Applegate Valley Rural Fire Protection District #9/2664
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

Milliman

September 28, 2012
Applegate Valley Rural Fire Protection District #9/2664

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA
Consulting Actuary

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### Applegate Valley Rural Fire Protection District #9 -- #2664

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for Applegate Valley Rural Fire Protection District #9 to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to Applegate Valley Rural Fire Protection District #9.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for Applegate Valley Rural Fire Protection District #9*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 13.86% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | (0.37%) | (0.37%) | (0.37%) |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **13.64%** | **6.05%** | **8.78%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **14.23%** | **6.54%** | **9.27%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 100%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 13.49% | 13.49% |
| Minimum July 1, 2015 Rate | 10.49% | 7.49% |
| Maximum July 1, 2015 Rate | 16.49% | 19.49% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 14.28% | 0.36% | 0.36% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 13.95% | 0.09% | 0.09% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $1,215,301 | $926,814 | ($288,487) | 131% | $365,007 | (79%) |
| 12/31/2007 | 1,368,895 | 1,038,074 | (330,821) | 132% | 405,303 | (82%) |
| 12/31/2008 | 1,108,730 | 1,158,031 | 49,301 | 96% | 431,829 | 11% |
| 12/31/2009 | 1,275,751 | 1,295,350 | 19,599 | 98% | 421,258 | 5% |
| 12/31/2010 | 1,418,875 | 1,380,228 | (38,647) | 103% | 468,252 | (8%) |
| 12/31/2011 | 1,483,793 | 1,483,736 | (57) | 100% | 461,525 | 0% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *Applegate Valley Rural Fire Protection District #9*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | ($57) | ($38,647) |
| Allocated pooled OPSRP UAL | 7,875 | 5,814 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 7,818 | (32,833) |
| Combined valuation payroll | 461,525 | 468,252 |
| Net pension UAL as a percentage of payroll | 2% | (7%) |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $11,956 | $16,847 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $55,378 | $55,898 |
| Tier 1/Tier 2 valuation payroll | 399,440 | 408,331 |
| Tier 1/Tier 2 pension normal cost rate | 13.86% | 13.69% |
| Tier 1/ Tier 2 Actuarial accrued liability | $1,483,736 | $1,380,228 |
| Actuarial asset value | 1,483,793 | 1,418,875 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | (57) | (38,647) |
| Tier 1/ Tier 2 Funded status | 100% | 103% |
| Combined valuation payroll | $461,525 | $468,252 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 0% | (8%) |
| Tier 1/Tier 2 UAL rate<br>(includes Multnomah Fire District #10) | (0.37%) | (0.94%) |
| Tier 1/Tier 2 active members [1] | 6 | 6 |
| Tier 1/Tier 2 dormant members | 2 | 2 |
| Tier 1/Tier 2 retirees and beneficiaries | 1 | 1 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 461,525 | 468,252 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $244,160 | $231,269 |
| 2. Employer reserves | 1,050,130 | 981,327 |
| 3. Benefits in force reserve | 189,504 | 206,279 |
| **4. Total market value of assets** ***(1. + 2. + 3.)*** | **$1,483,793** | **$1,418,875** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $1,418,875 |
| 2. Regular employer contributions | 46,114 |
| 3. Benefit payments and expenses | (31,750) |
| 4. Adjustments [2] | 9,236 |
| 5. Interest credited | 41,318 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$1,483,793** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $16,177 | $17,246 |
| Tier 1 General Service | 0 | 0 |
| Tier 2 Police & Fire | 33,494 | 33,143 |
| Tier 2 General Service | 5,707 | 5,509 |
| **Total** | **$55,378** | **$55,898** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $55,378 | $55,378 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $414,867 | $397,215 |
| ▪ Tier 1 General Service | 0 | 0 |
| ▪ Tier 2 Police & Fire | 485,048 | 429,697 |
| ▪ Tier 2 General Service | 57,241 | 49,148 |
| ▪ **Total Active Members** | **$957,156** | **$876,060** |
| Dormant Members | 181,923 | 164,520 |
| Retired Members and Beneficiaries | 344,657 | 339,648 |
| **Total Actuarial Accrued Liability** | **$1,483,736** | **$1,380,228** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $1,483,736 | $1,380,228 |
| 2. Actuarial value of assets | 1,483,793 | 1,418,875 |
| 3. Unfunded accrued liability *(1. – 2.)* | (57) | (38,647) |
| 4. Funded percentage *(2. ÷ 1.)* | 100% | 103% |
| 5. Combined valuation payroll | $461,525 | $468,252 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 0% | (8%) |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($360,938) | ($29,745) | ($27,609) | ($358,802) | ($30,860) |
| December 31, 2009 | $382,624 | $29,228 | $29,366 | $382,762 | $30,324 |
| December 31, 2011 | N/A | N/A | N/A | ($24,017) | ($1,774) |
| **Total** | | | | **($57)** | **($2,310)** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $1,380,228 |
| b. Normal cost at December 31, 2010 | 55,898 |
| c. Benefit payments during 2011 | (31,542) |
| d. Interest at 8.0% to December 31, 2011 | 113,628 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 1,518,212 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 1,518,212 |
| 2. Actuarial accrued liability at December 31, 2011 | 1,483,736 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | 34,476 |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 1,418,875 |
| b. Contributions for 2011[1] | 46,114 |
| c. Benefit payments and expenses during 2011 | (31,750) |
| d. Interest at 8.0% to December 31, 2011 | 114,085 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 1,547,324 |
| 5. Actuarial value of assets at December 31, 2011 | 1,483,793 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (63,531) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($29,055)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **($38,647)** |
| 2. Expected increase | 9,535 |
| 3. Liability (gain)/loss | (34,476) |
| 4. Asset (gain)/loss | 63,531 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **($57)** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate |
| Tier 1 Police & Fire | $16,177 | $99,123 | 16.32% | $17,246 | $106,803 | 16.15% |
| Tier 1 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 Police & Fire | 33,494 | 256,151 | 13.08% | 33,143 | 258,095 | 12.84% |
| Tier 2 General Service | 5,707 | 44,166 | 12.92% | 5,509 | 43,433 | 12.68% |
| **Total** | **$55,378** | **$399,440** | **13.86%** | **$55,898** | **$408,331** | **13.69%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | ($57) | ($38,647) |
| 2. Next year's Tier 1/Tier 2 UAL payment | (2,310) | (4,973) |
| 3. Combined valuation payroll | 461,525 | 468,252 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | (0.50%) | (1.06%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 13.86% | 13.69% |
| b. Tier 1/Tier 2 UAL rate | (0.50%) | (1.06%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 13.49% | 12.75% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | | |
|---|---|---|
| 1. | Current net Tier 1/Tier 2 pension contribution rate | 13.49% |
| 2. | Employer contribution rate attributable to side accounts | 0.00% |
| 3. | Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 13.49% |
| 4. | Size of rate collar | |
| | a. 20% of current employer contribution rate *(20% x 3.)* | 2.70% |
| | b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| | c. Funded percentage | 100% |
| | d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. | July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 10.49% |
| 6. | July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 16.49% |
| 7. | July 1, 2013 total pension rate, before adjustment | 13.49% |
| 8. | Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 0.00% |
| 9. | July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | (0.50%) |
| 10. | July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | (0.50%) |
| 11. | July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 13.49% |
| 12. | Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. | Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 13.86% |
| 15. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 13.86% |
| 16. | July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 13.49% |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 "tax remedy" adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called “funding method,” a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer’s contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer’s plan to determine the employer’s periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

Banks Fire District #13/2702
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

Milliman

September 28, 2012
Banks Fire District #13/2702

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
Banks Fire District #13/2702

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### Banks Fire District #13 -- #2702

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for Banks Fire District #13 to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to Banks Fire District #13.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for Banks Fire District #13*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | **Tier 1 / Tier 2** | **General Service** | **Police & Fire** |
| **Pension** | | | |
| Normal cost rate | 14.20% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 2.94% | 2.94% | 2.94% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **17.29%** | **9.36%** | **12.09%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **17.88%** | **9.85%** | **12.58%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 82%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 17.14% | 17.14% |
| Minimum July 1, 2015 Rate | 13.71% | 10.28% |
| Maximum July 1, 2015 Rate | 20.57% | 24.00% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 14.80% | 2.63% | 2.63% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 17.83% | 3.63% | 3.63% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $412,689 | $401,294 | ($11,394) | 103% | $129,074 | (9%) |
| 12/31/2007 | 442,515 | 423,754 | (18,761) | 104% | 139,618 | (13%) |
| 12/31/2008 | 339,877 | 457,508 | 117,631 | 74% | 146,158 | 80% |
| 12/31/2009 | 399,672 | 467,019 | 67,346 | 86% | 154,254 | 44% |
| 12/31/2010 | 446,830 | 511,823 | 64,993 | 87% | 159,008 | 41% |
| 12/31/2011 | 458,745 | 561,533 | 102,788 | 82% | 169,149 | 61% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *Banks Fire District #13*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $102,788 | $64,993 |
| Allocated pooled OPSRP UAL | 2,886 | 1,974 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 105,674 | 66,967 |
| Combined valuation payroll | 169,149 | 159,008 |
| Net pension UAL as a percentage of payroll | 62% | 42% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $4,382 | $5,721 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $24,022 | $21,233 |
| Tier 1/Tier 2 valuation payroll | 169,149 | 159,008 |
| Tier 1/Tier 2 pension normal cost rate | 14.20% | 13.35% |
| Tier 1/ Tier 2 Actuarial accrued liability | $561,533 | $511,823 |
| Actuarial asset value | 458,745 | 446,830 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 102,788 | 64,993 |
| Tier 1/ Tier 2 Funded status | 82% | 87% |
| Combined valuation payroll | $169,149 | $159,008 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 61% | 41% |
| Tier 1/Tier 2 UAL rate | 2.94% | 3.08% |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 3 | 3 |
| Tier 1/Tier 2 dormant members | 0 | 0 |
| Tier 1/Tier 2 retirees and beneficiaries | 3 | 3 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### OPSRP

| ($ in millions) | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### Retiree Healthcare

| ($ in millions) | Actuarial Valuation as of | |
|---|---|---|
| RHIA | December 31, 2011 | December 31, 2010 |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 169,149 | 159,008 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate** ***(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $33,737 | $33,851 |
| 2. Employer reserves | 280,434 | 254,418 |
| 3. Benefits in force reserve | 144,575 | 158,562 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$458,745** | **$446,830** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $446,830 |
| 2. Regular employer contributions | 19,995 |
| 3. Benefit payments and expenses | (24,222) |
| 4. Adjustments[2] | 5,829 |
| 5. Interest credited | 10,313 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$458,745** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $13,110 | $12,540 |
| Tier 1 General Service | 0 | 0 |
| Tier 2 Police & Fire | 8,805 | 6,662 |
| Tier 2 General Service | 2,107 | 2,031 |
| **Total** | **$24,022** | **$21,233** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $24,022 | $24,022 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $156,304 | $135,632 |
| ▪ Tier 1 General Service | 11,806 | 10,888 |
| ▪ Tier 2 Police & Fire | 102,350 | 79,392 |
| ▪ Tier 2 General Service | 28,130 | 24,830 |
| ▪ **Total Active Members** | **$298,590** | **$250,742** |
| Dormant Members | 0 | 0 |
| Retired Members and Beneficiaries | 262,943 | 261,081 |
| **Total Actuarial Accrued Liability** | **$561,533** | **$511,823** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $561,533 | $561,533 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $561,533 | $511,823 |
| 2. Actuarial value of assets | 458,745 | 446,830 |
| 3. Unfunded accrued liability *(1. – 2.)* | 102,788 | 64,993 |
| 4. Funded percentage *(2. ÷ 1.)* | 82% | 87% |
| 5. Combined valuation payroll | $169,149 | $159,008 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 61% | 41% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($43,839) | ($3,613) | ($3,353) | ($43,579) | ($3,748) |
| December 31, 2009 | $111,634 | $8,527 | $8,568 | $111,675 | $8,847 |
| December 31, 2011 | N/A | N/A | N/A | $34,692 | $2,562 |
| **Total** | | | | **$102,788** | **$7,661** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $511,823 |
| b. Normal cost at December 31, 2010 | 21,233 |
| c. Benefit payments during 2011 | (24,064) |
| d. Interest at 8.0% to December 31, 2011 | 41,682 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 550,674 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 550,674 |
| 2. Actuarial accrued liability at December 31, 2011 | 561,533 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (10,859) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 446,830 |
| b. Contributions for 2011[1] | 19,995 |
| c. Benefit payments and expenses during 2011 | (24,222) |
| d. Interest at 8.0% to December 31, 2011 | 35,577 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 478,181 |
| 5. Actuarial value of assets at December 31, 2011 | 458,745 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (19,436) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($30,295)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$64,993** |
| 2. Expected increase | 7,500 |
| 3. Liability (gain)/loss | 10,859 |
| 4. Asset (gain)/loss | 19,436 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$102,788** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate |
| Tier 1 Police & Fire | $13,110 | $77,799 | 16.85% | $12,540 | $75,540 | 16.60% |
| Tier 1 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 Police & Fire | 8,805 | 71,686 | 12.28% | 6,662 | 63,840 | 10.44% |
| Tier 2 General Service | 2,107 | 19,664 | 10.72% | 2,031 | 19,628 | 10.35% |
| **Total** | **$24,022** | **$169,149** | **14.20%** | **$21,233** | **$159,008** | **13.35%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $102,788 | $64,993 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 7,661 | 4,707 |
| 3. Combined valuation payroll | 169,149 | 159,008 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 4.53% | 2.96% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 14.20% | 13.35% |
| b. Tier 1/Tier 2 UAL rate | 4.53% | 2.96% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 18.86% | 16.43% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 14.14% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 14.14% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 2.83% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 82% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 11.14% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 17.14% |
| 7. July 1, 2013 total pension rate, before adjustment | 18.86% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (1.72%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 4.53% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 2.81% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 17.14% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 14.20% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 14.20% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 17.14% |

| **Total** | 3 | 618 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

Milliman

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### Bend Parks & Recreation -- #2596

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for Bend Parks & Recreation to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to Bend Parks & Recreation.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for Bend Parks & Recreation*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 8.84% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 2.47% | 2.47% | 2.47% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **11.46%** | **8.89%** | **11.62%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **12.05%** | **9.38%** | **12.11%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 85%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 11.31% | 11.31% |
| Minimum July 1, 2015 Rate | 8.31% | 5.31% |
| Maximum July 1, 2015 Rate | 14.31% | 17.31% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 29 | 26 |
| Amortization factor | 16.935 | 15.906 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 8.31% | 1.09% | 1.09% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 11.31% | 2.47% | 2.47% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $10,729,983 | $9,535,387 | ($1,194,596) | 113% | $4,309,580 | (28%) |
| 12/31/2007 | 11,473,155 | 9,879,326 | (1,593,829) | 116% | 4,639,861 | (34%) |
| 12/31/2008 | 9,216,475 | 10,663,648 | 1,447,173 | 86% | 5,256,904 | 28% |
| 12/31/2009 | 10,568,000 | 11,449,834 | 881,834 | 92% | 5,573,280 | 16% |
| 12/31/2010 | 11,873,968 | 12,796,796 | 922,828 | 93% | 5,742,374 | 16% |
| 12/31/2011 | 11,574,356 | 13,624,264 | 2,049,908 | 85% | 5,084,185 | 40% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *Bend Parks & Recreation*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $2,049,908 | $922,828 |
| Allocated pooled OPSRP UAL | 86,748 | 71,299 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 2,136,656 | 994,127 |
| Combined valuation payroll | 5,084,185 | 5,742,374 |
| Net pension UAL as a percentage of payroll | 42% | 17% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $131,708 | $206,602 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $246,705 | $226,839 |
| Tier 1/Tier 2 valuation payroll | 2,790,907 | 3,019,748 |
| Tier 1/Tier 2 pension normal cost rate | 8.84% | 7.51% |
| Tier 1/ Tier 2 Actuarial accrued liability | $13,624,264 | $12,796,796 |
| Actuarial asset value | 11,574,356 | 11,873,968 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 2,049,908 | 922,828 |
| Tier 1/ Tier 2 Funded status | 85% | 93% |
| Combined valuation payroll | $5,084,185 | $5,742,374 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 40% | 16% |
| Tier 1/Tier 2 UAL rate | 2.47% | 1.13% |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 57 | 67 |
| Tier 1/Tier 2 dormant members | 64 | 55 |
| Tier 1/Tier 2 retirees and beneficiaries | 57 | 52 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 5,084,185 | 5,742,374 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $2,637,116 | $3,096,762 |
| 2. Employer reserves | 6,390,942 | 6,855,463 |
| 3. Benefits in force reserve | 2,546,298 | 1,921,743 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$11,574,356** | **$11,873,968** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $11,873,968 |
| 2. | Regular employer contributions | 171,987 |
| 3. | Benefit payments and expenses | (426,615) |
| 4. | Adjustments[2] | (445,825) |
| 5. | Interest credited | 400,840 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$11,574,356** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $0 | $0 |
| Tier 1 General Service | 118,439 | 102,467 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 128,266 | 124,372 |
| **Total** | **$246,705** | **$226,839** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $246,705 | $246,705 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | **December 31, 2011** | **December 31, 2010** |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $0 | $0 |
| ▪ Tier 1 General Service | 5,176,134 | 6,561,954 |
| ▪ Tier 2 Police & Fire | 0 | 0 |
| ▪ Tier 2 General Service | 1,651,632 | 1,472,485 |
| ▪ **Total Active Members** | **$6,827,766** | **$8,034,439** |
| Dormant Members | 2,165,454 | 1,598,106 |
| Retired Members and Beneficiaries | 4,631,044 | 3,164,251 |
| **Total Actuarial Accrued Liability** | **$13,624,264** | **$12,796,796** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | **Before Changes** | **After Changes** | **Net Change** |
|---|---|---|---|
| Actuarial Accrued Liability | $13,624,264 | $13,624,264 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $13,624,264 | $12,796,796 |
| 2. Actuarial value of assets | 11,574,356 | 11,873,968 |
| 3. Unfunded accrued liability *(1. – 2.)* | 2,049,908 | 922,828 |
| 4. Funded percentage *(2. ÷ 1.)* | 85% | 93% |
| 5. Combined valuation payroll | $5,084,185 | $5,742,374 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 40% | 16% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($2,056,350) | ($169,465) | ($157,294) | ($2,044,179) | ($175,820) |
| December 31, 2009 | $2,952,391 | $225,532 | $226,591 | $2,953,450 | $233,989 |
| December 31, 2011 | N/A | N/A | N/A | $1,140,637 | $84,236 |
| **Total** | | | | **$2,049,908** | **$142,405** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $12,796,796 |
| b. Normal cost at December 31, 2010 | 226,839 |
| c. Benefit payments during 2011 | (423,818) |
| d. Interest at 8.0% to December 31, 2011 | 1,024,938 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 13,624,755 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 13,624,755 |
| 2. Actuarial accrued liability at December 31, 2011 | 13,624,264 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | 491 |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 11,873,968 |
| b. Contributions for 2011[1] | 171,987 |
| c. Benefit payments and expenses during 2011 | (426,615) |
| d. Interest at 8.0% to December 31, 2011 | 939,732 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 12,559,073 |
| 5. Actuarial value of assets at December 31, 2011 | 11,574,356 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (984,717) |
| **7. Total actuarial gain/(loss) *(3. + 6.)*** | **($984,226)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$922,828** |
| 2. Expected increase | 142,854 |
| 3. Liability (gain)/loss | (491) |
| 4. Asset (gain)/loss | 984,717 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011 *(1. + 2. + 3. + 4. + 5.)*** | **$2,049,908** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate |
| Tier 1 Police & Fire | $0 | $0 | 0.00% | $0 | $0 | 0.00% |
| Tier 1 General Service | 118,439 | 1,566,831 | 7.56% | 102,467 | 1,790,328 | 5.72% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 128,266 | 1,224,076 | 10.48% | 124,372 | 1,229,420 | 10.12% |
| **Total** | **$246,705** | **$2,790,907** | **8.84%** | **$226,839** | **$3,019,748** | **7.51%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $2,049,908 | $922,828 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 142,405 | 58,045 |
| 3. Combined valuation payroll | 5,084,185 | 5,742,374 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 2.80% | 1.01% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 8.84% | 7.51% |
| b. Tier 1/Tier 2 UAL rate | 2.80% | 1.01% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 11.77% | 8.64% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | | |
|---|---|---|
| 1. | Current net Tier 1/Tier 2 pension contribution rate | 8.31% |
| 2. | Employer contribution rate attributable to side accounts | 0.00% |
| 3. | Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 8.31% |
| 4. | Size of rate collar | |
| | a. 20% of current employer contribution rate *(20% x 3.)* | 1.66% |
| | b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| | c. Funded percentage | 85% |
| | d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. | July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 5.31% |
| 6. | July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 11.31% |
| 7. | July 1, 2013 total pension rate, before adjustment | 11.77% |
| 8. | Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (0.46%) |
| 9. | July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 2.80% |
| 10. | July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 2.34% |
| 11. | July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 11.31% |
| 12. | Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. | Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 8.84% |
| 15. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 8.84% |
| 16. | July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 11.31% |

| 90-94 | | |
| 95-99 | | |
| 100+ | | |
| Total | 57 | 523 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members’ regular account balances.<br>8.25% compounded annually on members’ variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called “funding method,” a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer’s contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer’s plan to determine the employer’s periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

Black Butte Ranch Rural Fire Protection District/2648
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

Milliman

September 28, 2012
Black Butte Ranch Rural Fire Protection District/2648

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### Black Butte Ranch Rural Fire Protection District -- #2648

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for Black Butte Ranch Rural Fire Protection District to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to Black Butte Ranch Rural Fire Protection District.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for Black Butte Ranch Rural Fire Protection District*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 18.91% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | (7.20%) | (7.20%) | (7.20%) |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **11.86%** | **0.00%** | **1.95%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **12.45%** | **0.49%** | **2.44%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 98%.

| **Funded Status as of December 31, 2013** | **80% to 120%** | **Under 70% or Over 130%** |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 11.71% | 11.71% |
| Minimum July 1, 2015 Rate | 8.71% | 5.71% |
| Maximum July 1, 2015 Rate | 14.71% | 17.71% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 30 | 1 |
| Amortization factor | 17.175 | 0.897 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 8.71% | (8.89%) | (8.89%) |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 19.75% | 0.84% | 0.84% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $3,423,013 | $2,559,954 | ($863,059) | 134% | $424,881 | (203%) |
| 12/31/2007 | 3,664,039 | 2,761,114 | (902,925) | 133% | 532,304 | (170%) |
| 12/31/2008 | 2,771,033 | 2,798,195 | 27,162 | 99% | 493,884 | 6% |
| 12/31/2009 | 3,179,320 | 3,130,088 | (49,232) | 102% | 518,846 | (9%) |
| 12/31/2010 | 3,440,032 | 3,355,979 | (84,053) | 103% | 594,334 | (14%) |
| 12/31/2011 | 3,324,045 | 3,404,058 | 80,013 | 98% | 618,314 | 13% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *Black Butte Ranch Rural Fire Protection District*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $80,013 | ($84,053) |
| Allocated pooled OPSRP UAL | 10,550 | 7,379 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 90,563 | (76,674) |
| Combined valuation payroll | 618,314 | 594,334 |
| Net pension UAL as a percentage of payroll | 15% | (13%) |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $16,018 | $21,383 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | December 31, 2011 | December 31, 2010 |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 618,314 | 594,334 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $420,018 | $564,496 |
| 2. Employer reserves | 1,947,432 | 2,011,894 |
| 3. Benefits in force reserve | 956,595 | 863,642 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$3,324,045** | **$3,440,032** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $3,440,032 |
| 2. | Regular employer contributions | (4,839) |
| 3. | Benefit payments and expenses | (160,271) |
| 4. | Adjustments [2] | (42,418) |
| 5. | Interest credited | 91,540 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$3,324,045** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $42,574 | $40,528 |
| Tier 1 General Service | 0 | 0 |
| Tier 2 Police & Fire | 17,592 | 16,466 |
| Tier 2 General Service | 0 | 8,721 |
| **Total** | **$60,166** | **$65,715** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $60,166 | $60,166 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $1,207,470 | $1,109,253 |
| ▪ Tier 1 General Service | 0 | 0 |
| ▪ Tier 2 Police & Fire | 230,791 | 199,001 |
| ▪ Tier 2 General Service | 0 | 132,037 |
| ▪ **Total Active Members** | **$1,438,261** | **$1,440,291** |
| Dormant Members | 226,004 | 493,656 |
| Retired Members and Beneficiaries | 1,739,793 | 1,422,032 |
| **Total Actuarial Accrued Liability** | **$3,404,058** | **$3,355,979** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $3,404,058 | $3,404,058 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $3,404,058 | $3,355,979 |
| 2. Actuarial value of assets | 3,324,045 | 3,440,032 |
| 3. Unfunded accrued liability *(1. – 2.)* | 80,013 | (84,053) |
| 4. Funded percentage *(2. ÷ 1.)* | 98% | 103% |
| 5. Combined valuation payroll | $618,314 | $594,334 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 13% | (14%) |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($915,598) | ($75,456) | ($70,036) | ($910,178) | ($78,286) |
| December 31, 2009 | $871,364 | $66,563 | $66,876 | $871,677 | $69,059 |
| December 31, 2011 | N/A | N/A | N/A | $118,514 | $8,752 |
| **Total** | | | | **$80,013** | **($475)** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $3,355,979 |
| b. Normal cost at December 31, 2010 | 65,715 |
| c. Benefit payments during 2011 | (159,220) |
| d. Interest at 8.0% to December 31, 2011 | 267,367 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 3,529,841 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 3,529,841 |
| 2. Actuarial accrued liability at December 31, 2011 | 3,404,058 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | 125,783 |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 3,440,032 |
| b. Contributions for 2011[1] | (4,839) |
| c. Benefit payments and expenses during 2011 | (160,271) |
| d. Interest at 8.0% to December 31, 2011 | 268,598 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 3,543,521 |
| 5. Actuarial value of assets at December 31, 2011 | 3,324,045 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (219,476) |
| **7. Total actuarial gain/(loss) *(3. + 6.)*** | **($93,693)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **($84,053)** |
| 2. Expected increase | 70,373 |
| 3. Liability (gain)/loss | (125,783) |
| 4. Asset (gain)/loss | 219,476 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011 *(1. + 2. + 3. + 4. + 5.)*** | **$80,013** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $42,574 | $213,412 | 19.95% | $40,528 | $211,821 | 19.13% |
| Tier 1 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 Police & Fire | 17,592 | 104,769 | 16.79% | 16,466 | 100,321 | 16.41% |
| Tier 2 General Service | 0 | 0 | 0.00% | 8,721 | 63,308 | 13.78% |
| **Total** | **$60,166** | **$318,181** | **18.91%** | **$65,715** | **$375,450** | **17.50%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $80,013 | ($84,053) |
| 2. Next year's Tier 1/Tier 2 UAL payment | (475) | (11,834) |
| 3. Combined valuation payroll | 618,314 | 594,334 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | (0.08%) | (1.99%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 18.91% | 17.50% |
| b. Tier 1/Tier 2 UAL rate | (0.08%) | (1.99%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 18.96% | 15.63% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 8.71% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 8.71% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 1.74% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 98% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 5.71% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 11.71% |
| 7. July 1, 2013 total pension rate, before adjustment | 18.96% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (7.25%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | (0.08%) |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | (7.33%) |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 11.71% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 18.91% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 18.91% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 11.71% |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members’ regular account balances.<br>8.25% compounded annually on members’ variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called “funding method,” a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer’s contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer’s plan to determine the employer’s periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

Boardman Rural Fire Protection District/2833
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

Milliman

September 28, 2012
Boardman Rural Fire Protection District/2833

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### Boardman Rural Fire Protection District -- #2833

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for Boardman Rural Fire Protection District to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to Boardman Rural Fire Protection District.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for Boardman Rural Fire Protection District*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 17.49% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 0.44% | 0.44% | 0.44% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **18.08%** | **6.86%** | **9.59%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **18.67%** | **7.35%** | **10.08%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 92%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 17.93% | 17.93% |
| Minimum July 1, 2015 Rate | 14.34% | 10.75% |
| Maximum July 1, 2015 Rate | 21.52% | 25.11% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

## *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

### *Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 17.64% | 0.10% | 0.10% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 17.93% | 0.44% | 0.44% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $182,943 | $134,637 | ($48,306) | 136% | $142,775 | (34%) |
| 12/31/2007 | 203,037 | 143,783 | (59,254) | 141% | 176,812 | (34%) |
| 12/31/2008 | 150,740 | 161,496 | 10,756 | 93% | 185,182 | 6% |
| 12/31/2009 | 188,954 | 189,184 | 230 | 100% | 194,424 | 0% |
| 12/31/2010 | 219,141 | 218,028 | (1,113) | 101% | 342,071 | 0% |
| 12/31/2011 | 232,340 | 251,708 | 19,368 | 92% | 318,829 | 6% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *Boardman Rural Fire Protection District*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $19,368 | ($1,113) |
| Allocated pooled OPSRP UAL | 5,440 | 4,247 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 24,808 | 3,134 |
| Combined valuation payroll | 318,829 | 342,071 |
| Net pension UAL as a percentage of payroll | 8% | 1% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $8,259 | $12,307 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 318,829 | 342,071 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $32,081 | $31,982 |
| 2. Employer reserves | 200,259 | 187,159 |
| 3. Benefits in force reserve | 0 | 0 |
| **4. Total market value of assets** ***(1. + 2. + 3.)*** | **$232,340** | **$219,141** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $219,141 |
| 2. | Regular employer contributions | 9,032 |
| 3. | Benefit payments and expenses | 0 |
| 4. | Adjustments [2] | 117 |
| 5. | Interest credited | 4,050 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$232,340** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $0 | $0 |
| Tier 1 General Service | 0 | 0 |
| Tier 2 Police & Fire | 13,230 | 13,294 |
| Tier 2 General Service | 0 | 0 |
| **Total** | **$13,230** | **$13,294** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $13,230 | $13,230 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $0 | $0 |
| ▪ Tier 1 General Service | 0 | 0 |
| ▪ Tier 2 Police & Fire | 251,708 | 218,028 |
| ▪ Tier 2 General Service | 0 | 0 |
| ▪ **Total Active Members** | **$251,708** | **$218,028** |
| Dormant Members | 0 | 0 |
| Retired Members and Beneficiaries | 0 | 0 |
| **Total Actuarial Accrued Liability** | **$251,708** | **$218,028** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $251,708 | $251,708 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $251,708 | $218,028 |
| 2. Actuarial value of assets | 232,340 | 219,141 |
| 3. Unfunded accrued liability *(1. – 2.)* | 19,368 | (1,113) |
| 4. Funded percentage *(2. ÷ 1.)* | 92% | 101% |
| 5. Combined valuation payroll | $318,829 | $342,071 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 6% | 0% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($64,837) | ($5,342) | ($4,960) | ($64,455) | ($5,542) |
| December 31, 2009 | $65,431 | $4,999 | $5,022 | $65,454 | $5,186 |
| December 31, 2011 | N/A | N/A | N/A | $18,369 | $1,357 |
| **Total** | | | | **$19,368** | **$1,001** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $218,028 |
| b. Normal cost at December 31, 2010 | 13,294 |
| c. Benefit payments during 2011 | 0 |
| d. Interest at 8.0% to December 31, 2011 | 18,506 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 249,828 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 249,828 |
| 2. Actuarial accrued liability at December 31, 2011 | 251,708 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (1,880) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 219,141 |
| b. Contributions for 2011[1] | 9,032 |
| c. Benefit payments and expenses during 2011 | 0 |
| d. Interest at 8.0% to December 31, 2011 | 17,893 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 246,066 |
| 5. Actuarial value of assets at December 31, 2011 | 232,340 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (13,726) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($15,606)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **($1,113)** |
| 2. Expected increase | 4,875 |
| 3. Liability (gain)/loss | 1,880 |
| 4. Asset (gain)/loss | 13,726 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$19,368** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $0 | $0 | 0.00% | $0 | $0 | 0.00% |
| Tier 1 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 Police & Fire | 13,230 | 75,642 | 17.49% | 13,294 | 71,514 | 18.59% |
| Tier 2 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| **Total** | **$13,230** | **$75,642** | **17.49%** | **$13,294** | **$71,514** | **18.59%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $19,368 | ($1,113) |
| 2. Next year's Tier 1/Tier 2 UAL payment | 1,001 | (469) |
| 3. Combined valuation payroll | 318,829 | 342,071 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 0.31% | (0.14%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 17.49% | 18.59% |
| b. Tier 1/Tier 2 UAL rate | 0.31% | (0.14%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 17.93% | 18.57% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 17.17% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 17.17% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 3.43% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.43% |
| c. Funded percentage | 92% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.43% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 13.74% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 20.60% |
| 7. July 1, 2013 total pension rate, before adjustment | 17.93% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 0.00% |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 0.31% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 0.31% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 17.93% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 17.49% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 17.49% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 17.93% |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members’ regular account balances.<br>8.25% compounded annually on members’ variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called “funding method,” a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer’s contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer’s plan to determine the employer’s periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

Brownsville Rural Fire Protection District/2779
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
Brownsville Rural Fire Protection District/2779

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA
Consulting Actuary

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### Brownsville Rural Fire Protection District -- #2779

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for Brownsville Rural Fire Protection District to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to Brownsville Rural Fire Protection District.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for Brownsville Rural Fire Protection District*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 15.53% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 0.51% | 0.51% | 0.51% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **16.19%** | **6.93%** | **9.66%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **16.78%** | **7.42%** | **10.15%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 89%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 16.04% | 16.04% |
| Minimum July 1, 2015 Rate | 12.83% | 9.62% |
| Maximum July 1, 2015 Rate | 19.25% | 22.46% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

## *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

### *Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 15.25% | 0.37% | 0.37% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 18.43% | 2.90% | 2.90% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $273,755 | $215,370 | ($58,385) | 127% | $60,093 | (97%) |
| 12/31/2007 | 304,768 | 232,997 | (71,771) | 131% | 64,448 | (111%) |
| 12/31/2008 | 223,089 | 250,636 | 27,547 | 89% | 66,164 | 42% |
| 12/31/2009 | 277,778 | 281,218 | 3,440 | 99% | 69,979 | 5% |
| 12/31/2010 | 316,335 | 333,084 | 16,749 | 95% | 75,225 | 22% |
| 12/31/2011 | 334,703 | 375,388 | 40,685 | 89% | 84,296 | 48% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *Brownsville Rural Fire Protection District*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $40,685 | $16,749 |
| Allocated pooled OPSRP UAL | 1,438 | 934 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 42,123 | 17,683 |
| Combined valuation payroll | 84,296 | 75,225 |
| Net pension UAL as a percentage of payroll | 50% | 24% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $2,184 | $2,706 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| Normal cost | $13,091 | $11,228 |
| Tier 1/Tier 2 valuation payroll | 84,296 | 75,225 |
| Tier 1/Tier 2 pension normal cost rate | 15.53% | 14.93% |
| Tier 1/ Tier 2 Actuarial accrued liability | $375,388 | $333,084 |
| Actuarial asset value | 334,703 | 316,335 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 40,685 | 16,749 |
| Tier 1/ Tier 2 Funded status | 89% | 95% |
| Combined valuation payroll | $84,296 | $75,225 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 48% | 22% |
| Tier 1/Tier 2 UAL rate | 0.51% | 1.11% |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 1 | 1 |
| Tier 1/Tier 2 dormant members | 0 | 0 |
| Tier 1/Tier 2 retirees and beneficiaries | 0 | 0 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 84,296 | 75,225 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $73,604 | $70,029 |
| 2. Employer reserves | 261,099 | 246,306 |
| 3. Benefits in force reserve | 0 | 0 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$334,703** | **$316,335** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $316,335 |
| 2. | Regular employer contributions | 9,124 |
| 3. | Benefit payments and expenses | 0 |
| 4. | Adjustments [2] | (734) |
| 5. | Interest credited | 9,977 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$334,703** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

### *Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $0 | $0 |
| Tier 1 General Service | 0 | 0 |
| Tier 2 Police & Fire | 13,091 | 11,228 |
| Tier 2 General Service | 0 | 0 |
| **Total** | **$13,091** | **$11,228** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $13,091 | $13,091 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $232,057 | $220,286 |
| ▪ Tier 1 General Service | 0 | 0 |
| ▪ Tier 2 Police & Fire | 143,331 | 112,798 |
| ▪ Tier 2 General Service | 0 | 0 |
| ▪ **Total Active Members** | **$375,388** | **$333,084** |
| Dormant Members | 0 | 0 |
| Retired Members and Beneficiaries | 0 | 0 |
| **Total Actuarial Accrued Liability** | **$375,388** | **$333,084** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $375,388 | $375,388 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $375,388 | $333,084 |
| 2. Actuarial value of assets | 334,703 | 316,335 |
| 3. Unfunded accrued liability *(1. – 2.)* | 40,685 | 16,749 |
| 4. Funded percentage *(2. ÷ 1.)* | 89% | 95% |
| 5. Combined valuation payroll | $84,296 | $75,225 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 48% | 22% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($81,479) | ($6,715) | ($6,232) | ($80,996) | ($6,967) |
| December 31, 2009 | $85,387 | $6,523 | $6,553 | $85,417 | $6,768 |
| December 31, 2011 | N/A | N/A | N/A | $36,264 | $2,678 |
| **Total** | | | | **$40,685** | **$2,479** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $333,084 |
| b. Normal cost at December 31, 2010 | 11,228 |
| c. Benefit payments during 2011 | 0 |
| d. Interest at 8.0% to December 31, 2011 | 27,545 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 371,857 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 371,857 |
| 2. Actuarial accrued liability at December 31, 2011 | 375,388 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (3,531) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 316,335 |
| b. Contributions for 2011[1] | 9,124 |
| c. Benefit payments and expenses during 2011 | 0 |
| d. Interest at 8.0% to December 31, 2011 | 25,672 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 351,131 |
| 5. Actuarial value of assets at December 31, 2011 | 334,703 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (16,428) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($19,959)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$16,749** |
| 2. Expected increase | 3,977 |
| 3. Liability (gain)/loss | 3,531 |
| 4. Asset (gain)/loss | 16,428 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$40,685** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $0 | $0 | 0.00% | $0 | $0 | 0.00% |
| Tier 1 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 Police & Fire | 13,091 | 84,296 | 15.53% | 11,228 | 75,225 | 14.93% |
| Tier 2 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| **Total** | **$13,091** | **$84,296** | **15.53%** | **$11,228** | **$75,225** | **14.93%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $40,685 | $16,749 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 2,479 | 756 |
| 3. Combined valuation payroll | 84,296 | 75,225 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 2.94% | 1.00% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 15.53% | 14.93% |
| b. Tier 1/Tier 2 UAL rate | 2.94% | 1.00% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 18.60% | 16.05% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 13.04% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 13.04% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 2.61% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 89% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 10.04% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 16.04% |
| 7. July 1, 2013 total pension rate, before adjustment | 18.60% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (2.56%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 2.94% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 0.38% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 16.04% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 15.53% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 15.53% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 16.04% |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members’ regular account balances.<br>8.25% compounded annually on members’ variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 "tax remedy" adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

