

## Preface

The purpose of this manual is to provide an introduction to the standards, practices, devices and technologies that serve as the foundation for the temporary traffic control discipline. This manual provides an organized collection of traffic control plan design standards, guidelines, policies, and procedures to be used in the development of a temporary Traffic Control Plan (TCP).

This *TCP Design Manual* is intended for TCP designers, engineers or technical staff, members of City or County Public Works offices and private consulting engineering firms responsible for developing temporary traffic control plans and highway construction staging plans. However, concepts and guidance within this manual may also be applied to highway maintenance operations, utility and permit services, or other temporary activities within public highway rights of way.

Professionals conducting work outside of ODOT for other agencies should exercise caution in applying standards and practices within this manual as differences in design policy may exist between ODOT and those established by other agencies.

This technical manual is intended to provide greater detail in the design of temporary traffic control plans and supersedes other existing ODOT design policies that make reference to temporary traffic control design standards. This manual should be considered as the primary technical design policy for ODOT in the design of temporary traffic control plans.

This manual discusses Traffic Control Plans Design beginning with general information – including ODOT's Guiding Principle – and progressing to specific TCP design elements such as Traffic Control Devices, Traffic Control Measures, standard drawings, estimating, specifications and special provisions, etc.

This manual is updated annually. To expedite updates, this manual is available on-line. The on-line version is considered an official document. As an on-line document, it will not be published and distributed as a traditional publication, and there is no user list for update notifications.

It is the user's responsibility to verify they are using the most current version of the manual as their reference. Updated information will be detailed on the [Work Zone Traffic Control Website](#).

The Traffic Work Zone Unit maintains the *Traffic Control Plans Design Manual*. Send comments or questions on this document to [workzonestandards@odot.state.or.us](mailto:workzonestandards@odot.state.or.us) or to:

**Table of Contents**

Preface .....	ii
<b>Chapter 1: General Standards and Practices .....</b>	<b>1</b>
1.1 Key Topics Covered in this Chapter.....	1
1.2 Work Zone Guiding Principle .....	2
1.2.1 Guiding Principles and Decision Tree Application.....	3
1.3 Safety – A Primary Function.....	4
1.3.1 Safety in TCP Design .....	4
1.3.2 Engineering Judgement.....	6
1.4 TCP Design Standards.....	7
1.4.1 Manual on Uniform Traffic Control Devices (MUTCD) .....	7
1.4.2 OAR and ORS.....	7
1.4.3 Additional Standards and References.....	8
1.5 Transportation Management Plan (TMP).....	10
1.5.1 Transportation Management Plan Document.....	10
1.6 Traffic control plan structure.....	12
1.6.1 Work Zone Limits & Components.....	12
1.6.2 Traffic Control Plan Design Form.....	16
1.6.3 Standard Specifications & Special Provisions.....	17
1.6.4 Standard Drawings.....	18
1.6.5 Project – Specific Construction Staging Plan Sheets .....	19
1.7 Traffic Control Plan Design .....	20
1.7.1 Design Considerations .....	20
1.7.2 Traffic Control Measures .....	21
1.7.3 Primary Design Policies .....	21
1.8 Work Zone Intelligent Transportation Systems.....	24
1.8.1 Smart Work Zone Systems.....	24
1.9 Traffic Control Devices (TCD).....	25
1.9.1 Using TCD to Create a Safe Work Zone .....	25
1.9.2 TCD Principles.....	25

1.9.3 TCD Crash Testing.....	25
1.9.4 TCD Crash Testing Categories.....	26
1.9.5 The Qualified Product List (QPL).....	26
1.10 Mobility .....	28
1.10.1 Mobility Procedures Manual.....	28
1.10.2 Coordinating Travel Delay Estimates .....	28
1.11 Designer Resources and Web Links .....	29
1.11.1 TCP Designer Web links .....	29
1.11.2 Traffic Control Plan Checklist .....	29
<b>Chapter 2: Temporary Traffic Control Devices.....</b>	<b>30</b>
2.1 Key Topics Covered in This Chapter .....	30
2.2 Purpose and Principals of TCD.....	31
2.3 Crashworthy Devices.....	32
2.3.1 American Traffic Safety Services Association (ATSSA) .....	34
2.4 Category 1 Devices.....	35
2.4.1 Tubular and Conical Markers .....	35
2.4.2 Temporary Plastic Drums .....	36
2.4.3 Temporary Delineators .....	37
2.4.4 Temporary Pavement Marking and Markers .....	38
2.5 Category 2 Devices.....	45
2.5.1 Type I, II, and III Barricades .....	45
2.5.2 Pedestrian Channelizing Devices .....	47
2.5.3 Bicycle Channelizing Devices.....	48
2.5.4 Temporary Signs .....	49
2.5.5 Sign Sheeting.....	49
2.5.6 Sign Flags and Sign Flag Boards .....	49
2.5.7 ROAD WORK XX MPH and LOOSE GRAVEL XX MPH Signs .....	50
2.5.8 Specialty Signs .....	51
2.5.9 Sign Support .....	52
2.6 Category 3 Devices.....	57

