JJIS Partnership Values

Representatives of the OYA and OJDDA serve on the JJIS Steering Committee and form the JJIS partnership. The JJIS partnership:

- ♦ Represents the best interests of Oregon's juvenile justice system as a whole;
- ♦ Is entered into in good faith by all parties with integrity and honesty, and in the spirit of mutual support and collaboration;
- ♦ Promotes the ethical use of JJIS information and uses the data with respect, professionalism, and sensitivity toward the partners whose data is represented in the information;
- ♦ Adopts and maintains the JJIS Vision and Goals, keeping them current with juvenile justice needs;
- ♦ Uses the Vision and Goals as guiding principles for JJIS decision making.

JJIS Steering Committee

The JJIS Steering Committee is the governance body providing guidance to oversight of JJIS activities. The committee represents Oregon's 36 counties, the Oregon Youth Authority, and other statewide partners.

Oversight responsibilities include monitoring appropriate use of JJIS and its data, prioritizing development of software features, making policy decisions, and authorizing access to statewide data for research and program evaluation.

The committee meets monthly to ensure that JJIS is on task to accomplish the vision and goals of the JJIS partnership.

Introduction

Oregon's juvenile justice community is committed to providing effective and efficient services to promote public safety, ensuring justice for victims, and preventing youth from repeating criminal behavior. Understanding the recidivism rate for youth referred to the juvenile justice system is one way to measure juvenile crime and the impact of intervention efforts around the state.

Definition of recidivism for this report:

“As a measure of public safety, recidivism is defined as a new criminal referral.

A criminal referral is a law enforcement report to a juvenile department alleging one or more felony or misdemeanor acts (offenses).”

Contents of this report

This report contains statewide and county-specific measures of recidivism for 2022 based on the measurement of criminal activity as a gauge of community safety. The report selects youth who had a criminal referral in 2022 and tracks them for the following 12 months. To track all youth who had a referral in 2022 for a full 12-month period, the report requires 2022 referral data to be complete.

All data for this report comes from Oregon's Juvenile Justice Information System (JJIS). There are no outside data sources used and includes only criminal referrals from the State of Oregon.

Findings and Limitations

Summary Findings:

- Total statewide youth in 2022 are 5,187.
- The overall 12-month statewide recidivism rate is 26.7%.
 - The 12-month statewide chronic recidivism rate (3 or more referrals) is 4.9%.

Comparison to Year End Referral Reports:

Referral counts for these reports are based on felony and misdemeanor criminal referrals in 2022 and subsequent felony and misdemeanor criminal referrals during the following 12 months. The year-end Youth and Referral reports for the same year also include non-criminal violation referrals. After removing non-criminal referrals, the referral counts may be slightly different from the 2022 Referral reports because new data entry may occur after the publication of the Referral reports.

Notes about the information

Counts: Data is grouped by the county where the referral originated. The report counts the total number of youth who had a criminal referral originating in that county in the reporting year. The report sorts the results into two primary groups:

- **No Subsequent Referrals** – youth who had no subsequent referrals during the following 12 months; and
- **Subsequent Referrals** – youth who had one or more subsequent referrals during the following 12 months. This group is further divided into two groups:
 - Youth with 1-2 Subsequent Referrals
 - Youth with 3 or more Subsequent Referrals

Percentages: Percentages are rounded to the nearest whole number and therefore may not add up to 100%.

Demographics: The JJIS Steering Committee recognizes that reporting race, ethnicity, sex, and gender in JJIS may not accurately represent everyone, due in part to a need to comply with federal reporting requirements. We respect all individuals, but also acknowledge and regret we cannot capture how individuals may self-identify in these areas.

- **Race and Ethnicity:** The JJIS Steering Committee defined Race/Ethnicity reporting categories based on available data. Race is recorded by the juvenile department based on police reports and youths' self-reporting. These reports categorize youth by the race that is recorded in JJIS unless the recorded ethnicity is Hispanic. When the recorded ethnicity is Hispanic, the youth is categorized as Hispanic, regardless of race.
- **Sex:** The options for reporting sex in JJIS currently include Male, Female, Non-Binary, and Unknown. There are current state and national discussions about new ways to document sex that are respectful and inclusive of all. The JJIS Steering Committee will continue to engage in those discussions and make updates in this area as available.

Readers are cautioned against making comparisons between counties. Many factors can influence recidivism rates including the size of the county (small numbers can vary significantly), local laws and practices, and local law enforcement resources.