September 28, 2012

Central Oregon Intergovernmental Council/2569
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

Milliman

September 28, 2012
Central Oregon Intergovernmental Council/2569

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA
Consulting Actuary

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### Central Oregon Intergovernmental Council -- #2569

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for Central Oregon Intergovernmental Council to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to Central Oregon Intergovernmental Council.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for Central Oregon Intergovernmental Council*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 9.98% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 2.33% | 2.33% | 2.33% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **12.46%** | **8.75%** | **11.48%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **13.05%** | **9.24%** | **11.97%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 87%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 12.31% | 12.31% |
| Minimum July 1, 2015 Rate | 9.31% | 6.31% |
| Maximum July 1, 2015 Rate | 15.31% | 18.31% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 21 | 30 |
| Amortization factor | 13.843 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 9.70% | 1.43% | 1.43% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 12.31% | 2.33% | 2.33% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $8,783,128 | $8,202,575 | ($580,553) | 107% | $2,354,832 | (25%) |
| 12/31/2007 | 9,583,547 | 8,654,315 | (929,232) | 111% | 2,546,525 | (36%) |
| 12/31/2008 | 7,252,664 | 8,694,695 | 1,442,031 | 83% | 3,047,833 | 47% |
| 12/31/2009 | 8,552,656 | 9,391,954 | 839,298 | 91% | 3,654,124 | 23% |
| 12/31/2010 | 9,331,624 | 10,220,183 | 888,559 | 91% | 4,376,107 | 20% |
| 12/31/2011 | 8,900,492 | 10,248,303 | 1,347,811 | 87% | 4,384,310 | 31% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *Central Oregon Intergovernmental Council*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $1,347,811 | $888,559 |
| Allocated pooled OPSRP UAL | 74,807 | 54,335 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 1,422,618 | 942,894 |
| Combined valuation payroll | 4,384,310 | 4,376,107 |
| Net pension UAL as a percentage of payroll | 32% | 22% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $113,578 | $157,445 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $210,879 | $184,197 |
| Tier 1/Tier 2 valuation payroll | 2,113,615 | 2,101,784 |
| Tier 1/Tier 2 pension normal cost rate | 9.98% | 8.76% |
| Tier 1/ Tier 2 Actuarial accrued liability | $10,248,303 | $10,220,183 |
| Actuarial asset value | 8,900,492 | 9,331,624 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 1,347,811 | 888,559 |
| Tier 1/ Tier 2 Funded status | 87% | 91% |
| Combined valuation payroll | $4,384,310 | $4,376,107 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 31% | 20% |
| Tier 1/Tier 2 UAL rate | 2.33% | 1.51% |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 40 | 40 |
| Tier 1/Tier 2 dormant members | 35 | 29 |
| Tier 1/Tier 2 retirees and beneficiaries | 43 | 41 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 4,384,310 | 4,376,107 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $1,896,095 | $2,165,771 |
| 2. Employer reserves | 5,043,212 | 5,095,687 |
| 3. Benefits in force reserve | 1,961,185 | 2,070,166 |
| **4. Total market value of assets** ***(1. + 2. + 3.)*** | **$8,900,492** | **$9,331,624** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $9,331,624 |
| 2. | Regular employer contributions | 179,625 |
| 3. | Benefit payments and expenses | (328,583) |
| 4. | Adjustments [2] | (500,481) |
| 5. | Interest credited | 218,307 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$8,900,492** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

### *Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $0 | $0 |
| Tier 1 General Service | 70,532 | 57,419 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 140,347 | 126,778 |
| **Total** | **$210,879** | **$184,197** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $210,879 | $210,879 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $0 | $0 |
| ▪ Tier 1 General Service | 2,954,046 | 3,321,052 |
| ▪ Tier 2 Police & Fire | 0 | 0 |
| ▪ Tier 2 General Service | 2,371,794 | 2,095,793 |
| ▪ **Total Active Members** | **$5,325,840** | **$5,416,845** |
| Dormant Members | 1,355,585 | 1,394,702 |
| Retired Members and Beneficiaries | 3,566,878 | 3,408,636 |
| **Total Actuarial Accrued Liability** | **$10,248,303** | **$10,220,183** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $10,248,303 | $10,248,303 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $10,248,303 | $10,220,183 |
| 2. Actuarial value of assets | 8,900,492 | 9,331,624 |
| 3. Unfunded accrued liability *(1. – 2.)* | 1,347,811 | 888,559 |
| 4. Funded percentage *(2. ÷ 1.)* | 87% | 91% |
| 5. Combined valuation payroll | $4,384,310 | $4,376,107 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 31% | 20% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($1,125,217) | ($92,731) | ($86,070) | ($1,118,556) | ($96,208) |
| December 31, 2009 | $1,973,362 | $150,745 | $151,452 | $1,974,069 | $156,398 |
| December 31, 2011 | N/A | N/A | N/A | $492,298 | $36,356 |
| **Total** | | | | **$1,347,811** | **$96,546** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $10,220,183 |
| b. Normal cost at December 31, 2010 | 184,197 |
| c. Benefit payments during 2011 | (326,429) |
| d. Interest at 8.0% to December 31, 2011 | 819,293 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 10,897,244 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 10,897,244 |
| 2. Actuarial accrued liability at December 31, 2011 | 10,248,303 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | 648,941 |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 9,331,624 |
| b. Contributions for 2011[1] | 179,625 |
| c. Benefit payments and expenses during 2011 | (328,583) |
| d. Interest at 8.0% to December 31, 2011 | 740,572 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 9,923,238 |
| 5. Actuarial value of assets at December 31, 2011 | 8,900,492 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (1,022,746) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($373,805)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$888,559** |
| 2. Expected increase | 85,447 |
| 3. Liability (gain)/loss | (648,941) |
| 4. Asset (gain)/loss | 1,022,746 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$1,347,811** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate |
| Tier 1 Police & Fire | $0 | $0 | 0.00% | $0 | $0 | 0.00% |
| Tier 1 General Service | 70,532 | 804,731 | 8.76% | 57,419 | 858,011 | 6.69% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 140,347 | 1,308,884 | 10.72% | 126,778 | 1,243,773 | 10.19% |
| **Total** | **$210,879** | **$2,113,615** | **9.98%** | **$184,197** | **$2,101,784** | **8.76%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $1,347,811 | $888,559 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 96,546 | 60,999 |
| 3. Combined valuation payroll | 4,384,310 | 4,376,107 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 2.20% | 1.39% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 9.98% | 8.76% |
| b. Tier 1/Tier 2 UAL rate | 2.20% | 1.39% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 12.31% | 10.27% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | | |
|---|---|---|
| 1. | Current net Tier 1/Tier 2 pension contribution rate | 9.70% |
| 2. | Employer contribution rate attributable to side accounts | 0.00% |
| 3. | Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 9.70% |
| 4. | Size of rate collar | |
| | a. 20% of current employer contribution rate *(20% x 3.)* | 1.94% |
| | b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| | c. Funded percentage | 87% |
| | d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. | July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 6.70% |
| 6. | July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 12.70% |
| 7. | July 1, 2013 total pension rate, before adjustment | 12.31% |
| 8. | Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 0.00% |
| 9. | July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 2.20% |
| 10. | July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 2.20% |
| 11. | July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 12.31% |
| 12. | Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. | Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 9.98% |
| 15. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 9.98% |
| 16. | July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 12.31% |

| 65-69 | 9 | 742 |
| 70-74 | 12 | 370 |
| 75-79 | 3 | 129 |
| 80-84 | 2 | 1,375 |
| 85-89 | 2 | 62 |
| 90-94 | | |
| 95-99 | | |
| 100+ | | |
| Total | 43 | 605 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called “funding method,” a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer’s contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer’s plan to determine the employer’s periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

September 28, 2012

Central Oregon Regional Housing Authority/2678
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

September 28, 2012
Central Oregon Regional Housing Authority/2678

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

# ACTUARIAL VALUATION REPORT DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

Central Oregon Regional Housing Authority -- #2678

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for Central Oregon Regional Housing Authority to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to Central Oregon Regional Housing Authority.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for Central Oregon Regional Housing Authority*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 7.10% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | (1.69%) | (1.69%) | (1.69%) |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **5.56%** | **4.73%** | **7.46%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **6.15%** | **5.22%** | **7.95%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 108%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 5.41% | 5.41% |
| Minimum July 1, 2015 Rate | 2.41% | 0.00% |
| Maximum July 1, 2015 Rate | 8.41% | 11.41% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 15 | 15 |
| Amortization factor | 11.011 | 10.998 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 5.41% | (1.40%) | (1.40%) |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 5.41% | (1.69%) | (1.69%) |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $1,587,411 | $1,286,054 | ($301,357) | 123% | $433,993 | (69%) |
| 12/31/2007 | 1,765,271 | 1,358,750 | (406,521) | 130% | 713,808 | (57%) |
| 12/31/2008 | 1,388,677 | 1,405,586 | 16,909 | 99% | 707,188 | 2% |
| 12/31/2009 | 1,673,580 | 1,552,945 | (120,635) | 108% | 768,732 | (16%) |
| 12/31/2010 | 1,865,855 | 1,680,739 | (185,116) | 111% | 684,037 | (27%) |
| 12/31/2011 | 1,912,749 | 1,768,115 | (144,634) | 108% | 812,514 | (18%) |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *Central Oregon Regional Housing Authority*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | ($144,634) | ($185,116) |
| Allocated pooled OPSRP UAL | 13,863 | 8,493 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | (130,771) | (176,623) |
| Combined valuation payroll | 812,514 | 684,037 |
| Net pension UAL as a percentage of payroll | (16%) | (26%) |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $21,049 | $24,611 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $13,670 | $13,692 |
| Tier 1/Tier 2 valuation payroll | 216,668 | 216,824 |
| Tier 1/Tier 2 pension normal cost rate | 7.10% | 7.71% |
| Tier 1/ Tier 2 Actuarial accrued liability | $1,768,115 | $1,680,739 |
| Actuarial asset value | 1,912,749 | 1,865,855 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | (144,634) | (185,116) |
| Tier 1/ Tier 2 Funded status | 108% | 111% |
| Combined valuation payroll | $812,514 | $684,037 |
| Tier 1/Tier 2 UAL as a percentage of payroll | (18%) | (27%) |
| Tier 1/Tier 2 UAL rate | (1.69%) | (2.37%) |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 2 | 2 |
| Tier 1/Tier 2 dormant members | 12 | 11 |
| Tier 1/Tier 2 retirees and beneficiaries | 5 | 5 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 812,514 | 684,037 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $545,103 | $530,485 |
| 2. Employer reserves | 1,278,421 | 1,237,474 |
| 3. Benefits in force reserve | 89,225 | 97,896 |
| **4. Total market value of assets** ***(1. + 2. + 3.)*** | **$1,912,749** | **$1,865,855** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $1,865,855 |
| 2. | Regular employer contributions | 18,827 |
| 3. | Benefit payments and expenses | (14,949) |
| 4. | Adjustments[2] | (13,439) |
| 5. | Interest credited | 56,456 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$1,912,749** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $0 | $0 |
| Tier 1 General Service | 8,019 | 8,623 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 5,651 | 5,069 |
| **Total** | **$13,670** | **$13,692** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $13,670 | $13,670 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | **December 31, 2011** | **December 31, 2010** |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $0 | $0 |
| ▪ Tier 1 General Service | 1,063,861 | 1,003,687 |
| ▪ Tier 2 Police & Fire | 0 | 0 |
| ▪ Tier 2 General Service | 130,829 | 114,526 |
| ▪ **Total Active Members** | **$1,194,690** | **$1,118,213** |
| Dormant Members | 411,148 | 401,336 |
| Retired Members and Beneficiaries | 162,277 | 161,190 |
| **Total Actuarial Accrued Liability** | **$1,768,115** | **$1,680,739** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | **Before Changes** | **After Changes** | **Net Change** |
|---|---|---|---|
| Actuarial Accrued Liability | $1,768,115 | $1,768,115 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $1,768,115 | $1,680,739 |
| 2. Actuarial value of assets | 1,912,749 | 1,865,855 |
| 3. Unfunded accrued liability *(1. – 2.)* | (144,634) | (185,116) |
| 4. Funded percentage *(2. ÷ 1.)* | 108% | 111% |
| 5. Combined valuation payroll | $812,514 | $684,037 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | (18%) | (27%) |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($511,175) | ($42,128) | ($39,101) | ($508,148) | ($43,708) |
| December 31, 2009 | $393,051 | $30,025 | $30,166 | $393,192 | $31,151 |
| December 31, 2011 | N/A | N/A | N/A | ($29,678) | ($2,192) |
| **Total** | | | | **($144,634)** | **($14,749)** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $1,680,739 |
| b. Normal cost at December 31, 2010 | 13,692 |
| c. Benefit payments during 2011 | (14,851) |
| d. Interest at 8.0% to December 31, 2011 | 134,960 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 1,814,540 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 1,814,540 |
| 2. Actuarial accrued liability at December 31, 2011 | 1,768,115 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | 46,425 |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 1,865,855 |
| b. Contributions for 2011[1] | 18,827 |
| c. Benefit payments and expenses during 2011 | (14,949) |
| d. Interest at 8.0% to December 31, 2011 | 149,423 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 2,019,156 |
| 5. Actuarial value of assets at December 31, 2011 | 1,912,749 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (106,407) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($59,982)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **($185,116)** |
| 2. Expected increase | (19,500) |
| 3. Liability (gain)/loss | (46,425) |
| 4. Asset (gain)/loss | 106,407 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **($144,634)** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $0 | $0 | 0.00% | $0 | $0 | 0.00% |
| Tier 1 General Service | 8,019 | 133,408 | 6.01% | 8,623 | 133,485 | 6.46% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 5,651 | 83,260 | 6.79% | 5,069 | 83,339 | 6.08% |
| **Total** | **$13,670** | **$216,668** | **6.31%** | **$13,692** | **$216,824** | **6.31%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | ($144,634) | ($185,116) |
| 2. Next year's Tier 1/Tier 2 UAL payment | (14,749) | (17,050) |
| 3. Combined valuation payroll | 812,514 | 684,037 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | (1.82%) | (2.49%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 6.31% | 6.31% |
| b. Tier 1/Tier 2 UAL rate | (1.82%) | (2.49%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 4.62% | 3.94% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 5.41% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 5.41% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 1.08% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 108% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 2.41% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 8.41% |
| 7. July 1, 2013 total pension rate, before adjustment | 4.62% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 0.00% |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | (1.82%) |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | (1.82%) |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 4.62% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.79% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 6.31% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 7.10% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 5.41% |

| 95-99 | | |
| 100+ | | |
| Total | 5 | 220 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called “funding method,” a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer’s contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer’s plan to determine the employer’s periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System (“PERS” or “the System”) as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
Chiloquin Agency Lake Rural Fire Protection District/2645

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### Chiloquin Agency Lake Rural Fire Protection District -- #2645

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for Chiloquin Agency Lake Rural Fire Protection District to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to Chiloquin Agency Lake Rural Fire Protection District.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for Chiloquin Agency Lake Rural Fire Protection District*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 8.22% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 4.79% | 4.79% | 4.79% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **13.16%** | **11.21%** | **13.94%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **13.75%** | **11.70%** | **14.43%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 84%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 13.01% | 13.01% |
| Minimum July 1, 2015 Rate | 10.01% | 7.01% |
| Maximum July 1, 2015 Rate | 16.01% | 19.01% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

#### *Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 17 | 24 |
| Amortization factor | 12.145 | 15.251 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 13.97% | 3.58% | 3.58% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 13.01% | 4.79% | 4.79% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $218,153 | $311,164 | $93,011 | 70% | $69,256 | 134% |
| 12/31/2007 | 228,927 | 261,506 | 32,579 | 88% | 79,662 | 41% |
| 12/31/2008 | 183,842 | 294,434 | 110,592 | 62% | 89,104 | 124% |
| 12/31/2009 | 225,758 | 274,252 | 48,494 | 82% | 91,355 | 53% |
| 12/31/2010 | 261,306 | 306,711 | 45,405 | 85% | 94,590 | 48% |
| 12/31/2011 | 279,554 | 332,887 | 53,333 | 84% | 94,119 | 57% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *Chiloquin Agency Lake Rural Fire Protection District*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $53,333 | $45,405 |
| Allocated pooled OPSRP UAL | 1,606 | 1,174 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 54,939 | 46,579 |
| Combined valuation payroll | 94,119 | 94,590 |
| Net pension UAL as a percentage of payroll | 58% | 49% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $2,438 | $3,403 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $7,733 | $8,819 |
| Tier 1/Tier 2 valuation payroll | 94,119 | 94,590 |
| Tier 1/Tier 2 pension normal cost rate | 8.22% | 9.32% |
| Tier 1/ Tier 2 Actuarial accrued liability | $332,887 | $306,711 |
| Actuarial asset value | 279,554 | 261,306 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 53,333 | 45,405 |
| Tier 1/ Tier 2 Funded status | 84% | 85% |
| Combined valuation payroll | $94,119 | $94,590 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 57% | 48% |
| Tier 1/Tier 2 UAL rate<br>(includes Multnomah Fire District #10) | 4.79% | 3.97% |
| Tier 1/Tier 2 active members [1] | 2 | 2 |
| Tier 1/Tier 2 dormant members | 1 | 1 |
| Tier 1/Tier 2 retirees and beneficiaries | 0 | 0 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | December 31, 2011 | December 31, 2010 |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |

| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 94,119 | 94,590 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $64,829 | $62,499 |
| 2. Employer reserves | 214,725 | 198,807 |
| 3. Benefits in force reserve | 0 | 0 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$279,554** | **$261,306** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $261,306 |
| 2. | Regular employer contributions | 11,277 |
| 3. | Benefit payments and expenses | 0 |
| 4. | Adjustments[2] | (894) |
| 5. | Interest credited | 7,864 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$279,554** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $6,121 | $7,537 |
| Tier 1 General Service | 0 | 0 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 1,612 | 1,282 |
| **Total** | **$7,733** | **$8,819** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $7,733 | $7,733 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $297,641 | $274,840 |
| ▪ Tier 1 General Service | 7,893 | 7,624 |
| ▪ Tier 2 Police & Fire | 0 | 0 |
| ▪ Tier 2 General Service | 6,014 | 4,599 |
| ▪ **Total Active Members** | **$311,548** | **$287,063** |
| Dormant Members | 21,339 | 19,648 |
| Retired Members and Beneficiaries | 0 | 0 |
| **Total Actuarial Accrued Liability** | **$332,887** | **$306,711** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $332,887 | $332,887 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $332,887 | $306,711 |
| 2. Actuarial value of assets | 279,554 | 261,306 |
| 3. Unfunded accrued liability *(1. – 2.)* | 53,333 | 45,405 |
| 4. Funded percentage *(2. ÷ 1.)* | 84% | 85% |
| 5. Combined valuation payroll | $94,119 | $94,590 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 57% | 48% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | $27,232 | $2,244 | $2,083 | $27,071 | $2,328 |
| December 31, 2009 | $21,255 | $1,624 | $1,631 | $21,262 | $1,685 |
| December 31, 2011 | N/A | N/A | N/A | $5,000 | $369 |
| **Total** | | | | **$53,333** | **$4,382** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $306,711 |
| b. Normal cost at December 31, 2010 | 8,819 |
| c. Benefit payments during 2011 | 0 |
| d. Interest at 8.0% to December 31, 2011 | 25,242 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 340,772 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 340,772 |
| 2. Actuarial accrued liability at December 31, 2011 | 332,887 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | 7,885 |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 261,306 |
| b. Contributions for 2011[1] | 11,277 |
| c. Benefit payments and expenses during 2011 | 0 |
| d. Interest at 8.0% to December 31, 2011 | 21,356 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 293,939 |
| 5. Actuarial value of assets at December 31, 2011 | 279,554 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (14,385) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($6,500)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$45,405** |
| 2. Expected increase | 1,428 |
| 3. Liability (gain)/loss | (7,885) |
| 4. Asset (gain)/loss | 14,385 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$53,333** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $6,121 | $62,765 | 9.75% | $7,537 | $63,360 | 11.90% |
| Tier 1 General Service | 0 | 1,058 | 0.00% | 0 | 1,406 | 0.00% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 1,612 | 30,296 | 5.32% | 1,282 | 29,824 | 4.30% |
| **Total** | **$7,733** | **$94,119** | **8.22%** | **$8,819** | **$94,590** | **9.32%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $53,333 | $45,405 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 4,382 | 3,640 |
| 3. Combined valuation payroll | 94,119 | 94,590 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 4.66% | 3.85% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 8.22% | 9.32% |
| b. Tier 1/Tier 2 UAL rate | 4.66% | 3.85% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 13.01% | 13.29% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 13.97% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 13.97% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 2.79% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 84% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 10.97% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 16.97% |
| 7. July 1, 2013 total pension rate, before adjustment | 13.01% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 0.00% |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 4.66% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 4.66% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 13.01% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 8.22% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 8.22% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 13.01% |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members’ regular account balances.<br>8.25% compounded annually on members’ variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called “funding method,” a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer’s contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer’s plan to determine the employer’s periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Athena/2167
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

Milliman

September 28, 2012
City of Athena/2167

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Athena -- #2167

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Athena to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Athena.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Athena*

| | **Payroll** | | |
|---|---|---|---|
| | | **OPSRP** | |
| | **Tier 1 / Tier 2** | **General Service** | **Police & Fire** |
| **Pension** | | | |
| Normal cost rate | 7.45% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | (1.52%) | (1.52%) | (1.52%) |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **6.08%** | **4.90%** | **7.63%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **6.67%** | **5.39%** | **8.12%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 102%.

| **Funded Status as of December 31, 2013** | **80% to 120%** | **Under 70% or Over 130%** |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 5.93% | 5.93% |
| Minimum July 1, 2015 Rate | 2.93% | 0.00% |
| Maximum July 1, 2015 Rate | 8.93% | 11.93% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

#### *Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 6 | 10 |
| Amortization factor | 5.355 | 8.042 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | **Tier 1 / Tier 2** | **General Service** | **Police & Fire** |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 5.41% | (1.52%) | (1.52%) |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 5.93% | (1.52%) | (1.52%) |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $1,401,886 | $1,129,539 | ($272,347) | 124% | $168,483 | (162%) |
| 12/31/2007 | 1,500,409 | 1,162,854 | (337,555) | 129% | 212,677 | (159%) |
| 12/31/2008 | 1,076,023 | 1,190,413 | 114,390 | 90% | 266,144 | 43% |
| 12/31/2009 | 1,219,634 | 1,196,140 | (23,494) | 102% | 224,568 | (10%) |
| 12/31/2010 | 1,308,772 | 1,215,902 | (92,870) | 108% | 286,337 | (32%) |
| 12/31/2011 | 1,296,055 | 1,269,742 | (26,313) | 102% | 272,640 | (10%) |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Athena*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | ($26,313) | ($92,870) |
| Allocated pooled OPSRP UAL | 4,652 | 3,555 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | (21,661) | (89,315) |
| Combined valuation payroll | 272,640 | 286,337 |
| Net pension UAL as a percentage of payroll | (8%) | (31%) |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $7,063 | $10,302 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 272,640 | 286,337 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $149,159 | $140,985 |
| 2. Employer reserves | 697,370 | 678,391 |
| 3. Benefits in force reserve | 449,527 | 489,396 |
| **4. Total market value of assets** ***(1. + 2. + 3.)*** | **$1,296,055** | **$1,308,772** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $1,308,772 |
| 2. Regular employer contributions | 3,981 |
| 3. Benefit payments and expenses | (75,315) |
| 4. Adjustments[2] | 24,712 |
| 5. Interest credited | 33,906 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$1,296,055** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $3,210 | $2,425 |
| Tier 1 General Service | 3,776 | 3,461 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 4,528 | 4,139 |
| **Total** | **$11,514** | **$10,025** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $11,514 | $11,514 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $170,981 | $158,743 |
| ▪ Tier 1 General Service | 53,351 | 47,727 |
| ▪ Tier 2 Police & Fire | 0 | 0 |
| ▪ Tier 2 General Service | 86,706 | 72,327 |
| ▪ **Total Active Members** | **$311,038** | **$278,797** |
| Dormant Members | 141,134 | 131,289 |
| Retired Members and Beneficiaries | 817,570 | 805,816 |
| **Total Actuarial Accrued Liability** | **$1,269,742** | **$1,215,902** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $1,269,742 | $1,269,742 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $1,269,742 | $1,215,902 |
| 2. Actuarial value of assets | 1,296,055 | 1,308,772 |
| 3. Unfunded accrued liability *(1. – 2.)* | (26,313) | (92,870) |
| 4. Funded percentage *(2. ÷ 1.)* | 102% | 108% |
| 5. Combined valuation payroll | $272,640 | $286,337 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | (10%) | (32%) |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($361,354) | ($29,779) | ($27,641) | ($359,216) | ($30,896) |
| December 31, 2009 | $339,820 | $25,958 | $26,081 | $339,943 | $26,931 |
| December 31, 2011 | N/A | N/A | N/A | ($7,040) | ($520) |
| **Total** | | | | **($26,313)** | **($4,485)** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $1,215,902 |
| b. Normal cost at December 31, 2010 | 10,025 |
| c. Benefit payments during 2011 | (74,821) |
| d. Interest at 8.0% to December 31, 2011 | 95,081 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 1,246,187 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 1,246,187 |
| 2. Actuarial accrued liability at December 31, 2011 | 1,269,742 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (23,555) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 1,308,772 |
| b. Contributions for 2011[1] | 3,981 |
| c. Benefit payments and expenses during 2011 | (75,315) |
| d. Interest at 8.0% to December 31, 2011 | 101,848 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 1,339,285 |
| 5. Actuarial value of assets at December 31, 2011 | 1,296,055 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (43,230) |
| **7. Total actuarial gain/(loss) *(3. + 6.)*** | **($66,785)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **($92,870)** |
| 2. Expected increase | (228) |
| 3. Liability (gain)/loss | 23,555 |
| 4. Asset (gain)/loss | 43,230 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011 *(1. + 2. + 3. + 4. + 5.)*** | **($26,313)** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate |
| Tier 1 Police & Fire | $3,210 | $57,793 | 5.55% | $2,425 | $57,085 | 4.25% |
| Tier 1 General Service | 3,776 | 30,945 | 12.20% | 3,461 | 29,578 | 11.70% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 4,528 | 65,883 | 6.87% | 4,139 | 58,967 | 7.02% |
| **Total** | **$11,514** | **$154,621** | **7.45%** | **$10,025** | **$145,630** | **6.88%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | ($26,313) | ($92,870) |
| 2. Next year's Tier 1/Tier 2 UAL payment | (4,485) | (9,089) |
| 3. Combined valuation payroll | 272,640 | 286,337 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | (1.65%) | (3.17%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 7.45% | 6.88% |
| b. Tier 1/Tier 2 UAL rate | (1.65%) | (3.17%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 5.93% | 3.83% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | | |
|---|---|---|
| 1. | Current net Tier 1/Tier 2 pension contribution rate | 5.41% |
| 2. | Employer contribution rate attributable to side accounts | 0.00% |
| 3. | Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 5.41% |
| 4. | Size of rate collar | |
| | a. 20% of current employer contribution rate *(20% x 3.)* | 1.08% |
| | b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| | c. Funded percentage | 102% |
| | d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. | July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 2.41% |
| 6. | July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 8.41% |
| 7. | July 1, 2013 total pension rate, before adjustment | 5.93% |
| 8. | Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 0.00% |
| 9. | July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | (1.65%) |
| 10. | July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | (1.65%) |
| 11. | July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 5.93% |
| 12. | Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. | Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 7.45% |
| 15. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 7.45% |
| 16. | July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 5.93% |

| **90-94** | | |
| **95-99** | | |
| **100+** | | |
| **Total** | 4 | 1,250 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation.  A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation.  A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Beaverton/2106
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

Milliman

September 28, 2012
City of Beaverton/2106

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Beaverton -- #2106

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Beaverton to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Beaverton.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Beaverton*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 10.89% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 2.73% | 2.73% | 2.73% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **13.77%** | **9.15%** | **11.88%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **14.36%** | **9.64%** | **12.37%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 81%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 13.62% | 13.62% |
| Minimum July 1, 2015 Rate | 10.62% | 7.62% |
| Maximum July 1, 2015 Rate | 16.62% | 19.62% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 14.59% | 4.51% | 4.51% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 17.10% | 6.21% | 6.21% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $152,481,527 | $142,451,626 | ($10,029,901) | 107% | $25,678,994 | (39%) |
| 12/31/2007 | 163,532,200 | 150,054,556 | (13,477,644) | 109% | 26,663,695 | (51%) |
| 12/31/2008 | 124,870,860 | 156,712,907 | 31,842,047 | 80% | 28,710,908 | 111% |
| 12/31/2009 | 141,726,062 | 165,397,635 | 23,671,573 | 86% | 31,185,880 | 76% |
| 12/31/2010 | 152,182,765 | 174,931,684 | 22,748,919 | 87% | 32,532,597 | 70% |
| 12/31/2011 | 146,862,259 | 181,185,933 | 34,323,674 | 81% | 32,648,286 | 105% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Beaverton*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $34,323,674 | $22,748,919 |
| Allocated pooled OPSRP UAL | 557,057 | 403,933 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 34,880,731 | 23,152,852 |
| Combined valuation payroll | 32,648,286 | 32,532,597 |
| Net pension UAL as a percentage of payroll | 107% | 71% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $845,770 | $1,170,471 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $2,314,011 | $2,241,728 |
| Tier 1/Tier 2 valuation payroll | 21,256,215 | 22,009,147 |
| Tier 1/Tier 2 pension normal cost rate | 10.89% | 10.19% |
| Tier 1/ Tier 2 Actuarial accrued liability | $181,185,933 | $174,931,684 |
| Actuarial asset value | 146,862,259 | 152,182,765 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 34,323,674 | 22,748,919 |
| Tier 1/ Tier 2 Funded status | 81% | 87% |
| Combined valuation payroll | $32,648,286 | $32,532,597 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 105% | 70% |
| Tier 1/Tier 2 UAL rate | 2.73% | 3.43% |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 298 | 324 |
| Tier 1/Tier 2 dormant members | 150 | 137 |
| Tier 1/Tier 2 retirees and beneficiaries | 334 | 299 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 32,648,286 | 32,532,597 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $27,026,021 | $30,776,081 |
| 2. Employer reserves | 66,687,382 | 69,555,136 |
| 3. Benefits in force reserve | 53,148,856 | 51,851,548 |
| **4. Total market value of assets** ***(1. + 2. + 3.)*** | **$146,862,259** | **$152,182,765** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $152,182,765 |
| 2. | Regular employer contributions | 1,953,564 |
| 3. | Benefit payments and expenses | (8,904,724) |
| 4. | Adjustments[2] | (2,903,083) |
| 5. | Interest credited | 4,533,737 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$146,862,259** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

### *Summary of Normal Cost by Tier/Member Classification*

| | **December 31, 2011** | **December 31, 2010** |
|---|---|---|
| Tier 1 Police & Fire | $529,707 | $575,420 |
| Tier 1 General Service | 363,255 | 301,032 |
| Tier 2 Police & Fire | 573,611 | 520,857 |
| Tier 2 General Service | 847,438 | 844,419 |
| **Total** | **$2,314,011** | **$2,241,728** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | **Before Changes** | **After Changes** | **Net Change** |
|---|---|---|---|
| Normal Cost | $2,314,011 | $2,314,011 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | **December 31, 2011** | **December 31, 2010** |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $16,395,605 | $18,872,529 |
| ▪ Tier 1 General Service | 37,362,024 | 42,161,731 |
| ▪ Tier 2 Police & Fire | 6,092,736 | 5,120,512 |
| ▪ Tier 2 General Service | 10,995,197 | 10,113,129 |
| ▪ **Total Active Members** | **$70,845,562** | **$76,267,901** |
| Dormant Members | 13,676,626 | 13,287,495 |
| Retired Members and Beneficiaries | 96,663,745 | 85,376,288 |
| **Total Actuarial Accrued Liability** | **$181,185,933** | **$174,931,684** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | **Before Changes** | **After Changes** | **Net Change** |
|---|---|---|---|
| Actuarial Accrued Liability | $181,185,933 | $181,185,933 | $0 |

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $181,185,933 | $174,931,684 |
| 2. Actuarial value of assets | 146,862,259 | 152,182,765 |
| 3. Unfunded accrued liability *(1. – 2.)* | 34,323,674 | 22,748,919 |
| 4. Funded percentage *(2. ÷ 1.)* | 81% | 87% |
| 5. Combined valuation payroll | $32,648,286 | $32,532,597 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 105% | 70% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($16,775,604) | ($1,382,491) | ($1,283,198) | ($16,676,311) | ($1,434,334) |
| December 31, 2009 | $40,612,614 | $3,102,377 | $3,116,946 | $40,627,183 | $3,218,716 |
| December 31, 2011 | N/A | N/A | N/A | $10,372,802 | $766,029 |
| **Total** | | | | **$34,323,674** | **$2,550,411** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $174,931,684 |
| b. Normal cost at December 31, 2010 | 2,241,728 |
| c. Benefit payments during 2011 | (8,846,357) |
| d. Interest at 8.0% to December 31, 2011 | 13,820,019 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 182,147,074 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 182,147,074 |
| 2. Actuarial accrued liability at December 31, 2011 | 181,185,933 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | 961,141 |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 152,182,765 |
| b. Contributions for 2011[1] | 1,953,564 |
| c. Benefit payments and expenses during 2011 | (8,904,724) |
| d. Interest at 8.0% to December 31, 2011 | 11,896,575 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 157,128,180 |
| 5. Actuarial value of assets at December 31, 2011 | 146,862,259 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (10,265,920) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($9,304,779)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$22,748,919** |
| 2. Expected increase | 2,269,976 |
| 3. Liability (gain)/loss | (961,141) |
| 4. Asset (gain)/loss | 10,265,920 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$34,323,674** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate |
| Tier 1 Police & Fire | $529,707 | $3,144,565 | 16.85% | $575,420 | $3,474,841 | 16.56% |
| Tier 1 General Service | 363,255 | 6,426,167 | 5.65% | 301,032 | 6,858,258 | 4.39% |
| Tier 2 Police & Fire | 573,611 | 3,963,395 | 14.47% | 520,857 | 3,744,908 | 13.91% |
| Tier 2 General Service | 847,438 | 7,722,088 | 10.97% | 844,419 | 7,931,140 | 10.65% |
| **Total** | **$2,314,011** | **$21,256,215** | **10.89%** | **$2,241,728** | **$22,009,147** | **10.19%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $34,323,674 | $22,748,919 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 2,550,411 | 1,639,531 |
| 3. Combined valuation payroll | 32,648,286 | 32,532,597 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 7.81% | 5.04% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 10.89% | 10.19% |
| b. Tier 1/Tier 2 UAL rate | 7.81% | 5.04% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 18.83% | 15.35% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 10.62% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 10.62% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 2.12% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 81% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 7.62% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 13.62% |
| 7. July 1, 2013 total pension rate, before adjustment | 18.83% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (5.21%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 7.81% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 2.60% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 13.62% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 10.89% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 10.89% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 13.62% |

| **100+** | | |
| **Total** | 334 | 1,909 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 "tax remedy" adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Bend/2107
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

