Oregon Performance Plan #14 (a-c)

Performance Plan Section: Supported Housing

Performance Plan Term: OHA's housing efforts will include an increase the number of individuals with SPMI in supported housing, as follows:

- a. In year one (July 1, 2016 to June 30, 2017), at least 835 individuals will live in supported housing.
- b. In year two (July 1, 2017 to June 30, 2018), at least 1,355 individuals will live in supported housing.
- c. In year three (July 1, 2018 to June 30, 2019), at least 2,000 individuals will live in supported housing.

Definition: “Supported Housing” is permanent housing with tenancy rights and support services that enables people to attain and maintain integrated affordable housing. Support services offered to people living in supported housing are flexible and are available as needed and desired, but are not mandated as a condition of obtaining tenancy. Tenants have a private and secure place to make their home, just like other members of the community, with the same rights and responsibilities. Supported housing enables individuals with disabilities to interact with individuals without disabilities to the fullest extent possible. Supported housing is scattered site housing. To be considered supported housing under this Plan, for buildings with two or three units, no more than one unit may be used to provide supported housing for tenants with SPMI who are referred by OHA or its contractors, and for buildings or complexes with four or more units, no more than 25% of the units in a building or complex may be used to provide supported housing for tenants with SPMI who are referred by OHA or its contractors. Supported housing has no more than two people in a given apartment or house, with a private bedroom for each individual. If two people are living together in an apartment or house, the individuals must be able to select their own roommates. Supported housing does not include housing where providers can reject individuals for placement due to medical needs or substance abuse history. (Oregon Performance Plan)

Data Source:

- Quarterly reports and supported housing inventory.

Description of Data:

- **Metrics:**
 - Number of individuals in supported housing
- **Numerator:** N/A
- **Denominator:** N/A
- **Other / Description of Data Points:**
 - Total Supported Housing is calculated by adding the following:
 - Supported Housing Capacity (units developed for individuals with SPMI); and
 - Number of units occupied by individuals receiving funding through a Rental Assistance Program.
 - 25% capacity is based on referrals resulting in placement in a housing unit.

Data issues/caveats that affect performance outcomes: The target will be met based on the data in the last quarter of each fiscal year.

Baseline: Calendar Year 2015	
Description of Numerator	N/A
Description of Denominator	N/A
Description of Other	N/A
