SUMMARY OF AUDIT FINDINGS	
<p>The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.</p> <p>Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.</p>	
Number of standards exceeded:	
0	
Number of standards met:	
39	
Number of standards not met:	
0	
Not audited at the facility level: Audited at the agency-level, and not relevant to the facility-level audit because the facility has no independent responsibility for the operation of these standards.	4

Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	6
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0

<p>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>Records verify that the facility rarely houses residents with physical disabilities. Some of the residents and staff who were interviewed were asked specifically how they believe residents with disabilities would be served. They indicated a belief that the facility would provide appropriate accommodations.</p>
<p>61. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>1</p>
<p>62. Enter the total number of interviews conducted with inmates/residents/detainees who are Blind or have low vision (i.e., visually impaired) using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>0</p>
<p>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>It appears that the facility has never had a blind resident. Some of the residents and staff who were interviewed were asked questions that helped the Audit Team get an idea regarding how residents with low vision would be accommodated. When residents need glasses, they are provided. Interviews indicate that staff are willing to read and explain materials to residents who have not had much schooling, so the same would apply if the residents had trouble reading for other reasons. Also, staff take new residents on a tour of the facility, explain everything, and answer questions. Residents believe this would help orientate residents who might have trouble with their vision. PREA education is provided verbally, not requiring vision or literacy.</p>
<p>63. Enter the total number of interviews conducted with inmates/residents/detainees who are Deaf or hard-of-hearing using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>1</p>
<p>64. Enter the total number of interviews conducted with inmates/residents/detainees who are Limited English Proficient (LEP) using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>0</p>

<p>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>Some staff and residents were asked what would happen if someone came to the facility who had trouble speaking English. It is common knowledge that interpreters and translation services are available for any language. They knew of no examples of residents who could not speak English well.</p>
<p>65. Enter the total number of interviews conducted with inmates/residents/detainees who identify as lesbian, gay, or bisexual using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:</p>	<p>2</p>
<p>66. Enter the total number of interviews conducted with inmates/residents/detainees who identify as transgender or intersex using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:</p>	<p>1</p>
<p>67. Enter the total number of interviews conducted with inmates/residents/detainees who reported sexual abuse in this facility using the "Inmates who Reported a Sexual Abuse" protocol:</p>	<p>2</p>
<p>68. Enter the total number of interviews conducted with inmates/residents/detainees who disclosed prior sexual victimization during risk screening using the "Inmates who Disclosed Sexual Victimization during Risk Screening" protocol:</p>	<p>4</p>
<p>69. Enter the total number of interviews conducted with inmates/residents/detainees who are or were ever placed in segregated housing/isolation for risk of sexual victimization using the "Inmates Placed in Segregated Housing (for Risk of Sexual Victimization/Who Allege to have Suffered Sexual Abuse)" protocol:</p>	<p>0</p>
<p>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>There are numerous sources for this information, including policies and procedures described elsewhere in this report. Residents and staff were asked whether there are any circumstances when residents are isolated from other residents. The answers were very consistent. Behavior issues may cause individual residents to be separated from each other, but this is usually very temporary, and alleged victims would never be separated from all other residents. The facility has options for dealing with alleged perpetrators, so there is no need to isolate victims. Alleged victims are never isolated for their protection.</p>

70. Provide any additional comments regarding selecting or interviewing targeted inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews):	No text provided.

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
88. Informal conversations with staff during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	No text provided.

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	<input checked="" type="radio"/> Yes <input type="radio"/> No
91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	No text provided.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	1	1	1	1
Staff-on-inmate sexual abuse	0	0	0	0

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/Court Case Filed	Convicted/Adjudicated	Acquitted

Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

	Auditor Overall Determination: Meets Standard
	<p data-bbox="242 208 451 235">Auditor Discussion</p> <p data-bbox="242 271 1485 999">For agencies such as OYA, which conducts its own administrative investigations of allegations of sexual abuse, this Standard requires the agency to “follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions.” The Standard includes specific rules regarding how this is to be done, and how to care for alleged survivors of abuse. For example, it requires the agency to “offer all residents who experience sexual abuse access to forensic medical examinations whether on-site or at an outside facility, without financial cost, where evidentiarily or medically appropriate. Such examinations shall be performed by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) where possible. If SAFEs or SANEs cannot be made available, the examination can be performed by other qualified medical practitioners. The agency shall document its efforts to provide SAFEs or SANEs.” In addition, it requires the agency to “attempt to make available to the victim a victim advocate from a rape crisis center.” The Standard recognizes that these services are not always available in every locality, and it provides provisions that consider various circumstances. For example, it states that, “If a rape crisis center is not available to provide victim advocate services, the agency shall make available to provide these services a qualified staff member from a community-based organization or a qualified agency staff member. Agencies shall document efforts to secure services from rape crisis centers.” The requirement for victim advocates goes far beyond including them in forensic exams. The Standard states, “As requested by the victim, the victim advocate, qualified agency staff member, or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews and shall provide emotional support, crisis intervention, information, and referrals.” In addition to what is required in this Standard, Standard 115.353 requires that all residents have a level of access to advocates. Standard 115.353 states that facilities shall provide residents with “access to outside victim advocates for emotional support services related to sexual abuse, by providing, posting, or otherwise making accessible mailing addresses and telephone numbers, including toll free hotline numbers where available, of local, State, or national victim advocacy or rape crisis organizations....”</p> <p data-bbox="242 1032 1485 1424">Analysis: Evidence used to determine compliance with this Standard includes: Interviews with randomly selected staff and with a SANE Nurse. 115.342	Placement of residents
	Auditor Overall Determination: Meets Standard
	<p data-bbox="240 208 451 237">Auditor Discussion</p> <p data-bbox="240 271 1485 701">OYA is compelled to use information from the risk screening required by 115.341 to inform housing, bed, work, education, and program assignments, with the goal of keeping all residents safe and free from sexual abuse. Residents may be isolated from others only as a last resort, only when less-restrictive measures are inadequate to keep them and other residents safe, and then only until an alternative means of keeping all residents safe can be arranged. OYA policy states that under no circumstances may residents be isolated for more than 5 days. Lesbian, gay, bisexual, transgender, or intersex residents are not placed in particular housing, bed, or other assignments solely on the basis of such identification or status. Lesbian, gay, bisexual, transgender, or intersex identification or status is not held to be an indicator of likelihood of being sexually abusive. In deciding whether to assign a transgender or intersex resident to a facility for male or female residents, and in making other housing and programming assignments, the agency considers, on a case-by-case basis, whether a placement would ensure the resident's health and safety, and whether the placement would present management or security problems. Placement and programming assignments for each transgender or intersex resident are to be reassessed at least twice each year, to review any threats to safety experienced by the resident. Transgender and intersex residents are to be given the opportunity to shower separately from other residents.</p> <p data-bbox="240 730 1485 1160">Analysis: Evidence used to determine compliance with this Standard includes: Interviews were conducted with the PREA Coordinator and the Compliance Manager, Risk Screening Staff, and LGBTI residents. Documentation was reviewed of the use of screening information to inform housing, bed, work, education, and program assignments, with the goal of keeping all residents safe and free from sexual abuse. Facility policies were reviewed that govern Isolation of residents; and that prohibit placing lesbian, gay, bisexual, transgender, or intersex residents, in particular housing, bed, or other assignments solely on the basis of such identification or status; and that prohibit considering lesbian, gay, bisexual, transgender, or intersex identification or status as an indicator of the likelihood of being sexually abusive. Documentation of 30-day Reviews was examined for compliance with the Standard. I-A-10.0 Preventing Youth Sexual Abuse, pg. 12, IV.I. 115.351	Resident reporting
	Auditor Overall Determination: Meets Standard
	<p data-bbox="240 208 451 237">Auditor Discussion</p> <p data-bbox="240 271 1485 533">This Standard requires the agency to provide multiple internal ways for residents to privately report sexual abuse and sexual harassment, retaliation by other residents or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. Also, the agency is to provide a way for residents to report abuse or harassment to an entity that can receive and immediately forward resident reports of sexual abuse and sexual harassment to agency officials, allowing the resident to remain anonymous upon request. Staff are to accept reports made verbally, in writing, anonymously, and from third parties, and they are to promptly document verbal reports. Facilities are to provide residents with access to tools necessary to make a written report. The agency also is to provide a method for staff to privately report sexual abuse and sexual harassment of residents.</p> <p data-bbox="240 562 1485 1093">Analysis: Evidence used to determine compliance with this Standard includes: (1) Interviews with all of the following people: randomly selected staff and residents; the PREA Compliance Manager; and residents who reported sexual abuse. (2) Reviews of all of the following policies, documents, and agreements: resident reporting policy; documentation of resident reporting; documentation of an agreement with an outside public or private entity responsible for taking reports; resident reporting policy relevant to reporting to an outside public or private entity; policy requiring that residents detained solely for civil immigration purposes be provided information on how to contact relevant Consular officials and relevant officials of the Department of Homeland Security; policy mandating that staff accept reports of sexual abuse and sexual harassment made verbally, in writing, anonymously and from third parties; and policy and documentation (e.g., staff handbooks) outlining procedures for staff to privately report sexual abuse and sexual harassment of residents. Due to failures of this system during a previous PREA Audit, the agency had already implemented regular internal testing of the OCS Reporting System. At that time, the problems seemed to relate to a change in the OCS address, mail not being checked during the COVID-19 pandemic, and mail being misdirected. For this current Audit, retraining and a systemic analysis were once again completed for OCS. It was found that improvements had been retained from the previous efforts, but delays resulted from remaining questions regarding how to handle referrals of various kinds, including requests for anonymity. By the end of the current Corrective Action Period, internal tests of the Governor's Office of Constituent Services by OYA, as well as 5 test letters sent by the Auditor, were successful. Therefore, after that delay, a thorough examination of all of the above input, documentation, and experimentation resulted in a triangulation of evidence of compliance with this Standard.</p>

115.352	Exhaustion of administrative remedies

	<p data-bbox="242 208 451 235">Auditor Discussion</p> <p data-bbox="242 271 1497 533">OYA has an administrative procedure for dealing with resident grievances regarding sexual abuse. The facility policy allows a resident to submit a grievance regarding an allegation of sexual abuse at any time, regardless of when the incident is alleged to have occurred. There is no time limit for a resident to submit a grievance regarding an allegation of sexual abuse, and the resident is not required to use an informal grievance process, nor to otherwise attempt to resolve with staff an alleged incident of sexual abuse. Policy allows a resident to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. The facility's procedure requires that a resident grievance alleging sexual abuse not be referred to the staff member who is the subject of the complaint. OYA requires all staff to comply with any applicable mandatory child abuse reporting laws, as well as reports, as (and when) appropriate, to licensing agencies and Adult Protective Services. Other than when reporting to designated supervisors or officials, and to designated state or local service agencies, OYA policy prohibits staff from revealing any information related to a sexual abuse report to anyone, beyond what is necessary to make treatment, investigation, and other security and management decisions.