September 28, 2012
City of Bend/2107

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

City of Bend -- #2107

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Bend to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Bend.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Bend*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 12.10% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 6.91% | 6.91% | 6.91% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | (3.03%) | (3.03%) | (3.03%) |
| **Net pension contribution rate** | **16.13%** | **10.30%** | **13.03%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **16.72%** | **10.79%** | **13.52%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 78%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 19.01% | 19.01% |
| Minimum July 1, 2015 Rate | 15.21% | 11.41% |
| Maximum July 1, 2015 Rate | 22.81% | 26.61% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 21 | 30 |
| Amortization factor | 13.828 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 13.29% | 1.91% | 1.91% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 15.98% | 3.88% | 3.88% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $116,975,172 | $105,993,155 | ($10,982,017) | 110% | $28,228,013 | (39%) |
| 12/31/2007 | 123,895,049 | 110,585,933 | (13,309,116) | 112% | 31,627,544 | (42%) |
| 12/31/2008 | 93,975,721 | 113,200,430 | 19,224,709 | 83% | 30,478,644 | 63% |
| 12/31/2009 | 107,912,057 | 121,599,417 | 13,687,359 | 89% | 30,492,774 | 45% |
| 12/31/2010 | 116,318,438 | 128,704,772 | 12,386,334 | 90% | 31,485,779 | 39% |
| 12/31/2011 | 113,904,241 | 132,422,315 | 18,518,073 | 86% | 31,464,101 | 59% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Bend*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $29,588,331 | $24,184,849 |
| Allocated pooled OPSRP UAL | 536,852 | 390,935 |
| Side account | 11,070,258 | 11,798,515 |
| Net unfunded pension actuarial accrued liability | 19,054,925 | 12,777,269 |
| Combined valuation payroll | 31,464,101 | 31,485,779 |
| Net pension UAL as a percentage of payroll | 61% | 41% |
| Calculated side account rate relief | (3.03%) | (3.09%) |
| Allocated pooled RHIA UAL | $815,093 | $1,132,809 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| Normal cost | $2,566,109 | $2,477,562 |
| Tier 1/Tier 2 valuation payroll | 21,207,504 | 22,049,277 |
| Tier 1/Tier 2 pension normal cost rate | 12.10% | 11.24% |
| Tier 1/ Tier 2 Actuarial accrued liability | $132,422,315 | $128,704,772 |
| Actuarial asset value | 102,833,984 | 104,519,923 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 29,588,331 | 24,184,849 |
| Tier 1/ Tier 2 Funded status | 78% | 81% |
| Combined valuation payroll | $31,464,101 | $31,485,779 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 94% | 77% |
| Tier 1/Tier 2 UAL rate | 6.91% | 6.02% |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 265 | 283 |
| Tier 1/Tier 2 dormant members | 84 | 85 |
| Tier 1/Tier 2 retirees and beneficiaries | 211 | 194 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | **$11,798,515** | **$11,798,515** |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | (1,000) | (1,000) |
| 4. Amount transferred to employer reserves during 2011 | | (1,040,504) | (1,040,504) |
| 5. Side account earnings during 2011 | | 313,246 | 313,246 |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | **$11,070,258** | **$11,070,258** |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $11,070,258 | $11,798,515 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$11,070,258** | **$11,798,515** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $11,070,258 | $11,798,515 |
| 2. Combined valuation payroll | 31,464,101 | 31,485,779 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate** ***(-1. ÷ 2. ÷ 3.)*** [1] | (3.03%) | (3.09%) |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $15,703,577 | $18,365,201 |
| 2. Employer reserves | 49,425,682 | 49,942,317 |
| 3. Benefits in force reserve | 37,704,725 | 36,212,405 |
| **4. Total market value of assets** ***(1. + 2. + 3.)*** | **$102,833,984** | **$104,519,923** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $104,519,923 |
| 2. | Regular employer contributions | 2,129,043 |
| 3. | Benefit payments and expenses | (6,317,167) |
| 4. | Adjustments[2] | (1,268,193) |
| 5. | Interest credited | 2,729,873 |
| 6. | Total transferred from side accounts | 1,040,504 |
| **7.** | **Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$102,833,984** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $974,786 | $946,339 |
| Tier 1 General Service | 261,693 | 261,396 |
| Tier 2 Police & Fire | 748,125 | 709,799 |
| Tier 2 General Service | 581,505 | 560,028 |
| **Total** | **$2,566,109** | **$2,477,562** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $2,566,109 | $2,566,109 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | **December 31, 2011** | **December 31, 2010** |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $27,257,347 | $26,485,596 |
| ▪ Tier 1 General Service | 12,257,880 | 15,885,852 |
| ▪ Tier 2 Police & Fire | 7,237,837 | 6,231,915 |
| ▪ Tier 2 General Service | 6,746,595 | 6,141,867 |
| ▪ **Total Active Members** | **$53,499,659** | **$54,745,230** |
| Dormant Members | 10,347,709 | 14,333,922 |
| Retired Members and Beneficiaries | 68,574,947 | 59,625,620 |
| **Total Actuarial Accrued Liability** | **$132,422,315** | **$128,704,772** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | **Before Changes** | **After Changes** | **Net Change** |
|---|---|---|---|
| Actuarial Accrued Liability | $132,422,315 | $132,422,315 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $132,422,315 | $128,704,772 |
| 2. Actuarial value of assets | 102,833,984 | 104,519,923 |
| 3. Unfunded accrued liability *(1. – 2.)* | 29,588,331 | 24,184,849 |
| 4. Funded percentage *(2. ÷ 1.)* | 78% | 81% |
| 5. Combined valuation payroll | $31,464,101 | $31,485,779 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 94% | 77% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | $1,162,499 | $95,803 | $88,922 | $1,155,618 | $99,396 |
| December 31, 2009 | $24,117,929 | $1,842,356 | $1,851,008 | $24,126,581 | $1,911,444 |
| December 31, 2011 | N/A | N/A | N/A | $4,306,132 | $318,007 |
| **Total** | | | | **$29,588,331** | **$2,328,847** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $128,704,772 |
| b. Normal cost at December 31, 2010 | 2,477,562 |
| c. Benefit payments during 2011 | (6,275,760) |
| d. Interest at 8.0% to December 31, 2011 | 10,243,556 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 135,150,130 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 135,150,130 |
| 2. Actuarial accrued liability at December 31, 2011 | 132,422,315 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | 2,727,815 |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 104,519,923 |
| b. Contributions for 2011[1] | 3,169,547 |
| c. Benefit payments and expenses during 2011 | (6,317,167) |
| d. Interest at 8.0% to December 31, 2011 | 8,235,689 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 109,607,993 |
| 5. Actuarial value of assets at December 31, 2011 | 102,833,984 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (6,774,009) |
| **7. Total actuarial gain/(loss) *(3. + 6.)*** | **($4,046,194)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$24,184,849** |
| 2. Expected increase | 1,357,288 |
| 3. Liability (gain)/loss | (2,727,815) |
| 4. Asset (gain)/loss | 6,774,009 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011 *(1. + 2. + 3. + 4. + 5.)*** | **$29,588,331** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $974,786 | $5,982,601 | 16.29% | $946,339 | $6,200,505 | 15.26% |
| Tier 1 General Service | 261,693 | 3,951,582 | 6.62% | 261,396 | 4,730,671 | 5.53% |
| Tier 2 Police & Fire | 748,125 | 5,372,610 | 13.92% | 709,799 | 5,275,634 | 13.45% |
| Tier 2 General Service | 581,505 | 5,900,711 | 9.85% | 560,028 | 5,842,467 | 9.59% |
| **Total** | **$2,566,109** | **$21,207,504** | **12.10%** | **$2,477,562** | **$22,049,277** | **11.24%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $29,588,331 | $24,184,849 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 2,328,847 | 1,857,251 |
| 3. Combined valuation payroll | 31,464,101 | 31,485,779 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 7.40% | 5.90% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 12.10% | 11.24% |
| b. Tier 1/Tier 2 UAL rate | 7.40% | 5.90% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 19.63% | 17.26% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 12.34% |
| 2. Employer contribution rate attributable to side accounts | (2.99%) |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 15.33% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 3.07% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.07% |
| c. Funded percentage | 78% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.68% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 11.65% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 19.01% |
| 7. July 1, 2013 total pension rate, before adjustment | 19.63% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (0.62%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 7.40% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 6.78% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 19.01% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 12.10% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 12.10% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 19.01% |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Canyonville/2149
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
City of Canyonville/2149

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

| | |

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Canyonville -- #2149

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Canyonville to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Canyonville.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Canyonville*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | **Tier 1 / Tier 2** | **General Service** | **Police & Fire** |
| **Pension** | | | |
| Normal cost rate | 10.76% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 3.78% | 3.78% | 3.78% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **14.69%** | **10.20%** | **12.93%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **15.28%** | **10.69%** | **13.42%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 73%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 14.54% | 14.54% |
| Minimum July 1, 2015 Rate | 11.54% | 8.54% |
| Maximum July 1, 2015 Rate | 17.54% | 20.54% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 17.25% | 5.87% | 5.87% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 19.34% | 8.58% | 8.58% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $1,549,555 | $1,558,839 | $9,283 | 99% | $274,961 | 3% |
| 12/31/2007 | 1,579,595 | 1,425,168 | (154,427) | 111% | 303,589 | (51%) |
| 12/31/2008 | 1,112,505 | 1,482,576 | 370,071 | 75% | 270,288 | 137% |
| 12/31/2009 | 1,203,798 | 1,536,571 | 332,773 | 78% | 334,911 | 99% |
| 12/31/2010 | 1,263,089 | 1,602,219 | 339,130 | 79% | 340,758 | 100% |
| 12/31/2011 | 1,221,583 | 1,673,061 | 451,478 | 73% | 309,713 | 146% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Canyonville*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $451,478 | $339,130 |
| Allocated pooled OPSRP UAL | 5,284 | 4,231 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 456,762 | 343,361 |
| Combined valuation payroll | 309,713 | 340,758 |
| Net pension UAL as a percentage of payroll | 147% | 101% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $8,023 | $12,260 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $19,259 | $18,890 |
| Tier 1/Tier 2 valuation payroll | 179,001 | 179,328 |
| Tier 1/Tier 2 pension normal cost rate | 10.76% | 10.53% |
| Tier 1/ Tier 2 Actuarial accrued liability | $1,673,061 | $1,602,219 |
| Actuarial asset value | 1,221,583 | 1,263,089 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 451,478 | 339,130 |
| Tier 1/ Tier 2 Funded status | 73% | 79% |
| Combined valuation payroll | $309,713 | $340,758 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 146% | 100% |
| Tier 1/Tier 2 UAL rate | 3.78% | 2.21% |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 4 | 4 |
| Tier 1/Tier 2 dormant members | 2 | 2 |
| Tier 1/Tier 2 retirees and beneficiaries | 20 | 20 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 309,713 | 340,758 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $106,879 | $102,660 |
| 2. Employer reserves | 556,356 | 538,825 |
| 3. Benefits in force reserve | 558,348 | 621,603 |
| **4. Total market value of assets** ***(1. + 2. + 3.)*** | **$1,221,583** | **$1,263,089** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $1,263,089 |
| 2. Regular employer contributions | 8,202 |
| 3. Benefit payments and expenses | (93,547) |
| 4. Adjustments [2] | 16,418 |
| 5. Interest credited | 27,421 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$1,221,583** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

### *Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $0 | $0 |
| Tier 1 General Service | 2,321 | 1,777 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 16,938 | 17,113 |
| **Total** | **$19,259** | **$18,890** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $19,259 | $19,259 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $11,735 | $11,285 |
| ▪ Tier 1 General Service | 57,963 | 49,183 |
| ▪ Tier 2 Police & Fire | 0 | 0 |
| ▪ Tier 2 General Service | 393,002 | 345,580 |
| ▪ **Total Active Members** | **$462,700** | **$406,048** |
| Dormant Members | 194,872 | 172,668 |
| Retired Members and Beneficiaries | 1,015,489 | 1,023,503 |
| **Total Actuarial Accrued Liability** | **$1,673,061** | **$1,602,219** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $1,673,061 | $1,673,061 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $1,673,061 | $1,602,219 |
| 2. Actuarial value of assets | 1,221,583 | 1,263,089 |
| 3. Unfunded accrued liability *(1. – 2.)* | 451,478 | 339,130 |
| 4. Funded percentage *(2. ÷ 1.)* | 73% | 79% |
| 5. Combined valuation payroll | $309,713 | $340,758 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 146% | 100% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($152,623) | ($12,577) | ($11,674) | ($151,720) | ($13,049) |
| December 31, 2009 | $487,252 | $37,221 | $37,396 | $487,427 | $38,617 |
| December 31, 2011 | N/A | N/A | N/A | $115,771 | $8,550 |
| **Total** | | | | **$451,478** | **$34,118** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $1,602,219 |
| b. Normal cost at December 31, 2010 | 18,890 |
| c. Benefit payments during 2011 | (92,934) |
| d. Interest at 8.0% to December 31, 2011 | 125,971 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 1,654,146 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 1,654,146 |
| 2. Actuarial accrued liability at December 31, 2011 | 1,673,061 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (18,915) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 1,263,089 |
| b. Contributions for 2011[1] | 8,202 |
| c. Benefit payments and expenses during 2011 | (93,547) |
| d. Interest at 8.0% to December 31, 2011 | 97,633 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 1,275,377 |
| 5. Actuarial value of assets at December 31, 2011 | 1,221,583 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (53,794) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($72,709)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$339,130** |
| 2. Expected increase | 39,639 |
| 3. Liability (gain)/loss | 18,915 |
| 4. Asset (gain)/loss | 53,794 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$451,478** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | **December 31, 2011** | | | **December 31, 2010** | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $0 | $0 | 0.00% | $0 | $0 | 0.00% |
| Tier 1 General Service | 2,321 | 55,589 | 4.18% | 1,777 | 55,421 | 3.21% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 16,938 | 123,412 | 13.72% | 17,113 | 123,907 | 13.81% |
| **Total** | **$19,259** | **$179,001** | **10.76%** | **$18,890** | **$179,328** | **10.53%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $451,478 | $339,130 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 34,118 | 24,976 |
| 3. Combined valuation payroll | 309,713 | 340,758 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 11.02% | 7.33% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 10.76% | 10.53% |
| b. Tier 1/Tier 2 UAL rate | 11.02% | 7.33% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 21.91% | 17.98% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | | |
|---|---|---|
| 1. | Current net Tier 1/Tier 2 pension contribution rate | 9.44% |
| 2. | Employer contribution rate attributable to side accounts | 0.00% |
| 3. | Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 9.44% |
| 4. | Size of rate collar | |
| | a. 20% of current employer contribution rate *(20% x 3.)* | 1.89% |
| | b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| | c. Funded percentage | 73% |
| | d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 5.10% |
| 5. | July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 4.34% |
| 6. | July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 14.54% |
| 7. | July 1, 2013 total pension rate, before adjustment | 21.91% |
| 8. | Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (7.37%) |
| 9. | July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 11.02% |
| 10. | July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 3.65% |
| 11. | July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 14.54% |
| 12. | Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. | Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 10.76% |
| 15. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 10.76% |
| 16. | July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 14.54% |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members’ regular account balances.<br>8.25% compounded annually on members’ variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Chiloquin/2186
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

Milliman

September 28, 2012
City of Chiloquin/2186

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
City of Chiloquin/2186

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA
Consulting Actuary

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Chiloquin -- #2186

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Chiloquin to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Chiloquin.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Chiloquin*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 13.57% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | (4.25%) | (4.25%) | (4.25%) |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **9.47%** | **2.17%** | **4.90%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **10.06%** | **2.66%** | **5.39%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 129%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 9.32% | 9.32% |
| Minimum July 1, 2015 Rate | 6.32% | 3.32% |
| Maximum July 1, 2015 Rate | 12.32% | 15.32% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 14 | 16 |
| Amortization factor | 10.304 | 11.880 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 7.69% | (4.81%) | (4.81%) |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 9.32% | (4.25%) | (4.25%) |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $281,626 | $149,958 | ($131,669) | 188% | $71,723 | (184%) |
| 12/31/2007 | 301,289 | 159,889 | (141,400) | 188% | 123,294 | (115%) |
| 12/31/2008 | 217,305 | 164,346 | (52,959) | 132% | 132,882 | (40%) |
| 12/31/2009 | 251,498 | 176,052 | (75,446) | 143% | 128,619 | (59%) |
| 12/31/2010 | 271,863 | 197,519 | (74,344) | 138% | 149,992 | (50%) |
| 12/31/2011 | 269,067 | 209,321 | (59,746) | 129% | 131,874 | (45%) |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Chiloquin*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | ($59,746) | ($74,344) |
| Allocated pooled OPSRP UAL | 2,250 | 1,862 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | (57,496) | (72,482) |
| Combined valuation payroll | 131,874 | 149,992 |
| Net pension UAL as a percentage of payroll | (44%) | (48%) |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $3,416 | $5,396 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5,999 | $5,965 |
| Tier 1/Tier 2 valuation payroll | 44,222 | 46,165 |
| Tier 1/Tier 2 pension normal cost rate | 13.57% | 12.92% |
| Tier 1/ Tier 2 Actuarial accrued liability | $209,321 | $197,519 |
| Actuarial asset value | 269,067 | 271,863 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | (59,746) | (74,344) |
| Tier 1/ Tier 2 Funded status | 129% | 138% |
| Combined valuation payroll | $131,874 | $149,992 |
| Tier 1/Tier 2 UAL as a percentage of payroll | (45%) | (50%) |
| Tier 1/Tier 2 UAL rate | (4.25%) | (4.24%) |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 1 | 1 |
| Tier 1/Tier 2 dormant members | 1 | 1 |
| Tier 1/Tier 2 retirees and beneficiaries | 1 | 1 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | December 31, 2011 | December 31, 2010 |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 131,874 | 149,992 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate** ***(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $29,395 | $28,309 |
| 2. Employer reserves | 194,886 | 194,096 |
| 3. Benefits in force reserve | 44,787 | 49,458 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$269,067** | **$271,863** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $271,863 |
| 2. Regular employer contributions | (3,343) |
| 3. Benefit payments and expenses | (7,504) |
| 4. Adjustments [2] | 2,090 |
| 5. Interest credited | 5,961 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$269,067** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $0 | $0 |
| Tier 1 General Service | 0 | 0 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 5,999 | 5,965 |
| **Total** | **$5,999** | **$5,965** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $5,999 | $5,999 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $0 | $0 |
| ▪ Tier 1 General Service | 0 | 0 |
| ▪ Tier 2 Police & Fire | 0 | 0 |
| ▪ Tier 2 General Service | 118,922 | 107,699 |
| ▪ **Total Active Members** | **$118,922** | **$107,699** |
| Dormant Members | 8,944 | 8,384 |
| Retired Members and Beneficiaries | 81,455 | 81,436 |
| **Total Actuarial Accrued Liability** | **$209,321** | **$197,519** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $209,321 | $209,321 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $209,321 | $197,519 |
| 2. Actuarial value of assets | 269,067 | 271,863 |
| 3. Unfunded accrued liability *(1. – 2.)* | (59,746) | (74,344) |
| 4. Funded percentage *(2. ÷ 1.)* | 129% | 138% |
| 5. Combined valuation payroll | $131,874 | $149,992 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | (45%) | (50%) |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($143,415) | ($11,819) | ($10,970) | ($142,566) | ($12,262) |
| December 31, 2009 | $68,549 | $5,236 | $5,261 | $68,574 | $5,432 |
| December 31, 2011 | N/A | N/A | N/A | $14,246 | $1,052 |
| **Total** | | | | **($59,746)** | **($5,778)** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $197,519 |
| b. Normal cost at December 31, 2010 | 5,965 |
| c. Benefit payments during 2011 | (7,455) |
| d. Interest at 8.0% to December 31, 2011 | 15,981 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 212,010 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 212,010 |
| 2. Actuarial accrued liability at December 31, 2011 | 209,321 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | 2,689 |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 271,863 |
| b. Contributions for 2011[1] | (3,343) |
| c. Benefit payments and expenses during 2011 | (7,504) |
| d. Interest at 8.0% to December 31, 2011 | 21,315 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 282,332 |
| 5. Actuarial value of assets at December 31, 2011 | 269,067 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (13,265) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($10,576)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **($74,344)** |
| 2. Expected increase | 4,022 |
| 3. Liability (gain)/loss | (2,689) |
| 4. Asset (gain)/loss | 13,265 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **($59,746)** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $0 | $0 | 0.00% | $0 | $0 | 0.00% |
| Tier 1 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 5,999 | 44,222 | 13.57% | 5,965 | 46,165 | 12.92% |
| **Total** | **$5,999** | **$44,222** | **13.57%** | **$5,965** | **$46,165** | **12.92%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | ($59,746) | ($74,344) |
| 2. Next year's Tier 1/Tier 2 UAL payment | (5,778) | (6,544) |
| 3. Combined valuation payroll | 131,874 | 149,992 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | (4.38%) | (4.36%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 13.57% | 12.92% |
| b. Tier 1/Tier 2 UAL rate | (4.38%) | (4.36%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 9.32% | 8.68% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | | |
|---|---|---|
| 1. | Current net Tier 1/Tier 2 pension contribution rate | 7.69% |
| 2. | Employer contribution rate attributable to side accounts | 0.00% |
| 3. | Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 7.69% |
| 4. | Size of rate collar | |
| | a. 20% of current employer contribution rate *(20% x 3.)* | 1.54% |
| | b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| | c. Funded percentage | 129% |
| | d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 5.70% |
| 5. | July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 1.99% |
| 6. | July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 13.39% |
| 7. | July 1, 2013 total pension rate, before adjustment | 9.32% |
| 8. | Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 0.00% |
| 9. | July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | (4.38%) |
| 10. | July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | (4.38%) |
| 11. | July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 9.32% |
| 12. | Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. | Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 13.57% |
| 15. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 13.57% |
| 16. | July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 9.32% |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Clatskanie/2162
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

Milliman

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
City of Clatskanie/2162

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Clatskanie -- #2162

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Clatskanie to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Clatskanie.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Clatskanie*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 10.71% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 3.95% | 3.95% | 3.95% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **14.81%** | **10.37%** | **13.10%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **15.40%** | **10.86%** | **13.59%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 84%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 14.66% | 14.66% |
| Minimum July 1, 2015 Rate | 11.66% | 8.66% |
| Maximum July 1, 2015 Rate | 17.66% | 20.66% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

#### *Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 16.43% | 5.70% | 5.70% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 18.24% | 7.53% | 7.53% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $6,600,466 | $6,180,724 | ($419,741) | 107% | $881,823 | (48%) |
| 12/31/2007 | 7,108,423 | 6,522,450 | (585,973) | 109% | 863,410 | (68%) |
| 12/31/2008 | 5,738,465 | 7,061,587 | 1,323,122 | 81% | 754,261 | 175% |
| 12/31/2009 | 6,704,003 | 7,633,373 | 929,370 | 88% | 964,009 | 96% |
| 12/31/2010 | 6,665,662 | 7,626,631 | 960,969 | 87% | 987,654 | 97% |
| 12/31/2011 | 6,731,192 | 8,033,650 | 1,302,458 | 84% | 1,019,475 | 128% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Clatskanie*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $1,302,458 | $960,969 |
| Allocated pooled OPSRP UAL | 17,395 | 12,263 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 1,319,853 | 973,232 |
| Combined valuation payroll | 1,019,475 | 987,654 |
| Net pension UAL as a percentage of payroll | 129% | 99% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $26,410 | $35,534 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| Normal cost | $81,483 | $80,458 |
| Tier 1/Tier 2 valuation payroll | 760,855 | 760,740 |
| Tier 1/Tier 2 pension normal cost rate | 10.71% | 10.58% |
| Tier 1/ Tier 2 Actuarial accrued liability | $8,033,650 | $7,626,631 |
| Actuarial asset value | 6,731,192 | 6,665,662 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 1,302,458 | 960,969 |
| Tier 1/ Tier 2 Funded status | 84% | 87% |
| Combined valuation payroll | $1,019,475 | $987,654 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 128% | 97% |
| Tier 1/Tier 2 UAL rate | 3.95% | 4.08% |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 11 | 11 |
| Tier 1/Tier 2 dormant members | 2 | 0 |
| Tier 1/Tier 2 retirees and beneficiaries | 18 | 18 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| ($ in millions) | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| ($ in millions) | Actuarial Valuation as of | |
|---|---|---|
| RHIA | December 31, 2011 | December 31, 2010 |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 1,019,475 | 987,654 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $1,657,465 | $1,558,376 |
| 2. Employer reserves | 3,131,295 | 2,985,224 |
| 3. Benefits in force reserve | 1,942,431 | 2,122,062 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$6,731,192** | **$6,665,662** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $6,665,662 |
| 2. | Regular employer contributions | 78,138 |
| 3. | Benefit payments and expenses | (325,441) |
| 4. | Adjustments [2] | 82,891 |
| 5. | Interest credited | 229,942 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$6,731,192** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $33,059 | $33,998 |
| Tier 1 General Service | 20,996 | 20,402 |
| Tier 2 Police & Fire | 11,887 | 11,151 |
| Tier 2 General Service | 15,541 | 14,907 |
| **Total** | **$81,483** | **$80,458** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $81,483 | $81,483 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $1,015,526 | $1,013,221 |
| ▪ Tier 1 General Service | 3,101,015 | 2,883,380 |
| ▪ Tier 2 Police & Fire | 168,052 | 145,814 |
| ▪ Tier 2 General Service | 109,562 | 90,130 |
| ▪ **Total Active Members** | **$4,394,155** | **$4,132,545** |
| Dormant Members | 106,725 | 0 |
| Retired Members and Beneficiaries | 3,532,770 | 3,494,086 |
| **Total Actuarial Accrued Liability** | **$8,033,650** | **$7,626,631** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $8,033,650 | $8,033,650 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $8,033,650 | $7,626,631 |
| 2. Actuarial value of assets | 6,731,192 | 6,665,662 |
| 3. Unfunded accrued liability *(1. – 2.)* | 1,302,458 | 960,969 |
| 4. Funded percentage *(2. ÷ 1.)* | 84% | 87% |
| 5. Combined valuation payroll | $1,019,475 | $987,654 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 128% | 97% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($802,139) | ($66,105) | ($61,357) | ($797,391) | ($68,584) |
| December 31, 2009 | $1,738,811 | $132,827 | $133,451 | $1,739,435 | $137,808 |
| December 31, 2011 | N/A | N/A | N/A | $360,414 | $26,616 |
| **Total** | | | | **$1,302,458** | **$95,840** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $7,626,631 |
| b. Normal cost at December 31, 2010 | 80,458 |
| c. Benefit payments during 2011 | (323,308) |
| d. Interest at 8.0% to December 31, 2011 | 603,635 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 7,987,416 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 7,987,416 |
| 2. Actuarial accrued liability at December 31, 2011 | 8,033,650 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (46,234) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 6,665,662 |
| b. Contributions for 2011[1] | 78,138 |
| c. Benefit payments and expenses during 2011 | (325,441) |
| d. Interest at 8.0% to December 31, 2011 | 523,361 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 6,941,720 |
| 5. Actuarial value of assets at December 31, 2011 | 6,731,192 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (210,528) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($256,762)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$960,969** |
| 2. Expected increase | 84,727 |
| 3. Liability (gain)/loss | 46,234 |
| 4. Asset (gain)/loss | 210,528 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$1,302,458** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $33,059 | $169,579 | 19.49% | $33,998 | $178,889 | 19.01% |
| Tier 1 General Service | 20,996 | 381,756 | 5.50% | 20,402 | 377,798 | 5.40% |
| Tier 2 Police & Fire | 11,887 | 79,396 | 14.97% | 11,151 | 76,971 | 14.49% |
| Tier 2 General Service | 15,541 | 130,124 | 11.94% | 14,907 | 127,082 | 11.73% |
| **Total** | **$81,483** | **$760,855** | **10.71%** | **$80,458** | **$760,740** | **10.58%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $1,302,458 | $960,969 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 95,840 | 68,516 |
| 3. Combined valuation payroll | 1,019,475 | 987,654 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 9.40% | 6.94% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 10.71% | 10.58% |
| b. Tier 1/Tier 2 UAL rate | 9.40% | 6.94% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 20.24% | 17.64% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 11.66% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 11.66% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 2.33% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 84% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 8.66% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 14.66% |
| 7. July 1, 2013 total pension rate, before adjustment | 20.24% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (5.58%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 9.40% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 3.82% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 14.66% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 10.71% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 10.71% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 14.66% |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 "tax remedy" adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called “funding method,” a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer’s contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer’s plan to determine the employer’s periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Coos Bay/2152
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

Milliman

September 28, 2012
City of Coos Bay/2152

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

INDEPENDENT EMPLOYERS

City of Coos Bay -- #2152

**Secondary Employers**

2190 City Of Eastside

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Coos Bay to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Coos Bay.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Coos Bay*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 13.37% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 2.60% | 2.60% | 2.60% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **16.12%** | **9.02%** | **11.75%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **16.71%** | **9.51%** | **12.24%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 83%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 15.97% | 15.97% |
| Minimum July 1, 2015 Rate | 12.78% | 9.59% |
| Maximum July 1, 2015 Rate | 19.16% | 22.35% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 16.40% | 5.33% | 5.33% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 20.24% | 6.87% | 6.87% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $36,494,231 | $33,901,635 | ($2,592,596) | 108% | $4,358,838 | (59%) |
| 12/31/2007 | 38,665,975 | 35,658,154 | (3,007,821) | 108% | 4,801,518 | (63%) |
| 12/31/2008 | 29,981,209 | 37,359,256 | 7,378,047 | 80% | 5,072,888 | 145% |
| 12/31/2009 | 33,985,858 | 38,913,223 | 4,927,365 | 87% | 5,474,299 | 90% |
| 12/31/2010 | 35,757,840 | 40,041,572 | 4,283,732 | 89% | 5,849,235 | 73% |
| 12/31/2011 | 35,279,915 | 42,431,747 | 7,151,832 | 83% | 6,136,958 | 117% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Coos Bay*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $7,151,832 | $4,283,732 |
| Allocated pooled OPSRP UAL | 104,711 | 72,626 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 7,256,543 | 4,356,358 |
| Combined valuation payroll | 6,136,958 | 5,849,235 |
| Net pension UAL as a percentage of payroll | 118% | 74% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $158,981 | $210,446 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $573,005 | $514,300 |
| Tier 1/Tier 2 valuation payroll | 4,284,536 | 4,333,777 |
| Tier 1/Tier 2 pension normal cost rate | 13.37% | 11.87% |
| Tier 1/ Tier 2 Actuarial accrued liability | $42,431,747 | $40,041,572 |
| Actuarial asset value | 35,279,915 | 35,757,840 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 7,151,832 | 4,283,732 |
| Tier 1/ Tier 2 Funded status | 83% | 89% |
| Combined valuation payroll | $6,136,958 | $5,849,235 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 117% | 73% |
| Tier 1/Tier 2 UAL rate | 2.60% | 4.10% |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 58 | 63 |
| Tier 1/Tier 2 dormant members | 23 | 22 |
| Tier 1/Tier 2 retirees and beneficiaries | 100 | 93 |

| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 6,136,958 | 5,849,235 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $6,555,950 | $7,191,861 |
| 2. Employer reserves | 17,067,890 | 17,327,842 |
| 3. Benefits in force reserve | 11,656,075 | 11,238,137 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$35,279,915** | **$35,757,840** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $35,757,840 |
| 2. | Regular employer contributions | 506,965 |
| 3. | Benefit payments and expenses | (1,952,895) |
| 4. | Adjustments [2] | (98,940) |
| 5. | Interest credited | 1,066,945 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$35,279,915** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

### *Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $218,417 | $186,666 |
| Tier 1 General Service | 57,564 | 43,935 |
| Tier 2 Police & Fire | 236,625 | 217,719 |
| Tier 2 General Service | 60,399 | 65,980 |
| **Total** | **$573,005** | **$514,300** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $573,005 | $573,005 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | **December 31, 2011** | **December 31, 2010** |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $6,332,044 | $5,884,161 |
| ▪ Tier 1 General Service | 6,783,028 | 8,600,837 |
| ▪ Tier 2 Police & Fire | 2,919,595 | 2,486,553 |
| ▪ Tier 2 General Service | 557,402 | 596,123 |
| ▪ **Total Active Members** | **$16,592,069** | **$17,567,674** |
| Dormant Members | 4,640,353 | 3,969,716 |
| Retired Members and Beneficiaries | 21,199,325 | 18,504,182 |
| **Total Actuarial Accrued Liability** | **$42,431,747** | **$40,041,572** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | **Before Changes** | **After Changes** | **Net Change** |
|---|---|---|---|
| Actuarial Accrued Liability | $42,431,747 | $42,431,747 | $0 |

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $42,431,747 | $40,041,572 |
| 2. Actuarial value of assets | 35,279,915 | 35,757,840 |
| 3. Unfunded accrued liability *(1. – 2.)* | 7,151,832 | 4,283,732 |
| 4. Funded percentage *(2. ÷ 1.)* | 83% | 89% |
| 5. Combined valuation payroll | $6,136,958 | $5,849,235 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 117% | 73% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($3,601,202) | ($296,777) | ($275,463) | ($3,579,888) | ($307,906) |
| December 31, 2009 | $8,563,616 | $654,171 | $657,242 | $8,566,687 | $678,702 |
| December 31, 2011 | N/A | N/A | N/A | $2,165,033 | $159,887 |
| **Total** | | | | **$7,151,832** | **$530,683** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $40,041,572 |
| b. Normal cost at December 31, 2010 | 514,300 |
| c. Benefit payments during 2011 | (1,940,095) |
| d. Interest at 8.0% to December 31, 2011 | 3,166,866 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 41,782,643 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 41,782,643 |
| 2. Actuarial accrued liability at December 31, 2011 | 42,431,747 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (649,104) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 35,757,840 |
| b. Contributions for 2011[1] | 506,965 |
| c. Benefit payments and expenses during 2011 | (1,952,895) |
| d. Interest at 8.0% to December 31, 2011 | 2,802,790 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 37,114,700 |
| 5. Actuarial value of assets at December 31, 2011 | 35,279,915 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (1,834,785) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($2,483,889)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$4,283,732** |
| 2. Expected increase | 384,211 |
| 3. Liability (gain)/loss | 649,104 |
| 4. Asset (gain)/loss | 1,834,785 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$7,151,832** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $218,417 | $1,131,564 | 19.30% | $186,666 | $1,055,418 | 17.69% |
| Tier 1 General Service | 57,564 | 1,085,568 | 5.30% | 43,935 | 1,232,111 | 3.57% |
| Tier 2 Police & Fire | 236,625 | 1,568,056 | 15.09% | 217,719 | 1,496,430 | 14.55% |
| Tier 2 General Service | 60,399 | 499,348 | 12.10% | 65,980 | 549,818 | 12.00% |
| **Total** | **$573,005** | **$4,284,536** | **13.37%** | **$514,300** | **$4,333,777** | **11.87%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $7,151,832 | $4,283,732 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 530,683 | 307,273 |
| 3. Combined valuation payroll | 6,136,958 | 5,849,235 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 8.65% | 5.25% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 13.37% | 11.87% |
| b. Tier 1/Tier 2 UAL rate | 8.65% | 5.25% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 22.15% | 17.24% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | | |
|---|---|---|
| 1. | Current net Tier 1/Tier 2 pension contribution rate | 12.97% |
| 2. | Employer contribution rate attributable to side accounts | 0.00% |
| 3. | Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 12.97% |
| 4. | Size of rate collar | |
| | a. 20% of current employer contribution rate *(20% x 3.)* | 2.59% |
| | b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| | c. Funded percentage | 83% |
| | d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. | July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 9.97% |
| 6. | July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 15.97% |
| 7. | July 1, 2013 total pension rate, before adjustment | 22.15% |
| 8. | Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (6.18%) |
| 9. | July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 8.65% |
| 10. | July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 2.47% |
| 11. | July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 15.97% |
| 12. | Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. | Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 13.37% |
| 15. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 13.37% |
| 16. | July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 15.97% |

| **Total** | 100 | 1,430 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members’ regular account balances.<br>8.25% compounded annually on members’ variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Cornelius/2165
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

