– Quantity is zero.

* Detailed reporting of small numbers may breach confidentiality.

¹ All rates per 1,000 females.

§ Pregnancy rate is significantly different from the state.

WARNING: Rates based on less than 5 events are unreliable.

NOTE: Includes births and reported abortions including those obtained out-of-state by Oregon residents. Because some states (e.g., California) do not record data on residence for abortion patients, not all out-of-state abortions are included.

Do you want Oregon's most

Up-to-date Info

available from the

Center for Health Statistics?

On the web you can find the most recent data available - both preliminary and final tables.

Check out our
Web Site

<http://www.healthoregon.org/chs>

**Are you
looking
for a
specific
table or
report?**

Vital Reports Data

Births Adequacy of prenatal care
*Demographics of teen mothers by zipcode

Deaths Manner of death
*Age of decedent by county and zip code

Teen Pregnancy rates by county of residence
Pregnancy *Rolling pregnancy rate for past twelve months
by county of residence

Survey Data

Adult Behavior Risk Survey - BRFSS

Oregon Healthy Teens Survey - YRBS

*These reports (and many others) available only *on-line*.

Individual tables and chapters of the annual reports, county data book and survey data are made available on the web as soon as finalized. The complete report (and paper edition) usually takes much longer to publish. Making the data available on-line increases the timeliness and decreases the cost of publications.
