Note: "Other Alcohol-induced Deaths" includes conditions represented by the following ICD-10 codes: F10, G 31.2, G62.1, I42.6, K29.2, O35.4, P04.3, R78.0, X45, X65, and Y15. Non-suicide drug overdoses are included in "Opioid Abuse" and "Other Drug Abuse" if the decedent was reported to be a chronic drug abuser or in "Unintentional Injuries" or "Undetermined Intent," if not so indicated. "Other Drug Abuse" includes F12.0-F16.9 and F18.0-F19.9. Deaths due to tobacco use are not included here; see Table 6-19. Only age groups or counties with at least one alcohol/drug death are shown. Hispanics may be of any race. A dash indicates the quantity is zero. Values in columns may not equal row totals due to overlapping definitions (ICD-10 codes) associated with alcohol-induced deaths.