September 28, 2012
City of Cornelius/2165

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

City of Cornelius -- #2165

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Cornelius to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Cornelius.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Cornelius*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 9.65% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 2.00% | 2.00% | 2.00% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **11.80%** | **8.42%** | **11.15%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **12.39%** | **8.91%** | **11.64%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 89%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 11.65% | 11.65% |
| Minimum July 1, 2015 Rate | 8.65% | 5.65% |
| Maximum July 1, 2015 Rate | 14.65% | 17.65% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 8.93% | 0.40% | 0.40% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 12.56% | 2.91% | 2.91% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $12,122,941 | $10,532,672 | ($1,590,269) | 115% | $2,941,786 | (54%) |
| 12/31/2007 | 13,318,970 | 11,260,902 | (2,058,068) | 118% | 3,059,681 | (67%) |
| 12/31/2008 | 10,417,104 | 11,776,605 | 1,359,501 | 88% | 3,108,035 | 44% |
| 12/31/2009 | 12,174,164 | 12,344,876 | 170,712 | 99% | 3,230,582 | 5% |
| 12/31/2010 | 12,910,986 | 13,544,596 | 633,610 | 95% | 3,185,343 | 20% |
| 12/31/2011 | 12,741,384 | 14,273,829 | 1,532,445 | 89% | 3,159,772 | 49% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Cornelius*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $1,532,445 | $633,610 |
| Allocated pooled OPSRP UAL | 53,913 | 39,550 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 1,586,358 | 673,160 |
| Combined valuation payroll | 3,159,772 | 3,185,343 |
| Net pension UAL as a percentage of payroll | 50% | 21% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $81,855 | $114,604 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| Normal cost | $202,409 | $194,611 |
| Tier 1/Tier 2 valuation payroll | 2,097,728 | 2,146,826 |
| Tier 1/Tier 2 pension normal cost rate | 9.65% | 9.07% |
| Tier 1/ Tier 2 Actuarial accrued liability | $14,273,829 | $13,544,596 |
| Actuarial asset value | 12,741,384 | 12,910,986 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 1,532,445 | 633,610 |
| Tier 1/ Tier 2 Funded status | 89% | 95% |
| Combined valuation payroll | $3,159,772 | $3,185,343 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 49% | 20% |
| Tier 1/Tier 2 UAL rate | 2.00% | 1.16% |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 29 | 31 |
| Tier 1/Tier 2 dormant members | 16 | 13 |
| Tier 1/Tier 2 retirees and beneficiaries | 31 | 28 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 3,159,772 | 3,185,343 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $2,378,151 | $2,482,330 |
| 2. Employer reserves | 6,612,024 | 6,961,105 |
| 3. Benefits in force reserve | 3,751,209 | 3,467,551 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$12,741,384** | **$12,910,986** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $12,910,986 |
| 2. Regular employer contributions | 166,786 |
| 3. Benefit payments and expenses | (628,489) |
| 4. Adjustments[2] | (83,853) |
| 5. Interest credited | 375,955 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$12,741,384** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $51,360 | $45,577 |
| Tier 1 General Service | 29,640 | 25,880 |
| Tier 2 Police & Fire | 44,329 | 38,889 |
| Tier 2 General Service | 77,080 | 84,265 |
| **Total** | **$202,409** | **$194,611** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $202,409 | $202,409 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | **December 31, 2011** | **December 31, 2010** |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $2,100,350 | $2,027,266 |
| ▪ Tier 1 General Service | 2,516,596 | 2,340,690 |
| ▪ Tier 2 Police & Fire | 563,645 | 479,652 |
| ▪ Tier 2 General Service | 1,321,594 | 1,339,515 |
| ▪ **Total Active Members** | **$6,502,185** | **$6,187,123** |
| Dormant Members | 949,183 | 1,647,969 |
| Retired Members and Beneficiaries | 6,822,461 | 5,709,504 |
| **Total Actuarial Accrued Liability** | **$14,273,829** | **$13,544,596** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | **Before Changes** | **After Changes** | **Net Change** |
|---|---|---|---|
| Actuarial Accrued Liability | $14,273,829 | $14,273,829 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $14,273,829 | $13,544,596 |
| 2. Actuarial value of assets | 12,741,384 | 12,910,986 |
| 3. Unfunded accrued liability *(1. – 2.)* | 1,532,445 | 633,610 |
| 4. Funded percentage *(2. ÷ 1.)* | 89% | 95% |
| 5. Combined valuation payroll | $3,159,772 | $3,185,343 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 49% | 20% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($2,351,348) | ($193,777) | ($179,859) | ($2,337,430) | ($201,044) |
| December 31, 2009 | $2,535,787 | $193,707 | $194,617 | $2,536,697 | $200,971 |
| December 31, 2011 | N/A | N/A | N/A | $1,333,178 | $98,455 |
| **Total** | | | | **$1,532,445** | **$98,382** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $13,544,596 |
| b. Normal cost at December 31, 2010 | 194,611 |
| c. Benefit payments during 2011 | (624,370) |
| d. Interest at 8.0% to December 31, 2011 | 1,074,162 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 14,188,999 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 14,188,999 |
| 2. Actuarial accrued liability at December 31, 2011 | 14,273,829 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (84,830) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 12,910,986 |
| b. Contributions for 2011[1] | 166,786 |
| c. Benefit payments and expenses during 2011 | (628,489) |
| d. Interest at 8.0% to December 31, 2011 | 1,014,411 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 13,463,693 |
| 5. Actuarial value of assets at December 31, 2011 | 12,741,384 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (722,308) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($807,138)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$633,610** |
| 2. Expected increase | 91,697 |
| 3. Liability (gain)/loss | 84,830 |
| 4. Asset (gain)/loss | 722,308 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$1,532,445** |

1 *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $51,360 | $408,907 | 12.56% | $45,577 | $400,125 | 11.39% |
| Tier 1 General Service | 29,640 | 538,988 | 5.50% | 25,880 | 527,010 | 4.91% |
| Tier 2 Police & Fire | 44,329 | 329,174 | 13.47% | 38,889 | 306,213 | 12.70% |
| Tier 2 General Service | 77,080 | 820,659 | 9.39% | 84,265 | 913,478 | 9.22% |
| **Total** | **$202,409** | **$2,097,728** | **9.65%** | **$194,611** | **$2,146,826** | **9.07%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $1,532,445 | $633,610 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 98,382 | 33,101 |
| 3. Combined valuation payroll | 3,159,772 | 3,185,343 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 3.11% | 1.04% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 9.65% | 9.07% |
| b. Tier 1/Tier 2 UAL rate | 3.11% | 1.04% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 12.89% | 10.23% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | | |
|---|---|---|
| 1. | Current net Tier 1/Tier 2 pension contribution rate | 8.65% |
| 2. | Employer contribution rate attributable to side accounts | 0.00% |
| 3. | Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 8.65% |
| 4. | Size of rate collar | |
| | a. 20% of current employer contribution rate *(20% x 3.)* | 1.73% |
| | b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| | c. Funded percentage | 89% |
| | d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. | July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 5.65% |
| 6. | July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 11.65% |
| 7. | July 1, 2013 total pension rate, before adjustment | 12.89% |
| 8. | Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (1.24%) |
| 9. | July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 3.11% |
| 10. | July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 1.87% |
| 11. | July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 11.65% |
| 12. | Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. | Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 9.65% |
| 15. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 9.65% |
| 16. | July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 11.65% |

| **100+** | | |
| **Total** | 31 | 1,438 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

September 28, 2012

City of Cottage Grove/2127
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

Milliman

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

Milliman

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Cottage Grove -- #2127

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Cottage Grove to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Cottage Grove.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Cottage Grove*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 8.46% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 8.04% | 8.04% | 8.04% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **16.65%** | **14.46%** | **17.19%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **17.24%** | **14.95%** | **17.68%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 87%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 16.50% | 16.50% |
| Minimum July 1, 2015 Rate | 13.20% | 9.90% |
| Maximum July 1, 2015 Rate | 19.80% | 23.10% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 25 | 30 |
| Amortization factor | 15.686 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 13.91% | 5.76% | 5.76% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 16.50% | 8.04% | 8.04% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $31,230,442 | $28,056,666 | ($3,173,776) | 111% | $2,714,463 | (117%) |
| 12/31/2007 | 33,138,078 | 29,918,707 | (3,219,371) | 111% | 3,349,203 | (96%) |
| 12/31/2008 | 25,591,390 | 31,631,437 | 6,040,047 | 81% | 3,544,495 | 170% |
| 12/31/2009 | 29,216,208 | 32,864,480 | 3,648,272 | 89% | 3,747,512 | 97% |
| 12/31/2010 | 31,425,921 | 34,333,400 | 2,907,479 | 92% | 3,750,985 | 78% |
| 12/31/2011 | 31,039,561 | 35,814,645 | 4,775,084 | 87% | 3,832,180 | 125% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Cottage Grove*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $4,775,084 | $2,907,479 |
| Allocated pooled OPSRP UAL | 65,386 | 46,573 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 4,840,470 | 2,954,052 |
| Combined valuation payroll | 3,832,180 | 3,750,985 |
| Net pension UAL as a percentage of payroll | 126% | 79% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $99,275 | $134,955 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| Normal cost | $234,208 | $226,297 |
| Tier 1/Tier 2 valuation payroll | 2,769,559 | 2,799,966 |
| Tier 1/Tier 2 pension normal cost rate | 8.46% | 8.08% |
| Tier 1/ Tier 2 Actuarial accrued liability | $35,814,645 | $34,333,400 |
| Actuarial asset value | 31,039,561 | 31,425,921 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 4,775,084 | 2,907,479 |
| Tier 1/ Tier 2 Funded status | 87% | 92% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 3,832,180 | 3,750,985 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $6,480,785 | $6,809,632 |
| 2. Employer reserves | 14,806,914 | 14,940,087 |
| 3. Benefits in force reserve | 9,751,862 | 9,676,202 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$31,039,561** | **$31,425,921** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $31,425,921 |
| 2. Regular employer contributions | 343,276 |
| 3. Benefit payments and expenses | (1,633,857) |
| 4. Adjustments[2] | (39,928) |
| 5. Interest credited | 944,149 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$31,039,561** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $89,287 | $93,182 |
| Tier 1 General Service | 38,148 | 32,085 |
| Tier 2 Police & Fire | 25,642 | 24,704 |
| Tier 2 General Service | 81,131 | 76,326 |
| **Total** | **$234,208** | **$226,297** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $234,208 | $234,208 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $6,390,410 | $7,744,601 |
| ▪ Tier 1 General Service | 6,155,833 | 6,235,742 |
| ▪ Tier 2 Police & Fire | 487,918 | 447,135 |
| ▪ Tier 2 General Service | 1,472,770 | 1,270,995 |
| ▪ **Total Active Members** | **$14,506,931** | **$15,698,473** |
| Dormant Members | 3,571,651 | 2,702,555 |
| Retired Members and Beneficiaries | 17,736,063 | 15,932,372 |
| **Total Actuarial Accrued Liability** | **$35,814,645** | **$34,333,400** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $35,814,645 | $35,814,645 | $0 |

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $35,814,645 | $34,333,400 |
| 2. Actuarial value of assets | 31,039,561 | 31,425,921 |
| 3. Unfunded accrued liability *(1. – 2.)* | 4,775,084 | 2,907,479 |
| 4. Funded percentage *(2. ÷ 1.)* | 87% | 92% |
| 5. Combined valuation payroll | $3,832,180 | $3,750,985 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 125% | 78% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($3,819,951) | ($314,806) | ($292,195) | ($3,797,340) | ($326,611) |
| December 31, 2009 | $7,500,657 | $572,972 | $575,662 | $7,503,347 | $594,458 |
| December 31, 2011 | N/A | N/A | N/A | $1,069,077 | $78,951 |
| **Total** | | | | **$4,775,084** | **$346,798** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $34,333,400 |
| b. Normal cost at December 31, 2010 | 226,297 |
| c. Benefit payments during 2011 | (1,623,148) |
| d. Interest at 8.0% to December 31, 2011 | 2,699,850 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 35,636,399 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 35,636,399 |
| 2. Actuarial accrued liability at December 31, 2011 | 35,814,645 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (178,246) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 31,425,921 |
| b. Contributions for 2011[1] | 343,276 |
| c. Benefit payments and expenses during 2011 | (1,633,857) |
| d. Interest at 8.0% to December 31, 2011 | 2,462,450 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 32,597,791 |
| 5. Actuarial value of assets at December 31, 2011 | 31,039,561 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (1,558,229) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($1,736,475)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$2,907,479** |
| 2. Expected increase | 131,130 |
| 3. Liability (gain)/loss | 178,246 |
| 4. Asset (gain)/loss | 1,558,229 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$4,775,084** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $89,287 | $666,092 | 13.40% | $93,182 | $721,074 | 12.92% |
| Tier 1 General Service | 38,148 | 1,108,035 | 3.44% | 32,085 | 1,111,536 | 2.89% |
| Tier 2 Police & Fire | 25,642 | 202,626 | 12.65% | 24,704 | 201,232 | 12.28% |
| Tier 2 General Service | 81,131 | 792,806 | 10.23% | 76,326 | 766,124 | 9.96% |
| **Total** | **$234,208** | **$2,769,559** | **8.46%** | **$226,297** | **$2,799,966** | **8.08%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $4,775,084 | $2,907,479 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 346,798 | 201,063 |
| 3. Combined valuation payroll | 3,832,180 | 3,750,985 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 9.05% | 5.36% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 8.46% | 8.08% |
| b. Tier 1/Tier 2 UAL rate | 9.05% | 5.36% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 17.64% | 13.56% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | | |
|---|---|---|
| 1. | Current net Tier 1/Tier 2 pension contribution rate | 13.50% |
| 2. | Employer contribution rate attributable to side accounts | 0.00% |
| 3. | Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 13.50% |
| 4. | Size of rate collar | |
| | a. 20% of current employer contribution rate *(20% x 3.)* | 2.70% |
| | b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| | c. Funded percentage | 87% |
| | d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. | July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 10.50% |
| 6. | July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 16.50% |
| 7. | July 1, 2013 total pension rate, before adjustment | 17.64% |
| 8. | Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (1.14%) |
| 9. | July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 9.05% |
| 10. | July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 7.91% |
| 11. | July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 16.50% |
| 12. | Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. | Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 8.46% |
| 15. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 8.46% |
| 16. | July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 16.50% |

### *Distribution of Employer Tier 1/Tier 2 Members as of December 31, 2011*

**Dormant Members**

| Age | Count | Average Deferred Monthly Benefit |
|---|---|---|
| **0-20** | | |
| **20-24** | | |
| **25-29** | 1 | 143 |
| **30-34** | | |
| **35-39** | 2 | 647 |
| **40-44** | 3 | 871 |
| **45-49** | 4 | 1,688 |
| **50-54** | 10 | 2,339 |
| **55-59** | 5 | 944 |
| **60-64** | 3 | 1,612 |
| **65-69** | 1 | 320 |
| **70-74** | | |
| **75+** | | |
| **Total** | 29 | 1,520 |

**Retired Members and Beneficiaries**

| Age | Count | Average Monthly Benefit |
|---|---|---|
| **0-45** | 1 | 250 |
| **45-49** | 2 | 1,540 |
| **50-54** | 4 | 2,735 |
| **55-59** | 13 | 1,623 |
| **60-64** | 16 | 1,525 |
| **65-69** | 23 | 1,601 |
| **70-74** | 7 | 996 |
| **75-79** | 9 | 823 |
| **80-84** | 4 | 1,196 |
| **85-89** | 3 | 730 |
| **90-94** | 1 | 102 |
| **95-99** | | |
| **100+** | | |
| **Total** | 83 | 1,422 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called “funding method,” a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer’s contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer’s plan to determine the employer’s periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

September 28, 2012

City of Culver/2257
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
City of Culver/2257

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Culver -- #2257

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Culver to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Culver.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Culver*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 4.08% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 10.33% | 10.33% | 10.33% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **14.56%** | **16.75%** | **19.48%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **15.15%** | **17.24%** | **19.97%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 74%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 14.41% | 14.41% |
| Minimum July 1, 2015 Rate | 11.41% | 8.41% |
| Maximum July 1, 2015 Rate | 17.41% | 20.41% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 26 | 30 |
| Amortization factor | 15.802 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 11.94% | 8.37% | 8.37% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 14.41% | 10.33% | 10.33% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $586,079 | $541,136 | ($44,943) | 108% | $130,229 | (35%) |
| 12/31/2007 | 537,016 | 545,213 | 8,197 | 99% | 106,108 | 8% |
| 12/31/2008 | 413,487 | 564,527 | 151,040 | 73% | 119,335 | 127% |
| 12/31/2009 | 466,386 | 607,627 | 141,241 | 77% | 99,352 | 142% |
| 12/31/2010 | 502,571 | 642,042 | 139,471 | 78% | 102,486 | 136% |
| 12/31/2011 | 498,653 | 673,446 | 174,793 | 74% | 108,081 | 162% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Culver*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $174,793 | $139,471 |
| Allocated pooled OPSRP UAL | 1,844 | 1,272 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 176,637 | 140,743 |
| Combined valuation payroll | 108,081 | 102,486 |
| Net pension UAL as a percentage of payroll | 163% | 137% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $2,800 | $3,687 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 108,081 | 102,486 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $127,933 | $135,039 |
| 2. Employer reserves | 211,614 | 215,409 |
| 3. Benefits in force reserve | 159,106 | 152,123 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$498,653** | **$502,571** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $502,571 |
| 2. | Regular employer contributions | 7,369 |
| 3. | Benefit payments and expenses | (26,657) |
| 4. | Adjustments[2] | (966) |
| 5. | Interest credited | 16,336 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$498,653** |

1 *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

2 *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $0 | $0 |
| Tier 1 General Service | 3,710 | 3,223 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 0 | 0 |
| **Total** | **$3,710** | **$3,223** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $3,710 | $3,710 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $0 | $0 |
| ▪ Tier 1 General Service | 367,634 | 373,048 |
| ▪ Tier 2 Police & Fire | 314 | 0 |
| ▪ Tier 2 General Service | 909 | 803 |
| ▪ **Total Active Members** | **$368,857** | **$373,851** |
| Dormant Members | 15,216 | 17,712 |
| Retired Members and Beneficiaries | 289,373 | 250,479 |
| **Total Actuarial Accrued Liability** | **$673,446** | **$642,042** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $673,446 | $673,446 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $673,446 | $642,042 |
| 2. Actuarial value of assets | 498,653 | 502,571 |
| 3. Unfunded accrued liability *(1. – 2.)* | 174,793 | 139,471 |
| 4. Funded percentage *(2. ÷ 1.)* | 74% | 78% |
| 5. Combined valuation payroll | $108,081 | $102,486 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 162% | 136% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($8,054) | ($663) | ($616) | ($8,007) | ($688) |
| December 31, 2009 | $149,764 | $11,441 | $11,494 | $149,817 | $11,870 |
| December 31, 2011 | N/A | N/A | N/A | $32,983 | $2,436 |
| **Total** | | | | **$174,793** | **$13,618** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $642,042 |
| b. Normal cost at December 31, 2010 | 3,223 |
| c. Benefit payments during 2011 | (26,482) |
| d. Interest at 8.0% to December 31, 2011 | 50,562 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 669,345 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 669,345 |
| 2. Actuarial accrued liability at December 31, 2011 | 673,446 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (4,101) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 502,571 |
| b. Contributions for 2011[1] | 7,369 |
| c. Benefit payments and expenses during 2011 | (26,657) |
| d. Interest at 8.0% to December 31, 2011 | 39,434 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 522,717 |
| 5. Actuarial value of assets at December 31, 2011 | 498,653 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (24,064) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($28,165)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$139,471** |
| 2. Expected increase | 7,157 |
| 3. Liability (gain)/loss | 4,101 |
| 4. Asset (gain)/loss | 24,064 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$174,793** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $0 | $0 | 0.00% | $0 | $0 | 0.00% |
| Tier 1 General Service | 3,710 | 90,882 | 4.08% | 3,223 | 88,393 | 3.65% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| **Total** | **$3,710** | **$90,882** | **4.08%** | **$3,223** | **$88,393** | **3.65%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $174,793 | $139,471 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 13,618 | 10,613 |
| 3. Combined valuation payroll | 108,081 | 102,486 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 12.60% | 10.36% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 4.08% | 3.65% |
| b. Tier 1/Tier 2 UAL rate | 12.60% | 10.36% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 16.81% | 14.13% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 9.61% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 9.61% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 1.92% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 74% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 4.80% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 4.81% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 14.41% |
| 7. July 1, 2013 total pension rate, before adjustment | 16.81% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (2.40%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 12.60% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 10.20% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 14.41% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 4.08% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 4.08% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 14.41% |

| 100+ | | |
| **Total** | 5 | 430 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

September 28, 2012

City of Dufur/2262
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

Milliman

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
City of Dufur/2262

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Scott Preppernau

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Dufur -- #2262

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Dufur to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Dufur.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Dufur*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 11.84% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 6.50% | 6.50% | 6.50% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **18.49%** | **12.92%** | **15.65%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **19.08%** | **13.41%** | **16.14%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 78%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 18.34% | 18.34% |
| Minimum July 1, 2015 Rate | 14.67% | 11.00% |
| Maximum July 1, 2015 Rate | 22.01% | 25.68% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 30 | 22 |
| Amortization factor | 17.175 | 14.206 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 14.74% | 8.78% | 8.78% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 22.11% | 10.27% | 10.27% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $674,055 | $650,275 | ($23,780) | 104% | $60,362 | (39%) |
| 12/31/2007 | 704,741 | 671,034 | (33,707) | 105% | 91,331 | (37%) |
| 12/31/2008 | 511,116 | 683,432 | 172,316 | 75% | 90,910 | 190% |
| 12/31/2009 | 586,795 | 697,077 | 110,282 | 84% | 89,502 | 123% |
| 12/31/2010 | 592,439 | 715,139 | 122,700 | 83% | 62,947 | 195% |
| 12/31/2011 | 572,637 | 733,287 | 160,650 | 78% | 91,905 | 175% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Dufur*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $160,650 | $122,700 |
| Allocated pooled OPSRP UAL | 1,568 | 782 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 162,218 | 123,482 |
| Combined valuation payroll | 91,905 | 62,947 |
| Net pension UAL as a percentage of payroll | 177% | 196% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $2,381 | $2,265 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 91,905 | 62,947 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $31,353 | $31,103 |
| 2. Employer reserves | 199,274 | 187,305 |
| 3. Benefits in force reserve | 342,010 | 374,031 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$572,637** | **$592,439** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $592,439 |
| 2. | Regular employer contributions | 7,671 |
| 3. | Benefit payments and expenses | (57,301) |
| 4. | Adjustments[2] | 17,805 |
| 5. | Interest credited | 12,023 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$572,637** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | **December 31, 2011** | **December 31, 2010** |
|---|---|---|
| Tier 1 Police & Fire | $0 | $0 |
| Tier 1 General Service | 5,151 | 4,500 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 0 | 0 |
| **Total** | **$5,151** | **$4,500** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | **Before Changes** | **After Changes** | **Net Change** |
|---|---|---|---|
| Normal Cost | $5,151 | $5,151 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $0 | $0 |
| ▪ Tier 1 General Service | 111,262 | 99,278 |
| ▪ Tier 2 Police & Fire | 0 | 0 |
| ▪ Tier 2 General Service | 0 | 0 |
| ▪ **Total Active Members** | **$111,262** | **$99,278** |
| Dormant Members | 0 | 0 |
| Retired Members and Beneficiaries | 622,025 | 615,861 |
| **Total Actuarial Accrued Liability** | **$733,287** | **$715,139** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $733,287 | $733,287 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $733,287 | $715,139 |
| 2. Actuarial value of assets | 572,637 | 592,439 |
| 3. Unfunded accrued liability *(1. – 2.)* | 160,650 | 122,700 |
| 4. Funded percentage *(2. ÷ 1.)* | 78% | 83% |
| 5. Combined valuation payroll | $91,905 | $62,947 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 175% | 195% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($72,386) | ($5,966) | ($5,537) | ($71,957) | ($6,190) |
| December 31, 2009 | $183,407 | $14,010 | $14,076 | $183,473 | $14,535 |
| December 31, 2011 | N/A | N/A | N/A | $49,134 | $3,629 |
| **Total** | | | | **$160,650** | **$11,974** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $715,139 |
| b. Normal cost at December 31, 2010 | 4,500 |
| c. Benefit payments during 2011 | (56,926) |
| d. Interest at 8.0% to December 31, 2011 | 55,294 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 718,007 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 718,007 |
| 2. Actuarial accrued liability at December 31, 2011 | 733,287 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (15,280) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 592,439 |
| b. Contributions for 2011[1] | 7,671 |
| c. Benefit payments and expenses during 2011 | (57,301) |
| d. Interest at 8.0% to December 31, 2011 | 45,410 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 588,219 |
| 5. Actuarial value of assets at December 31, 2011 | 572,637 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (15,582) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($30,862)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$122,700** |
| 2. Expected increase | 7,088 |
| 3. Liability (gain)/loss | 15,280 |
| 4. Asset (gain)/loss | 15,582 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$160,650** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $0 | $0 | 0.00% | $0 | $0 | 0.00% |
| Tier 1 General Service | 5,151 | 43,521 | 11.84% | 4,500 | 41,368 | 10.88% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| **Total** | **$5,151** | **$43,521** | **11.84%** | **$4,500** | **$41,368** | **10.88%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $160,650 | $122,700 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 11,974 | 8,906 |
| 3. Combined valuation payroll | 91,905 | 62,947 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 13.03% | 14.15% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 11.84% | 10.88% |
| b. Tier 1/Tier 2 UAL rate | 13.03% | 14.15% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 25.00% | 25.15% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | | |
|---|---|---|
| 1. | Current net Tier 1/Tier 2 pension contribution rate | 14.74% |
| 2. | Employer contribution rate attributable to side accounts | 0.00% |
| 3. | Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 14.74% |
| 4. | Size of rate collar | |
| | a. 20% of current employer contribution rate *(20% x 3.)* | 2.95% |
| | b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| | c. Funded percentage | 78% |
| | d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.60% |
| 5. | July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 11.14% |
| 6. | July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 18.34% |
| 7. | July 1, 2013 total pension rate, before adjustment | 25.00% |
| 8. | Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (6.66%) |
| 9. | July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 13.03% |
| 10. | July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 6.37% |
| 11. | July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 18.34% |
| 12. | Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. | Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 11.84% |
| 15. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 11.84% |
| 16. | July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 18.34% |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Eagle Point/2282
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

September 28, 2012
City of Eagle Point/2282

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
City of Eagle Point/2282

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA

# ACTUARIAL VALUATION REPORT DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Eagle Point -- #2282

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Eagle Point to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Eagle Point.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Eagle Point*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 14.29% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | (0.06%) | (0.06%) | (0.06%) |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **14.38%** | **6.36%** | **9.09%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **14.97%** | **6.85%** | **9.58%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 79%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 14.23% | 14.23% |
| Minimum July 1, 2015 Rate | 11.23% | 8.23% |
| Maximum July 1, 2015 Rate | 17.23% | 20.23% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 14.36% | 1.58% | 1.58% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 18.78% | 4.49% | 4.49% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $2,145,211 | $1,638,405 | ($506,806) | 131% | $525,520 | (96%) |
| 12/31/2007 | 2,332,061 | 1,776,883 | (555,178) | 131% | 661,509 | (84%) |
| 12/31/2008 | 1,747,730 | 1,982,202 | 234,472 | 88% | 783,617 | 30% |
| 12/31/2009 | 2,041,520 | 2,211,444 | 169,924 | 92% | 663,580 | 26% |
| 12/31/2010 | 2,057,505 | 2,442,645 | 385,140 | 84% | 614,657 | 63% |
| 12/31/2011 | 2,019,516 | 2,540,783 | 521,267 | 79% | 689,745 | 76% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Eagle Point*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $521,267 | $385,140 |
| Allocated pooled OPSRP UAL | 11,769 | 7,632 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 533,036 | 392,772 |
| Combined valuation payroll | 689,745 | 614,657 |
| Net pension UAL as a percentage of payroll | 77% | 64% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $17,868 | $22,114 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| Normal cost | $64,682 | $62,124 |
| Tier 1/Tier 2 valuation payroll | 452,692 | 446,947 |
| Tier 1/Tier 2 pension normal cost rate | 14.29% | 13.90% |
| Tier 1/ Tier 2 Actuarial accrued liability | $2,540,783 | $2,442,645 |
| Actuarial asset value | 2,019,516 | 2,057,505 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 521,267 | 385,140 |
| Tier 1/ Tier 2 Funded status | 79% | 84% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 689,745 | 614,657 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $103,512 | $98,659 |
| 2. Employer reserves | 963,658 | 909,122 |
| 3. Benefits in force reserve | 952,346 | 1,049,724 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$2,019,516** | **$2,057,505** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $2,057,505 |
| 2. | Regular employer contributions | 34,026 |
| 3. | Benefit payments and expenses | (159,559) |
| 4. | Adjustments[2] | 42,182 |
| 5. | Interest credited | 45,362 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$2,019,516** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $19,452 | $18,961 |
| Tier 1 General Service | 0 | 0 |
| Tier 2 Police & Fire | 45,230 | 43,163 |
| Tier 2 General Service | 0 | 0 |
| **Total** | **$64,682** | **$62,124** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $64,682 | $64,682 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $265,551 | $246,159 |
| ▪ Tier 1 General Service | 0 | 0 |
| ▪ Tier 2 Police & Fire | 543,167 | 468,062 |
| ▪ Tier 2 General Service | 0 | 0 |
| ▪ **Total Active Members** | **$808,718** | **$714,221** |
| Dormant Members | 0 | 0 |
| Retired Members and Beneficiaries | 1,732,065 | 1,728,424 |
| **Total Actuarial Accrued Liability** | **$2,540,783** | **$2,442,645** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $2,540,783 | $2,540,783 | $0 |

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $2,540,783 | $2,442,645 |
| 2. Actuarial value of assets | 2,019,516 | 2,057,505 |
| 3. Unfunded accrued liability *(1. – 2.)* | 521,267 | 385,140 |
| 4. Funded percentage *(2. ÷ 1.)* | 79% | 84% |
| 5. Combined valuation payroll | $689,745 | $614,657 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 76% | 63% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($604,508) | ($49,819) | ($46,240) | ($600,929) | ($51,687) |
| December 31, 2009 | $778,340 | $59,457 | $59,736 | $778,619 | $61,687 |
| December 31, 2011 | N/A | N/A | N/A | $343,577 | $25,373 |
| **Total** | | | | **$521,267** | **$35,373** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $2,442,645 |
| b. Normal cost at December 31, 2010 | 62,124 |
| c. Benefit payments during 2011 | (158,513) |
| d. Interest at 8.0% to December 31, 2011 | 194,041 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 2,540,297 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 2,540,297 |
| 2. Actuarial accrued liability at December 31, 2011 | 2,540,783 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (486) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 2,057,505 |
| b. Contributions for 2011[1] | 34,026 |
| c. Benefit payments and expenses during 2011 | (159,559) |
| d. Interest at 8.0% to December 31, 2011 | 159,579 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 2,091,551 |
| 5. Actuarial value of assets at December 31, 2011 | 2,019,516 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (72,035) |
| **7. Total actuarial gain/(loss) *(3. + 6.)*** | **($72,521)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$385,140** |
| 2. Expected increase | 63,606 |
| 3. Liability (gain)/loss | 486 |
| 4. Asset (gain)/loss | 72,035 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011 *(1. + 2. + 3. + 4. + 5.)*** | **$521,267** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate |
| Tier 1 Police & Fire | $19,452 | $126,225 | 15.41% | $18,961 | $128,123 | 14.80% |
| Tier 1 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 Police & Fire | 45,230 | 326,467 | 13.85% | 43,163 | 318,824 | 13.54% |
| Tier 2 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| **Total** | **$64,682** | **$452,692** | **14.29%** | **$62,124** | **$446,947** | **13.90%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $521,267 | $385,140 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 35,373 | 25,243 |
| 3. Combined valuation payroll | 689,745 | 614,657 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 5.13% | 4.11% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 14.29% | 13.90% |
| b. Tier 1/Tier 2 UAL rate | 5.13% | 4.11% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 19.55% | 18.13% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 10.93% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 10.93% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 2.19% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 79% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.30% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 7.63% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 14.23% |
| 7. July 1, 2013 total pension rate, before adjustment | 19.55% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (5.32%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 5.13% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | (0.19%) |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 14.23% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 14.29% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 14.29% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 14.23% |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Eugene/2111
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

Milliman

September 28, 2012
City of Eugene/2111

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

2141 City Of Eugene Public Library

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Eugene to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Eugene.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Eugene*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 11.01% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 5.35% | 5.35% | 5.35% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **16.51%** | **11.77%** | **14.50%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **17.10%** | **12.26%** | **14.99%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 82%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 16.36% | 16.36% |
| Minimum July 1, 2015 Rate | 13.09% | 9.82% |
| Maximum July 1, 2015 Rate | 19.63% | 22.90% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

## *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

### *Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 16.01% | 6.12% | 6.12% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 18.83% | 7.82% | 7.82% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $641,037,148 | $593,561,815 | ($47,475,333) | 108% | $82,817,527 | (57%) |
| 12/31/2007 | 680,846,717 | 612,554,606 | (68,292,111) | 111% | 85,563,475 | (80%) |
| 12/31/2008 | 511,725,377 | 636,242,912 | 124,517,535 | 80% | 87,775,282 | 142% |
| 12/31/2009 | 572,595,446 | 664,728,789 | 92,133,343 | 86% | 89,005,209 | 104% |
| 12/31/2010 | 608,092,209 | 692,573,860 | 84,481,651 | 88% | 92,340,211 | 91% |
| 12/31/2011 | 592,998,990 | 719,826,602 | 126,827,612 | 82% | 95,549,026 | 133% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Eugene*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $126,827,612 | $84,481,651 |
| Allocated pooled OPSRP UAL | 1,630,293 | 1,146,518 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 128,457,905 | 85,628,169 |
| Combined valuation payroll | 95,549,026 | 92,340,211 |
| Net pension UAL as a percentage of payroll | 134% | 93% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $2,475,246 | $3,322,255 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $7,382,877 | $6,811,205 |
| Tier 1/Tier 2 valuation payroll | 67,033,298 | 66,631,516 |
| Tier 1/Tier 2 pension normal cost rate | 11.01% | 10.22% |
| Tier 1/ Tier 2 Actuarial accrued liability | $719,826,602 | $692,573,860 |
| Actuarial asset value | 592,998,990 | 608,092,209 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 126,827,612 | 84,481,651 |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 95,549,026 | 92,340,211 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $84,184,525 | $92,645,543 |
| 2. Employer reserves | 264,049,109 | 265,895,481 |
| 3. Benefits in force reserve | 244,765,356 | 249,551,185 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$592,998,990** | **$608,092,209** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $608,092,209 |
| 2. Regular employer contributions | 8,530,625 |
| 3. Benefit payments and expenses | (41,008,746) |
| 4. Adjustments[2] | 684,633 |
| 5. Interest credited | 16,700,269 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$592,998,990** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $2,241,982 | $2,139,244 |
| Tier 1 General Service | 1,349,335 | 1,167,617 |
| Tier 2 Police & Fire | 1,677,660 | 1,532,709 |
| Tier 2 General Service | 2,113,900 | 1,971,635 |
| **Total** | **$7,382,877** | **$6,811,205** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $7,382,877 | $7,382,877 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $65,280,528 | $66,734,300 |
| ▪ Tier 1 General Service | 119,085,824 | 127,108,099 |
| ▪ Tier 2 Police & Fire | 19,349,197 | 16,290,115 |
| ▪ Tier 2 General Service | 27,884,083 | 24,426,185 |
| ▪ **Total Active Members** | **$231,599,632** | **$234,558,699** |
| Dormant Members | 43,063,373 | 47,116,069 |
| Retired Members and Beneficiaries | 445,163,597 | 410,899,092 |
| **Total Actuarial Accrued Liability** | **$719,826,602** | **$692,573,860** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $719,826,602 | $719,826,602 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### Summary of UAL

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $719,826,602 | $692,573,860 |
| 2. Actuarial value of assets | 592,998,990 | 608,092,209 |
| 3. Unfunded accrued liability *(1. – 2.)* | 126,827,612 | 84,481,651 |
| 4. Funded percentage *(2. ÷ 1.)* | 82% | 88% |
| 5. Combined valuation payroll | $95,549,026 | $92,340,211 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 133% | 91% |

### Reconciliation of UAL Bases

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($81,459,331) | ($6,713,125) | ($6,230,980) | ($80,977,186) | ($6,964,867) |
| December 31, 2009 | $174,327,424 | $13,316,782 | $13,379,321 | $174,389,963 | $13,816,161 |
| December 31, 2011 | N/A | N/A | N/A | $33,414,835 | $2,467,679 |
| **Total** | | | | **$126,827,612** | **$9,318,973** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $692,573,860 |
| b. Normal cost at December 31, 2010 | 6,811,205 |
| c. Benefit payments during 2011 | (40,739,951) |
| d. Interest at 8.0% to December 31, 2011 | 54,321,207 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 712,966,321 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 712,966,321 |
| 2. Actuarial accrued liability at December 31, 2011 | 719,826,602 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (6,860,281) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 608,092,209 |
| b. Contributions for 2011[1] | 8,530,625 |
| c. Benefit payments and expenses during 2011 | (41,008,746) |
| d. Interest at 8.0% to December 31, 2011 | 47,348,252 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 622,962,339 |
| 5. Actuarial value of assets at December 31, 2011 | 592,998,990 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (29,963,349) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($36,823,630)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$84,481,651** |
| 2. Expected increase | 5,522,331 |
| 3. Liability (gain)/loss | 6,860,281 |
| 4. Asset (gain)/loss | 29,963,349 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$126,827,612** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $2,241,982 | $13,054,093 | 17.17% | $2,139,244 | $13,426,070 | 15.93% |
| Tier 1 General Service | 1,349,335 | 22,822,204 | 5.91% | 1,167,617 | 23,192,984 | 5.03% |
| Tier 2 Police & Fire | 1,677,660 | 11,598,087 | 14.46% | 1,532,709 | 10,979,651 | 13.96% |
| Tier 2 General Service | 2,113,900 | 19,558,914 | 10.81% | 1,971,635 | 19,032,811 | 10.36% |
| **Total** | **$7,382,877** | **$67,033,298** | **11.01%** | **$6,811,205** | **$66,631,516** | **10.22%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $126,827,612 | $84,481,651 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 9,318,973 | 5,984,320 |
| 3. Combined valuation payroll | 95,549,026 | 92,340,211 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 9.75% | 6.48% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 11.01% | 10.22% |
| b. Tier 1/Tier 2 UAL rate | 9.75% | 6.48% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 20.89% | 16.82% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 13.36% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 13.36% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 2.67% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 82% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 10.36% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 16.36% |
| 7. July 1, 2013 total pension rate, before adjustment | 20.89% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (4.53%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 9.75% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 5.22% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 16.36% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 11.01% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 11.01% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 16.36% |

### *Distribution of Employer Tier 1/Tier 2 Members as of December 31, 2011*

**Dormant Members**

| Age | Count | Average Deferred Monthly Benefit |
|---|---|---|
| **0-20** | | |
| **20-24** | | |
| **25-29** | 4 | 65 |
| **30-34** | 16 | 1,073 |
| **35-39** | 32 | 1,064 |
| **40-44** | 49 | 793 |
| **45-49** | 54 | 971 |
| **50-54** | 61 | 1,330 |
| **55-59** | 94 | 1,404 |
| **60-64** | 57 | 1,109 |
| **65-69** | 19 | 637 |
| **70-74** | 5 | 129 |
| **75+** | 5 | 132 |
| **Total** | 396 | 1,092 |

**Retired Members and Beneficiaries**

| Age | Count | Average Monthly Benefit |
|---|---|---|
| **0-45** | 9 | 1,591 |
| **45-49** | 3 | 1,365 |
| **50-54** | 18 | 3,178 |
| **55-59** | 145 | 3,427 |
| **60-64** | 360 | 2,670 |
| **65-69** | 315 | 2,345 |
| **70-74** | 179 | 2,065 |
| **75-79** | 137 | 1,765 |
| **80-84** | 57 | 1,693 |
| **85-89** | 55 | 1,140 |
| **90-94** | 16 | 1,432 |
| **95-99** | 4 | 325 |
| **100+** | | |
| **Total** | 1,298 | 2,363 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called “funding method,” a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer’s contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer’s plan to determine the employer’s periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

