APPLICATION TIPS & TROUBLESHOOTING

1. Complete as much information as possible in the **Project tab** before moving on to other parts of the application.
2. **Log out** of the site if you need to leave your computer for more than half an hour. The system may become unresponsive if you stop working on the application for long periods of time without logging out.
3. **Be sure to click Save often** while working on the application. You should save your work after completing a couple of questions at a time. You should always save immediately after answering a long narrative question.
4. If you are having problems with the application, check to make sure you are using a **browser** that meets the system requirements outlined on the first page of these instructions. Sometimes, simply changing browsers will fix a problem.
5. If you are using an acceptable browser and are having problems, try clearing your web browser's cache. If you do not know how to do this, search your browser's help menu for "**clear cache**" or call OPRD Grant Program staff for assistance. After clearing your browser's cache, exit your browser completely before attempting to access the site again. You should periodically clear the cache to allow your browser to function more efficiently.
6. **Have needed budgets and documents ready** when you log in to begin your application. The application isn't intended to be a place to work out your budget. This should already be figured out prior to entering it in the application.
7. When preparing narrative answers, it is recommended that you **prepare, edit and save those answer in another document**. You then can **cut and paste** your answer into the application. Always save immediately after answering a question that you have put a great deal of time into completing. It is a good idea to double check that your narrative has actually been saved by leaving that tab and coming back to see if the answer is there.
8. If you see a pop up message indicating there was a **saving problem**, it is likely that your answer did not save correctly. The best thing to do at that point would be to log out, log back in and try again. If you don't log out first, this could cause more saving problems with the rest of the questions on that tab.
9. It is recommended that you **complete the application well before the application deadline date**. However, applications will be accepted up until midnight of the deadline date. No applications can be submitted after the deadline.
