Implementation Tip: Scoring Examples

Qualitative Example #1

Connectivity		
Improve existing connections between residential areas and school, parks, transit stops and other essential destinations	Project will improve an existing connection	+1
	Project will not improve an existing connection	0
	Project will impede an existing connection	-1
Create new connections between residential areas and transit facilities and services	Project will create a new connection	+1
	Project will not create a new connection	0
	Project will impede the creation of a new connection	-1
Create new connections between residential areas and school, parks, and other essential destinations	Project will create a new connection	+1
	Project will not create a new connection	0
	Project will impede the creation of a new connection	-1

Qualitative Example #2

Fully meets criterion   ●

Partially meets criterion   ◉

Does not meet criterion   ○

Proposed Evaluation Criteria

Transportation System Plan Goal	Criteria
Goal 4: Accessibility and Connectivity	Enhances the active transportation or transit network
	Improves facilities for those using mobility devices

Quantitative Example

Goal 1: Provide for efficient motor vehicle travel to and through the county.		
Street Connectivity Connection enhances system efficiency.	+4	Improves system efficiency
	+2	Improves efficiency of a localized area, but has no impact on efficiency of the system
	0	No change
	-2	Improves efficiency of a localized area, but may detract from the efficiency of another location
	-4	Negative impact on system efficiency