September 28, 2012

City of Fossil/2248
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

Milliman

September 28, 2012
City of Fossil/2248

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Fossil -- #2248

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Fossil to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Fossil.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Fossil*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 5.72% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 2.69% | 2.69% | 2.69% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **8.56%** | **9.11%** | **11.84%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **9.15%** | **9.60%** | **12.33%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 88%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 8.41% | 8.41% |
| Minimum July 1, 2015 Rate | 5.41% | 2.41% |
| Maximum July 1, 2015 Rate | 11.41% | 14.41% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 6.01% | 0.64% | 0.64% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 10.44% | 4.72% | 4.72% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $549,450 | $472,034 | ($77,416) | 116% | $80,856 | (96%) |
| 12/31/2007 | 595,134 | 494,230 | (100,904) | 120% | 72,991 | (138%) |
| 12/31/2008 | 477,376 | 528,356 | 50,980 | 90% | 74,613 | 68% |
| 12/31/2009 | 538,898 | 546,282 | 7,384 | 99% | 77,993 | 9% |
| 12/31/2010 | 587,887 | 578,730 | (9,157) | 102% | 80,610 | (11%) |
| 12/31/2011 | 579,010 | 654,449 | 75,439 | 88% | 94,788 | 80% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Fossil*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $75,439 | ($9,157) |
| Allocated pooled OPSRP UAL | 1,617 | 1,001 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 77,056 | (8,156) |
| Combined valuation payroll | 94,788 | 80,610 |
| Net pension UAL as a percentage of payroll | 81% | (10%) |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $2,456 | $2,900 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 94,788 | 80,610 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $141,868 | $165,489 |
| 2. Employer reserves | 289,594 | 313,650 |
| 3. Benefits in force reserve | 147,548 | 108,748 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$579,010** | **$587,887** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $587,887 |
| 2. Regular employer contributions | 5,141 |
| 3. Benefit payments and expenses | (24,721) |
| 4. Adjustments [2] | (11,985) |
| 5. Interest credited | 22,688 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$579,010** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

### *Summary of Normal Cost by Tier/Member Classification*

| | **December 31, 2011** | **December 31, 2010** |
|---|---|---|
| Tier 1 Police & Fire | $0 | $0 |
| Tier 1 General Service | 0 | 0 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 4,605 | 4,527 |
| **Total** | **$4,605** | **$4,527** |

### ***Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes***

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | **Before Changes** | **After Changes** | **Net Change** |
|---|---|---|---|
| Normal Cost | $4,605 | $4,605 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $0 | $0 |
| ▪ Tier 1 General Service | 215,379 | 244,258 |
| ▪ Tier 2 Police & Fire | 0 | 0 |
| ▪ Tier 2 General Service | 38,354 | 32,620 |
| ▪ **Total Active Members** | **$253,733** | **$276,878** |
| Dormant Members | 132,364 | 122,793 |
| Retired Members and Beneficiaries | 268,352 | 179,059 |
| **Total Actuarial Accrued Liability** | **$654,449** | **$578,730** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $654,449 | $654,449 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $654,449 | $578,730 |
| 2. Actuarial value of assets | 579,010 | 587,887 |
| 3. Unfunded accrued liability *(1. – 2.)* | 75,439 | (9,157) |
| 4. Funded percentage *(2. ÷ 1.)* | 88% | 102% |
| 5. Combined valuation payroll | $94,788 | $80,610 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 80% | (11%) |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($134,679) | ($11,100) | ($10,302) | ($133,881) | ($11,516) |
| December 31, 2009 | $142,844 | $10,911 | $10,963 | $142,896 | $11,320 |
| December 31, 2011 | N/A | N/A | N/A | $66,424 | $4,905 |
| **Total** | | | | **$75,439** | **$4,709** |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $578,730 |
| b. Normal cost at December 31, 2010 | 4,527 |
| c. Benefit payments during 2011 | (24,559) |
| d. Interest at 8.0% to December 31, 2011 | 45,678 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 604,376 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 604,376 |
| 2. Actuarial accrued liability at December 31, 2011 | 654,449 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (50,073) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 587,887 |
| b. Contributions for 2011[1] | 5,141 |
| c. Benefit payments and expenses during 2011 | (24,721) |
| d. Interest at 8.0% to December 31, 2011 | 46,248 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 614,555 |
| 5. Actuarial value of assets at December 31, 2011 | 579,010 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (35,545) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($85,618)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **($9,157)** |
| 2. Expected increase | (1,022) |
| 3. Liability (gain)/loss | 50,073 |
| 4. Asset (gain)/loss | 35,545 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$75,439** |

1 *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $0 | $0 | 0.00% | $0 | $0 | 0.00% |
| Tier 1 General Service | 0 | 42,494 | 0.00% | 0 | 42,502 | 0.00% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 4,605 | 37,964 | 12.13% | 4,527 | 38,108 | 11.88% |
| **Total** | **$4,605** | **$80,458** | **5.72%** | **$4,527** | **$80,610** | **5.62%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $75,439 | ($9,157) |
| 2. Next year's Tier 1/Tier 2 UAL payment | 4,709 | (1,468) |
| 3. Combined valuation payroll | 94,788 | 80,610 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 4.97% | (1.82%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 5.72% | 5.62% |
| b. Tier 1/Tier 2 UAL rate | 4.97% | (1.82%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 10.82% | 3.92% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 5.41% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 5.41% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 1.08% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 88% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 2.41% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 8.41% |
| 7. July 1, 2013 total pension rate, before adjustment | 10.82% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (2.41%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 4.97% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 2.56% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 8.41% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 5.72% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 5.72% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 8.41% |

| **85-89** | | |
| **90-94** | | |
| **95-99** | | |
| **100+** | | |
| **Total** | 3 | 677 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

September 28, 2012

City of Gearhart/2309
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

Milliman

September 28, 2012
City of Gearhart/2309

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Gearhart -- #2309

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Gearhart to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Gearhart.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Gearhart*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 15.97% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | (4.26%) | (4.26%) | (4.26%) |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **11.86%** | **2.16%** | **4.89%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **12.45%** | **2.65%** | **5.38%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 89%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 11.71% | 11.71% |
| Minimum July 1, 2015 Rate | 8.71% | 5.71% |
| Maximum July 1, 2015 Rate | 14.71% | 17.71% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 30 | 4 |
| Amortization factor | 17.175 | 4.045 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 8.71% | (6.91%) | (6.91%) |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 18.65% | 2.68% | 2.68% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $1,434,247 | $976,772 | ($457,475) | 147% | $410,869 | (111%) |
| 12/31/2007 | 1,608,557 | 991,482 | (617,075) | 162% | 336,530 | (183%) |
| 12/31/2008 | 1,171,373 | 1,096,661 | (74,712) | 107% | 381,660 | (20%) |
| 12/31/2009 | 1,341,751 | 1,213,117 | (128,634) | 111% | 436,516 | (29%) |
| 12/31/2010 | 1,485,727 | 1,457,065 | (28,662) | 102% | 423,943 | (7%) |
| 12/31/2011 | 1,434,130 | 1,606,043 | 171,913 | 89% | 386,443 | 44% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Gearhart*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $171,913 | ($28,662) |
| Allocated pooled OPSRP UAL | 6,594 | 5,264 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 178,507 | (23,398) |
| Combined valuation payroll | 386,443 | 423,943 |
| Net pension UAL as a percentage of payroll | 46% | (6%) |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $10,011 | $15,253 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 386,443 | 423,943 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $94,523 | $148,227 |
| 2. Employer reserves | 979,380 | 1,117,293 |
| 3. Benefits in force reserve | 360,227 | 220,207 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$1,434,130** | **$1,485,727** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $1,485,727 |
| 2. | Regular employer contributions | 10,919 |
| 3. | Benefit payments and expenses | (60,353) |
| 4. | Adjustments[2] | (40,268) |
| 5. | Interest credited | 38,105 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$1,434,130** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $27,477 | $26,903 |
| Tier 1 General Service | 0 | 11,231 |
| Tier 2 Police & Fire | 12,751 | 12,367 |
| Tier 2 General Service | 3,138 | 2,455 |
| **Total** | **$43,366** | **$52,956** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $43,366 | $43,366 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $746,285 | $710,135 |
| ▪ Tier 1 General Service | 0 | 205,398 |
| ▪ Tier 2 Police & Fire | 156,915 | 138,323 |
| ▪ Tier 2 General Service | 47,686 | 40,627 |
| ▪ **Total Active Members** | **$950,886** | **$1,094,483** |
| Dormant Members | 0 | 0 |
| Retired Members and Beneficiaries | 655,157 | 362,582 |
| **Total Actuarial Accrued Liability** | **$1,606,043** | **$1,457,065** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $1,606,043 | $1,606,043 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $1,606,043 | $1,457,065 |
| 2. Actuarial value of assets | 1,434,130 | 1,485,727 |
| 3. Unfunded accrued liability *(1. – 2.)* | 171,913 | (28,662) |
| 4. Funded percentage *(2. ÷ 1.)* | 89% | 102% |
| 5. Combined valuation payroll | $386,443 | $423,943 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 44% | (7%) |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($598,437) | ($49,318) | ($45,776) | ($594,895) | ($51,167) |
| December 31, 2009 | $472,779 | $36,115 | $36,285 | $472,949 | $37,469 |
| December 31, 2011 | N/A | N/A | N/A | $293,859 | $21,701 |
| **Total** | | | | **$171,913** | **$8,003** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $1,457,065 |
| b. Normal cost at December 31, 2010 | 52,956 |
| c. Benefit payments during 2011 | (59,958) |
| d. Interest at 8.0% to December 31, 2011 | 118,403 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 1,568,466 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 1,568,466 |
| 2. Actuarial accrued liability at December 31, 2011 | 1,606,043 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (37,577) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 1,485,727 |
| b. Contributions for 2011[1] | 10,919 |
| c. Benefit payments and expenses during 2011 | (60,353) |
| d. Interest at 8.0% to December 31, 2011 | 116,881 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 1,553,173 |
| 5. Actuarial value of assets at December 31, 2011 | 1,434,130 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (119,043) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($156,620)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **($28,662)** |
| 2. Expected increase | 43,955 |
| 3. Liability (gain)/loss | 37,577 |
| 4. Asset (gain)/loss | 119,043 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$171,913** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate |
| Tier 1 Police & Fire | $27,477 | $154,390 | 17.80% | $26,903 | $153,864 | 17.48% |
| Tier 1 General Service | 0 | 0 | 0.00% | 11,231 | 84,358 | 13.31% |
| Tier 2 Police & Fire | 12,751 | 68,195 | 18.70% | 12,367 | 67,086 | 18.43% |
| Tier 2 General Service | 3,138 | 48,923 | 6.41% | 2,455 | 45,112 | 5.44% |
| **Total** | **$43,366** | **$271,508** | **15.97%** | **$52,956** | **$350,420** | **15.11%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $171,913 | ($28,662) |
| 2. Next year's Tier 1/Tier 2 UAL payment | 8,003 | (6,040) |
| 3. Combined valuation payroll | 386,443 | 423,943 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 2.07% | (1.42%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 15.97% | 15.11% |
| b. Tier 1/Tier 2 UAL rate | 2.07% | (1.42%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 18.17% | 13.81% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 8.71% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 8.71% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 1.74% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 89% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 5.71% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 11.71% |
| 7. July 1, 2013 total pension rate, before adjustment | 18.17% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (6.46%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 2.07% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | (4.39%) |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 11.71% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 15.97% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 15.97% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 11.71% |

| **85-89** | | |
| **90-94** | | |
| **95-99** | | |
| **100+** | | |
| **Total** | 2 | 1,929 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Gervais/2264
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

September 28, 2012
City of Gervais/2264

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
City of Gervais/2264

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA
Consulting Actuary

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Gervais -- #2264

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Gervais to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Gervais.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Gervais*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 12.25% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 0.80% | 0.80% | 0.80% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **13.20%** | **7.22%** | **9.95%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **13.79%** | **7.71%** | **10.44%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 82%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 13.05% | 13.05% |
| Minimum July 1, 2015 Rate | 10.05% | 7.05% |
| Maximum July 1, 2015 Rate | 16.05% | 19.05% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 12.70% | 1.15% | 1.15% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 15.61% | 3.36% | 3.36% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $887,077 | $633,168 | ($253,909) | 140% | $321,993 | (79%) |
| 12/31/2007 | 963,839 | 724,739 | (239,100) | 133% | 256,878 | (93%) |
| 12/31/2008 | 739,278 | 786,181 | 46,903 | 94% | 347,867 | 13% |
| 12/31/2009 | 860,297 | 931,540 | 71,243 | 92% | 392,434 | 18% |
| 12/31/2010 | 908,919 | 1,046,214 | 137,295 | 87% | 365,611 | 38% |
| 12/31/2011 | 925,700 | 1,131,043 | 205,343 | 82% | 365,206 | 56% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Gervais*

| | **Actuarial Valuation as of** | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $205,343 | $137,295 |
| Allocated pooled OPSRP UAL | 6,231 | 4,540 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 211,574 | 141,835 |
| Combined valuation payroll | 365,206 | 365,611 |
| Net pension UAL as a percentage of payroll | 58% | 39% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $9,461 | $13,154 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 365,206 | 365,611 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $156,835 | $149,000 |
| 2. Employer reserves | 552,365 | 523,791 |
| 3. Benefits in force reserve | 216,500 | 236,128 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$925,700** | **$908,919** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $908,919 |
| 2. | Regular employer contributions | 16,812 |
| 3. | Benefit payments and expenses | (36,273) |
| 4. | Adjustments[2] | 10,091 |
| 5. | Interest credited | 26,151 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$925,700** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $9,650 | $9,117 |
| Tier 1 General Service | 0 | 0 |
| Tier 2 Police & Fire | 0 | 6,249 |
| Tier 2 General Service | 14,570 | 12,741 |
| **Total** | **$24,220** | **$28,107** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $24,220 | $24,220 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $446,038 | $448,735 |
| ▪ Tier 1 General Service | 0 | 0 |
| ▪ Tier 2 Police & Fire | 29,225 | 19,043 |
| ▪ Tier 2 General Service | 126,518 | 101,782 |
| ▪ **Total Active Members** | **$601,781** | **$569,560** |
| Dormant Members | 135,505 | 87,857 |
| Retired Members and Beneficiaries | 393,757 | 388,797 |
| **Total Actuarial Accrued Liability** | **$1,131,043** | **$1,046,214** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $1,131,043 | $1,131,043 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $1,131,043 | $1,046,214 |
| 2. Actuarial value of assets | 925,700 | 908,919 |
| 3. Unfunded accrued liability *(1. – 2.)* | 205,343 | 137,295 |
| 4. Funded percentage *(2. ÷ 1.)* | 82% | 87% |
| 5. Combined valuation payroll | $365,206 | $365,611 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 56% | 38% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($268,886) | ($22,159) | ($20,568) | ($267,295) | ($22,990) |
| December 31, 2009 | $341,854 | $26,114 | $26,237 | $341,977 | $27,093 |
| December 31, 2011 | N/A | N/A | N/A | $130,661 | $9,649 |
| **Total** | | | | **$205,343** | **$13,752** |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $1,046,214 |
| b. Normal cost at December 31, 2010 | 28,107 |
| c. Benefit payments during 2011 | (36,035) |
| d. Interest at 8.0% to December 31, 2011 | 84,504 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 1,122,790 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 1,122,790 |
| 2. Actuarial accrued liability at December 31, 2011 | 1,131,043 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (8,253) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 908,919 |
| b. Contributions for 2011[1] | 16,812 |
| c. Benefit payments and expenses during 2011 | (36,273) |
| d. Interest at 8.0% to December 31, 2011 | 71,935 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 961,393 |
| 5. Actuarial value of assets at December 31, 2011 | 925,700 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (35,693) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($43,946)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$137,295** |
| 2. Expected increase | 24,102 |
| 3. Liability (gain)/loss | 8,253 |
| 4. Asset (gain)/loss | 35,693 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$205,343** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $9,650 | $62,112 | 15.54% | $9,117 | $60,923 | 14.96% |
| Tier 1 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 6,249 | 52,256 | 11.96% |
| Tier 2 General Service | 14,570 | 135,661 | 10.74% | 12,741 | 125,719 | 10.13% |
| **Total** | **$24,220** | **$197,773** | **12.25%** | **$28,107** | **$238,898** | **11.77%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $205,343 | $137,295 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 13,752 | 8,706 |
| 3. Combined valuation payroll | 365,206 | 365,611 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 3.77% | 2.38% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 12.25% | 11.77% |
| b. Tier 1/Tier 2 UAL rate | 3.77% | 2.38% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 16.15% | 14.27% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 10.05% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 10.05% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 2.01% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 82% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 7.05% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 13.05% |
| 7. July 1, 2013 total pension rate, before adjustment | 16.15% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (3.10%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 3.77% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 0.67% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 13.05% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 12.25% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 12.25% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 13.05% |

| **55-59** | | 1 | | | | | | | | **1** |
| **60-64** | | | | | | | | | | |
| **65-69** | | | | | | | | | | |
| **70-74** | | | | | | | | | | |
| **75+** | | | | | | | | | | |
| **Total** | | **2** | **1** | **1** | | | | | | **4** |

### *Distribution of Employer Tier 1/Tier 2 Members as of December 31, 2011*

**Dormant Members**

| Age | Count | Average Deferred Monthly Benefit |
|---|---|---|
| **0-20** | | |
| **20-24** | | |
| **25-29** | | |
| **30-34** | | |
| **35-39** | | |
| **40-44** | 2 | 522 |
| **45-49** | | |
| **50-54** | | |
| **55-59** | 1 | 597 |
| **60-64** | | |
| **65-69** | | |
| **70-74** | | |
| **75+** | | |
| **Total** | 3 | 547 |

**Retired Members and Beneficiaries**

| Age | Count | Average Monthly Benefit |
|---|---|---|
| **0-45** | | |
| **45-49** | | |
| **50-54** | 1 | 925 |
| **55-59** | 2 | 478 |
| **60-64** | | |
| **65-69** | 1 | 172 |
| **70-74** | 1 | 413 |
| **75-79** | 1 | 98 |
| **80-84** | | |
| **85-89** | | |
| **90-94** | | |
| **95-99** | | |
| **100+** | | |
| **Total** | 6 | 427 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

September 28, 2012

City of Gold Beach/2250
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
City of Gold Beach/2250

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Gold Beach -- #2250

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Gold Beach to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Gold Beach.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Gold Beach*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 12.69% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 4.59% | 4.59% | 4.59% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **17.43%** | **11.01%** | **13.74%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **18.02%** | **11.50%** | **14.23%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 84%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 17.28% | 17.28% |
| Minimum July 1, 2015 Rate | 13.82% | 10.36% |
| Maximum July 1, 2015 Rate | 20.74% | 24.20% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 19 | 23 |
| Amortization factor | 12.878 | 14.647 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 16.08% | 5.61% | 5.61% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 17.28% | 4.59% | 4.59% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $2,510,043 | $2,460,539 | ($49,504) | 102% | $468,598 | (11%) |
| 12/31/2007 | 2,640,725 | 2,573,049 | (67,676) | 103% | 468,729 | (14%) |
| 12/31/2008 | 2,042,171 | 2,715,082 | 672,911 | 75% | 553,062 | 122% |
| 12/31/2009 | 2,363,600 | 2,799,170 | 435,570 | 84% | 540,045 | 81% |
| 12/31/2010 | 2,416,858 | 2,808,705 | 391,847 | 86% | 665,234 | 59% |
| 12/31/2011 | 2,267,242 | 2,685,284 | 418,042 | 84% | 725,790 | 58% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Gold Beach*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $418,042 | $391,847 |
| Allocated pooled OPSRP UAL | 12,384 | 8,260 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 430,426 | 400,107 |
| Combined valuation payroll | 725,790 | 665,234 |
| Net pension UAL as a percentage of payroll | 59% | 60% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $18,802 | $23,934 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 725,790 | 665,234 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $319,101 | $364,927 |
| 2. Employer reserves | 1,123,215 | 1,103,633 |
| 3. Benefits in force reserve | 824,926 | 948,297 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$2,267,242** | **$2,416,858** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $2,416,858 |
| 2. Regular employer contributions | 65,930 |
| 3. Benefit payments and expenses | (138,211) |
| 4. Adjustments[2] | (135,797) |
| 5. Interest credited | 58,462 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$2,267,242** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

### *Summary of Normal Cost by Tier/Member Classification*

| | **December 31, 2011** | **December 31, 2010** |
|---|---|---|
| Tier 1 Police & Fire | $11,303 | $8,700 |
| Tier 1 General Service | 12,668 | 7,678 |
| Tier 2 Police & Fire | 12,776 | 5,903 |
| Tier 2 General Service | 15,158 | 17,001 |
| **Total** | **$51,905** | **$39,282** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | **Before Changes** | **After Changes** | **Net Change** |
|---|---|---|---|
| Normal Cost | $51,905 | $51,905 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $315,065 | $264,607 |
| ▪ Tier 1 General Service | 204,589 | 173,125 |
| ▪ Tier 2 Police & Fire | 171,704 | 174,900 |
| ▪ Tier 2 General Service | 155,859 | 184,462 |
| ▪ **Total Active Members** | **$847,217** | **$797,094** |
| Dormant Members | 337,744 | 450,189 |
| Retired Members and Beneficiaries | 1,500,323 | 1,561,422 |
| **Total Actuarial Accrued Liability** | **$2,685,284** | **$2,808,705** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $2,685,284 | $2,685,284 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $2,685,284 | $2,808,705 |
| 2. Actuarial value of assets | 2,267,242 | 2,416,858 |
| 3. Unfunded accrued liability *(1. – 2.)* | 418,042 | 391,847 |
| 4. Funded percentage *(2. ÷ 1.)* | 84% | 86% |
| 5. Combined valuation payroll | $725,790 | $665,234 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 58% | 59% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($129,133) | ($10,642) | ($9,878) | ($128,369) | ($11,041) |
| December 31, 2009 | $566,738 | $43,293 | $43,496 | $566,941 | $44,916 |
| December 31, 2011 | N/A | N/A | N/A | ($20,530) | ($1,516) |
| **Total** | | | | **$418,042** | **$32,359** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $2,808,705 |
| b. Normal cost at December 31, 2010 | 39,282 |
| c. Benefit payments during 2011 | (137,305) |
| d. Interest at 8.0% to December 31, 2011 | 222,347 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 2,933,029 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 2,933,029 |
| 2. Actuarial accrued liability at December 31, 2011 | 2,685,284 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | 247,745 |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 2,416,858 |
| b. Contributions for 2011[1] | 65,930 |
| c. Benefit payments and expenses during 2011 | (138,211) |
| d. Interest at 8.0% to December 31, 2011 | 190,457 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 2,535,035 |
| 5. Actuarial value of assets at December 31, 2011 | 2,267,242 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (267,793) |
| **7. Total actuarial gain/(loss) *(3. + 6.)*** | **($20,048)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$391,847** |
| 2. Expected increase | 6,147 |
| 3. Liability (gain)/loss | (247,745) |
| 4. Asset (gain)/loss | 267,793 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011 *(1. + 2. + 3. + 4. + 5.)*** | **$418,042** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate |
| Tier 1 Police & Fire | $11,303 | $60,233 | 18.77% | $8,700 | $52,607 | 16.54% |
| Tier 1 General Service | 12,668 | 117,104 | 10.82% | 7,678 | 81,642 | 9.40% |
| Tier 2 Police & Fire | 12,776 | 94,375 | 13.54% | 5,903 | 46,685 | 12.64% |
| Tier 2 General Service | 15,158 | 137,409 | 11.03% | 17,001 | 153,348 | 11.09% |
| **Total** | **$51,905** | **$409,121** | **12.69%** | **$39,282** | **$334,282** | **11.75%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $418,042 | $391,847 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 32,359 | 29,272 |
| 3. Combined valuation payroll | 725,790 | 665,234 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 4.46% | 4.40% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 12.69% | 11.75% |
| b. Tier 1/Tier 2 UAL rate | 4.46% | 4.40% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 17.28% | 16.27% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 16.08% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 16.08% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 3.22% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.22% |
| c. Funded percentage | 84% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.22% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 12.86% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 19.30% |
| 7. July 1, 2013 total pension rate, before adjustment | 17.28% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 0.00% |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 4.46% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 4.46% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 17.28% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 12.69% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 12.69% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 17.28% |

| 85-89 | | |
| 90-94 | | |
| 95-99 | | |
| 100+ | | |
| **Total** | 20 | 544 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

September 28, 2012

City of Grants Pass/2113
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System (“PERS” or “the System”) as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
City of Grants Pass/2113

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

City of Grants Pass -- #2113

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Grants Pass to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Grants Pass.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Grants Pass*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | **Tier 1 / Tier 2** | **General Service** | **Police & Fire** |
| **Pension** | | | |
| Normal cost rate | 12.39% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 8.83% | 8.83% | 8.83% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **21.37%** | **15.25%** | **17.98%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **21.96%** | **15.74%** | **18.47%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 77%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 21.22% | 21.22% |
| Minimum July 1, 2015 Rate | 16.98% | 12.74% |
| Maximum July 1, 2015 Rate | 25.46% | 29.70% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 18 | 30 |
| Amortization factor | 12.698 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 17.92% | 6.38% | 6.38% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 21.22% | 8.83% | 8.83% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $49,659,256 | $52,405,179 | $2,745,923 | 95% | $10,403,078 | 26% |
| 12/31/2007 | 52,711,473 | 54,238,486 | 1,527,013 | 97% | 11,433,157 | 13% |
| 12/31/2008 | 39,663,782 | 56,472,774 | 16,808,992 | 70% | 12,515,625 | 134% |
| 12/31/2009 | 45,516,785 | 58,455,182 | 12,938,397 | 78% | 11,981,543 | 108% |
| 12/31/2010 | 49,311,239 | 61,438,085 | 12,126,846 | 80% | 12,714,676 | 95% |
| 12/31/2011 | 48,845,349 | 63,743,090 | 14,897,741 | 77% | 13,468,530 | 111% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Grants Pass*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $14,897,741 | $12,126,846 |
| Allocated pooled OPSRP UAL | 229,805 | 157,868 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 15,127,546 | 12,284,714 |
| Combined valuation payroll | 13,468,530 | 12,714,676 |
| Net pension UAL as a percentage of payroll | 112% | 97% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $348,909 | $457,454 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 13,468,530 | 12,714,676 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $9,109,728 | $9,058,387 |
| 2. Employer reserves | 22,157,209 | 21,009,944 |
| 3. Benefits in force reserve | 17,578,411 | 19,242,908 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$48,845,349** | **$49,311,239** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $49,311,239 |
| 2. | Regular employer contributions | 1,466,831 |
| 3. | Benefit payments and expenses | (2,945,142) |
| 4. | Adjustments[2] | (397,282) |
| 5. | Interest credited | 1,409,702 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$48,845,349** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $461,663 | $417,832 |
| Tier 1 General Service | 93,067 | 71,156 |
| Tier 2 Police & Fire | 282,132 | 274,067 |
| Tier 2 General Service | 259,953 | 255,312 |
| **Total** | **$1,096,815** | **$1,018,367** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $1,096,815 | $1,096,815 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $12,401,036 | $10,985,284 |
| ▪ Tier 1 General Service | 9,573,410 | 8,506,168 |
| ▪ Tier 2 Police & Fire | 3,363,141 | 2,862,354 |
| ▪ Tier 2 General Service | 3,231,036 | 3,025,238 |
| ▪ **Total Active Members** | **$28,568,623** | **$25,379,044** |
| Dormant Members | 3,203,975 | 4,374,585 |
| Retired Members and Beneficiaries | 31,970,492 | 31,684,456 |
| **Total Actuarial Accrued Liability** | **$63,743,090** | **$61,438,085** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $63,743,090 | $63,743,090 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $63,743,090 | $61,438,085 |
| 2. Actuarial value of assets | 48,845,349 | 49,311,239 |
| 3. Unfunded accrued liability *(1. – 2.)* | 14,897,741 | 12,126,846 |
| 4. Funded percentage *(2. ÷ 1.)* | 77% | 80% |
| 5. Combined valuation payroll | $13,468,530 | $12,714,676 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 111% | 95% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | $198,389 | $16,350 | $15,175 | $197,214 | $16,963 |
| December 31, 2009 | $12,777,793 | $976,089 | $980,673 | $12,782,377 | $1,012,692 |
| December 31, 2011 | N/A | N/A | N/A | $1,918,150 | $141,655 |
| **Total** | | | | **$14,897,741** | **$1,171,310** |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $61,438,085 |
| b. Normal cost at December 31, 2010 | 1,018,367 |
| c. Benefit payments during 2011 | (2,925,837) |
| d. Interest at 8.0% to December 31, 2011 | 4,879,483 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 64,410,098 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 64,410,098 |
| 2. Actuarial accrued liability at December 31, 2011 | 63,743,090 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | 667,008 |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 49,311,239 |
| b. Contributions for 2011[1] | 1,466,831 |
| c. Benefit payments and expenses during 2011 | (2,945,142) |
| d. Interest at 8.0% to December 31, 2011 | 3,885,767 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 51,718,695 |
| 5. Actuarial value of assets at December 31, 2011 | 48,845,349 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (2,873,347) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($2,206,339)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$12,126,846** |
| 2. Expected increase | 564,556 |
| 3. Liability (gain)/loss | (667,008) |
| 4. Asset (gain)/loss | 2,873,347 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$14,897,741** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate |
| Tier 1 Police & Fire | $461,663 | $2,423,085 | 19.05% | $417,832 | $2,304,940 | 18.13% |
| Tier 1 General Service | 93,067 | 1,852,280 | 5.02% | 71,156 | 1,751,872 | 4.06% |
| Tier 2 Police & Fire | 282,132 | 2,000,786 | 14.10% | 274,067 | 2,031,537 | 13.49% |
| Tier 2 General Service | 259,953 | 2,573,023 | 10.10% | 255,312 | 2,589,103 | 9.86% |
| **Total** | **$1,096,815** | **$8,849,174** | **12.39%** | **$1,018,367** | **$8,677,452** | **11.74%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $14,897,741 | $12,126,846 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 1,171,310 | 929,716 |
| 3. Combined valuation payroll | 13,468,530 | 12,714,676 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 8.70% | 7.31% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 12.39% | 11.74% |
| b. Tier 1/Tier 2 UAL rate | 8.70% | 7.31% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 21.22% | 19.17% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | | |
|---|---|---|
| 1. | Current net Tier 1/Tier 2 pension contribution rate | 16.91% |
| 2. | Employer contribution rate attributable to side accounts | 0.00% |
| 3. | Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 16.91% |
| 4. | Size of rate collar | |
| | a. 20% of current employer contribution rate *(20% x 3.)* | 3.38% |
| | b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.38% |
| | c. Funded percentage | 77% |
| | d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 4.39% |
| 5. | July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 12.52% |
| 6. | July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 21.30% |
| 7. | July 1, 2013 total pension rate, before adjustment | 21.22% |
| 8. | Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 0.00% |
| 9. | July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 8.70% |
| 10. | July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 8.70% |
| 11. | July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 21.22% |
| 12. | Tier 1/Tier 2 retiree healthcare rate | 0.59% |

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Post-Rate Collar)*

The table below summarizes the employer's pension contribution rate for Tier 1 /Tier 2 after adjustments for the rate collar and the 6 percent minimum employer contribution rate.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 12.39% | 11.74% |
| b. Tier 1/Tier 2 UAL rate | 8.70% | 7.31% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate<br>*(a. + b. + c., minimum of 5.41%)* | 21.22% | 19.17% |

| **95-99** | 1 | 628 |
| **100+** | | |
| **Total** | 143 | 1,560 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members’ regular account balances.<br>8.25% compounded annually on members’ variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called “funding method,” a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer’s contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer’s plan to determine the employer’s periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

September 28, 2012

City of Gresham/2114
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System (“PERS” or “the System”) as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

September 28, 2012
City of Gresham/2114

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

Milliman

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Gresham -- #2114

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Gresham to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Gresham.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Gresham*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 12.07% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 2.63% | 2.63% | 2.63% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | (3.52%) | (3.52%) | (3.52%) |
| **Net pension contribution rate** | **11.33%** | **5.53%** | **8.26%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **11.92%** | **6.02%** | **8.75%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 81%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 14.70% | 14.70% |
| Minimum July 1, 2015 Rate | 11.70% | 8.70% |
| Maximum July 1, 2015 Rate | 17.70% | 20.70% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

#### *Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 12.75% | 1.36% | 1.36% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 15.22% | 3.15% | 3.15% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $208,078,421 | $171,825,638 | ($36,252,783) | 121% | $35,001,977 | (104%) |
| 12/31/2007 | 223,854,441 | 180,919,700 | (42,934,741) | 124% | 36,892,332 | (116%) |
| 12/31/2008 | 168,862,078 | 190,868,772 | 22,006,694 | 88% | 37,629,676 | 58% |
| 12/31/2009 | 189,958,934 | 203,674,858 | 13,715,925 | 93% | 37,704,039 | 36% |
| 12/31/2010 | 201,010,560 | 214,467,396 | 13,456,836 | 94% | 39,906,096 | 34% |
| 12/31/2011 | 198,059,438 | 225,555,045 | 27,495,606 | 88% | 38,944,096 | 71% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Gresham*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $43,447,228 | $30,532,416 |
| Allocated pooled OPSRP UAL | 664,479 | 495,484 |
| Side account | 15,951,622 | 17,075,580 |
| Net unfunded pension actuarial accrued liability | 28,160,085 | 13,952,320 |
| Combined valuation payroll | 38,944,096 | 39,906,096 |
| Net pension UAL as a percentage of payroll | 72% | 35% |
| Calculated side account rate relief | (3.52%) | (3.53%) |
| Allocated pooled RHIA UAL | $1,008,866 | $1,435,758 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | **$17,075,580** | **$17,075,580** |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | (1,000) | (1,000) |
| 4. Amount transferred to employer reserves during 2011 | | (1,580,674) | (1,580,674) |
| 5. Side account earnings during 2011 | | 457,716 | 457,716 |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | **$15,951,622** | **$15,951,622** |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $15,951,622 | $17,075,580 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$15,951,622** | **$17,075,580** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $15,951,622 | $17,075,580 |
| 2. Combined valuation payroll | 38,944,096 | 39,906,096 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | (3.52%) | (3.53%) |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $32,244,516 | $33,825,666 |
| 2. Employer reserves | 86,160,808 | 86,171,334 |
| 3. Benefits in force reserve | 63,702,493 | 63,937,981 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$182,107,817** | **$183,934,980** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $183,934,980 |
| 2. | Regular employer contributions | 1,196,678 |
| 3. | Benefit payments and expenses | (10,672,913) |
| 4. | Adjustments[2] | 954,574 |
| 5. | Interest credited | 5,113,824 |
| 6. | Total transferred from side accounts | 1,580,674 |
| **7.** | **Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$182,107,817** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $1,446,559 | $1,473,391 |
| Tier 1 General Service | 405,771 | 446,802 |
| Tier 2 Police & Fire | 793,794 | 767,058 |
| Tier 2 General Service | 656,684 | 642,009 |
| **Total** | **$3,302,808** | **$3,329,260** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $3,302,808 | $3,302,808 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $46,639,690 | $45,966,579 |
| ▪ Tier 1 General Service | 28,994,495 | 32,461,290 |
| ▪ Tier 2 Police & Fire | 9,757,589 | 8,618,546 |
| ▪ Tier 2 General Service | 9,141,940 | 8,214,852 |
| ▪ **Total Active Members** | **$94,533,714** | **$95,261,267** |
| Dormant Members | 15,163,306 | 13,928,896 |
| Retired Members and Beneficiaries | 115,858,025 | 105,277,233 |
| **Total Actuarial Accrued Liability** | **$225,555,045** | **$214,467,396** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $225,555,045 | $225,555,045 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $225,555,045 | $214,467,396 |
| 2. Actuarial value of assets | 182,107,817 | 183,934,980 |
| 3. Unfunded accrued liability *(1. – 2.)* | 43,447,228 | 30,532,416 |
| 4. Funded percentage *(2. ÷ 1.)* | 81% | 86% |
| 5. Combined valuation payroll | $38,944,096 | $39,906,096 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 112% | 77% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($23,739,373) | ($1,956,380) | ($1,815,870) | ($23,598,863) | ($2,029,744) |
| December 31, 2009 | $54,486,678 | $4,162,209 | $4,181,756 | $54,506,225 | $4,318,292 |
| December 31, 2011 | N/A | N/A | N/A | $12,539,866 | $926,066 |
| **Total** | | | | **$43,447,228** | **$3,214,614** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $214,467,396 |
| b. Normal cost at December 31, 2010 | 3,329,260 |
| c. Benefit payments during 2011 | (10,602,956) |
| d. Interest at 8.0% to December 31, 2011 | 16,999,614 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 224,193,314 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 224,193,314 |
| 2. Actuarial accrued liability at December 31, 2011 | 225,555,045 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (1,361,731) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 183,934,980 |
| b. Contributions for 2011[1] | 2,777,352 |
| c. Benefit payments and expenses during 2011 | (10,672,913) |
| d. Interest at 8.0% to December 31, 2011 | 14,398,976 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 190,438,395 |
| 5. Actuarial value of assets at December 31, 2011 | 182,107,817 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (8,330,578) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($9,692,309)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$30,532,416** |
| 2. Expected increase | 3,222,503 |
| 3. Liability (gain)/loss | 1,361,731 |
| 4. Asset (gain)/loss | 8,330,578 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$43,447,228** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $1,446,559 | $8,763,227 | 16.51% | $1,473,391 | $9,218,693 | 15.98% |
| Tier 1 General Service | 405,771 | 6,878,776 | 5.90% | 446,802 | 7,940,505 | 5.63% |
| Tier 2 Police & Fire | 793,794 | 5,453,370 | 14.56% | 767,058 | 5,486,207 | 13.98% |
| Tier 2 General Service | 656,684 | 6,278,335 | 10.46% | 642,009 | 6,472,994 | 9.92% |
| **Total** | **$3,302,808** | **$27,373,708** | **12.07%** | **$3,329,260** | **$29,118,399** | **11.43%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $43,447,228 | $30,532,416 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 3,214,614 | 2,189,959 |
| 3. Combined valuation payroll | 38,944,096 | 39,906,096 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 8.25% | 5.49% |