2.6.1	Temporary Concrete Barrier.....	57
2.6.2	Temporary Steel Barrier .....	59
2.6.3	Temporary Glare Shields .....	60
2.6.4	Temporary Glare Screens.....	61
2.6.5	Reflective Barrier Panels .....	61
2.6.6	Temporary Impact Attenuators .....	62
2.6.7	Temporary Barrier, Guardrail Connections, and Guardrail Terminals .....	63
2.6.8	Other Barrier Systems.....	63
2.7	Category 4 Devices.....	66
2.7.1	Temporary Electrical Signs .....	66
2.7.2	Temporary Traffic Signals .....	68
2.7.3	Portable Traffic Signals.....	70
2.7.4	Flagger Station Lighting.....	71
2.7.5	Automated Flagger Assistance Devices (AFADs).....	71
2.7.6	Temporary Rectangular Rapid Flashing Beacon (RRFB) .....	73
2.8	Specialty TCD Bid Items .....	75
2.8.1	Overheight Vehicle Warning System (OVWS) .....	75
2.8.2	Protective Netting .....	75
2.8.3	Falsework Illumination .....	75
2.8.4	Pole Base Covers .....	76
<b>Chapter 3:</b>	<b>Traffic Control Measures.....</b>	<b>77</b>
3.1	Key Topics Covered in This Chapter .....	77
3.2	General Principles .....	78
3.3	Design Considerations.....	79
3.3.1	Sites Investigation .....	80
3.3.2	Project Scope .....	83
3.3.3	Project Duration .....	84
3.3.4	Project Schedules.....	86
3.3.5	Communication and Interaction .....	86
3.4	TCP Design Policies & Practices .....	88

3.4.1	Positive Protection .....	88
3.4.2	TCP Design Exception Process.....	96
3.4.3	Lane Restrictions .....	97
3.4.4	Abrupt Edges.....	100
3.4.5	Pedestrian Accessibility Design .....	102
3.4.6	Bicycle Accommodation Design .....	123
3.4.7	Clear Zones in the Work Zone .....	130
3.4.8	Crossover Design and “On-Site Diversions” .....	132
3.4.9	Design Speed .....	138
3.4.10	Detours .....	138
3.4.11	Device Spacing .....	139
3.4.12	“DO NOT PASS” Signing .....	140
3.4.13	Flagging .....	141
3.4.14	Flagging – Advance Flaggers for Extended Traffic Queues .....	144
3.4.15	Flagging – Flagger / Pilot Car Operations .....	144
3.4.16	Freeway Closures (Short Term) .....	147
3.4.17	Horizontal and Vertical Design Policy.....	149
3.4.18	Rumble Strips .....	152
3.4.19	Smart work zone System (SWZS) .....	154
3.4.20	“ROAD WORK AHEAD” signing.....	154
3.4.21	Rolling Slowdown Method (RSM).....	155
3.4.22	Sign Placement .....	159
3.4.23	Speed Zone Reductions.....	160
3.4.24	Temporary Alignments.....	167
3.4.25	Temporary Concrete Barrier.....	168
3.4.26	Temporary Weigh Stations and Chain up Areas.....	174
3.4.27	Temporary Illumination.....	176
3.4.28	Work Zone Presence Lighting.....	176
3.4.29	Law Enforcement .....	177
3.5	Design-Related Specifications .....	181

3.5.1	20-Minute Stop or Hold.....	181
3.5.2	Contracting Provisions and Alternative Methods.....	182
3.5.3	Business Accesses.....	184
3.5.4	Pavement Preservation Projects.....	184
3.5.5	Steel Plating.....	186
3.5.6	Traffic Control Supervisor (TCS) .....	187
<b>Chapter 4:</b>	<b>Specifications &amp; Standard Drawings .....</b>	<b>190</b>
4.1	Key Topics Covered in this Chapter.....	190
4.2	Standard Specifications .....	191
4.2.1	General Overview .....	191
4.2.2	Standard Specifications – Section 00220 .....	192
4.2.3	Standard Specification – Sections 00221 through 00229 .....	194
4.3	Special Provisions.....	198
4.3.1	Specification and Special Provision Writing .....	198
4.3.2	Section 00220 “Boilerplate” Special Provision .....	200
4.3.3	Sections 00221 through 00229 “Boilerplate” Special provision .....	201
4.4	Hierarchy of Documents .....	202
4.5	Standard Drawings .....	203
4.6	Standard Details .....	208
<b>Chapter 5:</b>	<b>Traffic Control Plans Design .....</b>	<b>209</b>
5.1	Key Topics Covered in this Chapter.....	209
5.2	Traffic Control Plans (TCP).....	210
5.2.1	Traffic Control Plans Form .....	210
5.3	Plan Sheet Function & Sequence.....	212
5.4	Plan Sheet Development .....	220
5.5	Typical Applications.....	223
5.6	Temporary Sign Design.....	224
5.7	Drafting Standards.....	227
<b>Chapter 6:</b>	<b>Traffic Control Cost Estimating .....</b>	<b>228</b>
6.1	Key Topics Covered in this Chapter.....	228

6.2	TCP Cost Estimator.....	229
6.3	Traffic Control Plan Pay Items .....	230
6.4	Quantity Calculations.....	231
6.5	Temporary Protection & Direction of Traffic (TP&DT), Lump Sum Item .....	234
6.6	TCP Cost Estimate.....	235
<b>Appendix A:</b>	<b>Acronym List .....</b>	<b>A-1</b>
<b>Appendix B:</b>	<b>Glossary of Terms.....</b>	<b>B-1</b>
<b>Appendix C:</b>	<b>Forms.....</b>	<b>C-1</b>
<b>Appendix D:</b>	<b>Traffic Control Plans Checklist .....</b>	<b>D-1</b>
<b>Appendix E:</b>	<b>Design Conversion Charts .....</b>	<b>E-1</b>
<b>Appendix F:</b>	<b>Work Zone Unit Member's Roles and Responsibilities .....</b>	<b>F-1</b>
