625 Forest Road Construction and Maintenance

- OAR 629-625-0900: adds section (12)

For culverts meeting the definition of having imminent risk of failure, landowners shall repair or replace the culvert as soon as practicable but no later than two years after having been identified.

Division 635 Water Protection Goals and Stream Classification

- OAR 629-635-0200(11)(a) & (b): Resolved delegation of authority regarding fish models by removing reference to PFA report and to unpublished model regarding authorities of ODF and ODFW.

Also note:

- Some comments and feedback received are currently outside of the rulemaking scope.

Next steps

- File rules with the SOS
- Address disproportionate impacts
- Draft technical guidance
- Draft policy & procedures
- Internal & external training
- Hire staff
- Appoint Adaptive Management Program Committee by November 30, 2022