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 12.07% | 11.43% |
| b. Tier 1/Tier 2 UAL rate | 8.25% | 5.49% |
| c. Multnomah Fire District #10 rate | 0.26% | 0.24% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 20.58% | 17.16% |

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 8.17% |
| 2. Employer contribution rate attributable to side accounts | (3.53%) |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 11.70% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 2.34% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 81% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 8.70% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 14.70% |
| 7. July 1, 2013 total pension rate, before adjustment | 20.58% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (5.88%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 8.25% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 2.37% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 14.70% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 12.07% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 12.07% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 14.70% |

| 90-94 | 2 | 428 |
| 95-99 | 2 | 533 |
| 100+ | | |
| Total | 352 | 2,155 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members’ regular account balances.<br>8.25% compounded annually on members’ variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

September 28, 2012

City of Helix/2210
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
City of Helix/2210

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Helix -- #2210

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Helix to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Helix.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Helix*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 11.20% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | (1.55%) | (1.55%) | (1.55%) |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **9.80%** | **4.87%** | **7.60%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **10.39%** | **5.36%** | **8.09%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 104%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 9.65% | 9.65% |
| Minimum July 1, 2015 Rate | 6.65% | 3.65% |
| Maximum July 1, 2015 Rate | 12.65% | 15.65% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

#### *Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 6 | 12 |
| Amortization factor | 5.486 | 9.112 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 8.39% | (2.16%) | (2.16%) |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 9.65% | (1.55%) | (1.55%) |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $101,536 | $63,704 | ($37,832) | 159% | $28,706 | (132%) |
| 12/31/2007 | 108,854 | 67,930 | (40,924) | 160% | 30,075 | (136%) |
| 12/31/2008 | 76,476 | 76,151 | (325) | 100% | 31,023 | (1%) |
| 12/31/2009 | 88,754 | 81,883 | (6,871) | 108% | 32,415 | (21%) |
| 12/31/2010 | 97,418 | 87,836 | (9,582) | 111% | 33,907 | (28%) |
| 12/31/2011 | 98,078 | 94,599 | (3,479) | 104% | 34,741 | (10%) |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Helix*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | ($3,479) | ($9,582) |
| Allocated pooled OPSRP UAL | 593 | 421 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | (2,886) | (9,161) |
| Combined valuation payroll | 34,741 | 33,907 |
| Net pension UAL as a percentage of payroll | (8%) | (27%) |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $900 | $1,220 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 34,741 | 33,907 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $256 | $248 |
| 2. Employer reserves | 63,912 | 60,280 |
| 3. Benefits in force reserve | 33,911 | 36,890 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$98,078** | **$97,418** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $97,418 |
| 2. | Regular employer contributions | 2,258 |
| 3. | Benefit payments and expenses | (5,681) |
| 4. | Adjustments [2] | 1,998 |
| 5. | Interest credited | 2,086 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$98,078** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $0 | $0 |
| Tier 1 General Service | 0 | 0 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 3,891 | 3,664 |
| **Total** | **$3,891** | **$3,664** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $3,891 | $3,891 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $0 | $0 |
| ▪ Tier 1 General Service | 0 | 0 |
| ▪ Tier 2 Police & Fire | 0 | 0 |
| ▪ Tier 2 General Service | 32,925 | 27,095 |
| ▪ **Total Active Members** | **$32,925** | **$27,095** |
| Dormant Members | 0 | 0 |
| Retired Members and Beneficiaries | 61,674 | 60,741 |
| **Total Actuarial Accrued Liability** | **$94,599** | **$87,836** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $94,599 | $94,599 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $94,599 | $87,836 |
| 2. Actuarial value of assets | 98,078 | 97,418 |
| 3. Unfunded accrued liability *(1. – 2.)* | (3,479) | (9,582) |
| 4. Funded percentage *(2. ÷ 1.)* | 104% | 111% |
| 5. Combined valuation payroll | $34,741 | $33,907 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | (10%) | (28%) |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($43,104) | ($3,552) | ($3,297) | ($42,849) | ($3,685) |
| December 31, 2009 | $36,454 | $2,785 | $2,798 | $36,467 | $2,889 |
| December 31, 2011 | N/A | N/A | N/A | $2,903 | $214 |
| **Total** | | | | **($3,479)** | **($582)** |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $87,836 |
| b. Normal cost at December 31, 2010 | 3,664 |
| c. Benefit payments during 2011 | (5,644) |
| d. Interest at 8.0% to December 31, 2011 | 7,094 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 92,950 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 92,950 |
| 2. Actuarial accrued liability at December 31, 2011 | 94,599 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (1,649) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 97,418 |
| b. Contributions for 2011[1] | 2,258 |
| c. Benefit payments and expenses during 2011 | (5,681) |
| d. Interest at 8.0% to December 31, 2011 | 7,656 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 101,651 |
| 5. Actuarial value of assets at December 31, 2011 | 98,078 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (3,573) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($5,222)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **($9,582)** |
| 2. Expected increase | 881 |
| 3. Liability (gain)/loss | 1,649 |
| 4. Asset (gain)/loss | 3,573 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **($3,479)** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $0 | $0 | 0.00% | $0 | $0 | 0.00% |
| Tier 1 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 3,891 | 34,741 | 11.20% | 3,664 | 33,907 | 10.81% |
| **Total** | **$3,891** | **$34,741** | **11.20%** | **$3,664** | **$33,907** | **10.81%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | ($3,479) | ($9,582) |
| 2. Next year's Tier 1/Tier 2 UAL payment | (582) | (984) |
| 3. Combined valuation payroll | 34,741 | 33,907 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | (1.68%) | (2.90%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 11.20% | 10.81% |
| b. Tier 1/Tier 2 UAL rate | (1.68%) | (2.90%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 9.65% | 8.03% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | | |
|---|---|---|
| 1. | Current net Tier 1/Tier 2 pension contribution rate | 8.39% |
| 2. | Employer contribution rate attributable to side accounts | 0.00% |
| 3. | Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 8.39% |
| 4. | Size of rate collar | |
| | a. 20% of current employer contribution rate *(20% x 3.)* | 1.68% |
| | b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| | c. Funded percentage | 104% |
| | d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. | July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 5.39% |
| 6. | July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 11.39% |
| 7. | July 1, 2013 total pension rate, before adjustment | 9.65% |
| 8. | Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 0.00% |
| 9. | July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | (1.68%) |
| 10. | July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | (1.68%) |
| 11. | July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 9.65% |
| 12. | Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. | Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 11.20% |
| 15. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 11.20% |
| 16. | July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 9.65% |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called “funding method,” a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer’s contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer’s plan to determine the employer’s periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Hillsboro/2115
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

Milliman

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

Milliman

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Hillsboro -- #2115

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Hillsboro to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Hillsboro.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Hillsboro*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 10.96% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 3.91% | 3.91% | 3.91% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **15.02%** | **10.33%** | **13.06%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **15.61%** | **10.82%** | **13.55%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 80%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 14.87% | 14.87% |
| Minimum July 1, 2015 Rate | 11.87% | 8.87% |
| Maximum July 1, 2015 Rate | 17.87% | 20.87% |

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 29 | 30 |
| Amortization factor | 16.967 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 13.38% | 3.08% | 3.08% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 14.87% | 3.91% | 3.91% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $128,045,683 | $120,985,439 | ($7,060,244) | 106% | $36,284,585 | (19%) |
| 12/31/2007 | 138,900,828 | 129,007,645 | (9,893,183) | 108% | 39,252,608 | (25%) |
| 12/31/2008 | 106,241,074 | 134,764,925 | 28,523,851 | 79% | 42,692,804 | 67% |
| 12/31/2009 | 122,679,132 | 145,509,269 | 22,830,137 | 84% | 44,456,632 | 51% |
| 12/31/2010 | 132,782,298 | 155,805,361 | 23,023,063 | 85% | 47,678,323 | 48% |
| 12/31/2011 | 131,672,972 | 163,806,911 | 32,133,939 | 80% | 49,565,888 | 65% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Hillsboro*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $32,133,939 | $23,023,063 |
| Allocated pooled OPSRP UAL | 845,712 | 591,985 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 32,979,651 | 23,615,048 |
| Combined valuation payroll | 49,565,888 | 47,678,323 |
| Net pension UAL as a percentage of payroll | 67% | 50% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $1,284,029 | $1,715,391 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 49,565,888 | 47,678,323 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $22,741,754 | $24,963,590 |
| 2. Employer reserves | 64,381,713 | 64,246,260 |
| 3. Benefits in force reserve | 44,549,505 | 43,572,447 |
| **4. Total market value of assets** ***(1. + 2. + 3.)*** | **$131,672,972** | **$132,782,298** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $132,782,298 |
| 2. | Regular employer contributions | 3,438,707 |
| 3. | Benefit payments and expenses | (7,463,962) |
| 4. | Adjustments[2] | (752,852) |
| 5. | Interest credited | 3,668,782 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$131,672,972** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | **December 31, 2011** | **December 31, 2010** |
|---|---|---|
| Tier 1 Police & Fire | $863,955 | $887,933 |
| Tier 1 General Service | 511,602 | 477,447 |
| Tier 2 Police & Fire | 1,122,356 | 1,058,231 |
| Tier 2 General Service | 1,036,348 | 965,080 |
| **Total** | **$3,534,261** | **$3,388,691** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | **Before Changes** | **After Changes** | **Net Change** |
|---|---|---|---|
| Normal Cost | $3,534,261 | $3,534,261 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $23,013,409 | $25,060,725 |
| ▪ Tier 1 General Service | 26,772,673 | 25,529,755 |
| ▪ Tier 2 Police & Fire | 12,318,416 | 10,514,997 |
| ▪ Tier 2 General Service | 13,867,308 | 12,291,228 |
| ▪ **Total Active Members** | **$75,971,806** | **$73,396,705** |
| Dormant Members | 6,811,309 | 10,664,340 |
| Retired Members and Beneficiaries | 81,023,796 | 71,744,316 |
| **Total Actuarial Accrued Liability** | **$163,806,911** | **$155,805,361** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $163,806,911 | $163,806,911 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $163,806,911 | $155,805,361 |
| 2. Actuarial value of assets | 131,672,972 | 132,782,298 |
| 3. Unfunded accrued liability *(1. – 2.)* | 32,133,939 | 23,023,063 |
| 4. Funded percentage *(2. ÷ 1.)* | 80% | 85% |
| 5. Combined valuation payroll | $49,565,888 | $47,678,323 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 65% | 48% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($13,100,547) | ($1,079,626) | ($1,002,086) | ($13,023,007) | ($1,120,112) |
| December 31, 2009 | $36,072,940 | $2,755,594 | $2,768,534 | $36,085,880 | $2,858,929 |
| December 31, 2011 | N/A | N/A | N/A | $9,071,066 | $669,896 |
| **Total** | | | | **$32,133,939** | **$2,408,713** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $155,805,361 |
| b. Normal cost at December 31, 2010 | 3,388,691 |
| c. Benefit payments during 2011 | (7,415,039) |
| d. Interest at 8.0% to December 31, 2011 | 12,438,923 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 164,217,936 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 164,217,936 |
| 2. Actuarial accrued liability at December 31, 2011 | 163,806,911 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | 411,025 |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 132,782,298 |
| b. Contributions for 2011[1] | 3,438,707 |
| c. Benefit payments and expenses during 2011 | (7,463,962) |
| d. Interest at 8.0% to December 31, 2011 | 10,461,574 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 139,218,616 |
| 5. Actuarial value of assets at December 31, 2011 | 131,672,972 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (7,545,644) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($7,134,619)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$23,023,063** |
| 2. Expected increase | 1,976,257 |
| 3. Liability (gain)/loss | (411,025) |
| 4. Asset (gain)/loss | 7,545,644 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$32,133,939** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $863,955 | $5,651,110 | 15.29% | $887,933 | $6,323,138 | 14.04% |
| Tier 1 General Service | 511,602 | 7,883,507 | 6.49% | 477,447 | 7,813,259 | 6.11% |
| Tier 2 Police & Fire | 1,122,356 | 7,947,251 | 14.12% | 1,058,231 | 7,688,418 | 13.76% |
| Tier 2 General Service | 1,036,348 | 10,756,154 | 9.63% | 965,080 | 10,604,518 | 9.10% |
| **Total** | **$3,534,261** | **$32,238,022** | **10.96%** | **$3,388,691** | **$32,429,333** | **10.45%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $32,133,939 | $23,023,063 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 2,408,713 | 1,679,710 |
| 3. Combined valuation payroll | 49,565,888 | 47,678,323 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 4.86% | 3.52% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 10.96% | 10.45% |
| b. Tier 1/Tier 2 UAL rate | 4.86% | 3.52% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 15.95% | 14.09% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 11.87% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 11.87% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 2.37% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 80% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 8.87% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 14.87% |
| 7. July 1, 2013 total pension rate, before adjustment | 15.95% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (1.08%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 4.86% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 3.78% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 14.87% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 10.96% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 10.96% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 14.87% |

| 95-99 | | |
| 100+ | | |
| Total | 278 | 1,868 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 "tax remedy" adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

September 28, 2012

City of Jacksonville/2222
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Jacksonville -- #2222

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Jacksonville to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Jacksonville.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Jacksonville*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 11.27% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 2.81% | 2.81% | 2.81% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **14.23%** | **9.23%** | **11.96%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **14.82%** | **9.72%** | **12.45%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 89%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 14.08% | 14.08% |
| Minimum July 1, 2015 Rate | 11.08% | 8.08% |
| Maximum July 1, 2015 Rate | 17.08% | 20.08% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 26 | 30 |
| Amortization factor | 15.859 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 12.47% | 1.76% | 1.76% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 14.08% | 2.81% | 2.81% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $2,881,027 | $2,506,115 | ($374,912) | 115% | $771,256 | (49%) |
| 12/31/2007 | 3,139,017 | 2,710,882 | (428,135) | 116% | 874,617 | (49%) |
| 12/31/2008 | 2,427,908 | 2,950,462 | 522,554 | 82% | 931,696 | 56% |
| 12/31/2009 | 2,892,816 | 3,153,727 | 260,911 | 92% | 907,545 | 29% |
| 12/31/2010 | 3,089,410 | 3,322,938 | 233,528 | 93% | 939,937 | 25% |
| 12/31/2011 | 3,132,652 | 3,510,590 | 377,938 | 89% | 877,859 | 43% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Jacksonville*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $377,938 | $233,528 |
| Allocated pooled OPSRP UAL | 14,978 | 11,670 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 392,916 | 245,198 |
| Combined valuation payroll | 877,859 | 939,937 |
| Net pension UAL as a percentage of payroll | 45% | 26% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $22,741 | $33,817 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $62,263 | $71,849 |
| Tier 1/Tier 2 valuation payroll | 552,248 | 651,020 |
| Tier 1/Tier 2 pension normal cost rate | 11.27% | 11.04% |
| Tier 1/ Tier 2 Actuarial accrued liability | $3,510,590 | $3,322,938 |
| Actuarial asset value | 3,132,652 | 3,089,410 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 377,938 | 233,528 |
| Tier 1/ Tier 2 Funded status | 89% | 93% |
| Combined valuation payroll | $877,859 | $939,937 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 43% | 25% |
| Tier 1/Tier 2 UAL rate | 2.81% | 1.72% |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 12 | 14 |
| Tier 1/Tier 2 dormant members | 4 | 6 |
| Tier 1/Tier 2 retirees and beneficiaries | 11 | 10 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* RHIA | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 877,859 | 939,937 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate** ***(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $665,865 | $643,837 |
| 2. Employer reserves | 1,855,269 | 1,814,509 |
| 3. Benefits in force reserve | 611,519 | 631,063 |
| **4. Total market value of assets** ***(1. + 2. + 3.)*** | **$3,132,652** | **$3,089,410** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $3,089,410 |
| 2. Regular employer contributions | 51,075 |
| 3. Benefit payments and expenses | (102,456) |
| 4. Adjustments [2] | 7,041 |
| 5. Interest credited | 87,583 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$3,132,652** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $20,860 | $21,192 |
| Tier 1 General Service | 13,556 | 18,644 |
| Tier 2 Police & Fire | 12,809 | 17,571 |
| Tier 2 General Service | 15,038 | 14,442 |
| **Total** | **$62,263** | **$71,849** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $62,263 | $62,263 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $598,398 | $557,713 |
| ▪ Tier 1 General Service | 816,401 | 755,150 |
| ▪ Tier 2 Police & Fire | 248,180 | 237,057 |
| ▪ Tier 2 General Service | 291,358 | 259,811 |
| ▪ **Total Active Members** | **$1,954,337** | **$1,809,731** |
| Dormant Members | 444,061 | 474,129 |
| Retired Members and Beneficiaries | 1,112,192 | 1,039,078 |
| **Total Actuarial Accrued Liability** | **$3,510,590** | **$3,322,938** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $3,510,590 | $3,510,590 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $3,510,590 | $3,322,938 |
| 2. Actuarial value of assets | 3,132,652 | 3,089,410 |
| 3. Unfunded accrued liability *(1. – 2.)* | 377,938 | 233,528 |
| 4. Funded percentage *(2. ÷ 1.)* | 89% | 93% |
| 5. Combined valuation payroll | $877,859 | $939,937 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 43% | 25% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($470,736) | ($38,793) | ($36,008) | ($467,951) | ($40,248) |
| December 31, 2009 | $735,076 | $56,153 | $56,416 | $735,339 | $58,259 |
| December 31, 2011 | N/A | N/A | N/A | $110,550 | $8,164 |
| **Total** | | | | **$377,938** | **$26,175** |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $3,322,938 |
| b. Normal cost at December 31, 2010 | 71,849 |
| c. Benefit payments during 2011 | (101,784) |
| d. Interest at 8.0% to December 31, 2011 | 267,512 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 3,560,515 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 3,560,515 |
| 2. Actuarial accrued liability at December 31, 2011 | 3,510,590 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | 49,925 |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 3,089,410 |
| b. Contributions for 2011[1] | 51,075 |
| c. Benefit payments and expenses during 2011 | (102,456) |
| d. Interest at 8.0% to December 31, 2011 | 245,098 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 3,283,126 |
| 5. Actuarial value of assets at December 31, 2011 | 3,132,652 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (150,474) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($100,549)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$233,528** |
| 2. Expected increase | 43,861 |
| 3. Liability (gain)/loss | (49,925) |
| 4. Asset (gain)/loss | 150,474 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$377,938** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $20,860 | $162,574 | 12.83% | $21,192 | $166,709 | 12.71% |
| Tier 1 General Service | 13,556 | 191,747 | 7.07% | 18,644 | 263,800 | 7.07% |
| Tier 2 Police & Fire | 12,809 | 76,506 | 16.74% | 17,571 | 100,212 | 17.53% |
| Tier 2 General Service | 15,038 | 121,421 | 12.39% | 14,442 | 120,299 | 12.01% |
| **Total** | **$62,263** | **$552,248** | **11.27%** | **$71,849** | **$651,020** | **11.04%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $377,938 | $233,528 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 26,175 | 15,085 |
| 3. Combined valuation payroll | 877,859 | 939,937 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 2.98% | 1.60% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 11.27% | 11.04% |
| b. Tier 1/Tier 2 UAL rate | 2.98% | 1.60% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 14.38% | 12.76% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 11.08% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 11.08% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 2.22% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 89% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 8.08% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 14.08% |
| 7. July 1, 2013 total pension rate, before adjustment | 14.38% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (0.30%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 2.98% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 2.68% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 14.08% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 11.27% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 11.27% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 14.08% |

| **85-89** | | |
| **90-94** | | |
| **95-99** | | |
| **100+** | | |
| **Total** | 11 | 655 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called “funding method,” a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer’s contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer’s plan to determine the employer’s periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Joseph/2232
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

September 28, 2012
City of Joseph/2232

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Joseph -- #2232

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Joseph to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Joseph.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Joseph*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 9.64% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 7.81% | 7.81% | 7.81% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **17.60%** | **14.23%** | **16.96%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **18.19%** | **14.72%** | **17.45%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 76%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 17.45% | 17.45% |
| Minimum July 1, 2015 Rate | 13.96% | 10.47% |
| Maximum July 1, 2015 Rate | 20.94% | 24.43% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 30 | 22 |
| Amortization factor | 17.175 | 14.544 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 13.25% | 7.36% | 7.36% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 20.55% | 10.91% | 10.91% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $895,208 | $914,648 | $19,440 | 98% | $189,326 | 10% |
| 12/31/2007 | 967,742 | 941,036 | (26,706) | 103% | 182,616 | (15%) |
| 12/31/2008 | 671,776 | 917,100 | 245,324 | 73% | 139,460 | 176% |
| 12/31/2009 | 764,563 | 947,395 | 182,832 | 81% | 173,248 | 106% |
| 12/31/2010 | 820,617 | 992,526 | 171,909 | 83% | 187,023 | 92% |
| 12/31/2011 | 777,639 | 1,026,462 | 248,823 | 76% | 133,837 | 186% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Joseph*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $248,823 | $171,909 |
| Allocated pooled OPSRP UAL | 2,284 | 2,322 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 251,107 | 174,231 |
| Combined valuation payroll | 133,837 | 187,023 |
| Net pension UAL as a percentage of payroll | 188% | 93% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $3,467 | $6,729 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 133,837 | 187,023 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $77,178 | $98,489 |
| 2. Employer reserves | 266,889 | 310,398 |
| 3. Benefits in force reserve | 433,573 | 411,730 |
| **4. Total market value of assets** ***(1. + 2. + 3.)*** | **$777,639** | **$820,617** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $820,617 |
| 2. Regular employer contributions | 13,099 |
| 3. Benefit payments and expenses | (72,642) |
| 4. Adjustments[2] | (5,905) |
| 5. Interest credited | 22,470 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$777,639** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $0 | $0 |
| Tier 1 General Service | 4,629 | 1,525 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 0 | 7,682 |
| **Total** | **$4,629** | **$9,207** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $4,629 | $4,629 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $0 | $0 |
| ▪ Tier 1 General Service | 115,950 | 94,427 |
| ▪ Tier 2 Police & Fire | 0 | 0 |
| ▪ Tier 2 General Service | 0 | 103,153 |
| ▪ **Total Active Members** | **$115,950** | **$197,580** |
| Dormant Members | 121,958 | 117,010 |
| Retired Members and Beneficiaries | 788,554 | 677,936 |
| **Total Actuarial Accrued Liability** | **$1,026,462** | **$992,526** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $1,026,462 | $1,026,462 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $1,026,462 | $992,526 |
| 2. Actuarial value of assets | 777,639 | 820,617 |
| 3. Unfunded accrued liability *(1. – 2.)* | 248,823 | 171,909 |
| 4. Funded percentage *(2. ÷ 1.)* | 76% | 83% |
| 5. Combined valuation payroll | $133,837 | $187,023 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 186% | 92% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($56,742) | ($4,676) | ($4,340) | ($56,406) | ($4,851) |
| December 31, 2009 | $240,443 | $18,367 | $18,454 | $240,530 | $19,056 |
| December 31, 2011 | N/A | N/A | N/A | $64,699 | $4,778 |
| **Total** | | | | **$248,823** | **$18,983** |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $992,526 |
| b. Normal cost at December 31, 2010 | 9,207 |
| c. Benefit payments during 2011 | (72,166) |
| d. Interest at 8.0% to December 31, 2011 | 77,252 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 1,006,819 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 1,006,819 |
| 2. Actuarial accrued liability at December 31, 2011 | 1,026,462 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (19,643) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 820,617 |
| b. Contributions for 2011[1] | 13,099 |
| c. Benefit payments and expenses during 2011 | (72,642) |
| d. Interest at 8.0% to December 31, 2011 | 63,268 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 824,342 |
| 5. Actuarial value of assets at December 31, 2011 | 777,639 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (46,702) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($66,345)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$171,909** |
| 2. Expected increase | 10,569 |
| 3. Liability (gain)/loss | 19,643 |
| 4. Asset (gain)/loss | 46,702 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$248,823** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate |
| Tier 1 Police & Fire | $0 | $0 | 0.00% | $0 | $0 | 0.00% |
| Tier 1 General Service | 4,629 | 48,001 | 9.64% | 1,525 | 34,306 | 4.45% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 0 | 0 | 0.00% | 7,682 | 84,091 | 9.14% |
| **Total** | **$4,629** | **$48,001** | **9.64%** | **$9,207** | **$118,397** | **7.78%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $248,823 | $171,909 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 18,983 | 12,820 |
| 3. Combined valuation payroll | 133,837 | 187,023 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 14.18% | 6.85% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 9.64% | 7.78% |
| b. Tier 1/Tier 2 UAL rate | 14.18% | 6.85% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 23.95% | 14.75% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 13.25% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 13.25% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 2.65% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 76% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 4.20% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 9.05% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 17.45% |
| 7. July 1, 2013 total pension rate, before adjustment | 23.95% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (6.50%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 14.18% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 7.68% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 17.45% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 9.64% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 9.64% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 17.45% |

| **Total** | 5 | 1,262 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members’ regular account balances.<br>8.25% compounded annually on members’ variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 "tax remedy" adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called “funding method,” a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer’s contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer’s plan to determine the employer’s periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Keizer/2279
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

September 28, 2012
City of Keizer/2279

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
City of Keizer/2279

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Keizer -- #2279

**Secondary Employers**

2539 Keizer Water District

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Keizer to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Keizer.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Keizer*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 14.67% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | (1.72%) | (1.72%) | (1.72%) |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **13.10%** | **4.70%** | **7.43%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **13.69%** | **5.19%** | **7.92%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 94%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 12.95% | 12.95% |
| Minimum July 1, 2015 Rate | 9.95% | 6.95% |
| Maximum July 1, 2015 Rate | 15.95% | 18.95% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 14.25% | 0.45% | 0.45% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 15.67% | 1.00% | 1.00% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $13,123,262 | $10,273,073 | ($2,850,189) | 128% | $2,729,005 | (104%) |
| 12/31/2007 | 14,469,554 | 11,359,526 | (3,110,028) | 127% | 3,071,890 | (101%) |
| 12/31/2008 | 11,704,780 | 12,202,765 | 497,985 | 96% | 3,318,225 | 15% |
| 12/31/2009 | 13,407,773 | 13,634,579 | 226,806 | 98% | 3,677,284 | 6% |
| 12/31/2010 | 14,718,129 | 14,359,732 | (358,397) | 103% | 5,955,156 | (6%) |
| 12/31/2011 | 14,874,482 | 15,789,873 | 915,391 | 94% | 5,827,628 | 16% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Keizer*

| | **Actuarial Valuation as of** | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $915,391 | ($358,397) |
| Allocated pooled OPSRP UAL | 99,433 | 73,941 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 1,014,824 | (284,456) |
| Combined valuation payroll | 5,827,628 | 5,955,156 |
| Net pension UAL as a percentage of payroll | 17% | (5%) |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $150,968 | $214,257 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $444,543 | $429,703 |
| Tier 1/Tier 2 valuation payroll | 3,029,402 | 3,211,229 |
| Tier 1/Tier 2 pension normal cost rate | 14.67% | 13.38% |
| Tier 1/ Tier 2 Actuarial accrued liability | $15,789,873 | $14,359,732 |
| Actuarial asset value | 14,874,482 | 14,718,129 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 915,391 | (358,397) |
| Tier 1/ Tier 2 Funded status | 94% | 103% |
| Combined valuation payroll | $5,827,628 | $5,955,156 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 16% | (6%) |
| Tier 1/Tier 2 UAL rate | (1.72%) | (0.62%) |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 37 | 39 |
| Tier 1/Tier 2 dormant members | 5 | 4 |
| Tier 1/Tier 2 retirees and beneficiaries | 14 | 11 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| ($ in millions) | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| ($ in millions)<br>RHIA | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 5,827,628 | 5,955,156 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $3,251,663 | $3,464,006 |
| 2. Employer reserves | 9,216,674 | 9,347,828 |
| 3. Benefits in force reserve | 2,406,145 | 1,906,296 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$14,874,482** | **$14,718,129** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $14,718,129 |
| 2. Regular employer contributions | 127,292 |
| 3. Benefit payments and expenses | (403,133) |
| 4. Adjustments[2] | (32,760) |
| 5. Interest credited | 464,954 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$14,874,482** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $304,844 | $289,948 |
| Tier 1 General Service | 5,770 | 5,404 |
| Tier 2 Police & Fire | 88,434 | 91,899 |
| Tier 2 General Service | 45,495 | 42,452 |
| **Total** | **$444,543** | **$429,703** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $444,543 | $444,543 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | **December 31, 2011** | **December 31, 2010** |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $9,292,263 | $8,775,821 |
| ▪ Tier 1 General Service | 59,700 | 639,786 |
| ▪ Tier 2 Police & Fire | 1,443,659 | 1,273,862 |
| ▪ Tier 2 General Service | 188,388 | 150,074 |
| ▪ **Total Active Members** | **$10,984,010** | **$10,839,543** |
| Dormant Members | 429,721 | 381,373 |
| Retired Members and Beneficiaries | 4,376,142 | 3,138,816 |
| **Total Actuarial Accrued Liability** | **$15,789,873** | **$14,359,732** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | **Before Changes** | **After Changes** | **Net Change** |
|---|---|---|---|
| Actuarial Accrued Liability | $15,789,873 | $15,789,873 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $15,789,873 | $14,359,732 |
| 2. Actuarial value of assets | 14,874,482 | 14,718,129 |
| 3. Unfunded accrued liability *(1. – 2.)* | 915,391 | (358,397) |
| 4. Funded percentage *(2. ÷ 1.)* | 94% | 103% |
| 5. Combined valuation payroll | $5,827,628 | $5,955,156 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 16% | (6%) |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($3,070,467) | ($253,039) | ($234,866) | ($3,052,294) | ($262,528) |
| December 31, 2009 | $3,315,208 | $253,248 | $254,436 | $3,316,396 | $262,745 |
| December 31, 2011 | N/A | N/A | N/A | $651,289 | $48,098 |
| **Total** | | | | **$915,391** | **$48,315** |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $14,359,732 |
| b. Normal cost at December 31, 2010 | 429,703 |
| c. Benefit payments during 2011 | (400,491) |
| d. Interest at 8.0% to December 31, 2011 | 1,167,135 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 15,556,079 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 15,556,079 |
| 2. Actuarial accrued liability at December 31, 2011 | 15,789,873 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (233,794) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 14,718,129 |
| b. Contributions for 2011[1] | 127,292 |
| c. Benefit payments and expenses during 2011 | (403,133) |
| d. Interest at 8.0% to December 31, 2011 | 1,166,417 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 15,608,705 |
| 5. Actuarial value of assets at December 31, 2011 | 14,874,482 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (734,223) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($968,017)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **($358,397)** |
| 2. Expected increase | 305,771 |
| 3. Liability (gain)/loss | 233,794 |
| 4. Asset (gain)/loss | 734,223 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$915,391** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $304,844 | $1,794,017 | 16.99% | $289,948 | $1,831,816 | 15.83% |
| Tier 1 General Service | 5,770 | 162,822 | 3.54% | 5,404 | 270,715 | 2.00% |
| Tier 2 Police & Fire | 88,434 | 665,577 | 13.29% | 91,899 | 696,601 | 13.19% |
| Tier 2 General Service | 45,495 | 406,986 | 11.18% | 42,452 | 412,097 | 10.30% |
| **Total** | **$444,543** | **$3,029,402** | **14.67%** | **$429,703** | **$3,211,229** | **13.38%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $915,391 | ($358,397) |
| 2. Next year's Tier 1/Tier 2 UAL payment | 48,315 | (44,333) |
| 3. Combined valuation payroll | 5,827,628 | 5,955,156 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 0.83% | (0.74%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 14.67% | 13.38% |
| b. Tier 1/Tier 2 UAL rate | 0.83% | (0.74%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 15.63% | 12.76% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 9.95% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 9.95% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 1.99% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 94% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 6.95% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 12.95% |
| 7. July 1, 2013 total pension rate, before adjustment | 15.63% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (2.68%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 0.83% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | (1.85%) |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 12.95% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 14.67% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 14.67% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 12.95% |

| **80-84** | | |
| **85-89** | 1 | 2,275 |
| **90-94** | | |
| **95-99** | | |
| **100+** | | |
| **Total** | 14 | 2,005 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members’ regular account balances.<br>8.25% compounded annually on members’ variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Maupin/2283
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

September 28, 2012
City of Maupin/2283

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff.  This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information.  We found this information to be reasonably consistent and comparable with information used for other purposes.  The valuation results depend on the integrity of this information.  If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date.  It can neither predict the System's future condition nor guarantee future financial soundness.  Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions.  While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different.  No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law.  Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements.  The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers.  Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements.  The computations prepared for these two purposes may differ as disclosed in our report.  The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals.  The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45.  Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report.  Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
City of Maupin/2283

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA
Consulting Actuary

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

City of Maupin -- #2283

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Maupin to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Maupin.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Maupin*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 7.38% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 0.86% | 0.86% | 0.86% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **8.39%** | **7.28%** | **10.01%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **8.98%** | **7.77%** | **10.50%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 95%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 8.24% | 8.24% |
| Minimum July 1, 2015 Rate | 5.24% | 2.24% |
| Maximum July 1, 2015 Rate | 11.24% | 14.24% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 28 | 11 |
| Amortization factor | 16.562 | 9.044 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 5.46% | 0.48% | 0.48% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 8.24% | 0.86% | 0.86% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $610,598 | $554,583 | ($56,016) | 110% | $215,898 | (26%) |
| 12/31/2007 | 681,319 | 607,826 | (73,493) | 112% | 268,477 | (27%) |
| 12/31/2008 | 593,257 | 672,812 | 79,555 | 88% | 280,132 | 28% |
| 12/31/2009 | 707,555 | 716,581 | 9,026 | 99% | 319,315 | 3% |
| 12/31/2010 | 787,391 | 789,323 | 1,932 | 100% | 331,614 | 1% |
| 12/31/2011 | 832,750 | 878,410 | 45,660 | 95% | 358,633 | 13% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Maupin*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $45,660 | $1,932 |
| Allocated pooled OPSRP UAL | 6,119 | 4,117 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 51,779 | 6,049 |
| Combined valuation payroll | 358,633 | 331,614 |
| Net pension UAL as a percentage of payroll | 14% | 2% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $9,291 | $11,931 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $18,109 | $15,179 |
| Tier 1/Tier 2 valuation payroll | 245,528 | 228,064 |
| Tier 1/Tier 2 pension normal cost rate | 7.38% | 6.66% |
| Tier 1/ Tier 2 Actuarial accrued liability | $878,410 | $789,323 |
| Actuarial asset value | 832,750 | 787,391 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 45,660 | 1,932 |
| Tier 1/ Tier 2 Funded status | 95% | 100% |
| Combined valuation payroll | $358,633 | $331,614 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 13% | 1% |
| Tier 1/Tier 2 UAL rate | 0.86% | (0.05%) |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 5 | 4 |
| Tier 1/Tier 2 dormant members | 0 | 0 |
| Tier 1/Tier 2 retirees and beneficiaries | 2 | 3 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | **New** | **Continuing** | **Total** |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 358,633 | 331,614 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $295,070 | $276,727 |
| 2. Employer reserves | 532,668 | 502,552 |
| 3. Benefits in force reserve | 5,012 | 8,111 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$832,750** | **$787,391** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $787,391 |
| 2. Regular employer contributions | 18,737 |
| 3. Benefit payments and expenses | (840) |
| 4. Adjustments[2] | (6,689) |
| 5. Interest credited | 34,151 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$832,750** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $0 | $0 |
| Tier 1 General Service | 15,157 | 12,515 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 2,952 | 2,664 |
| **Total** | **$18,109** | **$15,179** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $18,109 | $18,109 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | **December 31, 2011** | **December 31, 2010** |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $0 | $0 |
| ▪ Tier 1 General Service | 840,249 | 752,331 |
| ▪ Tier 2 Police & Fire | 0 | 0 |
| ▪ Tier 2 General Service | 29,045 | 23,636 |
| ▪ **Total Active Members** | **$869,294** | **$775,967** |
| Dormant Members | 0 | 0 |
| Retired Members and Beneficiaries | 9,116 | 13,356 |
| **Total Actuarial Accrued Liability** | **$878,410** | **$789,323** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | **Before Changes** | **After Changes** | **Net Change** |
|---|---|---|---|
| Actuarial Accrued Liability | $878,410 | $878,410 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $878,410 | $789,323 |
| 2. Actuarial value of assets | 832,750 | 787,391 |
| 3. Unfunded accrued liability *(1. – 2.)* | 45,660 | 1,932 |
| 4. Funded percentage *(2. ÷ 1.)* | 95% | 100% |
| 5. Combined valuation payroll | $358,633 | $331,614 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 13% | 1% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($121,754) | ($10,035) | ($9,313) | ($121,032) | ($10,411) |
| December 31, 2009 | $131,492 | $10,045 | $10,092 | $131,539 | $10,422 |
| December 31, 2011 | N/A | N/A | N/A | $35,153 | $2,596 |
| **Total** | | | | **$45,660** | **$2,607** |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $789,323 |
| b. Normal cost at December 31, 2010 | 15,179 |
| c. Benefit payments during 2011 | (834) |
| d. Interest at 8.0% to December 31, 2011 | 64,327 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 867,995 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 867,995 |
| 2. Actuarial accrued liability at December 31, 2011 | 878,410 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (10,415) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 787,391 |
| b. Contributions for 2011[1] | 18,737 |
| c. Benefit payments and expenses during 2011 | (840) |
| d. Interest at 8.0% to December 31, 2011 | 63,707 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 868,995 |
| 5. Actuarial value of assets at December 31, 2011 | 832,750 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (36,246) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($46,661)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$1,932** |
| 2. Expected increase | (2,933) |
| 3. Liability (gain)/loss | 10,415 |
| 4. Asset (gain)/loss | 36,246 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$45,660** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $0 | $0 | 0.00% | $0 | $0 | 0.00% |
| Tier 1 General Service | 15,157 | 209,476 | 7.24% | 12,515 | 193,855 | 6.46% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 2,952 | 36,052 | 8.19% | 2,664 | 34,209 | 7.79% |
| **Total** | **$18,109** | **$245,528** | **7.38%** | **$15,179** | **$228,064** | **6.66%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $45,660 | $1,932 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 2,607 | (566) |
| 3. Combined valuation payroll | 358,633 | 331,614 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 0.73% | (0.17%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 7.38% | 6.66% |
| b. Tier 1/Tier 2 UAL rate | 0.73% | (0.17%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 8.24% | 6.61% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | | |
|---|---|---|
| 1. | Current net Tier 1/Tier 2 pension contribution rate | 5.46% |
| 2. | Employer contribution rate attributable to side accounts | 0.00% |
| 3. | Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 5.46% |
| 4. | Size of rate collar | |
| | a. 20% of current employer contribution rate *(20% x 3.)* | 1.09% |
| | b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| | c. Funded percentage | 95% |
| | d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. | July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 2.46% |
| 6. | July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 8.46% |
| 7. | July 1, 2013 total pension rate, before adjustment | 8.24% |
| 8. | Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 0.00% |
| 9. | July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 0.73% |
| 10. | July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 0.73% |
| 11. | July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 8.24% |
| 12. | Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. | Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 7.38% |
| 15. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 7.38% |
| 16. | July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 8.24% |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 "tax remedy" adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Merrill/2246
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

