

Safeguard Your Power Supply

Protect plug and outlet

Plug in unit to a nearby outlet.

Secure plug with a guard/cover.

Post “Do Not Unplug” signs near outlet.

Always avoid disruption of power

Do not use extension cords.

Do not plug more than one appliance into an outlet. This will prevent tripping of circuit breakers.

Do not use outlets that are controlled by wall switches.

Never unplug the vaccine refrigerator or freezer.

If you experience a power failure, do not open refrigerator/freezer doors. If it lasts more than 4-6 hours, call the VFC Program.
