▼ Project Budget Worksheet

1. Before you begin this section you should already have a **project budget** established. It is recommended that you work from a budget you have created from collecting information including cost estimates, quotes, and other research. You may want to have a spreadsheet or other document with your project financial information available to work from when you begin this section.
2. The summary financial information will auto-fill based on the Project Budget Worksheet and Source of Funding Worksheet entry. The system totals the project costs and the

source of funding (match) amounts. Then subtracts the source of funding from the project cost to calculate the funding request amount.

The screenshot shows a web interface with a header bar containing a dropdown menu labeled 'Project Budget Worksheet' and a button labeled 'Add Worksheet Item'. Below the header, there are two sections: 'Project Budget Worksheet' and 'Source of Funding Worksheet'. The 'Source of Funding Worksheet' section contains three input fields: 'Total Project Cost' with a value of '\$0.00', 'Total Match from Sponsor' with a value of '\$0.00', and 'Grant Funds Requested' with a value of '\$0.00'.

3. To enter financial information select 'edit' in the upper right corner.

This screenshot is identical to the previous one, but it includes the 'Add Worksheet Item' button in the upper right corner of the header bar.

4. Select 'Add Worksheet Item' (found in the Project Budget Worksheet bar) to enter items into the Project Budget Worksheet and the Source of Funding Worksheet. To edit a line item, select the  and to delete is entirely, select the .

The screenshot shows the 'Add Worksheet Item' form. It has a header bar with a dropdown menu labeled 'Project Budget Worksheet' and a button labeled 'Add Worksheet Item'. The form contains three input fields: 'Description *' (empty), 'Amount *' (with a value of '0.00'), and 'Does this item include Match?' (with an unchecked checkbox). At the bottom right, there are two buttons: 'Add Item' (blue) and 'Nevermind' (orange).

5. **Enter all project costs first.** Please use the following categories in the expense description: Contractor/Consultant; Materials & Equipment, Staff time; Volunteer time; Printing, Publication, Design, etc.; Travel; Other.

Contractor cost can include the travel, materials and staff costs to complete the task, there is no need to break those out in this budget unless you are getting those some

other way. If you are hiring a contractor to work on a building, but the materials are donated by someone else, then they would be separate.

You may combine all contractor costs into one total to ease data entry. If you do that, the detailed budget submitted as an attachment must include each separate cost.

6. Enter the Description of the expense and the amount. And select 'Add Item'. Select 'Nevermind' if you do not want to add that expense item. The item and cost will appear in the 'Project Budget Worksheet'. Do not check the 'match' box when entering expense items, unless you are entering staff or volunteer time.

The screenshot shows a 'Project Budget Worksheet' form with the following fields and values:

- Description ***: Window repair contractor
- Amount**: 15,000
- Does this item include Match?**:

| | |
|---------------------------------|-------------|
| Total Project Cost | \$15,000.00 |
| Total Match from Sponsor | \$0.00 |
| Grant Funds Requested | \$15,000.00 |

7. Staff time and Volunteer time are the only categories that can be both a match and source of funding. Enter the 'Description' and 'Amount', then check the 'match' box. Additional fields will appear to enter the 'Match Amount' and 'Source of Funding'. Select 'Add Item', then the expense item will appear in the Project Budget Worksheet and the match will appear in the Source of Funding Worksheet. Note: Volunteer time expense amount must equal the match amount.

The screenshot shows a 'Project Budget Worksheet' form with the following fields and values:

When preparing narrative answers, you may first prepare, edit and save those answers in another document. You can then cut and paste your answer directly into the application.

2. **Log out** of the site if you need to leave your computer for more than half an hour. The system may become unresponsive if you stop working on the application for long periods of time without logging out.
3. **Be sure to click Save often** while working on the application. You should save your work after completing a couple of questions at a time. You should always save immediately after answering a long narrative question.
4. If you are having problems with the application, check to make sure you are using a **browser** that meets the system requirements outlined on the first page of these instructions. Sometimes, simply changing browsers will fix a problem.
5. If you are using an acceptable browser and are having problems, try clearing your web browser's cache. If you do not know how to do this, search your browser's help menu for "**clear cache**" or call OPRD Grant Program staff for assistance. After clearing your browser's cache, exit your browser completely before attempting to access the site again. You should periodically clear the cache to allow your browser to function more efficiently.
6. **Have needed budgets and documents ready** when you log in to begin your application. The application isn't intended to be a place to work out your budget. This should already be figured out prior to entering it in the application.
7. When preparing narrative answers, it is recommended that you **prepare, edit and save those answer in another document**. You then can **cut and paste** your answer into the application. Always save immediately after answering a question that you have put a great deal of time into completing. It is a good idea to double check that your narrative has actually been saved by leaving that tab and coming back to see if the answer is there.
8. If you see a pop up message indicating there was a **saving problem**, it is likely that your answer did not save correctly. The best thing to do at that point would be to log out, log back in and try again. If you don't log out first, this could cause more saving problems with the rest of the questions on that tab.
9. It is recommended that you **complete the application well before the application deadline date**. However, applications will be accepted up until midnight of the deadline date. No applications can be submitted after the deadline.