Milliman

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

City of Merrill/2246

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Merrill -- #2246

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Merrill to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Merrill.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Merrill*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 9.99% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | (3.52%) | (3.52%) | (3.52%) |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **6.62%** | **2.90%** | **5.63%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **7.21%** | **3.39%** | **6.12%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 104%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 6.47% | 6.47% |
| Minimum July 1, 2015 Rate | 3.47% | 0.47% |
| Maximum July 1, 2015 Rate | 9.47% | 12.47% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 10 | 30 |
| Amortization factor | 7.888 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | (27.70%) | (28.04%) | (28.04%) |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 6.47% | (3.52%) | (3.52%) |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $331,096 | $234,765 | ($96,331) | 141% | $40,602 | (237%) |
| 12/31/2007 | 360,009 | 283,701 | (76,308) | 127% | 9,905 | (770%) |
| 12/31/2008 | 287,155 | 330,882 | 43,727 | 87% | 12,463 | 351% |
| 12/31/2009 | 326,530 | 289,667 | (36,863) | 113% | 7,631 | (483%) |
| 12/31/2010 | 358,924 | 319,024 | (39,900) | 113% | 48,700 | (82%) |
| 12/31/2011 | 366,777 | 352,212 | (14,565) | 104% | 49,748 | (29%) |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Merrill*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | ($14,565) | ($39,900) |
| Allocated pooled OPSRP UAL | 849 | 605 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | (13,716) | (39,295) |
| Combined valuation payroll | 49,748 | 48,700 |
| Net pension UAL as a percentage of payroll | (28%) | (81%) |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $1,289 | $1,752 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $4,968 | $4,005 |
| Tier 1/Tier 2 valuation payroll | 49,748 | 48,700 |
| Tier 1/Tier 2 pension normal cost rate | 9.99% | 11.15% |
| Tier 1/ Tier 2 Actuarial accrued liability | $352,212 | $319,024 |
| Actuarial asset value | 366,777 | 358,924 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | (14,565) | (39,900) |
| Tier 1/ Tier 2 Funded status | 104% | 113% |
| Combined valuation payroll | $49,748 | $48,700 |
| Tier 1/Tier 2 UAL as a percentage of payroll | (29%) | (82%) |
| Tier 1/Tier 2 UAL rate | (3.52%) | (5.81%) |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 1 | 1 |
| Tier 1/Tier 2 dormant members | 1 | 3 |
| Tier 1/Tier 2 retirees and beneficiaries | 6 | 6 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 49,748 | 48,700 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $96,185 | $94,817 |
| 2. Employer reserves | 243,110 | 233,559 |
| 3. Benefits in force reserve | 27,482 | 30,548 |
| **4. Total market value of assets** ***(1. + 2. + 3.)*** | **$366,777** | **$358,924** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $358,924 |
| 2. | Regular employer contributions | 4,249 |
| 3. | Benefit payments and expenses | (4,604) |
| 4. | Adjustments[2] | (4,826) |
| 5. | Interest credited | 13,035 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$366,777** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $4,968 | $4,005 |
| Tier 1 General Service | 0 | 0 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 0 | 0 |
| **Total** | **$4,968** | **$4,005** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $4,968 | $4,968 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $37,146 | $27,629 |
| ▪ Tier 1 General Service | 0 | 0 |
| ▪ Tier 2 Police & Fire | 5,206 | 5,274 |
| ▪ Tier 2 General Service | 0 | 0 |
| ▪ **Total Active Members** | **$42,352** | **$32,903** |
| Dormant Members | 259,877 | 235,822 |
| Retired Members and Beneficiaries | 49,983 | 50,299 |
| **Total Actuarial Accrued Liability** | **$352,212** | **$319,024** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $352,212 | $352,212 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $352,212 | $319,024 |
| 2. Actuarial value of assets | 366,777 | 358,924 |
| 3. Unfunded accrued liability *(1. – 2.)* | (14,565) | (39,900) |
| 4. Funded percentage *(2. ÷ 1.)* | 104% | 113% |
| 5. Combined valuation payroll | $49,748 | $48,700 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | (29%) | (82%) |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($80,899) | ($6,667) | ($6,188) | ($80,420) | ($6,917) |
| December 31, 2009 | $44,380 | $3,391 | $3,406 | $44,395 | $3,518 |
| December 31, 2011 | N/A | N/A | N/A | $21,460 | $1,585 |
| **Total** | | | | **($14,565)** | **($1,814)** |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $319,024 |
| b. Normal cost at December 31, 2010 | 4,005 |
| c. Benefit payments during 2011 | (4,574) |
| d. Interest at 8.0% to December 31, 2011 | 25,659 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 344,114 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 344,114 |
| 2. Actuarial accrued liability at December 31, 2011 | 352,212 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (8,098) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 358,924 |
| b. Contributions for 2011[1] | 4,249 |
| c. Benefit payments and expenses during 2011 | (4,604) |
| d. Interest at 8.0% to December 31, 2011 | 28,700 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 387,267 |
| 5. Actuarial value of assets at December 31, 2011 | 366,777 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (20,491) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($28,589)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **($39,900)** |
| 2. Expected increase | (3,254) |
| 3. Liability (gain)/loss | 8,098 |
| 4. Asset (gain)/loss | 20,491 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **($14,565)** |

1 *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate |
| Tier 1 Police & Fire | $4,968 | $49,748 | 9.99% | $4,005 | $48,700 | 8.22% |
| Tier 1 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| **Total** | **$4,968** | **$49,748** | **9.99%** | **$4,005** | **$48,700** | **8.22%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | ($14,565) | ($39,900) |
| 2. Next year's Tier 1/Tier 2 UAL payment | (1,814) | (3,526) |
| 3. Combined valuation payroll | 49,748 | 48,700 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | (3.65%) | (7.24%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 9.99% | 8.22% |
| b. Tier 1/Tier 2 UAL rate | (3.65%) | (7.24%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 6.47% | 1.10% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | | |
|---|---|---|
| 1. | Current net Tier 1/Tier 2 pension contribution rate | 5.41% |
| 2. | Employer contribution rate attributable to side accounts | 0.00% |
| 3. | Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 5.41% |
| 4. | Size of rate collar | |
| | a. 20% of current employer contribution rate *(20% x 3.)* | 1.08% |
| | b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| | c. Funded percentage | 104% |
| | d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. | July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 2.41% |
| 6. | July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 8.41% |
| 7. | July 1, 2013 total pension rate, before adjustment | 6.47% |
| 8. | Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 0.00% |
| 9. | July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | (3.65%) |
| 10. | July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | (3.65%) |
| 11. | July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 6.47% |
| 12. | Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. | Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 9.99% |
| 15. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 9.99% |
| 16. | July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 6.47% |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members’ regular account balances.<br>8.25% compounded annually on members’ variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Metolius/2195
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System (“PERS” or “the System”) as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

September 28, 2012
City of Metolius/2195

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

# ACTUARIAL VALUATION REPORT DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Metolius -- #2195

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Metolius to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Metolius.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Metolius*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 11.17% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | (5.76%) | (5.76%) | (5.76%) |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **5.56%** | **0.66%** | **3.39%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **6.15%** | **1.15%** | **3.88%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 180%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 5.41% | 5.41% |
| Minimum July 1, 2015 Rate | 2.41% | 0.00% |
| Maximum July 1, 2015 Rate | 8.41% | 11.41% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

## *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

### *Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | (1.58%) | (10.37%) | (10.37%) |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | (7.76%) | (13.52%) | (13.52%) |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

#### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $603,604 | $333,413 | ($270,191) | 181% | $99,744 | (271%) |
| 12/31/2007 | 647,643 | 351,298 | (296,345) | 184% | 114,091 | (260%) |
| 12/31/2008 | 477,812 | 357,040 | (120,772) | 134% | 97,627 | (124%) |
| 12/31/2009 | 567,870 | 372,882 | (194,988) | 152% | 108,522 | (180%) |
| 12/31/2010 | 627,697 | 395,551 | (232,146) | 159% | 98,739 | (235%) |
| 12/31/2011 | 560,285 | 312,071 | (248,214) | 180% | 106,200 | (234%) |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

#### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Metolius*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | ($248,214) | ($232,146) |
| Allocated pooled OPSRP UAL | 1,812 | 1,226 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | (246,402) | (230,920) |
| Combined valuation payroll | 106,200 | 98,739 |
| Net pension UAL as a percentage of payroll | (232%) | (234%) |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $2,751 | $3,552 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| Normal cost | $4,114 | $8,451 |
| Tier 1/Tier 2 valuation payroll | 71,400 | 98,739 |
| Tier 1/Tier 2 pension normal cost rate | 11.17% | 13.90% |
| Tier 1/ Tier 2 Actuarial accrued liability | $312,071 | $395,551 |
| Actuarial asset value | 560,285 | 627,697 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | (248,214) | (232,146) |
| Tier 1/ Tier 2 Funded status | 180% | 159% |
| Combined valuation payroll | $106,200 | $98,739 |
| Tier 1/Tier 2 UAL as a percentage of payroll | (234%) | (235%) |
| Tier 1/Tier 2 UAL rate | (5.76%) | (8.56%) |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 3 | 3 |
| Tier 1/Tier 2 dormant members | 4 | 4 |
| Tier 1/Tier 2 retirees and beneficiaries | 4 | 4 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 106,200 | 98,739 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $58,747 | $92,681 |
| 2. Employer reserves | 419,258 | 444,424 |
| 3. Benefits in force reserve | 82,280 | 90,592 |
| **4. Total market value of assets** ***(1. + 2. + 3.)*** | **$560,285** | **$627,697** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $627,697 |
| 2. Regular employer contributions | 4,111 |
| 3. Benefit payments and expenses | (13,785) |
| 4. Adjustments [2] | (73,704) |
| 5. Interest credited | 15,966 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$560,285** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $0 | $0 |
| Tier 1 General Service | 1,062 | 5,238 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 3,052 | 3,213 |
| **Total** | **$4,114** | **$8,451** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $4,114 | $4,114 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $1,139 | $1,081 |
| ▪ Tier 1 General Service | 88,282 | 180,886 |
| ▪ Tier 2 Police & Fire | 0 | 0 |
| ▪ Tier 2 General Service | 57,603 | 50,105 |
| ▪ **Total Active Members** | **$147,024** | **$232,072** |
| Dormant Members | 15,401 | 14,314 |
| Retired Members and Beneficiaries | 149,646 | 149,165 |
| **Total Actuarial Accrued Liability** | **$312,071** | **$395,551** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $312,071 | $312,071 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $312,071 | $395,551 |
| 2. Actuarial value of assets | 560,285 | 627,697 |
| 3. Unfunded accrued liability *(1. – 2.)* | (248,214) | (232,146) |
| 4. Funded percentage *(2. ÷ 1.)* | 180% | 159% |
| 5. Combined valuation payroll | $106,200 | $98,739 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | (234%) | (235%) |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($304,459) | ($25,091) | ($23,289) | ($302,657) | ($26,032) |
| December 31, 2009 | $110,595 | $8,448 | $8,488 | $110,635 | $8,765 |
| December 31, 2011 | N/A | N/A | N/A | ($56,192) | ($4,150) |
| **Total** | | | | **($248,214)** | **($21,417)** |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $395,551 |
| b. Normal cost at December 31, 2010 | 8,451 |
| c. Benefit payments during 2011 | (13,695) |
| d. Interest at 8.0% to December 31, 2011 | 31,772 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 422,079 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 422,079 |
| 2. Actuarial accrued liability at December 31, 2011 | 312,071 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | 110,008 |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 627,697 |
| b. Contributions for 2011[1] | 4,111 |
| c. Benefit payments and expenses during 2011 | (13,785) |
| d. Interest at 8.0% to December 31, 2011 | 49,829 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 667,851 |
| 5. Actuarial value of assets at December 31, 2011 | 560,285 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (107,567) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **$2,441** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **($232,146)** |
| 2. Expected increase | (13,627) |
| 3. Liability (gain)/loss | (110,008) |
| 4. Asset (gain)/loss | 107,567 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **($248,214)** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $0 | $0 | 0.00% | $0 | $0 | 0.00% |
| Tier 1 General Service | 1,062 | 36,370 | 2.92% | 5,238 | 75,665 | 6.92% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 3,052 | 35,030 | 8.71% | 3,213 | 23,074 | 13.92% |
| **Total** | **$4,114** | **$71,400** | **5.76%** | **$8,451** | **$98,739** | **8.56%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | ($248,214) | ($232,146) |
| 2. Next year's Tier 1/Tier 2 UAL payment | (21,417) | (19,470) |
| 3. Combined valuation payroll | 106,200 | 98,739 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | (20.17%) | (19.72%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 5.76% | 8.56% |
| b. Tier 1/Tier 2 UAL rate | (20.17%) | (19.72%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | (14.28%) | (11.04%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 5.41% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 5.41% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 1.08% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 180% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 6.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 0.00% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 11.41% |
| 7. July 1, 2013 total pension rate, before adjustment | (14.28%) |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 14.28% |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | (20.17%) |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | (5.89%) |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 0.00% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 5.41% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 5.76% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 11.17% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 5.41% |

| **95-99** | | |
| **100+** | | |
| **Total** | 4 | 292 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members’ regular account balances.<br>8.25% compounded annually on members’ variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called “funding method,” a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer’s contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer’s plan to determine the employer’s periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Molalla/2290
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

# Executive Summary

Milliman has prepared this report for City of Molalla to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Molalla.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Molalla*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 10.58% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | (0.18%) | (0.18%) | (0.18%) |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **10.55%** | **6.24%** | **8.97%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **11.14%** | **6.73%** | **9.46%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 98%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 10.40% | 10.40% |
| Minimum July 1, 2015 Rate | 7.40% | 4.40% |
| Maximum July 1, 2015 Rate | 13.40% | 16.40% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

#### *Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 30 | 0 |
| Amortization factor | 17.175 | 0.199 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 8.71% | (1.17%) | (1.17%) |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 11.09% | 0.51% | 0.51% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $10,652,928 | $8,092,951 | ($2,559,977) | 132% | $2,497,077 | (103%) |
| 12/31/2007 | 11,550,923 | 8,667,355 | (2,883,568) | 133% | 2,331,408 | (124%) |
| 12/31/2008 | 8,945,436 | 9,554,948 | 609,512 | 94% | 2,305,653 | 26% |
| 12/31/2009 | 10,301,439 | 10,259,527 | (41,912) | 100% | 2,398,909 | (2%) |
| 12/31/2010 | 11,077,946 | 11,043,166 | (34,780) | 100% | 2,775,435 | (1%) |
| 12/31/2011 | 11,117,542 | 11,296,702 | 179,160 | 98% | 2,470,181 | 7% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Molalla*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $179,160 | ($34,780) |
| Allocated pooled OPSRP UAL | 42,147 | 34,460 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 221,307 | (320) |
| Combined valuation payroll | 2,470,181 | 2,775,435 |
| Net pension UAL as a percentage of payroll | 9% | 0% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $63,991 | $99,856 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* RHIA | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 2,470,181 | 2,775,435 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $2,290,327 | $2,346,497 |
| 2. Employer reserves | 6,589,440 | 6,601,363 |
| 3. Benefits in force reserve | 2,237,775 | 2,130,086 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$11,117,542** | **$11,077,946** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | December 31, 2010 to December 31, 2011 |
|---|---|
| 1. Market value of assets at beginning of year | $11,077,946 |
| 2. Regular employer contributions | 86,774 |
| 3. Benefit payments and expenses | (374,924) |
| 4. Adjustments[2] | (10,412) |
| 5. Interest credited | 338,158 |
| 6. Total transferred from side accounts | 0 |
| **7. Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$11,117,542** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $23,639 | $36,846 |
| Tier 1 General Service | 15,255 | 14,553 |
| Tier 2 Police & Fire | 73,746 | 83,506 |
| Tier 2 General Service | 51,374 | 57,779 |
| **Total** | **$164,014** | **$192,684** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $164,014 | $164,014 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $1,098,909 | $1,227,086 |
| ▪ Tier 1 General Service | 2,931,169 | 2,644,376 |
| ▪ Tier 2 Police & Fire | 926,729 | 904,945 |
| ▪ Tier 2 General Service | 807,344 | 911,812 |
| ▪ **Total Active Members** | **$5,764,151** | **$5,688,219** |
| Dormant Members | 1,462,628 | 1,847,649 |
| Retired Members and Beneficiaries | 4,069,923 | 3,507,298 |
| **Total Actuarial Accrued Liability** | **$11,296,702** | **$11,043,166** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $11,296,702 | $11,296,702 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $11,296,702 | $11,043,166 |
| 2. Actuarial value of assets | 11,117,542 | 11,077,946 |
| 3. Unfunded accrued liability *(1. – 2.)* | 179,160 | (34,780) |
| 4. Funded percentage *(2. ÷ 1.)* | 98% | 100% |
| 5. Combined valuation payroll | $2,470,181 | $2,775,435 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 7% | (1%) |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($3,079,867) | ($253,814) | ($235,585) | ($3,061,638) | ($263,332) |
| December 31, 2009 | $3,055,136 | $233,380 | $234,476 | $3,056,232 | $242,132 |
| December 31, 2011 | N/A | N/A | N/A | $184,566 | $13,630 |
| **Total** | | | | **$179,160** | **($7,570)** |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $11,043,166 |
| b. Normal cost at December 31, 2010 | 192,684 |
| c. Benefit payments during 2011 | (372,466) |
| d. Interest at 8.0% to December 31, 2011 | 883,969 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 11,747,353 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 11,747,353 |
| 2. Actuarial accrued liability at December 31, 2011 | 11,296,702 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | 450,651 |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 11,077,946 |
| b. Contributions for 2011[1] | 86,774 |
| c. Benefit payments and expenses during 2011 | (374,924) |
| d. Interest at 8.0% to December 31, 2011 | 874,710 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 11,664,506 |
| 5. Actuarial value of assets at December 31, 2011 | 11,117,542 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (546,964) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($96,313)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **($34,780)** |
| 2. Expected increase | 117,627 |
| 3. Liability (gain)/loss | (450,651) |

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate |
| Tier 1 Police & Fire | $23,639 | $176,305 | 13.41% | $36,846 | $217,323 | 16.95% |
| Tier 1 General Service | 15,255 | 354,832 | 4.30% | 14,553 | 478,267 | 3.04% |
| Tier 2 Police & Fire | 73,746 | 557,518 | 13.23% | 83,506 | 643,644 | 12.97% |
| Tier 2 General Service | 51,374 | 461,529 | 11.13% | 57,779 | 598,380 | 9.66% |
| **Total** | **$164,014** | **$1,550,184** | **10.58%** | **$192,684** | **$1,937,614** | **9.94%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $179,160 | ($34,780) |
| 2. Next year's Tier 1/Tier 2 UAL payment | (7,570) | (21,176) |
| 3. Combined valuation payroll | 2,470,181 | 2,775,435 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | (0.31%) | (0.76%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 10.58% | 9.94% |
| b. Tier 1/Tier 2 UAL rate | (0.31%) | (0.76%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 10.40% | 9.30% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | | |
|---|---|---|
| 1. | Current net Tier 1/Tier 2 pension contribution rate | 8.71% |
| 2. | Employer contribution rate attributable to side accounts | 0.00% |
| 3. | Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 8.71% |
| 4. | Size of rate collar | |
| | a. 20% of current employer contribution rate *(20% x 3.)* | 1.74% |
| | b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| | c. Funded percentage | 98% |
| | d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. | July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 5.71% |
| 6. | July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 11.71% |
| 7. | July 1, 2013 total pension rate, before adjustment | 10.40% |
| 8. | Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 0.00% |
| 9. | July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | (0.31%) |
| 10. | July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | (0.31%) |
| 11. | July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 10.40% |
| 12. | Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. | Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 10.58% |
| 15. | July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 10.58% |
| 16. | July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 10.40% |

| **Total** | 29 | 984 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

City of Mt Angel/2174
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System (“PERS” or “the System”) as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

Milliman

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

September 28, 2012
City of Mt Angel/2174

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Mt Angel -- #2174

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Mt Angel to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Mt Angel.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Mt Angel*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 8.88% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 1.23% | 1.23% | 1.23% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **10.26%** | **7.65%** | **10.38%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **10.85%** | **8.14%** | **10.87%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 96%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 10.11% | 10.11% |
| Minimum July 1, 2015 Rate | 7.11% | 4.11% |
| Maximum July 1, 2015 Rate | 13.11% | 16.11% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 12.99% | 1.12% | 1.12% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 10.34% | 1.46% | 1.46% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $4,314,552 | $3,749,738 | ($564,814) | 115% | $697,185 | (81%) |
| 12/31/2007 | 4,829,585 | 3,996,812 | (832,773) | 121% | 685,789 | (121%) |
| 12/31/2008 | 3,684,050 | 4,162,510 | 478,460 | 89% | 818,818 | 58% |
| 12/31/2009 | 3,759,794 | 3,886,213 | 126,419 | 97% | 715,310 | 18% |
| 12/31/2010 | 4,098,119 | 3,915,133 | (182,986) | 105% | 634,125 | (29%) |
| 12/31/2011 | 4,075,365 | 4,266,957 | 191,592 | 96% | 814,389 | 24% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Mt Angel*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $191,592 | ($182,986) |
| Allocated pooled OPSRP UAL | 13,895 | 7,873 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 205,487 | (175,113) |
| Combined valuation payroll | 814,389 | 634,125 |
| Net pension UAL as a percentage of payroll | 25% | (28%) |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $21,097 | $22,815 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $37,616 | $61,873 |
| Tier 1/Tier 2 valuation payroll | 423,507 | 567,253 |
| Tier 1/Tier 2 pension normal cost rate | 8.88% | 10.91% |
| Tier 1/ Tier 2 Actuarial accrued liability | $4,266,957 | $3,915,133 |
| Actuarial asset value | 4,075,365 | 4,098,119 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 191,592 | (182,986) |
| Tier 1/ Tier 2 Funded status | 96% | 105% |
| Combined valuation payroll | $814,389 | $634,125 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 24% | (29%) |
| Tier 1/Tier 2 UAL rate | 1.23% | (2.79%) |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 8 | 9 |
| Tier 1/Tier 2 dormant members | 21 | 20 |
| Tier 1/Tier 2 retirees and beneficiaries | 43 | 38 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 814,389 | 634,125 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $770,286 | $741,208 |
| 2. Employer reserves | 2,180,652 | 2,250,943 |
| 3. Benefits in force reserve | 1,124,427 | 1,105,968 |
| **4. Total market value of assets** ***(1. + 2. + 3.)*** | **$4,075,365** | **$4,098,119** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $4,098,119 |
| 2. | Regular employer contributions | 29,822 |
| 3. | Benefit payments and expenses | (188,390) |
| 4. | Adjustments[2] | 10,113 |
| 5. | Interest credited | 125,701 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$4,075,365** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $225 | $470 |
| Tier 1 General Service | 15,788 | 19,609 |
| Tier 2 Police & Fire | 11,014 | 25,305 |
| Tier 2 General Service | 10,589 | 16,489 |
| **Total** | **$37,616** | **$61,873** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $37,616 | $37,616 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $588,925 | $582,997 |
| ▪ Tier 1 General Service | 649,692 | 577,746 |
| ▪ Tier 2 Police & Fire | 290,872 | 332,985 |
| ▪ Tier 2 General Service | 353,780 | 302,923 |
| ▪ **Total Active Members** | **$1,883,269** | **$1,796,651** |
| Dormant Members | 338,652 | 297,448 |
| Retired Members and Beneficiaries | 2,045,036 | 1,821,034 |
| **Total Actuarial Accrued Liability** | **$4,266,957** | **$3,915,133** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $4,266,957 | $4,266,957 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $4,266,957 | $3,915,133 |
| 2. Actuarial value of assets | 4,075,365 | 4,098,119 |
| 3. Unfunded accrued liability *(1. – 2.)* | 191,592 | (182,986) |
| 4. Funded percentage *(2. ÷ 1.)* | 96% | 105% |
| 5. Combined valuation payroll | $814,389 | $634,125 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 24% | (29%) |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($879,424) | ($72,475) | ($67,269) | ($874,218) | ($75,193) |
| December 31, 2009 | $1,011,166 | $77,242 | $77,605 | $1,011,529 | $80,139 |
| December 31, 2011 | N/A | N/A | N/A | $54,281 | $4,009 |
| **Total** | | | | **$191,592** | **$8,955** |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $3,915,133 |
| b. Normal cost at December 31, 2010 | 61,873 |
| c. Benefit payments during 2011 | (187,155) |
| d. Interest at 8.0% to December 31, 2011 | 310,674 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 4,100,525 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 4,100,525 |
| 2. Actuarial accrued liability at December 31, 2011 | 4,266,957 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (166,432) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 4,098,119 |
| b. Contributions for 2011[1] | 29,822 |
| c. Benefit payments and expenses during 2011 | (188,390) |
| d. Interest at 8.0% to December 31, 2011 | 321,507 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 4,261,058 |
| 5. Actuarial value of assets at December 31, 2011 | 4,075,365 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (185,693) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($352,125)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **($182,986)** |
| 2. Expected increase | 22,453 |
| 3. Liability (gain)/loss | 166,432 |
| 4. Asset (gain)/loss | 185,693 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$191,592** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $225 | $1,047 | 21.49% | $470 | $3,574 | 13.15% |
| Tier 1 General Service | 15,788 | 230,585 | 6.85% | 19,609 | 243,132 | 8.07% |
| Tier 2 Police & Fire | 11,014 | 75,290 | 14.63% | 25,305 | 146,532 | 17.27% |
| Tier 2 General Service | 10,589 | 116,585 | 9.08% | 16,489 | 174,015 | 9.48% |
| **Total** | **$37,616** | **$423,507** | **8.88%** | **$61,873** | **$567,253** | **10.91%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $191,592 | ($182,986) |
| 2. Next year's Tier 1/Tier 2 UAL payment | 8,955 | (18,476) |
| 3. Combined valuation payroll | 814,389 | 634,125 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 1.10% | (2.91%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 8.88% | 10.91% |
| b. Tier 1/Tier 2 UAL rate | 1.10% | (2.91%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 10.11% | 8.12% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 10.37% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 10.37% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 2.07% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 96% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 3.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 7.37% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 13.37% |
| 7. July 1, 2013 total pension rate, before adjustment | 10.11% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 0.00% |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 1.10% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 1.10% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 10.11% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 8.88% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 8.88% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 10.11% |

| **65-69** | 11 | 486 |
| **70-74** | 5 | 313 |
| **75-79** | 3 | 282 |
| **80-84** | 1 | 2,417 |
| **85-89** | | |
| **90-94** | | |
| **95-99** | | |
| **100+** | | |
| **Total** | 43 | 340 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

September 28, 2012
City of Ontario/2118

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

Milliman

September 28, 2012
City of Ontario/2118

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA
Consulting Actuary

# ACTUARIAL VALUATION REPORT DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

INDEPENDENT EMPLOYERS

City of Ontario -- #2118

### Secondary Employers

2762 Ontario Rural Fire Protection District

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Ontario to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Ontario.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Ontario*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **Pension** | | | |
| Normal cost rate | 10.83% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | 11.53% | 11.53% | 11.53% |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **22.51%** | **17.95%** | **20.68%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **23.10%** | **18.44%** | **21.17%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 75%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 22.36% | 22.36% |
| Minimum July 1, 2015 Rate | 17.89% | 13.42% |
| Maximum July 1, 2015 Rate | 26.83% | 31.30% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| ARC Disclosure | July 1, 2013 to June 30, 2015 | July 1, 2011 to June 30, 2013 |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 19.01% | 9.44% | 9.44% |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 22.42% | 11.59% | 11.59% |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $29,431,459 | $30,846,198 | $1,414,739 | 95% | $4,507,111 | 31% |
| 12/31/2007 | 30,694,923 | 31,568,278 | 873,355 | 97% | 4,215,245 | 21% |
| 12/31/2008 | 23,170,974 | 32,216,417 | 9,045,443 | 72% | 4,399,612 | 206% |
| 12/31/2009 | 25,814,910 | 33,286,524 | 7,471,614 | 78% | 4,650,789 | 161% |
| 12/31/2010 | 27,876,104 | 34,747,117 | 6,871,013 | 80% | 4,869,659 | 141% |
| 12/31/2011 | 27,279,942 | 36,378,159 | 9,098,217 | 75% | 4,606,302 | 198% |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Ontario*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | $9,098,217 | $6,871,013 |
| Allocated pooled OPSRP UAL | 78,594 | 60,463 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | 9,176,811 | 6,931,476 |
| Combined valuation payroll | 4,606,302 | 4,869,659 |
| Net pension UAL as a percentage of payroll | 199% | 142% |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $119,329 | $175,203 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| Normal cost | $351,047 | $341,833 |
| Tier 1/Tier 2 valuation payroll | 3,242,300 | 3,531,695 |
| Tier 1/Tier 2 pension normal cost rate | 10.83% | 9.68% |
| Tier 1/ Tier 2 Actuarial accrued liability | $36,378,159 | $34,747,117 |
| Actuarial asset value | 27,279,942 | 27,876,104 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | 9,098,217 | 6,871,013 |
| Tier 1/ Tier 2 Funded status | 75% | 80% |
| Combined valuation payroll | $4,606,302 | $4,869,659 |
| Tier 1/Tier 2 UAL as a percentage of payroll | 198% | 141% |
| Tier 1/Tier 2 UAL rate | 11.53% | 10.95% |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 57 | 63 |
| Tier 1/Tier 2 dormant members | 37 | 36 |
| Tier 1/Tier 2 retirees and beneficiaries | 92 | 84 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| RHIA | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 4,606,302 | 4,869,659 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $4,668,532 | $5,484,485 |
| 2. Employer reserves | 10,505,079 | 11,024,701 |
| 3. Benefits in force reserve | 12,106,331 | 11,366,918 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$27,279,942** | **$27,876,104** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $27,876,104 |
| 2. | Regular employer contributions | 594,942 |
| 3. | Benefit payments and expenses | (2,028,332) |
| 4. | Adjustments[2] | 25,127 |
| 5. | Interest credited | 812,101 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year** ***(1. + 2. + 3. + 4. + 5. + 6.)*** | **$27,279,942** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | **December 31, 2011** | **December 31, 2010** |
|---|---|---|
| Tier 1 Police & Fire | $146,716 | $137,119 |
| Tier 1 General Service | 21,602 | 25,317 |
| Tier 2 Police & Fire | 103,077 | 100,237 |
| Tier 2 General Service | 79,652 | 79,160 |
| **Total** | **$351,047** | **$341,833** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | **Before Changes** | **After Changes** | **Net Change** |
|---|---|---|---|
| Normal Cost | $351,047 | $351,047 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | **December 31, 2011** | **December 31, 2010** |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $5,383,866 | $5,866,163 |
| ▪ Tier 1 General Service | 4,491,491 | 5,176,003 |
| ▪ Tier 2 Police & Fire | 1,026,449 | 922,866 |
| ▪ Tier 2 General Service | 1,130,646 | 1,008,100 |
| ▪ **Total Active Members** | **$12,032,452** | **$12,973,132** |
| Dormant Members | 2,327,485 | 3,057,759 |
| Retired Members and Beneficiaries | 22,018,222 | 18,716,226 |
| **Total Actuarial Accrued Liability** | **$36,378,159** | **$34,747,117** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | **Before Changes** | **After Changes** | **Net Change** |
|---|---|---|---|
| Actuarial Accrued Liability | $36,378,159 | $36,378,159 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $36,378,159 | $34,747,117 |
| 2. Actuarial value of assets | 27,279,942 | 27,876,104 |
| 3. Unfunded accrued liability *(1. – 2.)* | 9,098,217 | 6,871,013 |
| 4. Funded percentage *(2. ÷ 1.)* | 75% | 80% |
| 5. Combined valuation payroll | $4,606,302 | $4,869,659 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | 198% | 141% |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | $177,420 | $14,621 | $13,571 | $176,370 | $15,169 |
| December 31, 2009 | $7,315,661 | $558,840 | $561,464 | $7,318,285 | $579,797 |
| December 31, 2011 | N/A | N/A | N/A | $1,603,562 | $118,423 |
| **Total** | | | | **$9,098,217** | **$713,389** |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $34,747,117 |
| b. Normal cost at December 31, 2010 | 341,833 |
| c. Benefit payments during 2011 | (2,015,037) |
| d. Interest at 8.0% to December 31, 2011 | 2,726,515 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 35,800,428 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 35,800,428 |
| 2. Actuarial accrued liability at December 31, 2011 | 36,378,159 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (577,731) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 27,876,104 |
| b. Contributions for 2011[1] | 594,942 |
| c. Benefit payments and expenses during 2011 | (2,028,332) |
| d. Interest at 8.0% to December 31, 2011 | 2,172,753 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 28,615,467 |
| 5. Actuarial value of assets at December 31, 2011 | 27,279,942 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (1,335,525) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($1,913,256)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **$6,871,013** |
| 2. Expected increase | 313,948 |
| 3. Liability (gain)/loss | 577,731 |
| 4. Asset (gain)/loss | 1,335,525 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **$9,098,217** |

[1] *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** | **Normal Cost** | **Employer Tier 1/Tier 2 Valuation Payroll** | **Normal Cost Rate** |
| Tier 1 Police & Fire | $146,716 | $971,782 | 15.10% | $137,119 | $1,028,542 | 13.33% |
| Tier 1 General Service | 21,602 | 699,510 | 3.09% | 25,317 | 870,517 | 2.91% |
| Tier 2 Police & Fire | 103,077 | 716,312 | 14.39% | 100,237 | 717,124 | 13.98% |
| Tier 2 General Service | 79,652 | 854,696 | 9.32% | 79,160 | 915,512 | 8.65% |
| **Total** | **$351,047** | **$3,242,300** | **10.83%** | **$341,833** | **$3,531,695** | **9.68%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | $9,098,217 | $6,871,013 |
| 2. Next year's Tier 1/Tier 2 UAL payment | 713,389 | 527,521 |
| 3. Combined valuation payroll | 4,606,302 | 4,869,659 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | 15.49% | 10.83% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | **July 1, 2013 Rates calculated as of December 31, 2011** | **Advisory July 1, 2013 Rates calculated as of December 31, 2010** |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 10.83% | 9.68% |
| b. Tier 1/Tier 2 UAL rate | 15.49% | 10.83% |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 26.45% | 20.63% |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 17.20% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 17.20% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 3.44% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.44% |
| c. Funded percentage | 75% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 5.16% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 12.04% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 22.36% |
| 7. July 1, 2013 total pension rate, before adjustment | 26.45% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | (4.09%) |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | 15.49% |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | 11.40% |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 22.36% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 10.83% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 10.83% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 22.36% |

| **Total** | 37 | 729 |

**Retired Members and Beneficiaries**

| Age | Count | Average Monthly Benefit |
|---|---|---|
| **0-45** | | |
| **45-49** | 2 | 43 |
| **50-54** | 3 | 2,562 |
| **55-59** | 10 | 1,536 |
| **60-64** | 20 | 2,511 |
| **65-69** | 19 | 1,386 |
| **70-74** | 15 | 1,630 |
| **75-79** | 12 | 1,622 |
| **80-84** | 7 | 857 |
| **85-89** | 2 | 768 |
| **90-94** | 1 | 358 |
| **95-99** | 1 | 1,201 |
| **100+** | | |
| **Total** | 92 | 1,660 |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
| *Contribution rate stabilization method (rate collar)* | Contribution rates for a rate pool (e.g. Tier 1/Tier 2 SLGRP, Tier 1/Tier 2 School Districts, OPSRP) or independent employer are confined to a collar based on the rate pool's prior pension contribution rate (excluding side account rate offsets). The new contribution rate will not increase or decrease from the prior contribution rate by more than the greater of 3 percentage points or 20 percent of the current rate. If the funded percentage excluding side accounts drops below 70% or increases above 130%, the size of the collar doubles. If the funding percentage excluding side accounts is between 70% and 80% or between 120% and 130%, the size of the rate collar is increased on a graded scale. |

## Economic Assumptions

A brief summary of the key economic assumptions used in this valuation is shown below:

| | |
|---|---|
| *Net investment return* | 8.00% compounded annually on system assets. |
| *Interest crediting* | 8.00% compounded annually on members' regular account balances.<br>8.25% compounded annually on members' variable account balances. |
| *Consumer price inflation* | 2.75% per year. |
| *Future general wage inflation* | 3.75% per year. |
| *Healthcare cost inflation* | Graded from 6.9% in 2012 to 4.5% in 2029. |
| *OPSRP Administrative Expenses* | $6.6 million added to OPSRP normal cost. |

# Brief Summary of Methods and Assumptions

## Changes Since Last Valuation

The key changes since the December 31, 2010 actuarial valuation are described briefly below and are described in additional detail in the system-wide report.

