IMPACTS Grant Program Overview

"IMPACTS" stands for Improving People's Access to Community-based Treatment, Supports, and Services

Purpose: to address shortage of comprehensive community supports and services for individuals with mental health or substance use disorders, leading to their involvement with the criminal justice system, hospitalizations and institutional placements, by awarding grants to counties and Oregon's federally recognized Indian tribes, to establish evidence-based and tribal-based programs to provide the needed supports and services.

See Senate Bill (SB) 973 (2019).