### *Changes in Actuarial Methods and Allocation Procedures*

There were no changes in actuarial methods and allocation procedures since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA actuarial methods and allocation procedures is provided as part of the system-wide valuation report.

### *Changes in Assumptions*

There were no changes in assumptions since the December 31, 2010, actuarial valuation. A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA assumptions is provided as part of the system-wide valuation report.

# Brief Summary of Changes in Plan Provisions

The following change in plan provisions occurred since the December 31, 2010, actuarial valuation:

- House Bill 2456, signed into law in August 2011, removed the HB 3349 “tax remedy” adjustment for members who retire after 2011 and are not residents of Oregon. The effects of this legislation were not reflected in this valuation. In our professional judgment, reflecting the effects of HB 2456 would not have materially affected system funded status as of December 31, 2011, or 2013-2015 employer contribution rates.

A complete summary of the Tier 1/Tier 2, OPSRP, RHIA, and RHIPA plan provisions valued is provided as part of the system-wide valuation report.

# Glossary

**Actuarial Accrued Liability.** The portion of the present value of prospective benefits allocated to service before the valuation date in accordance with the actuarial cost method.

**Actuarial Asset Value.** The value of assets used in calculating the required contributions. The actuarial asset value may be equal to the fair market value of assets, or it may spread the recognition of certain investment gains or losses over a period of years in accordance with an asset valuation method.

**Actuarial Assumptions.** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement and retirement; rates of investment earnings and other relevant items.

**Actuarial Cost Method.** Sometimes called "funding method," a particular technique used by actuaries to establish the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily, the annual contribution to the plan comprises the normal cost and an amount for amortization of the unfunded actuarial accrued liability.

**Actuarial Gain or (Loss).** A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions, during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**Agent Multiple-Employer Plan (Agent Plan).** An aggregation of single-employer plans, with pooled administrative and investment functions. Separate accounts are maintained for each employer so that the employer's contributions provide benefits only for the employees of that employer. A separate actuarial valuation is performed for each individual employer's plan to determine the employer's periodic contribution rate and other information for the individual plan.

**Annual Required Contribution (ARC).** A financial reporting calculation under GASB 27 that expresses the program cost as a percentage of payroll.

**Combined Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for both Tier 1/Tier 2 and OPSRP active members. This payroll is used to calculate UAL rates.

**Cost Sharing Multiple-Employer Plan.** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers.

**Employer Contribution Rate.** Consists of the normal cost rate and the UAL rates, plus adjustments for other items such as side account rate offsets.

# Glossary

**Funded Status.** The actuarial value of assets expressed as a percentage of the actuarial accrued liability.

**Net Pension Obligation (NPO).** The cumulative difference since the effective date of GASB 27 between annual pension cost and the employer's contributions to the plan, including the pension liability (asset) at transition, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to pension-related debt.

**Normal Cost.** The annual cost assigned to the current year, under the actuarial cost method in use. The normal cost divided by the applicable payroll is the normal cost rate.

**OPSRP Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for OPSRP active members. This payroll is used to calculate OPSRP normal cost rates.

**Pre-SLGRP Liability.** The sum of Pre-SLGRP Pooled Liabilities and Transition Liabilities.

**Pre-SLGRP Pooled Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for a pool of employers that joined the SLGRP. There are currently two pre-SLGRP pools. One was created for State Agencies and Community Colleges when the SLGRP was formed. The other one was created when the Local Government Rate Pool joined the SLGRP.

**Present Value.** Sometimes called "actuarial present value," the current worth (on the valuation date) of an amount or series of amounts payable or receivable in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Rate Collar.** A methodology that defines the maximum period-to-period change in employer contribution rate. The width of the rate collar is determined by the current contribution rate and funded status.

**Required Supplementary Information (RSI).** Schedules, statistical data, and other information that are an essential part of financial reporting and should be presented with, but are not part of, the basic financial statements of a governmental entity.

**Statement No. 27 of the Governmental Accounting Standards Board (GASB 27).** The accounting standard governing a state or local governmental employer's accounting for pensions.

**Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).** The accounting standard governing a state or local governmental employer's accounting for post-employment benefits other than pensions.

**Tier 1/Tier 2 Valuation Payroll.** Projected payroll subject to PERS employer contribution rates for the calendar year following the valuation date for Tier 1 and Tier 2 active members. This payroll is used to calculate the normal cost rate.

**Transition Liability.** The difference between the total UAL and the UAL attributable to the SLGRP for an individual employer that joined the SLGRP or the Local Government Rate Pool.

**Unfunded Accrued Liability (UAL).** The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The UAL is divided by combined valuation payroll and an amortization factor to determine an initial UAL rate. The final UAL rate can be adjusted by the rate collar.

September 28, 2012

City of Powers/2215
Oregon Public Employees Retirement System

Dear Sir or Madam:

As part of our engagement with the Oregon Public Employees Retirement Board, we performed a system-wide actuarial valuation of the Oregon Public Employees Retirement System ("PERS" or "the System") as of December 31, 2011. The attached report, which is an informational supplement to the system-wide report, provides you with employer-specific contribution rates that will become effective July 1, 2013. Information is also provided to assist you in preparing your required financial reporting disclosures under Statements 27 and 45 of the Governmental Accounting Standards Board.

This report reflects the benefit provisions in effect as of December 31, 2011. The full development of the valuation results for the OPSRP and Retiree Health Insurance Account (RHIA) programs can be found in the separate system-wide actuarial valuation report. Costs of the IAP (Individual Account Program) are not included in this or the system-wide report. Further, costs of pension obligation bond payments are not included in this or the system-wide report.

**If you have any questions about this report, please contact Debra Hembree, Manager, Actuarial Analysis Section at Oregon PERS, at 503 603 7704 or Debra.Hembree@state.or.us.**

## Contents of Report

The executive summary provides the basic information you need including:

- Contribution rates for Tier 1/Tier 2, OPSRP general service, and OPSRP police and fire payroll,
- Information to assist you in completing GASB 27 and GASB 45 financial reporting requirements, and
- A summary of principal valuation results.

The remainder of the report provides additional information including:

- Side account balances, transactions and rate relief,
- Detailed development of Tier 1/Tier 2 valuation results,
- A brief summary of methods and assumptions, and
- A brief summary of any changes in System benefit provisions.

Additional information is provided in the system-wide valuation report, which is available at www.oregon.gov/PERS/section/financial_reports/financials.shtml.

September 28, 2012
City of Powers/2215

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the System's staff. This information includes, but is not limited to, System benefit provisions as defined by statute, member census data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete our results may be different and our calculations may need to be revised.

All costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the System.

A valuation report is only an estimate of the System's financial condition as of a single date. It can neither predict the System's future condition nor guarantee future financial soundness. Actuarial valuations do not affect the ultimate cost of System benefits, only the timing of System contributions. While a valuation is based on an array of individually reasonable assumptions, other assumption sets may also be reasonable and valuation results based on those assumptions would be different. No one set of assumptions is uniquely correct.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: System experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the System's funded status); and changes in System benefit provisions or applicable law. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of future measurements. The Board has the final decision regarding the appropriateness of the assumptions and adopted them as indicated in July 2011.

Some of the actuarial computations presented in this report are for purposes of determining the contribution rates effective from July 2013 to June 2015 for System employers. Other actuarial computations presented in this report under GASB Statements No. 27 and 45 are for purposes of assisting System employers in fulfilling their financial reporting requirements. The computations prepared for these two purposes may differ as disclosed in our report. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals. The calculations in this report have been made on a basis consistent with our understanding of the System benefit provisions described in the appendixes of this report, and of GASB Statements No. 27 and 45. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

Milliman

September 28, 2012
City of Powers/2215

This report is prepared solely for the use and benefit of the Oregon Public Employees Retirement System, the employer named above, or its auditors solely for the purpose of completing an audit related to the matters herein. To the extent that this report is not subject to disclosure under applicable public records laws, it may not be provided to other third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of this report. Milliman's consent to release this report to any third party may be conditioned on the third party signing a release except for situations where such release is prohibited by law.

No third party recipient of this report should rely upon Milliman's work contained herein. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Sincerely,

Matthew R. Larrabee, FSA, EA
Consulting Actuary

Scott D. Preppernau, FSA, EA
Consulting Actuary

# ACTUARIAL VALUATION REPORT
# DECEMBER 31, 2011

## OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM

### INDEPENDENT EMPLOYERS

### City of Powers -- #2215

SEPTEMBER 2012

# CONTENTS

# Executive Summary

Milliman has prepared this report for City of Powers to:

- Provide employer-specific contribution rates effective July 1, 2013 through June 30, 2015.
- Provide summary December 31, 2011, valuation results for the Oregon Public Service Retirement Plan (OPSRP) and the Retiree Healthcare Insurance Account (RHIA),
- Provide employer-specific valuation results for side accounts and Tier 1/Tier 2 assets and liabilities as of December 31, 2011, and
- Provide reporting and disclosure information for financial statements for governmental agencies and pursuant to GASB Statements Number 27 and 45.

This report summarizes the valuation results for OPSRP and RHIA. The full development of these results can be found in the December 31, 2011, system-wide valuation report. This report develops employer-specific Tier 1/Tier 2 and side account rates and applies the results from the system-wide valuation to City of Powers.

## Employer Contribution Rates

The following table summarizes the employer contribution rates effective July 1, 2013 through June 30, 2015, for each type of payroll. There are separate normal cost rates for each of the payrolls based on the benefit structure supported by that payroll. The other rates apply to all payrolls regardless of the benefit structure to which they are attributed.

### *Employer Rates Effective July 1, 2013 for City of Powers*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | **Tier 1 / Tier 2** | **General Service** | **Police & Fire** |
| **Pension** | | | |
| Normal cost rate | 10.82% | 6.27% | 9.00% |
| Tier 1/Tier 2 UAL rate [1] | (2.50%) | (2.50%) | (2.50%) |
| OPSRP UAL rate | 0.15% | 0.15% | 0.15% |
| Side account rate relief | 0.00% | 0.00% | 0.00% |
| **Net pension contribution rate** | **8.47%** | **3.92%** | **6.65%** |
| **Retiree Healthcare** | | | |
| Normal cost rate | 0.10% | 0.00% | 0.00% |
| UAL rate | 0.49% | 0.49% | 0.49% |
| **Net retiree healthcare rate** | **0.59%** | **0.49%** | **0.49%** |
| **Total net employer contribution rate** | **9.06%** | **4.41%** | **7.14%** |

In this report, the payroll of Tier 1 and Tier 2 members is referred to as Tier 1/Tier 2 valuation payroll. Combined valuation payroll refers to the payroll for Tier 1/Tier 2 members, OPSRP general service members and OPSRP police and fire members.

[1] *Includes Multnomah Fire District #10 rate.*

# Executive Summary

## Employer Contribution Rates (continued)

### *Range of Potential Tier 1/Tier 2 Employer Contribution Rates for the July 2015 to June 2017 Biennium*

The rate collar limits changes in contribution rates, but does not limit changes in rates due to side accounts. The table below shows the possible minimum and maximum rates first effective as of July 1, 2015, which will depend on the funded status as of December 31, 2013. If an employer's funded status excluding side accounts is less than 70 percent or greater than 130 percent, the rate collar doubles in size. If an employer's funded status excluding side accounts is between 70 and 80 percent or between 120 and 130 percent, the size of the rate collar is increased on a graded scale. Also, please note that by Board policy, independent employers with less than 2,500 employees cannot have a Tier 1/Tier 2 pension rate less than 6 percent of payroll (excludes side accounts and OPSRP UAL rates). The rates shown are before any adjustment for side account offsets or the 6 percent minimum independent employer contribution rate.

For comparison, the funded status as of December 31, 2011 is 201%.

| Funded Status as of December 31, 2013 | 80% to 120% | Under 70% or Over 130% |
|---|---|---|
| July 1, 2013 Normal Cost and Tier 1/Tier 2 UAL Rate | 8.32% | 8.32% |
| Minimum July 1, 2015 Rate | 5.32% | 2.32% |
| Maximum July 1, 2015 Rate | 11.32% | 14.32% |

# Executive Summary

## Accounting Information

Milliman is not an accounting or audit firm and cannot provide accounting advice. Milliman is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. The information provided in this section is intended to assist the employer in completing its financial statements, but any accounting determination should be reviewed by your auditor.

### *Pension*

We understand that non-pooled employers are considered to be participating in an Agent-Multiple Employer plan for purposes of their Tier 1/Tier 2 pension liabilities and a cost sharing plan for purposes of their OPSRP pension liabilities under Statement No. 27 of the Governmental Accounting Standards Board (GASB 27). The following information is provided to assist in completion of the disclosures required.

*Annual Required Contribution/Contractually Required Contribution*

The Annual Required Contribution (ARC) for the Tier 1/Tier 2 pension liabilities and the contractually required contribution for OPSRP for the period July 1, 2013 to June 30, 2015 are based on this valuation. The ARC and the contractually required contribution for the period from July 1, 2011 to June 30, 2013 are both based on the December 31, 2009 valuation.

Because the actuarial and rate smoothing methodologies do not always produce a contribution rate that qualifies as an ARC due to multiple amortization bases, the rate collar, and the minimum contribution rate, the equivalent single amortization period is calculated based on the contribution rate. If the equivalent single amortization period is less than 30, the ARC equals the contribution rate. If not, the ARC differs from the contribution rate and equals the normal cost plus a 30-year amortization of the UAL. The equivalent single amortization period and the amortization factor used for the ARC are shown in the table below.

| **ARC Disclosure** | **July 1, 2013 to June 30, 2015** | **July 1, 2011 to June 30, 2013** |
|---|---|---|
| Equivalent single amortization period | 30 | 30 |
| Amortization factor | 17.175 | 17.175 |

# Executive Summary

## Accounting Information (continued)

### *Annual Required Contribution/Contractually Required Contribution (continued)*

The ARC and the contractually required contribution are expressed as contribution rates that are applied to the appropriate payroll for the contribution rate period. The ARCs and contractually required contributions for each payroll are shown in the table below.

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| **July 1, 2011 to June 30, 2013** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 3.10% | (7.04%) | (7.04%) |
| OPSRP Contractually Required Contribution | 0.08% | 6.21% | 8.92% |
| **July 1, 2013 to June 30, 2015** | | | |
| Tier 1/Tier 2 Annual Required Contribution [1] | 6.20% | (4.62%) | (4.62%) |
| OPSRP Contractually Required Contribution | 0.15% | 6.42% | 9.15% |

[1] *Note that it is mathematically possible for the ARC to be negative. Question 131 of the Guide to the Implementation of GASB Statements 25, 26, and 27 indicates that it is common practice to set the ARC at zero if it would otherwise be negative. The figures shown above for the 2011-2013 and 2013-2015 biennia have not been limited to zero. The appropriate disclosure should be discussed with your auditor.*

# Executive Summary

## Accounting Information (continued)

### *Required Supplementary Information*

### *Schedule of Funding Progress*

The Schedule of Funding Progress is required for the Tier 1/Tier 2 pension liabilities. The table below shows the schedule for the last several valuations. For employers with side accounts, the actuarial value of assets in this Schedule includes the value of the employer's side accounts.

| Actuarial Valuation Date | Actuarial Value of Assets (a) | Actuarial Accrued Liability (AAL) (b) | Unfunded AAL (b - a) | Funded Ratio (a ÷ b) | Covered Payroll (c) | UAAL as a Percentage of Covered Payroll ((b-a) ÷ c) |
|---|---|---|---|---|---|---|
| 12/31/2006 | $76,294 | $59,406 | ($16,888) | 128% | $9,139 | (185%) |
| 12/31/2007 | 81,826 | 39,307 | (42,519) | 208% | 0 | 0% |
| 12/31/2008 | 63,327 | 39,247 | (24,080) | 161% | 38,835 | (62%) |
| 12/31/2009 | 87,332 | 38,915 | (48,417) | 224% | 39,539 | (122%) |
| 12/31/2010 | 102,721 | 45,009 | (57,712) | 228% | 40,511 | (142%) |
| 12/31/2011 | 106,075 | 52,769 | (53,306) | 201% | 65,891 | (81%) |

### *Retiree Healthcare*

The Retiree Health Insurance Account (RHIA) is a cost-sharing pool under Statement No. 45 of the Governmental Accounting Standards Board (GASB 45). Consequently, each employer reports the contractually required contribution. The contractually required contribution for retiree healthcare liabilities for the period July 1, 2013 through June 30, 2015 was calculated as a part of this valuation, and is expressed as contribution rates that are applied to the appropriate payroll. The rates and appropriate payroll are shown in the table below.

### *Contractually Required Contribution Rate*

| | Payroll | | |
|---|---|---|---|
| | | OPSRP | |
| | Tier 1 / Tier 2 | General Service | Police & Fire |
| July 1, 2011 to June 30, 2013 | 0.59% | 0.50% | 0.50% |
| July 1, 2013 to June 30, 2015 | 0.59% | 0.49% | 0.49% |

# Executive Summary

## Principal Valuation Results

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described later in this report. More detailed information can be found in the system-wide report.

### *City of Powers*

| | Actuarial Valuation as of | |
|---|---|---|
| | **December 31 2011** | **December 31 2010** |
| T1/T2 UAL | ($53,306) | ($57,712) |
| Allocated pooled OPSRP UAL | 1,124 | 503 |
| Side account | 0 | 0 |
| Net unfunded pension actuarial accrued liability | (52,182) | (57,209) |
| Combined valuation payroll | 65,891 | 40,511 |
| Net pension UAL as a percentage of payroll | (79%) | (141%) |
| Calculated side account rate relief | 0.00% | 0.00% |
| Allocated pooled RHIA UAL | $1,707 | $1,458 |

*UAL amounts for the pools (OPSRP and RHIA) are allocated pro-rata based on the ratio of an employer's combined valuation payroll to that of the applicable pool.*

# Executive Summary

## Principal Valuation Results (continued)

### *Tier 1/Tier 2*

| | Actuarial Valuation as of | |
|---|---|---|
| | December 31, 2011 | December 31, 2010 |
| Normal cost | $0 | $0 |
| Tier 1/Tier 2 valuation payroll | 0 | 0 |
| Tier 1/Tier 2 pension normal cost rate | 10.82% | 10.30% |
| Tier 1/ Tier 2 Actuarial accrued liability | $52,769 | $45,009 |
| Actuarial asset value | 106,075 | 102,721 |
| Tier 1/Tier 2 Unfunded actuarial accrued liability | (53,306) | (57,712) |
| Tier 1/ Tier 2 Funded status | 201% | 228% |
| Combined valuation payroll | $65,891 | $40,511 |
| Tier 1/Tier 2 UAL as a percentage of payroll | (81%) | (142%) |
| Tier 1/Tier 2 UAL rate | (2.50%) | (1.98%) |
| (includes Multnomah Fire District #10) | | |
| Tier 1/Tier 2 active members [1] | 0 | 0 |
| Tier 1/Tier 2 dormant members | 1 | 1 |
| Tier 1/Tier 2 retirees and beneficiaries | 5 | 4 |

[1] *Active counts do not include concurrent employees who have a separate dominant employer.*

# Executive Summary

## Principal Valuation Results (continued)

### *OPSRP*

| *($ in millions)* | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| General service normal cost | $165.3 | $154.7 |
| OPSRP general service valuation payroll | 2,634.7 | 2,541.9 |
| General service normal cost rate | 6.27% | 6.08% |
| Police and fire normal cost | $27.7 | $24.5 |
| OPSRP police and fire valuation payroll | 307.9 | 277.8 |
| Police and fire normal cost rate | 9.00% | 8.82% |
| Actuarial accrued liability | $986.4 | $767.6 |
| Actuarial asset value | 840.5 | 659.0 |
| Unfunded actuarial accrued liability | 145.9 | 108.6 |
| Funded status | 85% | 86% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 2% | 1% |
| UAL rate | 0.15% | 0.10% |

### *Retiree Healthcare*

| *($ in millions)* RHIA | Actuarial Valuation as of | |
|---|---|---|
| | **December 31, 2011** | **December 31, 2010** |
| Normal cost | $5.8 | $6.0 |
| Tier 1 / Tier 2 valuation payroll | 5,607.9 | 5,930.3 |
| Normal cost rate | 0.10% | 0.10% |
| Actuarial accrued liability | $461.1 | $547.1 |
| Actuarial asset value | 239.6 | 232.3 |
| Unfunded actuarial accrued liability | 221.5 | 314.8 |
| Funded status | 52% | 42% |
| Combined valuation payroll | $8,550.5 | $8,750.1 |
| UAL as a percentage of payroll | 3% | 4% |
| UAL rate | 0.49% | 0.56% |

# Side Account Information

## Reconciliation of Side Accounts

The following table reconciles the total side account from the beginning of the year to the end of the year. Side account transfers were calculated by PERS and made on a monthly basis. The amount of these transfers is shown in the table below.

All information in this table has been provided by PERS.

| | New | Continuing | Total |
|---|---|---|---|
| **1. Side account as of December 31, 2010** | **N/A** | | |
| 2. Deposits made during 2011 | | N/A | |
| 3. Administrative expenses | | | |
| 4. Amount transferred to employer reserves during 2011 | | | |
| 5. Side account earnings during 2011 | | | |
| **6. Side account as of December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | | | |

# Side Account Information

## Side Account Balances

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Side account 1 | $0 | $0 |
| Side account 2 | 0 | 0 |
| Side account 3 | 0 | 0 |
| **Total** | **$0** | **$0** |

## Development of Side Account Rate

The rate relief attributable to an employer's side account is determined by amortizing the side account balance on the valuation date over a fixed period, and expressing the result as a percentage of combined valuation payroll. For side accounts established prior to December 31, 2009, the fixed period ends December 31, 2027. For side accounts established at a later date, the fixed period ends 18 years after the first rate-setting valuation following its creation.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total side account | $0 | $0 |
| 2. Combined valuation payroll | 65,891 | 40,511 |
| 3. Amortization factor | 11.626 | 12.134 |
| **4. Total side account rate *(-1. ÷ 2. ÷ 3.)*** [1] | 0.00% | 0.00% |

[1] *For employers with more than one side account, the Total Side Account Rate is determined by calculating the rate on each side account separately and adding the rates together.*

# Tier 1/Tier 2 Valuation Results

## Assets

A summary of the market value of pension assets, and reconciliation from the prior year are shown below.

### *Summary of Market Value of Tier 1/Tier 2 Pension Assets*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Member reserves[1] | $2,340 | $4,443 |
| 2. Employer reserves | 81,757 | 77,681 |
| 3. Benefits in force reserve | 21,978 | 20,598 |
| **4. Total market value of assets *(1. + 2. + 3.)*** | **$106,075** | **$102,721** |

The market value of member and employer reserves is provided by PERS. The benefits in force reserve provided by PERS is allocated each year among employers in proportion to their liabilities for benefits in force.

### *Reconciliation of Tier 1/Tier 2 Pension Assets*

| | | December 31, 2010 to December 31, 2011 |
|---|---|---|
| 1. | Market value of assets at beginning of year | $102,721 |
| 2. | Regular employer contributions | 4,795 |
| 3. | Benefit payments and expenses | (3,682) |
| 4. | Adjustments [2] | (221) |
| 5. | Interest credited | 2,461 |
| 6. | Total transferred from side accounts | 0 |
| **7.** | **Market value of assets at end of year *(1. + 2. + 3. + 4. + 5. + 6.)*** | **$106,075** |

[1] *For both the December 31, 2010 and December 31, 2011 valuation, reported member reserves were reduced to reflect the deficit status of the Tier 1 Rate Guarantee Reserve, as described in the system-wide report. The amount shown here is after this reduction.*

[2] *Note the adjustment item above includes a reallocation of the benefits in force reserve, exclusion of the negative Tier 1 Rate Guarantee Reserve from the member reserve, transfers to Multnomah Fire District #10, and other adjustments made by PERS.*

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Normal Cost*

The normal cost represents the value of benefits assigned to the next year of service by the actuarial cost method. If all actuarial assumptions are met, the normal cost represents the amount that would need to be contributed each year to fund plan benefits.

*Summary of Normal Cost by Tier/Member Classification*

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Tier 1 Police & Fire | $0 | $0 |
| Tier 1 General Service | 0 | 0 |
| Tier 2 Police & Fire | 0 | 0 |
| Tier 2 General Service | 0 | 0 |
| **Total** | **$0** | **$0** |

### *Change in Tier 1/Tier 2 Normal Cost Due to Assumption Changes*

The following table shows the impact of the assumption changes on normal cost as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Normal Cost | $0 | $0 | $0 |

# Tier 1/Tier 2 Valuation Results

## Liabilities

### *Actuarial Accrued Liability*

The actuarial accrued liability represents the value of benefits attributed to prior years of service by the actuarial cost method. If all actuarial assumptions are met, the actuarial accrued liability represents the amount that would need to be set aside to provide for the benefits already earned to date.

The table below shows the summary of the actuarial accrued liability by tier and member classification.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| Active Members | | |
| ▪ Tier 1 Police & Fire | $6,552 | $5,335 |
| ▪ Tier 1 General Service | 0 | 0 |
| ▪ Tier 2 Police & Fire | 0 | 0 |
| ▪ Tier 2 General Service | 0 | 0 |
| ▪ **Total Active Members** | **$6,552** | **$5,335** |
| Dormant Members | 6,246 | 5,758 |
| Retired Members and Beneficiaries | 39,971 | 33,916 |
| **Total Actuarial Accrued Liability** | **$52,769** | **$45,009** |

### *Change in Tier 1/Tier 2 Actuarial Accrued Liability Due to Assumption Changes*

The following table shows the impact of the assumption changes on the actuarial accrued liability as of December 31, 2011.

| | Before Changes | After Changes | Net Change |
|---|---|---|---|
| Actuarial Accrued Liability | $52,769 | $52,769 | $0 |

# Tier 1/Tier 2 Valuation Results

## Unfunded Accrued Liability (UAL)

### *Summary of UAL*

The UAL represents the difference between the assets accumulated and the liability attributed to prior years of service by the cost method.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Actuarial accrued liability | $52,769 | $45,009 |
| 2. Actuarial value of assets | 106,075 | 102,721 |
| 3. Unfunded accrued liability *(1. – 2.)* | (53,306) | (57,712) |
| 4. Funded percentage *(2. ÷ 1.)* | 201% | 228% |
| 5. Combined valuation payroll | $65,891 | $40,511 |
| 6. Unfunded accrued liability as % of combined valuation payroll *(3. ÷ 5.)* | (81%) | (142%) |

### *Reconciliation of UAL Bases*

Beginning with the December 31, 2007 actuarial valuation, each odd-year valuation establishes a 20-year closed-period amortization base for outstanding regular Tier 1/Tier 2 UAL amounts. For odd-year valuations subsequent to December 31, 2007, this amortization base is calculated based on the total Tier 1/Tier 2 UAL as of the valuation date less the remaining unamortized balance of any Tier 1/Tier 2 UAL bases established at previous odd-year valuation dates. In other words, Tier 1/Tier 2 experience from December 31, 2009 to December 31, 2011 is amortized on a 20-year basis starting from this December 31, 2011 valuation.

| Amortization Base | UAL December 31, 2010 | Payment | Interest | UAL December 31, 2011 | Next Year's Payment |
|---|---|---|---|---|---|
| December 31, 2007 | ($61,218) | ($5,044) | ($4,683) | ($60,857) | ($5,233) |

## Unfunded Accrued Liability (UAL)

### *Actuarial Gain or Loss since Prior Valuation*

The system-wide report contains a detailed analysis of gains and losses since the last valuation. The table below shows the gain or loss for the individual employer.

| | |
|---|---|
| 1. Expected actuarial accrued liability | |
| a. Actuarial accrued liability at December 31, 2010 | $45,009 |
| b. Normal cost at December 31, 2010 | 0 |
| c. Benefit payments during 2011 | (3,658) |
| d. Interest at 8.0% to December 31, 2011 | 3,454 |
| e. Expected actuarial accrued liability before changes *(a. + b. + c. + d.)* | 44,805 |
| f. Change in actuarial accrued liability due to assumption changes | 0 |
| g. Expected actuarial accrued liability at December 31, 2011 *(e. + f.)* | 44,805 |
| 2. Actuarial accrued liability at December 31, 2011 | 52,769 |
| 3. Gain/(loss) on actuarial accrued liability *(1.g. – 2.)* | (7,964) |
| 4. Expected actuarial value of assets | |
| a. Actuarial value of assets at December 31, 2010 | 102,721 |
| b. Contributions for 2011[1] | 4,795 |
| c. Benefit payments and expenses during 2011 | (3,682) |
| d. Interest at 8.0% to December 31, 2011 | 8,262 |
| e. Expected actuarial value of assets at December 31, 2011 *(a. + b. + c. + d.)* | 112,096 |
| 5. Actuarial value of assets at December 31, 2011 | 106,075 |
| 6. Gain/(loss) on actuarial value of assets *(5. - 4.e.)* | (6,022) |
| **7. Total actuarial gain/(loss)** ***(3. + 6.)*** | **($13,986)** |

### *Unfunded Accrued Liability Reconciliation*

A reconciliation of the Tier 1/Tier 2 UAL from December 31, 2010, is provided below.

| | |
|---|---|
| **1. UAL at December 31, 2010** | **($57,712)** |
| 2. Expected increase | (9,580) |
| 3. Liability (gain)/loss | 7,964 |
| 4. Asset (gain)/loss | 6,022 |
| 5. Change due to changes in assumptions | 0 |
| **6. UAL at December 31, 2011** ***(1. + 2. + 3. + 4. + 5.)*** | **($53,306)** |

1 *Includes rate relief from side accounts and excludes contributions for Multnomah Fire District.*

## Contribution Rate Development

### *Normal Cost Rate*

For independent employers, the normal cost calculated previously is divided by expected payroll to determine a normal cost rate. The table below shows the development of the rate for each tier and member classification.

*Development of Tier 1/Tier 2 Normal Cost Rate*

| | December 31, 2011 | | | December 31, 2010 | | |
|---|---|---|---|---|---|---|
| | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate | Normal Cost | Employer Tier 1/Tier 2 Valuation Payroll | Normal Cost Rate |
| Tier 1 Police & Fire | $0 | $0 | 0.00% | $0 | $0 | 0.00% |
| Tier 1 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 Police & Fire | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| Tier 2 General Service | 0 | 0 | 0.00% | 0 | 0 | 0.00% |
| **Total** | **$0** | **$0** | **10.82%** | **$0** | **$0** | **10.30%** |

An independent employer that has no Tier 1/Tier 2 active payroll will be assigned the weighted average normal cost of all independent employers as calculated in the system-wide report.

## Contribution Rate Development

### *Development of Tier 1/Tier 2 UAL Rates*

The UAL rate is determined by calculating the next year's scheduled payment to the UAL as a percentage of combined valuation payroll.

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| 1. Total Tier 1/Tier 2 UAL | ($53,306) | ($57,712) |
| 2. Next year's Tier 1/Tier 2 UAL payment | (4,606) | (4,752) |
| 3. Combined valuation payroll | 65,891 | 40,511 |
| 4. Tier 1/Tier 2 UAL rate *(2. ÷ 3)* | (6.99%) | (11.73%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Tier 1/Tier 2 Employer Contribution Rate Summary (Pre-Rate Collar)*

The following table summarizes the employer's pension contribution rate for Tier 1/Tier 2. The normal cost rates apply to Tier 1/Tier 2 payroll only, but all other rates apply to combined valuation payroll. These rates do not reflect adjustments due to the rate collar, the minimum 6 percent rate for independent employers with fewer than 2,500 members, or side accounts.

| | July 1, 2013 Rates calculated as of December 31, 2011 | Advisory July 1, 2013 Rates calculated as of December 31, 2010 |
|---|---|---|
| 1. Tier 1/Tier 2 pension contribution rates | | |
| a. Employer Tier 1/Tier 2 pension normal cost rate | 10.82% | 10.30% |
| b. Tier 1/Tier 2 UAL rate | (6.99%) | (11.73%) |
| c. Multnomah Fire District #10 rate | 0.13% | 0.12% |
| d. Total Tier 1/Tier 2 pension rate *(a. + b. + c.)* | 3.96% | (1.31%) |

# Tier 1/Tier 2 Valuation Results

## Contribution Rate Development

### *Adjustments Due to Rate Collar and Minimum Rate Requirements*

Employer contribution rates are generally limited to change by no more than the greater of 3 percentage points or 20 percent from the current contribution rate. However, if the funded percentage excluding side accounts is below 70 percent or above 130 percent the rate collar doubles in size. If the funded percentage excluding side accounts is between 70 and 80 percent or 120 and 130 percent, the size of the collar is increased on a graded scale. In addition, for independent employers with less than 2,500 active members, the net employer Tier 1/Tier 2 pension contribution rate cannot be less than 6 percent. All collar and minimum rate calculations are performed prior to adjustments for side accounts and the OPSRP UAL rate.

The table below shows the current contribution rate for the period from July 1, 2011 through June 30, 2013, develops the maximum and minimum contribution rates effective July 1, 2013 based on the collar, and calculates the net adjustment due to the collar and minimum independent employer contribution rate. The net adjustment due to the rate collar is applied to the pension UAL rate. The net adjustment due to the 6 percent minimum independent employer contribution rate is applied to the pension normal cost rate.

| | |
|---|---|
| 1. Current net Tier 1/Tier 2 pension contribution rate | 14.32% |
| 2. Employer contribution rate attributable to side accounts | 0.00% |
| 3. Current employer Tier 1/Tier 2 pension contribution rate *(1. – 2.)* | 14.32% |
| 4. Size of rate collar | |
| a. 20% of current employer contribution rate *(20% x 3.)* | 2.86% |
| b. Preliminary size of rate collar *(maximum of 3% or a.)* | 3.00% |
| c. Funded percentage | 201% |
| d. Size of rate collar *(If c. < 70% or c. > 130%, 2 x b. If c. is 80%-120%, b. Otherwise, a graded rate between b. and 2 x b.)* | 6.00% |
| 5. July 1, 2013 minimum employer contribution rate *(3. – 4.d. but not < 0%)* | 8.32% |
| 6. July 1, 2013 maximum employer contribution rate *(3. + 4.d.)* | 20.32% |
| 7. July 1, 2013 total pension rate, before adjustment | 3.96% |
| 8. Net adjustment due to rate collar *(5. – 7., but not < 0, or 6. – 7., but not > 0)* | 4.36% |
| 9. July 1, 2013 Tier 1/Tier 2 UAL rate, before collar | (6.99%) |
| 10. July 1, 2013 Tier 1/Tier 2 UAL rate, after collar *(8. + 9.)* | (2.63%) |
| 11. July 1, 2013 Tier 1/Tier 2 pension rate, after collar | 8.32% |
| 12. Tier 1/Tier 2 retiree healthcare rate | 0.59% |
| 13. Net adjustment due to 6% minimum *(6% - 11. - 12., minimum 0%)* | 0.00% |
| 14. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, before minimum adjustment | 10.82% |
| 15. July 1, 2013 Tier 1/Tier 2 pension normal cost rate, after minimum adjustment *(13. + 14.)* | 10.82% |
| 16. July 1, 2013 Tier 1/Tier 2 pension rate, after minimum adjustment *(11. + 13.)* | 8.32% |

# Brief Summary of Methods and Assumptions

A detailed summary of the actuarial methods and assumptions used to prepare the December 31, 2011, valuation can be found in the system-wide report.

## Methods

A brief summary of the methods used in this valuation is shown below:

| | |
|---|---|
| *Actuarial cost method* | Projected Unit Credit. |
| *Tier 1/Tier 2 UAL and Retiree Healthcare UAL amortization* | The Tier 1/Tier 2 regular UAL and Retiree Healthcare regular UAL as of December 31, 2007 are amortized as a level percentage of combined valuation payroll over a closed period. For the Tier 1/Tier 2 UAL, this period is 20 years; for Retiree Healthcare, it is 10 years. Gains and losses between subsequent rate-setting valuations are amortized as a level percentage of combined valuation payroll over 20 years (10 for Retiree Healthcare) from the rate-setting valuation in which they are first recognized. |
| *OPSRP UAL Amortization* | Gains and losses between rate-setting valuations are amortized as a level percentage of combined valuation payroll over 16 years from the rate-setting valuation in which they are first recognized. |
| *Asset valuation method* | Market value of assets, excluding reserves. |
